

I filled out an online report indicating a repeat vehicle parking in a no parking zone, within a school zone. Sergeant Leydig responded back to me within 24 hours and provided me with further instructions and phone numbers. In addition, Sergeant Leydig went above and beyond by following up with me via email with volunteer services provided by the department. I commend Sergeant Leydig for his efforts in this matter.

All three crossing guards at SES (Sterling Elementary School) are so so nice and truly make our day every morning. The lady on Church and Aspen is just so wonderful and has a warm greeting every morning and Brian on York and Church always has the best wave and biggest smile. The lady at the front of the school wishes the kids well every morning and always has kind words. Love all of them!

I was involved in a traffic accident that was attended to by Deputy Freck. He was friendly, helpful and courteous at all times. Most noteworthy however, was his desire to be helpful rather than punitive. This was refreshing, and goes a long way toward restoring my feeling that the police are there to help rather than punish. He even finished the incident by escorting me home to ensure safety. A real class act. Well done Deputy Freck.

---

Type and quality of response.

This was a very tense situation and the respondents handled it in a MOST professional manner assuring the safety of all involved.

My congratulations on a very professional response!!
