Loudoun Accepting Applications for ARPA Durable Medical Equipment Services Grant Program; Pre-Application Webinar Jan. 9

Loudoun County is now accepting applications from nonprofit organizations for the American Rescue Plan Act (ARPA) Durable Medical Equipment Services Grant Program. Applications are due by 4:00 p.m., Friday, February 9, 2024.

The program is designed to provide one or more nonprofits with funding to make durable medical equipment more accessible to Loudoun residents with low incomes who continue to be affected by the negative economic impact of the COVID-19 pandemic and require support to maintain their employment, transportation, insurance and other services. Durable medical equipment is medical equipment, supplies or appliances suitable for use at home to treat a diagnosed condition or assist an individual with functional limitations.

Nonprofit organizations with a history of working in Loudoun and that assist residents with low income—at or below 80% of the Area Median Income (AMI)s—are encouraged to apply.

Pre-Application Webinar

To assist nonprofit organizations with understanding the application process, Loudoun County will host an informational webinar Tuesday, January 9, 2024, 2:00 – 3:15 p.m. Information on how to join the webinar is posted at loudoun.gov/grantopportunities.

For More Information

Details about the grant program and the application process can be found at loudoun.gov/grantopportunities.
