2010-2014 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Loudoun County, Virginia			
	Estimate	Margin of Error	Percent	Percent Margin of Error
EMPLOYMENT STATUS				21101
Population 16 years and over	247,246	+/-365	247,246	(X)
In labor force	189,098	+/-1,373	76.5%	+/-0.6
Civilian labor force	187,901	+/-1,428	76.0%	+/-0.6
Employed	179,747	+/-1,397	72.7%	+/-0.6
Unemployed	8,154	+/-608	3.3%	+/-0.2
Armed Forces	1,197	+/-263	0.5%	+/-0.1
Not in labor force	58,148	+/-1,369	23.5%	+/-0.6
Civilian labor force	187,901	+/-1,428	187,901	(X)
Percent Unemployed	(X)	(X)	4.3%	+/-0.3
Females 16 years and over	126,023	+/-245	126,023	(X)
In labor force	86,259	+/-1,123	68.4%	+/-0.9
Civilian labor force	86,151	+/-1,132	68.4%	+/-0.9
Employed	82,329	+/-1,136	65.3%	+/-0.9
Own children under 6 years	32,782	+/-512	32,782	(X)
All parents in family in labor force	20,405	+/-903	62.2%	+/-2.7
Own children 6 to 17 years	66,534	+/-601	66,534	(X)
All parents in family in labor force	47,356	+/-1,153	71.2%	+/-1.6
COMMUTING TO WORK				
Workers 16 years and over	177,460	+/-1,382	177,460	(X)
Car, truck, or van drove alone	138,503	+/-1,667	78.0%	+/-0.8
Car, truck, or van carpooled	15,785	+/-966	8.9%	+/-0.5
Public transportation (excluding taxicab)	5,725	+/-541	3.2%	+/-0.3
Walked	3,054	+/-508	1.7%	+/-0.3
Other means	1,870	+/-318	1.1%	+/-0.2
Worked at home	12,523	+/-828	7.1%	+/-0.5
Mean travel time to work (minutes)	33.0	+/-0.4	(X)	(X)
OCCUPATION				
Civilian employed population 16 years and over	179,747	+/-1,397	179,747	(X)

Subject	Loudoun County, Virginia				
	Estimate	Margin of Error	Percent	Percent Margin of Error	
Management, business, science, and arts occupations	101,419	+/-1,532	56.4%	-	
Service occupations	22,165	+/-1,132	12.3%	+/-0.6	
Sales and office occupations	38,070	+/-1,288	21.2%	+/-0.7	
Natural resources, construction, and maintenance occupations	8,799	+/-789	4.9%	+/-0.4	
Production, transportation, and material moving	9,294	+/-789	5.2%	+/-0.4

People in families	(X)	(X)	2.6%	+/-0.5
Unrelated individuals 15 years and over	(X)	(X)	12.9%	+/-1.2

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2010-2014 tables, industry data in the multiyear files (2010-2014) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at http://www.census.gov/people/io/methodology/.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table in 2009, 2010, 2011, or 2012. Select geographies of 2008 data comparable to the 2009, 2010, 2011, and 2012 tables are accessible at http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.
