

Good evening my fellow neighbors,

Next week, March 7th - 11th is Virginia Telework Week. Teleworking is the ability to work from home over email and via phone calls. If you've never teleworked before, now would be a great opportunity to talk with your employer about doing so. While not everyone has the ability to telework, requesting just one day to telework next week would make a huge difference in reducing traffic, and giving our environment a break.

Teleworking has been proven to increase employee productivity and I would encourage those in management to seriously consider allowing telecommuting as an option. Loudoun businesses interested in establishing a telework program may contact Loudoun County Commuter Services for assistance at 703-771-5665 or [www.loudoun.gov/commute](http://www.loudoun.gov/commute).

All my best,

Koran T. Saines
