- The plan shall comply with the Voting Rights Act.
- All districts must be compact and contiguous.
- The census shall be the source of data.
- Preserve communities of interest.
- Create districts with similar interests among communities.
- Consider voter convenience and effective election administration.
- Use geographical or physical features, especially arterial roadways, for district and precinct boundaries.
- Consider all alternative plans presented by interested groups and individuals.
- When possible, do not split incorporated towns.
