Welcome to Loudoun County, Virginia, a picturesque, dynamic county with an outstanding quality of life, located just 40 miles from Washington, DC. Bordered by the Blue Ridge Mountains and Potomac River, Loudoun is widely known for its beautiful scenery, rich history, and strong sense of community.

As Loudoun County's older adult population grows, the need for services increases. We are proud of the multiple programs and services we offer as a county government agency and as an Aging and Disability Resource Center, in collaboration with numerous private and non-profit organizations. We strive to continually assess community needs and develop and implement services that benefit Loudoun's older residents, people with disabilities, and their caregivers. Our senior centers and adult day centers are filled with engaging activities, and the senior trips program is often booked months in advance. The Area Agency on Aging receives thousands of calls annually requesting information and assistance, Medicare counseling, caregiver support, and health education.

This guide is a handbook of the current programs and services available to older adults, people with disabilities, and caregivers of Loudoun County. The guide focuses on commonly requested services and information provided directly by Loudoun County, and we have included services provided by non-profit and private organizations. Every attempt has been made to ensure the information is accurate and up-to-date, however, please understand that information about services and contact information can frequently change.

Please contact the Loudoun County Area Agency on Aging at 703-777-0257 or via email at aaa@loudoun.gov for assistance.
