Dear Officer Young-

I wanted to personally thank for the outstanding presentation you gave to our team last night on the dangers of road flooding.

You have a wonderful personality and ability to connect with both young and old. All the kids and their parents were very impressed with not only the wealth of information you shared but also how easily you were able to help the children understand both the dangers of road flooding and how the sheriff's department determines which roads need to be closed. I believe the team will now be refining their solution to monitor the roads for both water level and flow rate. They are also considering adding a camera to visually monitor the roads along the Goose Creek. I have attached a picture to share with your colleagues from the meeting. Please feel free to drop in and see the robots during the Nov 2 tournament being held at Eagle Ridge.

Again Thank for meeting with us and for your service to our community.

Best regards,
