Public Comment Period on Sugarland Road and Church Road Roundabout Now Open

Loudoun County is hosting an online public comment period October 18 through November 1, 2023, to gain input from the public on the Sugarland Road and Church Road / Frederick Drive Roundabout. This project provides for construction of a [mini roundabout](#) at the intersection of Sugarland Road and Church Road / Frederick Drive in Sterling. This intersection is part of the county's Intersection Improvement Program which addresses traffic safety and operational challenges on roadways within the county.

Members of the public are encouraged to view a presentation and provide input about the project online. To watch a recorded presentation and submit a comment, visit loudoun.gov/IntersectionImprovement.

Background on the Intersection Improvement Program

In 2017, the Board of Supervisors established the Intersection Improvement Program as a proactive measure to efficiently initiate and implement roadway intersection improvement projects. Previously, these projects were often initiated on an ad-hoc basis in reaction to traffic safety and operational concerns and were sometimes delayed until funds became available. Intersections identified for improvement as part of this program are located along primary or collector roadways in the [Countywide Transportation Plan](#).

For more information about the Sugarland Road and Church Road Roundabout, including a link to sign up for updates about intersection improvements in the county, visit loudoun.gov/IntersectionImprovement.
