

Night Work Rescheduled for Route 50 Tonight

The night work originally scheduled for March 2-3 has been rescheduled for tonight, March 6-7 due to weather.

Tonight beginning at approximately 8:00 PM and continuing through the morning on March 7th, there will be signal work taking place at the intersection of Route 50 and Tall Cedars Parkway. The permanent signal poles and signal heads will be removed, and new temporary signal poles will be installed with new overhead span wire and temporary signal heads.

Lane closures will be up in both the Eastbound and Westbound directions of Route 50 until completion. Also, law enforcement will be stopping traffic periodically. Upon completion of this work, the new intersection will be fully operational and the traffic configuration through the intersection will stay the same.
