

The DaVinci Art Studios provides opportunities for people of all abilities to make art.

In the DaVinci Art Studios, artwork is shared and discussed with the group. This offers a chance to not only discover art, but also for artists to discover themselves and each other. Discovery, like creating art, is a process.

The DaVinci Art Studios program is about the process. Though the art created by DaVinci artists is often exceptional, the real beauty is in its authenticity. Each piece is as unique as the individual who makes it.

Please contact Kellie Goossens for specifics:
