

Supervisor Letourneau to Hold Community Meeting to Discuss Proposed Daycare on Edgewater Street

Monday, February 23 6:30 pm

Dulles South Multipurpose Center, 24950 Riding Center Drive, South Riding

The proposed day care on Edgewater Street will be before the Board for final consideration at the March 4 Business Meeting. Since members of the community have concerns and questions about this project, I will be hosting a meeting for the public to discuss this application with the South Village HOA, the applicant (developer of the daycare), and County staff on Monday, February 23rd at 6:30 pm at the Dulles South Multipurpose Center. I appreciate the assistance of Brian Salter and the South Village HOA to set up this meeting.

Some of the issues I will propose for discussion are:

- Alternative plans for a different use that the applicant is considering for the parcel
 - Parking, traffic and pedestrian safety in the area around the parcel
 - Whether the HOA would like the applicant to place trees on HOA property to enhance the buffer around the parcel
 - The framework for land use decisions that the County and Commonwealth must follow
- And of course, other questions or concerns from residents.

I look forward to a productive discussion.
