

# LOUDOUN COUNTY HOME ENERGY IMPROVEMENT PROGRAM

Energy Efficiency and Conservation Block Grant (EECBG) funds were used to provide energy audits and energy-efficient upgrades to five local families through the Loudoun County Home Energy Improvement Program. This program incorporates energy-efficient upgrades to low- and moderate-income homes to reduce energy usage and greenhouse gas emissions.

## Program Facts

- Energy audits and upgrades were performed on five homes in Loudoun County, with a project budget of \$185,000.
- A total of 15 jobs were created for the duration of the project.
- Energy upgrades that were made to the homes include:
  - Replacing windows and doors
  - Upgrading insulation
  - Replacing appliances with Energy Star certified appliances
  - Sealing ducts and other points of air leakage
