Business Hazardous Waste Collection Event Set for May 2, 2024; Registration Deadline is April 26

Loudoun County will host a hazardous waste collection event for businesses and other non-residential generators on Thursday, May 2, 2024. Pre-registration is required to participate, and must be received no later than 5:00 p.m. Friday, April 26. The program consists of two collection events a year where eligible hazardous waste generators may deliver toxic, reactive, ignitable and corrosive materials for proper disposal.

The Loudoun County Business Hazardous Waste Program is offered for businesses and organizations located in Loudoun County that are considered “Very Small Quantity Generators” that do not exceed the following thresholds:

- Less than 220 pounds of hazardous waste is generated per calendar month.
- Less than 2.2 pounds of acutely hazardous waste is generated per calendar month.
- Not more than 2,220 pounds (roughly five 55-gallon drums) of hazardous wastes are accumulated on-site at any time.

Hazardous waste disposal through this program typically results in reduced costs for participants as compared to establishing collection service directly with a hazardous waste management company. The business or organization pays for disposal of the material but does not pay for the waste collection or mobilization.

Visit loudoun.gov/bhwp for registration forms and event information or call 703-771-5514.
