### Loudoun to Host Free Twice-Weekly COVID-19 Testing

Loudoun County will hold twice-weekly, free drive-thru COVID-19 testing events at multiple locations beginning in February. Unlike past testing events hosted by Loudoun County, these weekly, fixed events will not be mass testing sites and instead are intended to provide regular, predictable testing opportunities for the community. As a result, capacity at these fixed testing sites will be limited.

“While mass testing is an important part of our COVID-19 prevention strategy because we could efficiently test 1,000 to 2,000 people per day, they were sporadic,” said Loudoun County Health Director Dr. David Goodfriend. “These more frequent, but smaller testing events will accommodate a few hundred people per day, but the frequency provides residents with greater flexibility when the need for a COVID-19 test arises.”

#### February COVID-19 Testing Schedule

The events will be on **Tuesdays and Thursdays, 10:00 a.m. – 2:00 p.m.**

- **February 2 and 4:** [Franklin Park, 17501 Franklin Park Drive, Purcellville](#)
- **February 9 and 11:** [Philip A. Bolen Memorial Park, 42405 Claudia Drive, Leesburg](#)  
(Enter the park on Crosstrail Boulevard from Sycolin Road.)
- **February 16 and 18:** [Cascades Library, 21030 Whitfield Place, Potomac Falls](#)  
(Access the testing location in the back parking lot, near the senior center.)
- **February 23 and 25:** [Dulles South Recreation & Community Center, 24950 Riding Center Drive, South Riding](#)

The testing events are open to all. There are no age or residency requirements. No prescriptions or appointments are necessary. A person does not have to exhibit symptoms of COVID-19 in order to be tested. A PCR test (nasal swab) will be administered, which tests for the novel coronavirus. No antibody or rapid tests will be offered. **No COVID-19 vaccine will be available at these events.**

#### Registration Form

To help reduce wait times, people who plan to attend the testing events are strongly encouraged to complete a registration form for each person who will be receiving a test prior to arriving at the testing site. The registration form is required and asks for general demographics and contact information, including name, date of birth, address, phone number and current symptoms, if any.

- **Registration Form:** [English](#) | [Spanish](#)

The fillable form may be downloaded, filled out, printed and completed forms should be brought with you to the testing site. Forms will also be available at the testing site for individuals who do not have access to a printer or otherwise are unable to complete the forms in advance.

### **Future Testing Events**

Loudoun County expects to continue hosting COVID-19 testing events on an ongoing basis as long as a need for COVID-19 testing exists in the community. Residents are encouraged to visit the county's website regularly to review the schedule and to access registration forms: [loudoun.gov/COVID19testing](https://loudoun.gov/COVID19testing).

### **When to Get Tested**

The Centers for Disease Control and Prevention (CDC) encourages people to get tested for COVID-19 under the following circumstances:

- People who have symptoms of COVID-19.
- People who have had close contact (within 6 feet for a total of 15 minutes or more) with someone with confirmed COVID-19.
- People who have taken part in activities that put them at higher risk for COVID-19 because they cannot socially distance as needed, such as travel, attending large social or mass gatherings or being in crowded indoor settings.
- People who have been asked or referred to get testing by their health care provider.

The CDC [recommends](#) that people who are tested self-quarantine/isolate at home pending test results and follow the advice of their health care provider or a public health professional.
