The Contractor shall use this schedule in the planning, scheduling, direction, coordination and execution of the Work. The Construction Schedule shall encompass all of the work of all trades necessary for construction of the project and shall be sufficiently complete and comprehensive to enable progress to be monitored on a day-to-day basis. The County and A/E shall each be provided with a copy of all schedules, updates reports and other documentation required herein which shall be suitable for reproduction by the County.

4.11.2 It is the sole responsibility of the Contractor to prepare, maintain, update, revise and utilize the Construction Schedule as outlined in 4.11 Construction Schedule. The schedule shall be the sole overall Construction Schedule utilized by the Contractor in managing this project, provided, however, that Contractor may at its option employ and utilize other schedules based upon and consistent with the Construction Schedule. In general, it is the intent of this Paragraph to allow the Contractor to choose its own means, methods and construction procedures consistent with good practice and the Contract Documents.

- 4.11.4 Submission to the County of the Construction Schedule is advisory only and shall not relieve the Contractor of the responsibility for accomplishing the Work within each and every required Milestone and Completion date. Omissions and errors in the approved Construction Schedule shall not excuse performance that is not in compliance with the Contract. Submission to the County in no way makes the County an insurer of the Construction Schedule's success or liable for time or cost overruns flowing from its shortcomings. The County hereby disclaims any obligation or liability by reason of County approval or failure to object to the Construction Schedule.
- 4.11.5 Contractor shall consult with and obtain information from principal subcontractors necessary in preparation of the schedules, updates and revisions required herein. Contractor shall provide each principal subcontractor with copies of the Construction Schedule and any revisions or updates affecting a subcontractor's work. The Contractor shall ensure that each subcontractor, sub-subcontractor or supplier acknowledges and accepts the requirements of the Construction Schedule relating to their part of the Work.
- 4.11.6 If Contractor's Construction Schedule indicates that County or a separate Contractor is to perform an activity by a specific date, or within a certain duration, County or any separate Contractor shall not be bound to said date or duration unless County expressly and specifically agrees in writing to same; the County's overall review of the schedule does not constitute an agreement to specific dates or durations for activities of the County or any separate contractor.
- 4.11.7 The Contractor's Superintendent shall maintain at the job Site, a current Construction Schedule, indicating actual monthly progress for those portions of the project on which work has been or is being performed.

Construction Schedule, Milestone and Completion Dates accordingly.

4.11.9 If, in the opinion of the County, the Construction Schedule does not accurately reflect the actual progress and sequence of the Contractor's performance of the Work, upon the County's request, the Contractor shall revise its Construction Schedule and submit a Construction Schedule that accurately represents the progress and sequence of the Contractor's performance of the Work within 7 (seven) working days from the date of County's request. Under no circumstance shall the submittal of a revised Construction Schedule and County's acceptance of same, change the Time for Completion.

4.11.10 Contractor shall submit to the County the name of any scheduling consultant that Contractor may select or retain. Contractor shall not utilize any particular scheduling consultant over the reasonable objection of the County to that consultant.

4.11.11 Contractor covenants and guarantees that Contractor will not:

4.11.11.1 Misrepresent to County its planning and scheduling of the Work;

4.11.11.2 Utilize schedules materially different from those made available to the County or any subcontractors for the direction, execution and coordination of the Work, or which are not feasible or realistic;

4.11.11.3 Prepare schedules, updates, revisions or reports which do not accurately reflect Contractor's actual intent or Contractor's reasonable and actual expectations as to:

- a. The sequences of activities,
- b. The duration of activities,
- c. The responsibility for activities,
- d. Resource availability,
- e. Labor availability or efficiency,

- k. Delays, slippages, or problems encountered or expected,
- l. Subcontractor requests for time extension, or delay claims of subcontractors, and

m. If applicable, the Float Time available.

- 4.11.12 Contractor's failure to comply with the foregoing covenant and guarantee of Paragraph 4.11.11 shall be deemed a substantial and material breach of the Contract which will permit County to terminate the Contractor for cause/default, or withhold payments under the Contract Documents, and shall entitle County to the damages afforded for misrepresentation or fraud by these Contract Documents or applicable law.
- 4.11.13 Should Contractor fail to substantially comply with the provisions of the Contract Documents relating to scheduling and execution of the Work by the overall project schedule, County shall have the right, at its option, to retain the services of scheduling consultants or experts (including attorneys if necessary in the opinion of the County) to prepare schedules, reports, updates and revisions of the schedule in accordance with the Contract Documents and to review and analyze same, in order to allow County and A/E to evaluate the program of the Work by Contractor, to determine whether Contractor is substantially complying with the Contract Documents, and to direct such action of the part of the Contractor, as permitted by the Contract Documents, as required to ensure, under the County's schedule prepared hereunder, that Contractor will complete the Work within the Contract Time. All costs and expenses and fees incurred by County in preparing the schedule hereunder shall be charged to Contractor's account. If Contractor fails to substantially comply with the scheduling and execution of the Work requirements of the Contract Documents, Contractor hereby agrees, in such instance, to comply with such County-prepared schedules, if any, or directions, and activity sequences and durations as County may reasonably require, without additional cost to the County (subject only to cost adjustments for such changes in the Work as County may direct), to ensure completion within the Contract Times.
- 4.11.14 The Construction Schedule shall be utilized by County, A/E and Contractor for submission, review and approval of monthly Payment Request. The schedule must be updated by Contractor monthly with each progress payment application and submitted to the County and A/E for review with the progress payment application. County shall not be required to process and review Contractor's Application for Payment if Contractor has failed or refused to provide the scheduling update information required herein.
- 4.11.15 The type of schedule to be utilized on this project, along with its particular elements, shall be as specified in the Specifications.

4.12 RESPONSIBILITY FOR COMPLETION

- 4.12.1 The Contractor shall furnish such manpower, materials, facilities and equipment and shall work such hours, including night shifts, overtime operations and Sundays and holidays, as may be necessary to ensure the performance of the Work within the Milestone and Completion dates

specified in the County-Contractor Agreement. If the County notifies the Contractor that it has become apparent that the Work will not be completed within required Milestone or Completion dates, the Contractor agrees that it will assume full responsibility to take some or all of the following actions, at no additional cost to the County (except for circumstances beyond the Contractors' control), in order to ensure, in the opinion of the County, that the Contractor will comply with all Milestone and Completion date requirements:

Failure of the County to notify the Contractor of the apparent delay shall not relieve Contractor of the obligation to finish the project within the required Milestone or Completion date.

- 4.12.2 If the actions taken by the Contractor are not satisfactory, the County may direct the Contractor to take any and all actions necessary to ensure completion within the required Milestone and Completion dates, without additional cost to the County (except for circumstances beyond the Contractor's control). In such event, the Contractor shall continue to assume responsibility for his performance and for completion within the required dates.
- 4.12.3 If, in the opinion of the County, the actions taken by the Contractor pursuant to this Article or the progress or sequence of Work are not accurately reflected on the Construction Schedule, the Contractor shall revise such schedule to accurately reflect the actual progress and sequence of Work.
- 4.12.4 Contractor's failure to prosecute the Work with such diligence as will ensure its completion within the Contract Times shall be a material breach of this Contract and may result in termination pursuant to Article 15, Termination of the Contract.

- 5.3.1 Specific qualification submittals may be required of subcontractors, installers and suppliers for certain critical items of the Work. Required qualification submittals are set forth in detail in the Specifications and shall be collected and submitted by the Contractor to the A/E with copies to the County. - 6.2.2 Should the Contractor cause damage to the work or property of the County or of any separate contractor on the Project, or to other work on the Site, or delay or interfere with the County's work on ongoing operations or facilities or adjacent facilities or said separate contractor's work, the Contractor shall be liable for the same; and, in the case of another contractor, the Contractor shall attempt to settle said claim with such other contractor prior to such other contractor's institution of litigation or other proceedings against the Contractor.
- 6.2.3 If such separate contractor sues the County on account of any damage, delay or interference caused or alleged to have been so caused by the Contractor, the County shall notify the Contractor, who shall defend the County in such proceedings at the Contractor's expense. If any judgment or award is entered against the County, the Contractor shall satisfy the same and shall reimburse the County for all damages, expenses, and other costs that the County incurs as a result thereof.

Contractor agrees that it will not seek to recover from the County any damages, costs, expenses (including, but not limited to, attorney's fees) or losses of profit incurred by the Contractor as a result of any damage to the Work or property of the Contractor or for any delay or interference caused or allegedly caused by any separate contractor.

No time limitations described in this Contract shall be construed to alter the applicable statutory period of limitations with regard to the enforcement of the obligations of the parties.
- 7.4.2 No action or failure to act by the County, A/E, or Contractor shall constitute a waiver of any right or duty afforded any of them under the Contract, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.
- 7.4.3 Contractor agrees that it can be adequately compensated by money damages for any breach of this Contract which may be committed by the County and hereby agrees that, no default, act, or omission of the County or the A/E, except for failure to make payments as required by the Contract Documents, shall constitute a material breach of the Contract entitling Contractor to cancel or rescind the provisions of this Contract or (unless the County shall so consent or direct in writing) to suspend or abandon performance of all or any part of the Work. Contractor hereby waives any and all rights and remedies to which he might otherwise be or become entitled, saving only its right to money damages.

Satisfactory documentary evidence, including but not limited to certificates of inspection and certified test reports, that the material has passed the required inspection and tests must be furnished to the County, with a copy to the A/E, by the Contractor prior to the incorporation of the materials in the Work or at such times as to allow for appropriate action by the County.
- 7.6.4 Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor. Tests required by Contractor's or subcontractor's error, omission or non-compliance with the Contract Documents, shall be paid for by the Contractor.
- 7.6.5 It is specifically understood and agreed that an inspection and approval of the materials by the County shall not in any way subject the County to pay for the said materials or any portion thereof, even though incorporated in the Work, if said materials shall in fact turn out to be unfit to be used in the Work, nor shall such inspection be considered as any waiver of objection to the Work on account of the unsoundness or imperfection of the material used.

7.7 NO SMOKING

- 7.7.1 Smoking in all County facilities is prohibited regardless of whether the facility is in use, under renovation or under construction. The County may designate a smoking area outside County facilities. Contractor shall only use those designated smoking areas. Certain County facilities, both inside and outside, may be entirely smoke free. Contractor shall inquire of the Contract Administrator or designee if a facility is entirely smoke free. Failure to adhere to the County's no smoking policies may lead to removal of

Contractor employees and possible Contract termination.

ARTICLE 8: CONTRACT TIMES

8.1 COMMENCEMENT OF THE WORK

- 8.1.1 The date of commencement of the Work is the date established in the Notice to Proceed. It is the intent of the County's to issue the Notice to Proceed no later than thirty (30) calendar days after the execution of the County – Contractor Agreement or the completion of the Kick-Off Meeting, whichever is later. The intent of the thirty (30) day period is to provide a reasonable time for: the Contractor to complete e-Builder training (if required); submit and receive final approval of all preconstruction submittals identified in the contract documents including, but not limited to, the payment and performance bonds and insurance requirements; and to attend the preconstruction meeting. Failure to complete these preconstruction requirements may be cause for the County, at its sole discretion, to terminate the Contract per Article 15 herein or issue the Notice to Proceed with deficiencies and limitations noted. Should the County issue a Notice to Proceed with deficiencies and limitations noted there will be no adjustment of the Time for Completion or Contract Times. Under no circumstances will the Notice to Proceed be issued without verification that the Contractor has obtained all the insurance required by the contract documents and provided a Performance Bond and a separate Labor and Material Payment Bond in a form acceptable to the County.
- 8.1.2 The Contractor shall not commence Work or store materials or equipment on Site until written Notice to Proceed is issued or until the Contractor otherwise receives the County's written consent. The Contractor shall commence Work no later than ten (10) days after the date established in the Notice to Proceed.
- 8.1.3 In the event the Contractor, for matters of its convenience, wishes to begin work later than 10 days from the date of Notice to Proceed. The Contractor shall promptly make such a request in writing to the Construction Manager. If the Contractor's requested start date is acceptable to the Construction Manager, the Contractor will be notified in writing; however, the Time for Completion will not be adjusted but will remain binding. The Contractor's request to adjust the start date for the Work on the Contract will not be considered as a basis for claim that the time resulting from Contractor's requested start date, if accepted by the Construction Manager, is insufficient to accomplish the Work nor shall it relieve the Contractor of its responsibility to perform the Work in accordance with the Scope of Work and requirements of the Contract. In no case shall Work begin before the County executes the Contract. The Contractor shall notify the Construction Manager at least 48 hours prior to the date on which he plans to begin the Work.

8.2 PROGRESS AND COMPLETION

- 8.2.1 All time limits stated in the Contract Documents are of the essence of the Contract.
- 8.2.2 The Contractor shall begin the Work on the Commencement Date as defined herein and shall carry the Work forward expeditiously with adequate forces and shall achieve Substantial and Final Completion as required by the Contract Documents.

8.3 CLAIMS FOR TIME EXTENSIONS

- 8.3.1 Excusable Non-Compensable Delays: The time during which the Contractor is delayed in the performance of the Work by acts of God, unusually severe and abnormal climatic conditions, fires, floods, epidemics, quarantine restrictions, strikes (not to exceed the actual duration of the strike), riots, civil commotion or freight embargoes, or other conditions beyond the Contractor's control and which the Contractor could not reasonably have foreseen and provided against, shall be added to the Time for Completion of the Work; **provided however, that Contractor shall give the County and A/E written notice of the delay within fourteen (14) days of the inception of the delay. Contractor shall also give written notice to the County and A/E of the termination of the delay not more than fourteen (14) days after such termination.** If the County agrees with the existence and the impact of the delay, County shall extend the Contract Times as warranted for the length of time that the date of Substantial Completion or Final Completion was actually delayed thereby and the Contractor shall not be charged liquidated or actual damages for delay during the period of extension. Contractor shall not be due compensation or damages of any kind, under any theory of law, as a result of such delay, or acceleration of Work as a result of such delay.
- 8.3.2 Excusable Compensable Delays: If and to the extent that Contractor is unreasonably delayed at any time in the progress of the Work by any acts or omissions of the County, its agents, or employees due to causes within the County's control, and the Contractor intends to request an extension of either the Time for Completion or Final Completion Date, and/or additional compensation for damages, if any, caused by the delay, then **Contractor shall notify the County and A/E immediately at the time of the occurrence giving rise to the delay by the fastest means available and shall give written notice of the delay no later than two (2) business days after the inception of the delay.** The Contractor's written notice shall specify the nature of the delay, the cause of the delay, and the impact of the delay on Contractor's Construction Schedule. The County shall have three (3) business days to respond to the Contractor's notice by providing a remedy, resolution, or direction to alleviate the delay, or a rejection of the delay. The County's failure to respond shall be deemed a rejection of the Contractor's claim for delay. **The Contractor shall also give a written**

notice of the termination of the delay not more than fourteen (14) days after such termination. If and to the extent that the delay is caused by the County or A/E taking actions permitted or required by the Contract, then Contractor shall be entitled to an extension of time or additional compensation only for the portion of the delay that is unreasonable, if any.

- 8.3.3 Non-Excusable Non-Compensable Delays: The Contractor shall not be entitled to an extension of the Time for Completion or Final Completion Date or to any additional compensation for delays if and to the extent that the delays are caused by 1) the acts, omissions, fault, or negligence of the Contractor or its subcontractors, agents, or employees, or due to foreseeable causes within their control including, but not limited to, delays from Defective Work (including workmanship and/or materials); from rejected Work that must be corrected before the Work can proceed; from incorrect, incomplete, or unacceptable Submittals or samples; or from the failure to furnish enough skilled workers, proper materials, or necessary equipment to diligently perform the Work in a timely manner according to the Construction Schedule; or 2) due to causes that would entitle the County to recover delay costs or damages.
- 8.3.4 The burden of proof to substantiate a claim for an extension of the Contract Time shall rest with the Contractor, including evidence that the cause was beyond his control. It shall be deemed that the Contractor has control over the supply of labor, materials, equipment, methods and techniques of construction and over the subcontractors and suppliers, unless otherwise specified in the Contract Documents. No extension of time or additional compensation, if applicable, will be granted for any delay unless the claimed delay directly affects the critical path of an approved CPM schedule or other Construction Schedule required by the Contract.
- 8.3.5 In the event of Changes in the Work, the Contractor must identify any additional time required in the Proposed Change Order. The County need not consider any time extensions for Changes in the Work not included in the Proposed Change Order.
- 8.3.6 No time extensions will be granted as a result of the Contractor's improper or unreasonable scheduling or for the Contractor's failure to have Shop Drawings, Product Data, Samples, or Manuals submitted in ample time for review under a reasonable and agreed upon schedule.
- 8.3.7 Delays by subcontractors or suppliers will not be considered justification for a time extension, except for the same valid reasons and conditions enumerated herein.
- 8.3.8 The Contractor acknowledges and agrees that actual delays due to changes, suspension of work or excusable delays, in activities which according to the schedule do not affect the Contract Time will not be considered to have any effect upon the Contract Time and therefore will not be the basis for a time extension.

- 8.3.9 The Contractor acknowledges and agrees that time extensions will be granted only to the extent that: (a) excusable delays exceed the available Float Time in the Contractor's schedule; and (b) Contractor can demonstrate that such excusable delay actually caused, or will cause, delay to the Contractor's schedule that will extend the Contract Time.
- 8.3.10 With respect to Suspensions of Work under Paragraph 3.6 Suspension of Work herein, the Contractor may be entitled to an extension of the Contract Time not to exceed the length of time that the Work was suspended (unless as determined under this Article and the other requirements of the Contract Documents that a further extension is justified and warranted) if the claim is submitted in accordance with the requirements of this Article, and if the suspension is not due to any act or omission of the Contractor, any subcontractor or sub-subcontractor or any other person or organization for whose acts or omission the Contractor may be liable. The Contractor's claim will be evaluated in accordance with the terms of this Article.
- 8.3.11 The Contractor shall not be entitled to any extension of time for delays resulting from any conditions or other causes unless it shall have given written Notice to the County as set forth herein. The Contractor's complete claim submittal for a time extension shall be submitted no later than twenty (20) calendar days after cessation of the delay or within such other longer period as the County may agree in writing to allow. **The failure to give written notice of either the inception or termination of the cause of delay or the failure to submit a claim for an extension of time and/or monetary compensation within the time periods prescribed herein shall constitute a waiver of that claim.**

8.4 CHANGE ORDER WORK

- 8.4.1 The Contractor shall make every reasonable effort to perform Change Order Work within the Contract Time and in such manner as to have minimum delaying effects on all remaining Work to be performed under the Contract. If, however, the Change Order Work results in an unavoidable increase in the time required to complete the project, an extension of the Contract Time may be granted to the Contractor for the Change Order Work. The Contractor's request therefor shall be determined in accordance with the provisions of Article 8.3 Claims for Time Extensions herein and as follows:
- 8.4.1.1 If the time required for performance of the Change Order Work has an unavoidable direct delaying effect on the primary sequence of Work activities remaining after rescheduling (e.g., the critical path in CPM type scheduling), the overall Contract time may be extended by the minimum number of days required for the Change Order Work as mutually agreed upon by the County and the Contractor;
- 8.4.1.2 If the time required for performance of the Change Order Work does not have an unavoidable direct delaying effect on the primary sequence of Work activities but is ordered by the

County at a time such that insufficient time remains for completion of the Change Order Work (and any limited number of contingent Work activities), the Contract Times may be extended by the minimum number of days required for the Change Order Work as mutually agreed upon by the County and the Contractor but only for the Change Order Work and contingent activities, all other unaffected Work shall be performed within the Contract Times;

- 8.4.1.3 Failure of the County and the Contractor to agree on a time extension as specified in .1 and .2 above shall not relieve the Contractor from proceeding with and performing the Change Order Work promptly, as well as in such manner as to have minimal delaying effects on all remaining Work to be performed under the Contract. Such disagreement shall be resolved as soon as practical by negotiation.

8.5 LIQUIDATED DAMAGES FOR DELAY

- 8.5.1 Agreed Compensation/Liquidated Damages for Contractor Delay: If the Contractor fails to complete the Work within the Time for Completion or the Final Completion Date, the Contractor shall be liable to the County in the amounts set forth in the County-Contractor Agreement, if any, not as a penalty, but as fixed, agreed, and liquidated damages for delay until the Work is substantially or finally completed as the case may be. If liquidated damages are not so fixed in the Agreement, the Contractor shall be liable for any and all actual damages sustained as a result of delay. In addition to damages for delay, whether liquidated or actual, the Contractor shall also be liable for any and all actual damages sustained by the County as a result of any other breach of the Contract, including, but not limited to, Defective Work and abandonment of the Contract. The Contractor waives any and all defenses as to the validity of any liquidated damage provisions in the Contract Documents, or of any liquidated damages assessed against the Contractor, on the grounds that such damages are void as penalties or are not reasonably related to actual damages.
- 8.5.2 Compensation for County Delay: If and to the extent that the Contractor is entitled to an extension in the Time for Completion or Final Completion Date and claims additional compensation is due purely as a result of an unreasonable delay by the County pursuant to section 8.3.2 above, the Contractor shall provide written documentation substantiating Contractor's claim for additional compensation for each day of the delay.
- 8.5.3 If the Contractor submits a frivolous claim for delay damages, the Contractor shall be liable to the County for a percentage of all costs incurred by the County in investigating, analyzing, negotiating, and litigating or arbitrating the claim, which percentage shall be equal to the percentage of the Contractor's total delay claim which is determined through litigation or arbitration to be false or to have no basis in law or in fact. (§ 2.2-4335, *Code of Virginia*)

8.5.4 Any change in the Contract Time for Completion or Final Completion Date shall be accomplished only by issuance of a Change Order.

8.6 TIME EXTENSIONS FOR WEATHER

8.6.1 The Contract Times will not be extended due to inclement weather conditions that are normal to the general locality of the Site. The time for performance of this Contract is in calendar days and all requests for time extensions due to inclement weather shall be made in calendar days.

8.6.2 The following is the schedule of monthly anticipated normal inclement weather days for the project location and will constitute the base line for monthly weather time extension evaluations. The anticipated normal inclement weather calendar days have been included in the designated contract time for completion.

January	7
February	7
March	7
April	7
May	9
June	7
July	7
August	7
September	6
October	6
November	6
December	7

8.6.3 The Contractor, in its planning and scheduling of the Work as required by the Contract Documents, shall allow for the normal inclement weather for the locality of the Site. If the Contractor believes that the progress of the Work has been adversely affected and that it will directly result in a failure to meet a Contract Milestone date, Substantial or Final Completion within the Contract Times, by weather conditions above and beyond the amount normally expected, it shall submit a written request to the County with a copy to the A/E for an Extension of Time, pursuant to Paragraph 8.3 Claims for Time Extensions. Such requests shall be evaluated by the County in accordance with the provisions of the Contract Documents.

8.6.4 The Contractor shall not be entitled to any money damages whatsoever for any delays resulting from inclement weather, whether normal or abnormal, foreseeable or unforeseeable. The Contractor and County stipulate and agree that for delays due to weather, the Contractor's sole relief is a time extension granted in accordance with this Article 8.6 Time Extensions for Weather.

ARTICLE 9: PAYMENTS AND COMPLETION

9.1 CONTRACT PRICE

9.1.1 The Contract Price is stated in the County-Contractor Agreement and, including authorized adjustments thereto, is the total amount payable by the County to the Contractor for the performance of the Work under the Contract Documents. The Contract Price includes, but is not limited to, the Contractor's profit and general overhead and all costs and expenses of any nature whatsoever (including without limitation taxes, labor and materials), foreseen or unforeseen, and any increases in said costs and expenses, foreseen or unforeseen, incurred by the Contractor in connection with the performance of the Work, all of which costs and expenses shall be borne solely by the Contractor. The Contractor agrees to assume all increases in costs of any nature whatsoever that may develop during the performance of the Work.

9.2 SCHEDULE OF VALUES

9.2.1 For Lump Sum Price Type Contracts, before the pre-construction meeting, the Contractor shall submit to the County and A/E, a schedule of values allocated to the various portions of the Work, prepared on payment forms provided by the County and supported by such data to substantiate its accuracy as the County may require. This schedule of values, unless rejected by the County, shall be used as a basis for the Contractor's Applications for Payment.

9.2.2 For Unit Price type Contracts, the Contractor shall utilize the payment request form provided by the County, wherein the schedule of values shall correspond with the individual unit price bid items. When so requested by the County, the Contractor shall provide a more detailed cost breakdown of the unit price items.

9.2.3 Contractor may include in its schedule of values a line item for "mobilization" which shall include a reasonable amount for mobilization for the Contractor and its subcontractors. The Contractor shall not front-end load the schedule of values.

9.3 APPLICATION FOR PAYMENT

9.3.1 The Contractor shall submit to the A/E three (3) originally executed, itemized Applications for Payment (and one (1) copy to the County) or the Applications for Payment shall be submitted electronically through e-builder if so directed by the County; on or about the day of each month designated in Article 4 of the County-Contractor Agreement. The Application for Payment shall include for approval, an updated monthly Construction Schedule and Narrative, all supporting material documentation, Stored Materials documentation to include cost, on-site test results, Daily Contractor Quality Control Reports, Daily Work Reports, Weekly Safety Meetings, and shall be notarized, indicate in complete detail all labor and

material incorporated in the Work during the month prior to submission, and supported by such data substantiating the Contractor's payment request as the County may require. **The Application for Payment shall also contain Contractor's certification that due and payable amounts and bills have been paid by the Contractor for work and materials provided by its subcontractors and suppliers as part of the Work pursuant to the Virginia Code § 2.2-4354 and section 9.5.3 herein.**

9.3.2 Payment may be made for the value of materials, which are to be incorporated into the finished Work, and which are delivered to and suitably stored and protected on the Site. The Contractor shall provide releases or paid invoices from the Supplier to establish, to the County's satisfaction, that the County has title to said material. Stored materials shall be in addition to the Work completed and shall be subject to the same retainage provisions as the completed Work. Material once paid for by the County becomes the property of the County and may not be removed from the Site without the County's written permission.

9.3.3 The requirements for the payment of materials stored on-site shall remain unchanged. The requirements for payment for materials stored off-site shall include, but is not limited to, those specified in Paragraph 9.3.2 and the additional requirements hereinafter specified. Material stored off-site under this provision shall be included in the definition of Work, Article 1 Contract Documents.

9.3.3.1. The requirements of Paragraph 10.2 Safety of Persons and Property are fully applicable to materials stored off-site.

9.3.3.2 For purposes of administering this provision, the following definitions are provided.

a. Material stored NEAR the Work Site: A storage location shall be considered near the Site if it is not more than fifty (50) miles (approximately a one-hours drive) from the Work Site.

b. Material stored DISTANT from the Work Site: Locations beyond the limit of fifty (50) miles shall be considered distant.

9.3.3.3 All proposed off-site locations, regardless of whether they are near or distant, shall be approved by the County prior to any payment under this Article. The approval process will include an inspection of the proposed storage site, which may or may not coincide with any inspection of materials stored.

9.3.3.4 Prior to payment for any material stored off-site, said material shall be inspected to verify that it is properly stored; i.e., segregated, inventoried, identified as the property of the County and Contractor and duly protected as required in

Article 10.2 Safety of Persons and Property. This material shall be clearly identified and physically segregated from any other material or stock, in such a manner that it is clear, from casual observation that said material is not a part of any other stock or stored material.

- 9.3.3.5 For materials stored distant to the Site, the Contractor shall reimburse the County for all reasonable costs incurred by the County, to include but not limited to salary, transportation, lodging and per diem, for the County's or the A/E's employees to travel to and from the storage locations for the purpose of verifying the material is properly stored. It is anticipated that such trips would occur whenever additional material is claimed for payment and/or at least every six (6) months until the material is delivered to the Site.
 - 9.3.3.6 Except for unusual circumstances, the Contractor will not be required to reimburse the County's costs for visits to storage locations near the Site.
 - 9.3.3.7 The Contractor shall hold the County harmless from any and all losses, additional costs, direct or indirect damages and/or delays, whatsoever, which may occur as a result of a failure of the Contractor to deliver (or have delivered), in a timely manner, materials (for which payment has been made) to the Site for installation and incorporation into the Work.
 - 9.3.3.8 The Contractor shall provide to the County, a Release of Lien or other suitable certification by the Supplier, in addition to paid invoices, verifying that the Contractor has valid title to all materials for which payment is requested. The Supplier, however, shall not be required to waive its rights for recovery, if its contract is breached.
- 9.3.4 The Contractor warrants that title to all Work, materials and equipment covered by an Application for Payment will pass to the County either by incorporation in the construction or upon the receipt of payment by the Contractor, whichever occurs first, free and clear of all liens, claims, security interests, or encumbrances, hereinafter referred to as "liens". The Contractor further warrants that no Work, materials, or equipment covered by an Application for Payment will have been acquired by the Contractor or by any other person performing Work at the Site or furnishing materials and equipment for the Project that is subject to an agreement under which an interest therein or an encumbrance thereon is retained by the Supplier or otherwise imposed by the Contractor or such other person.
- 9.3.5 The Contractor's Application for Payment shall provide that the payment request attests that all Work for which the request is made has been completed in full according to the drawings, specifications, and other terms of the Contract Documents. By submitting its Application for Payment, the Contractor also represents that it has no knowledge that any subcontractor

or suppliers have not been fully and timely paid and that, insofar as it knows, the only outstanding items for payment with respect to the Contract are those to be paid from the funds for which Application is being made.

- 9.6.3 If required by the County-Contractor Agreement, the Contractor shall, concurrent with its submission of the Construction Schedule, submit a practicable and realistic payment schedule showing the dates on which the Contractor will submit each and every Application for Payment and the amount it expects to receive for each and every monthly progress payment. If during the performance of the Work, the Contractor expects to receive an amount for a monthly progress payment larger than that indicated on the payment schedule, the Contractor shall notify the County at least thirty (30) days in advance of that payment so that the necessary allocation of funds can be processed. In the event the Contractor fails to submit a practicable and realistic payment schedule, the Contractor's Application for Payment shall be honored only to the extent that the Work is actually performed and that the proportion of payments made to the Contract Price does not exceed the proportion of the Contract Times expired as of the time of the request.

9.4 CERTIFICATES FOR PAYMENT

- 9.4.1 The A/E will, within seven (7) calendar days after the receipt of the Contractor's Application for Payment, recommend a Certificate for Payment to the County, for such amount as the A/E determines is properly due, with his reasons for withholding or adjusting a Certificate as provided in Paragraph 9.6 Payments Withheld, if any.
- 9.4.2 After the Certificate for Payment is recommended by the A/E, the County will review it and make any changes deemed necessary by the County's Representative. The recommendation of the Certificate for Payment by the A/E does not waive or limit the County's right to reduce the amount of the payment due to the Contractor as determined to be appropriate by the County.
- 9.4.3 The recommendation of a Certificate for Payment will constitute a representation by the A/E to the County, based on his observations at the Site as provided in Article 2 Architect/Engineer hereof and the data comprising the Application for Payment, that the Work has progressed to the point indicated; that, to the best of his knowledge, information and belief: (a) the quality of the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial or Final Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his Certificate); and that (b) the Contractor is entitled to payment in the amount certified. However, by recommending a Certificate for Payment, the A/E shall not thereby be deemed to represent that he has made exhaustive or continuous on-site inspections to check the quality or quantity of the Work or that he has reviewed the construction means, methods, techniques, sequences or

procedures, or that he has made any examination to ascertain how or for what purpose the Contractor has used the moneys previously paid on account of the Contract Price.

9.5 PROGRESS PAYMENTS

- 9.5.1 The County shall make payment in the manner and within thirty (30) calendar days after receipt of the Certificate of Payment from the A/E based upon the County's approval or adjustment of said Certificate. The Contractor shall be paid the amount approved or adjusted by the County, less five percent (5%) retainage which is being held to assure faithful performance; provided however, that said retainage is not applicable to Time and Material Change Orders.
- 9.5.2 In relation to punch list or other uncompleted Work and in lieu of a portion of the above-specified five percent (5%) retainage, the County may, at its sole discretion, elect to retain fixed amounts directly relating to the various items of uncompleted Work. All amounts withheld shall be included in the Final Payment.
- 9.5.3 The Contractor shall, within seven (7) days after receiving payment from the County, do one of the following:
- 9.5.3.1 Pay all subcontractors for the proportionate share of the total payment received from the County for Work performed by each subcontractor under the Contract; or
 - 9.5.3.2 Notify the County and subcontractor(s), in writing, of his intention to withhold all or part of the subcontractor's payment with the reason for nonpayment.
- 9.5.4 The Contractor shall make payment to subcontractors as heretofore specified. Each payment shall reflect the percentage actually retained, if any, from payments to the Contractor on account of such subcontractor's Work.
- 9.5.5 The Contractor shall provide the County with its social security number, if an individual, or its federal identification number if a corporation, partnership, or proprietorship.
- 9.5.6 The Contractor shall be obligated to pay unpaid subcontractors interest on payments that are not made in accordance with this Article 9.5 Progress Payments. The rate of interest shall be in compliance with the Prompt Payment section of the Virginia Public Procurement Act of the Code of Virginia. The Contractor shall, by an appropriate agreement with each subcontractor require each subcontractor to make payments to his sub-subcontractors according to all the same requirements as provided in this Article 9.5 Progress Payments.
- 9.5.7 The County may, upon written request, furnish to any subcontractor, if

practicable, information regarding the percentages of completion or the amounts applied for by the Contractor and the action taken thereon by the County on account of Work done by such subcontractor.

9.5.8 Neither the County nor the A/E shall have any obligation to pay or to see to the payment of any monies to any subcontractor except as may otherwise be required by law.

9.5.9 No Certificate for a progress payment, nor any progress payment, nor any partial or entire use or occupancy of the Project by the County, shall constitute an acceptance of any Work not in accordance with the Contract Documents.

9.6 PAYMENTS WITHHELD

9.6.1 The County may withhold the payment in whole or in part, if necessary to reasonably protect the County. If the A/E is unable to make representations as provided in subparagraph 9.4.3 and to recommend payment in the amount of the application, he will notify the County as provided in subparagraph 9.4.1. If the Contractor and the County cannot agree on a revised amount, the County will promptly issue a Certificate for Payment for the amount for which he is able to make representations with respect to payment due for Work performed. The County may also decline to certify or make payment or, because of subsequently discovered evidence or subsequent observations, the County may nullify the whole or any part of any Certificate for Payment previously issued.

9.6.2 The County may withhold from the Contractor so much of any payment approved by the A/E, as in the judgment of the County be necessary:

9.6.2.1 To protect the County from loss due to defective Work not remedied;

9.6.2.2 To protect the County upon receipt of Notice of the filing in court or in an arbitration proceeding as may be required in any third party contract, of verified claims of any persons supplying labor or materials for the Work, or other verified third party claims;

9.6.2.3 To protect the County upon reasonable evidence that the Work will not be completed for the unpaid balance of the Contract Price;

9.6.2.4 To protect the County upon reasonable evidence that the Work will not be completed within the Contract Times, or any Contract Milestones as established by this Contract; or

9.6.2.5 To protect the County upon the Contractor's failure to properly schedule and coordinate the Work in accordance with or as required by the Contract Documents, or failure to provide

progress charts, revisions, updates or other scheduling data as required by the Contract Documents, or upon the Contractor's failure to provide as-built drawings as required herein, or upon Contractor's failure to otherwise substantially or materially comply with the Contract Documents.

9.7 FAILURE OF PAYMENT

9.7.1 If the County does not make payment to the Contractor within the thirty (30) calendar days after receipt of the Contractor's Application for Payment by the A/E through no fault of Contractor, and the County otherwise not being entitled under the Contract Documents or applicable law to withhold payment, then the Contractor may, upon fifteen (15) additional days' written Notice to the County and the A/E, stop the Work until payment of the amount owing has been received. In such event, the Contract Price shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up, which shall be effected by appropriate Change Order as provided herein.

9.8 SUBSTANTIAL COMPLETION AND GUARANTEE BOND

9.8.1 Unless otherwise specified in Article 9.9 Final Completion and Final Payment, when the Contractor considers that the Work, or a designated portion thereof which is acceptable to the County, is substantially complete as defined herein, the Contractor shall request in writing that the A/E and the County perform a Substantial Completion inspection. Prior to such inspection the Contractor shall:

9.8.1.1 If applicable, secure a Certificate of Occupancy for the Project or a designated portion thereof; and

9.8.1.2 Submit five (5) copies each of the Operations and Maintenance Manuals to the A/E as specified and one (1) copy to the County.

9.8.2 The County shall determine whether the project is substantially complete and shall compile a punch list of items to be completed or corrected. The failure to include any items on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

9.8.3 When the County on the basis of its inspection determines that the Work or a designated portion thereof is substantially complete, the A/E will then prepare a Certificate of Substantial Completion which shall establish the Date of Substantial Completion and shall state the responsibilities of the County and the Contractor for security, maintenance, heat, utilities, damage to the Work, and insurance. The Certificate of Substantial Completion shall be submitted to the County and the Contractor for their written acceptance of the responsibilities assigned to them in such Certificate.

- 9.8.4 The Contractor shall have the number of days from the Date of Substantial Completion as shown in County – Contractor Agreement to complete all items on the punch list to the satisfaction of the County. If the Contractor fails to complete all punch list items within the designated time, the County shall have the option to correct or conclude any remaining items by utilizing its own forces or by hiring others. The cost of such correction of remaining punch list items by the County or others shall be deducted from the final payment to the Contractor.
- 9.8.5 Guarantees and warranties required by the Contract Documents shall commence on the Date of Final Completion of the Work, unless otherwise provided in the Certificate of Substantial or Final Completion, or the Contract Documents. Provided, however, that if Contractor does not complete certain punch list items within this time period, specified in 9.8.4, all warranties and guarantees for such incomplete Punch List items shall become effective upon issuance of final payment for the project.
- 9.8.5.1 The Contractor shall guarantee for a term of one (1) year from the date of Final Completion or Final Payment, (unless otherwise provided for in the Certificate(s) of Substantial or Final Completion or the Contract Documents): (a) the quality and stability of all materials equipment and Work; (b) all the Work against defects in materials, equipment or workmanship; and (c) all shrinkage, settlement or other faults of any kind which are attributable to defective materials or workmanship. The Contractor shall remedy at its own expense, when so notified in writing to do so by the County, and to the satisfaction of the County, the Work or any part thereof that does not conform to any of the warranties and guaranties described in the Contract Documents.
- 9.8.5.2 In order to make good the guarantee as herein required, the Contractor shall deposit with the County, after Substantial Completion but before Final Payment, a Guarantee Bond(s) issued by a surety licensed to do business in Virginia and otherwise acceptable to the County, for the faithful performance of the guarantee. Said Bond(s) shall be for a period of one (1) year and in the amount of five percent (5%) of the final gross value of the Contract.
- 9.8.5.3 The Contractor shall complete repairs during the guarantee period, within five (5) working days after the receipt of notice from the County and if the Contractor shall fail to complete such repairs within the said five (5) working days, the County may employ such other person or persons as it may deem proper to make such repairs and pay the expenses thereof out of any sum retained by it, provided nothing herein contained shall limit the liability of the Contractor or its surety to the County for non-performance of the Contractor's obligations at any time.

- 9.8.6 The issuance of the Certificate of Substantial Completion does not indicate final acceptance of the project by the County, and the Contractor is not relieved of any responsibility for the project except as specifically stated in the Certificate of Substantial Completion.
- 9.8.7 Upon Substantial Completion of the Work, or designated portion thereof, and upon application by the Contractor and certification by the A/E, the County shall make payment, adjusted for retainage and payments withheld, if any, for such Work or portion thereof, as provided in the Contract Documents.
- 9.8.8 Should the County determine that the Work or a designated portion thereof is not substantially complete, it shall provide the Contractor a written notice stating why the project or designated portion is not substantially complete. The Contractor shall expeditiously complete the Work and shall re-request in writing that the County perform a substantial completion inspection.

9.9 FINAL COMPLETION AND FINAL PAYMENT

- 9.9.1 A Certificate of Final Completion shall be issued by the A/E prior to final payment. At the County's sole option, this Final Completion Certificate may be issued without a Certificate of Substantial Completion. The Contractor, prior to application for Final Payment and within the time specified for completion of the Work, shall complete all Work, to include punch list items and provide operating manuals and as-built data, for the Work, as completed and in place. Said Certificate of Final Completion shall be issued, even if a Certificate of Substantial Completion has been issued previously and temporary authority to operate the Work has been granted.
- 9.9.1.1 The Certificate of Final Completion shall certify that all Work has been completed in accordance with Contract Documents and is ready for use by the County.
- 9.9.2 For all projects where Substantial Completion Certificates have been issued for various portions of the Work, at differing times, the Contractor shall request and the County shall, prior to final payment, issue a Certificate of Final Completion which certifies that all required Work, including punch list items, has been completed in accordance with the Contract Documents.
- 9.9.3 Neither the final payment nor any remaining retainage shall become due until the Contractor submits to the A/E the following:
- 9.9.3.1 An Application for Payment for all remaining monies due under the Contract.
- 9.9.3.2 Consent of surety, if any, to final payment;
- 9.9.3.3 If required by the County, other data establishing payment or satisfaction of all such obligations, such as receipts, releases

and waivers of claims arising out of the Contract, to the extent and in such form as may be designated by the County. If any subcontractor refuses to furnish waiver of claims satisfactory to the County, the Contractor may furnish a bond satisfactory to the County to indemnify the County against any such claim. If any such claim remains unsatisfied after all payments are made, the Contractor shall refund to the County all monies that the latter may be compelled to pay in discharging such claim, including all costs and reasonable attorneys' fees;

9.9.3.4 As-built drawings, operation and maintenance manuals and other project closeout submittals, as required by the Contract Documents;

9.9.3.5 Construction releases as required by the Contract Documents from each property owner on whose property an easement for construction of this project has been obtained by the County, such release to be in the forms to be provided by the County. This release is for the purpose of releasing the County and the Contractor from liability, claims, and damages arising from construction operations on or adjacent to the easement and includes proper restoration of the property after construction. It shall be the Contractor's sole responsibility to obtain all such releases and furnish them to the County; and

9.9.3.6 A written certification that:

- a. The Contractor has reviewed the requirements of the Contract Documents;
- b. The Work has been inspected by the Contractor for compliance with all requirements of the Contract Documents;
- c. Pursuant to this inspection, the Contractor certifies and represents that the Work complies in all respects with the requirements of the Contract Documents;
- d. The Contractor further certifies and represents that all equipment and systems have been installed in accordance with the Contract Documents and have been tested in accordance with specification requirements and are operational; and
- e. The Contractor hereby certifies and represents that the Work is complete in all respects and ready for final inspection.

9.9.4 Upon receipt of the documents required in subparagraph 9.9.3 and upon receipt of a final Application for Payment, the A/E and County will promptly

make a final inspection. When the A/E finds the Work acceptable under the Contract Documents and the Contract fully performed, he will promptly issue a final Certificate for Payment and a Final Certificate of Completion. The Certificate of Completion will state that to the best of his knowledge, information and belief, and on the basis of his observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance designated in the final certificate for payment is due and payable. The final Certificate for Payment will constitute a further representation that the conditions precedent to the Contractor's being entitled to final payment as set forth in Subparagraph 9.9.3 have been fulfilled. The County shall review the Certificate of Payment and shall accept it and issue final acceptance, or reject it and notify the Contractor, within ten (10) days. Final payment to the Contractor shall be made within thirty (30) days after final acceptance. All prior estimates and payments, including those relating to change order work shall be subject to correction by this final payment.

9.9.5 The making of Final Payment shall constitute a waiver of all claims by the County, except those arising from:

9.9.5.1 Unsettled claims;

9.9.5.2 Faulty, defective, or non-conforming Work discovered or appearing after Substantial or Final Completion;

9.9.5.3 Failure of the Work to comply with the requirements of the Contract Documents;

9.9.5.4 Terms of any warranties or guarantees required by the Contract Documents; or

9.9.5.5 Fraud or bad faith committed by the Contractor or any subcontractor or supplier during performance of work but discovered by County after Final Payment.

9.9.6 The acceptance of Final Payment shall constitute a waiver of all claims by the Contractor, except those previously made in writing and so identified by the Contractor, as unsettled at the time of the final Application for Payment. No payment, however, final or otherwise, shall operate to release the Contractor or its sureties from any obligations under this Contract or the Performance or the Guarantee Bonds.

ARTICLE 10: PROTECTION OF PERSONS AND PROPERTY

10.1 SAFETY PRECAUTIONS AND PROGRAMS

10.1.1 The Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. The requirement applies continuously throughout the Contract performance, until Final Payment is made, and is not limited to regular

working hours.

10.2 SAFETY OF PERSONS AND PROPERTY

10.2.1 The Contractor shall take all reasonable precautions for the safety of, and shall provide all reasonable protection to prevent damage, injury or loss to:

10.2.1.1 All employees on the Work and all other persons who may be affected thereby;

10.2.1.2 All the Work and all materials and equipment to be incorporated therein, whether in storage on or off the Site, under the care, custody or control of the Contractor or any of its subcontractors or sub-subcontractor's. Machinery, equipment and all hazards shall be guarded or eliminated in accordance with the safety provisions of the Manual of Accident Prevention in Construction published by the Associated General Contractors of America, to the extent that such provisions are not in contravention of applicable law; and

10.2.1.3 Other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.

10.2.2 The Contractor shall give all notices and comply with all applicable laws, ordinances, rules, regulations, permits, resolutions and lawful orders of any public authority bearing on the safety of persons or property or their protection from damage, injury or loss.

The Contractor shall at all times safely guard the County's property from injury or losses in connection with the Contract. The Contractor shall at all times safely guard and protect the Work and adjacent property as provided by law and the Contract Documents, from damage. All passageways, guard fences, lights and other facilities required for protection by local authorities or local conditions must be provided and maintained without additional cost to the County.

10.2.3 The Contractor shall erect and maintain, as required by existing conditions and progress of the Work, all reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent utilities.

10.2.4 When the use or storage of explosives or other hazardous materials or equipment is necessary for the execution of the Work, the Contractor shall exercise the utmost care and shall carry on such activities under the supervision of properly qualified personnel.

10.2.5 The Contractor is responsible for the proper packing, shipping, handling and

storage (including but not limited to shipment or storage at the proper temperature and humidity) of materials to be incorporated in the Work, so as to insure the preservation of the quality and fitness of the material for proper installation and incorporation in the Work, as required by the Contract Documents. For example, but not by way of limitation, Contractor shall, when necessary, place material on wooden platforms or other hard and clean surfaces and not on the ground and/or place such material under cover or in any appropriate shelter or facility. Stored materials or equipment shall be located so as to facilitate proper inspection. Material and equipment that is delivered crated shall remain crated until ready for installation. Lawns, grass plots or other private property shall not be used for storage purposes without the written permission of the County or lessee unless otherwise within the terms of the easements obtained by the County.

- 10.2.6 In the event of any indirect or direct damage to public or private property referred to in sections 10.2.1.2 and 10.2.1.3, caused in whole or in part by an act, omission, or negligence on the part of the Contractor, any subcontractor, any sub-subcontractor, or anyone directly or indirectly employed by any of them or by anyone for whose acts any of them may be liable, the Contractor shall at his own expense and cost promptly remedy and restore such property to a condition equal to or better than existing before such damage was done. The Contractor shall perform such restoration by underpinning, replacing, repairing, rebuilding, replanting, or otherwise restoring as may be required or directed by the County, or shall make good such damage in a satisfactory and acceptable manner. In case of failure on the part of the Contractor to promptly restore such property or make good such damage, the County may, upon two (2) calendar days written Notice, proceed to repair, replace, rebuild or otherwise restore such property as may be necessary and the cost thereof, or a sum sufficient in the judgment of the County to reimburse the owners of property so damaged, will be deducted from any monies due or to become due the Contractor under the Contract.
- 10.2.7 The Contractor shall designate a responsible member of its organization at the Site whose duty shall be the prevention of accidents and the protection of material, equipment and other property. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the County.
- 10.2.8 The Contractor shall not load or permit any part of the Work to be loaded so as to endanger the safety of any portion of the Work.
- 10.2.9 The Contractor shall give notice in writing at least forty-eight (48) hours before breaking ground, to all persons, public utility companies, owners of property having structures or improvements in proximity to Site of the Work, superintendents, inspectors, or those otherwise in charge of property, streets, water pipes, gas pipes, sewer pipes, telephone cables, electric cables, railroads or otherwise, who may be affected by the Contractor's operation, in order that they may remove any obstruction for which they are responsible and have representative(s) on-site to see that their property is properly protected. Such notice does not relieve the Contractor of

responsibility for any damages and claims. Nor does such notice relieve the Contractor from his responsibility to defend and indemnify the County from actions resulting from the Contractor's performance of such Work in connection with or arising out of the Contract.

10.2.10 The Contractor shall protect all utilities encountered while performing its Work, whether indicated on the Contract Drawings or not. The Contractor shall maintain utilities in service until moved or abandoned. The Contractor shall exercise due care when excavating around utilities and shall restore any damaged utilities to the same condition or better as existed prior to starting the Work, at no cost to the County. The Contractor shall maintain operating utilities or other services, even if they are shown to be abandoned on the Contract Drawings, in service until new facilities are provided, tested and ready for use.

10.2.11 The Contractor shall return all improvements on or about the Site and adjacent property which are not shown to be altered, removed or otherwise changed to conditions which existed prior to starting Work.

10.2.12 The Contractor shall protect the Work, including but not limited to, the Site, stored materials and equipment, excavations, and excavated or stockpiled soil or other material, intended for use in the Work, and shall take all necessary precautions to prevent or minimize damage to same and to prevent detrimental effect upon its performance or that of its subcontractors, caused by or due to rain, snow, ice, run-off, floods, temperature, wind, dust, sand, and flying debris. For example, but not by way of limitation, Contractor shall, when necessary, utilize temporary dikes, channels or pumping to carry-off, divert or drain water, and shall as necessary tie-down or otherwise secure the Work and employ appropriate covers and screens.

10.3 OBLIGATION OF CONTRACTOR TO ACT IN AN EMERGENCY

10.3.1 In case of an emergency that threatens immediate loss or damage to property and/or safety of life, the Contractor shall act to prevent threatened loss, damage, injury or death. The Contractor shall notify the County of the situation and all actions taken immediately thereafter. If the Contractor fails to act and any loss, damage, injury or death occurs that could have been prevented by the Contractor's prompt and immediate action, the Contractor shall be fully liable to the County or any other party for all costs, damages, claims, actions, suits, costs of defense, and all other expenses arising therefrom or relating thereto.

10.3.2 Prior to commencing Work and at all times during the performance of the Work, the Contractor shall provide the County two (2), twenty-four hour (24) emergency phone numbers where his representatives can be contacted.

ARTICLE 11: INSURANCE

11.1.4 The following provisions shall be agreed to by the Contractor:

11.1.4.1 No change, cancellation, or non-renewal shall be made in any insurance coverage without a forty-five (45) day written Notice to the County. The Contractor shall furnish a new certificate prior to any change or cancellation date. The failure of the Contractor to deliver a new and valid certificate will result in suspension of all payments until the new certificate is furnished.

11.1.4.2 Liability Insurance "Claims Made" basis:

If the liability insurance purchased by the Contractor has been issued on a "claims made" basis, the Contractor must comply with the following additional conditions. The limits of liability and the extensions to be included as described previously in these provisions, remain the same. The Contractor must either:

- a. Agree to provide, prior to commencing work under the Contract, certificates of insurance evidencing the above coverage for a period of five (5) years after final payment for the Contract. This certificate shall evidence a "retroactive date" no later than the beginning of the Contractor's or subcontractor's work under this Contract, or
- b. Purchase the extended reporting period endorsement for the policy or policies in force during the term of this Contract and evidence the purchase of this extended reporting period endorsement by means of a certificate of insurance or a copy of the endorsement itself.

- b. European markets including those based in London, and the domestic surplus lines market that operate on a non-admitted basis are exempt from this requirement provided that the Contractor's broker can provide financial data to establish that a market's policyholder surpluses are equal to or exceed the surpluses that correspond to Best's A:VII Rating.

11.1.4.5 The County, its officers and employees shall be Endorsed to the Contractor's Automobile and General Liability policies as

A Certificate of Insurance evidencing the additional insured status must be presented to the County along with a copy of the Endorsement.

- 11.1.4.6 Compliance by the Contractor and all subcontractors with the foregoing requirements as to carrying insurance shall not relieve the Contractor and all subcontractors of their liabilities provisions of the Contract.
- 11.1.5 Contractual and other Liability insurance provided under this Contract shall not contain a supervision, inspection or engineering services exclusion that would preclude the County from supervising and/or inspecting the project as to the end result. The Contractor shall assume all on-the-job responsibilities as to the control of persons directly employed by it and of the subcontractors.
- 11.1.6 Nothing contained in the specifications shall be construed as creating any contractual relationship between any subcontractor and the County. The Contractor shall be as fully responsible to the County for the acts and omissions of the subcontractors and of persons employed by them as it is for acts and omissions of persons directly employed by it.
- 11.1.7 Precaution shall be exercised at all times for the protection of persons (including employees) and property. 11.1.8 The Contractor and all subcontractors are to comply with the Occupational Safety and Health Act of 1970, Public Law 91-956, as it may apply to this Contract.
- 11.1.9 Any loss insured under subparagraph 11.1.2.4 is to be adjusted with the County and made payable to the County as trustee for the requirements of any applicable mortgagee clause. The Contractor shall pay each subcontractor a just share of any insurance monies received by the Contractor, and by appropriate agreement, written where legally required for validity, shall require each subcontractor to make payments to his sub-subcontractors in similar manner.
- 11.1.10 When the County finds it necessary to occupy or use a portion or portions of the work prior to substantial completion thereof, such occupancy shall commence with a mutual agreement between the County and Contractor. The insurance company or companies providing the property insurance recognize this contingency and shall provide evidence of such endorsement prior to commencement of work. This insurance shall not be canceled or lapsed for the unoccupied part of the building on account of such partial occupancy. Consent of the Contractor and of the insurance company or companies to such occupancy or use shall not be unreasonably withheld.
- 11.1.11 If an "ACORD" Insurance Certificate form is used by the Contractor's insurance agent, the words "endeavor to" and ". . . but failure to mail such notice shall impose no obligation or liability of any kind upon the company" in the "Cancellation" paragraph of the form shall be deleted.

11.1.12 The Contractor agrees to waive all rights of subrogation against the County, its officers, employees, and agents.

ARTICLE 12: CHANGES AND MODIFICATIONS IN THE WORK

12.1 CHANGES IN THE WORK

12.1.1 The County, without invalidating the Contract and without Notice to the surety, may order a Change or Modification in the Work consisting of additions, deletions or other revisions to the general scope of the Contract, or changes in the sequence of the performance of the Work. The Contract Price and the Contract Times shall be adjusted accordingly. All such Modifications in the Work shall be authorized by written Change Order, and all Work involved in a Change shall be performed in accordance with the terms and conditions of this Contract. If the Contractor should proceed with a Change in the Work upon an oral order, by whomsoever given, it shall constitute a waiver by the Contractor of any claim for an increase in the Contract Price and/or Contract Times, on account thereof.

12.2 FIELD ORDER

12.2.1 A Field Order may be issues to interpret or clarify the Contract Documents or to direct the Contractor to perform minor changes in the Work. A minor change in the Work is a change not involving adjustment in the Contract Price or an extension of the Contract Times and is not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order and shall be binding on the County and the Contractor. The Contractor shall carry out such orders promptly. Any Work relating to the issuance of a Field Order shall be performed promptly and expeditiously and without additional cost to the County and within the Contract Times, unless the Contractor submits a Proposed Change Order, defined below, which is approved by the County. Field Orders shall be numbered consecutively by date of issuance by the County.

12.3 REQUEST FOR PROPOSAL

12.3.1 A Request for Proposal may be submitted by the County to the Contractor to propose a Change in the Work. The Contractor is required to submit a complete proposal for the total cost and additional time, if any, necessary to perform the proposed Change in the Work. Requests for Proposals shall be numbered consecutively by date of issuance by the County.

12.4 PROPOSED CHANGE ORDER

12.4.1 A Proposed Change Order is a written request from the Contractor to the County requesting a change in the Contract Price and/or Contract Times. A Proposed Change Order is submitted as a proposal in response to a Request for Proposal or as a claim for an increase in the Contract Price or Contract Times pursuant to the issuance of a Field Order, or as a result of unforeseen circumstances, such as an unknown Site conditions. Upon

discovery of any unforeseen circumstances the Contractor shall notify the County immediately in writing. Change Orders for unforeseen Site conditions will only be entertained if the Contractor has not accepted responsibility for the unforeseen Site conditions pursuant to other provisions in the Contract Documents. A Proposed Change Order must be submitted within twenty (20) calendar days of the issuance of a Request for Proposal or a Field Order or the discovery of an unforeseen circumstance. The Contractor shall not be entitled to time and/or costs of any nature from the County as a result of its failure to comply with this provision. Proposed Change Orders shall be numbered consecutively by date of issuance by the Contractor. The Contractor shall also indicate on the Proposed Change Order the number of the Request for Proposal or the Field Order to which it responds.

12.4.2 In the case of unit price items, it is understood and agreed by the Contractor that the estimates of the quantities in unit price items are approximate only and presented solely for the purpose of comparing bids and may not represent the actual amount of work to be performed. The Contractor, therefore, understands and agrees that the County reserves the right to increase, decrease, or eliminate entirely the quantity of work to be done under any item. If called upon to do more work under any unit price item named in the Bid Documents, the Contractor will perform all such additional work and accept as payment the unit price named in the proposal, subject to the twenty percent (20%) deviation limitations specified in subparagraph

12.4.2.1 The Contractor's Proposed Change Order shall be determined by applicable unit prices, if any, as set forth in the Contract.

12.4.2.2 However, if changes in quantities are greater or lesser than twenty percent (20%) of the original bid quantity the County or the Contractor shall have the right to request a decrease or an increase in the unit price for the quantity greater than one hundred twenty percent (120%) or less than eighty percent (80%) of the original bid quantity.

12.4.2.3 It shall be understood that such unit prices shall constitute full payment for the extra work performed, including, but not limited to, "general conditions" costs, plant, materials, labor, equipment, overhead, profit, and safety requirements.

12.4.3 If no such unit prices are set forth, the Contractor's proposal shall be on a lump sum basis and shall be itemized and segregated by labor, equipment, and materials for the various components of the Change in the Work (no aggregate labor total will be acceptable) and shall be accompanied by signed proposals of any subcontractors who will perform any portion of the Change in the Work and of any persons who will furnish materials or equipment for incorporation therein.

12.4.3.1 The portion of the proposal relating to labor, whether by the

Contractor's forces or the forces of any of its subcontractors, may include reasonably anticipated gross wages of Job Site labor, including foremen, who will be directly involved in the Change in the Work (for such time as they will be so involved), plus separately identified payroll costs (including premium costs of overtime labor, if overtime is authorized, Social Security, Federal or State unemployment insurance taxes and fringe benefits required by collective bargaining agreements entered into by the Contractor or any such subcontractor in connection with such labor).

12.4.3.2 The portion of the proposal relating to materials may include the reasonably anticipated direct costs to the Contractor or to any of its subcontractors of materials to be purchased for incorporation in the Change in the Work, plus transportation and applicable sales or use taxes.

12.4.3.3 The proposal may further include the Contractor's and any of its subcontractor's reasonably anticipated equipment rental costs, except small hand tools, in connection with the Change in the Work.

12.4.4 Base Cost is defined as the total of labor, material and equipment rentals as described in subparagraphs 12.4.3.1, 12.4.3.2 and 12.4.3.3. The actual net cost in money to the County for the Change in the Work shall be computed as follows:

12.4.4.1 If the Contractor performs the Change in the Work without use of subcontractors or sub-subcontractors, its compensation will be the Base Costs as described above, plus a maximum mark-up of fifteen percent (15%) for overhead and profit.

12.4.4.2 If the Work is performed by a bona fide subcontractor, its compensation will be the Base Costs as described above plus a maximum mark-up of fifteen percent (15%) for overhead and profit. The Contractor's compensation will be a maximum mark-up of five percent (5%) of the subcontractor's Base Costs for its overhead and profit.

12.4.4.3 If the Work is performed by a bona fide sub-subcontractor, its compensation will be the Base Costs as herein described plus a maximum mark-up of fifteen percent (15%) for overhead and profit. The mark-up for overhead and profit of any sub-subcontractor's work by the Contractor and all intervening tiers of subcontractors shall not exceed a total of ten percent (10%) of the sub-subcontractor's Base Costs.

12.4.5 The mark-up on the cost of labor, materials, and equipment described in Paragraphs 12.4.4.1, 12.4.4.2, and 12.4.4.3 shall compensate the Contractors, subcontractor and sub-subcontractor for all indirect costs

associated with or relating to the Change in the Work including, but not limited to, labor and/or equipment inefficiency, changes in sequence, delays, interferences, impact on unchanged work, gross receipts tax, superintendent, small tools, reproduction, administration, insurance, unrelated safety requirements, estimating, scheduling, preparation of Proposed Change Order documents, project management, quality control management, temporary structures and offices, all other general and administrative, home office and field office expenses.

12.4.6 The Proposed Change Order may also include the cost of increases in premiums for the Standard Labor and Material Payment Bond and the Standard Performance Bond, provided coverage for the cost of the Change in Work results in such increased costs. At the County's request, the Contractor shall provide proof of its notification to the Surety of the change in the Work and of the Surety's agreement to include such change in its coverage. The cost of the increase in premiums shall not be marked up.

12.4.7 In the event that it is necessary to increase the Contract Times in order to perform the Change in the Work, the Contractor shall provide an estimate of the increase in the Contract Times as part of the Proposed Change Order. The Contractor's request for a time extension shall be evaluated in accordance with the criteria described in Article 8.3 Claims for Time Extensions.

12.4.8 If the Contractor's Proposed Change Order is rejected by the County as being within the scope of the Work required by the Contract Documents the County may, at its sole option and discretion, direct the Contractor to perform the Work which is the subject of the said Proposed Change Order; the Contractor shall then promptly proceed with said Work. Nothing herein shall excuse the timely performance by the Contractor of the Work because any Proposed Change Order is pending.

12.5 CHANGE ORDER

12.5.1 A Change Order is a written order to the Contractor signed by the County, issued after execution of the Contract, authorizing a Change in the Work or an adjustment in the Contract Price and/or the Contract Times. The Contract Price and the Contract Times may be changed only by Change Order. A Change Order signed by the Contractor indicates its agreement therewith, including the adjustment in the Contract Price and/or the Contract Times. Change Orders shall be numbered consecutively by date of issuance by the County and shall, if applicable, indicate the number of the Field Order(s), Request for Proposal(s) and/or Proposed Change Order(s) to which it relates.

12.5.1.1 If the County determines that the Contractor's Proposed Change Order, submitted pursuant to Article 12.4 for a change in the Contract Price or Contract Times, is acceptable, the County shall prepare and issue a Change Order which will authorize the Contractor to proceed with the Change in the

Work for the cost and time stated in the Proposed Change Order, or as otherwise may be agreed upon by the parties. The amounts stated in the Change Order for the cost and time to perform the Change in the Work shall be binding on the parties.

12.5.2 After issuance of the Change Order, the Contractor shall ensure that the amount of the Performance and Payment Bond coverage has been revised to reflect the increase in the Contract Price due to the Change Order.

12.5.3 If the Contractor's Proposed Change Order is not acceptable to the County or if the parties are unable to otherwise agree as to the cost and time necessary to perform the Change in the Work, the County may, at its sole option and discretion, direct the Contractor to perform the Work on a time and material basis. The Contractor shall then promptly proceed with the Work.

12.5.4 If the County elects to have the Change in the Work performed on a time and material basis, the same shall be performed, whether by the Contractor's forces or the forces of any of its subcontractors or sub-subcontractors, at actual cost to the entity performing the Change in the Work (without any charge for administration, clerical expense, supervision or superintendent of any nature whatsoever). The percent mark-ups for the Contractor, subcontractors and sub-subcontractor's shall be as described in subparagraphs 12.4.4 and 12.4.5.

12.5.4.1 Prior to starting the Work on a time and material basis, the Contractor shall notify the County in writing as to what labor, materials, equipment or rentals are to be used for the Change in the Work. During the performance of the Change, the Contractor shall submit to the County daily time and material tickets, which shall list the categories and amounts of labor and equipment for which Change Order compensation is to be charged for the previous work day. Such tickets shall specifically include the following information: location and description of the Change in the Work, the classification of labor employed, including names and social security numbers of laborers, labor trades used, man hours, wage rates, insurance, taxes and fringe benefits, equipment and materials suppliers' quotations with detailed break-out and pricing, rental equipment hours and rates, and materials quantities and unit prices and such other evidence of cost as the County may require.

12.5.4.2 The Contractor shall commence submission of daily time and material tickets immediately upon commencement of the Change Order Work and continue to submit them until completion of the Change Order Work. The County may require authentication of all time and material tickets and invoices by persons designated by the County for such

purpose.

- 12.5.4.3 No payment shall be made to the Contractor for any portion of the Change in the Work unless and until such daily time and material tickets and invoices are submitted. The submission of any such ticket or invoice shall not constitute an acknowledgment by the County that the items thereon were reasonably required for the Change in the Work.
- 12.5.4.4 For any Work performed on a time and material basis, the Contractor shall submit its complete submission of the reasonable actual cost and time to perform the Change in the Work within twenty (20) days after such Work has been completed. The County shall review the costs and time submitted by the Contractor on the basis of reasonable expenditures and savings of those performing the Change in the Work. If such costs and time are acceptable to the County, or if the parties otherwise agree to the actual reasonable cost to perform the Change in the Work, a Change Order will be issued for the cost and time agreed upon. The amounts stated in the Change Order for the cost and time to perform the Change in the Work shall be binding upon the parties.

12.6 UNILATERAL CHANGE ORDER

- 12.6.1 In the event that the parties are unable to agree as to the reasonable cost and time to perform the Change in the Work and the County does not elect to have the Change in the Work performed on a time and material basis, the County may issue a unilateral Change Order based on the reasonable cost and time to perform the Change in the Work as determined by the County. Failure of the parties to reach agreement regarding the cost and time of performing the Change in the Work shall not relieve the Contractor from performing the Change in the Work promptly and expeditiously. Any unresolved dispute resulting from the Unilateral Change Order shall be resolved pursuant to the procedure outlined in Article 13 Claims and Dispute Procedure.

12.7 DECREASES AND WORK NOT PERFORMED (Deductive Change Orders)

- 12.7.1 Should it be deemed expedient by the County to decrease the dimensions, quantity of material or Work, or vary in any other way the Work herein contracted for, the County may direct by written Change Order, such decreases to be made or performed without in any way affecting the validity of the Contract. The Contractor shall, comply with the Change Order from the County. The difference in expense occasioned by such decrease shall be deducted from the amount payable under this Contract.
- 12.7.2 When work is deleted from the Contract by County, the amounts to be credited to the County shall reflect the same current pricing as if the Work

were being added to the Contract at the time the deletion is ordered, and documentation will be required for a credit as specified in Article 12.5.4. If such deleted materials and equipment shall have already been purchased and stored on Site and cannot be used in other projects, returned for credit or cannot be returned for credit at the price paid by the Contractor at the time of purchase, the Contractor shall be entitled, upon proper documentation and certification, to an adjustment in the pricing of the credit to avoid hardship to the Contractor. If necessary in order to establish such reasonable value, the Contractor may be required to submit a detailed breakdown of its original bid for the items or Work involved.

12.7.3 If Work is not performed, and such deletion of Work was not directed or approved by the County, the County shall ascertain the amount of the credit due.

12.7.4 The mark-up for a Deductive Change Order shall be fifty percent (50%) of the mark-up outlined in Article 12.4.4, as applicable.

12.7.5 If a Change Order includes both additions and deletions, the net Base Cost will dictate the mark-up for overhead and profit.

12.8 CHANGES IN LINE AND GRADE

12.8.1 The County reserves the right to make such alterations in the line and grade of various structures or pipe lines shown on the drawings, as may be necessitated by conditions found during construction or that in the judgment of the County appears advisable. Such alterations shall in no way affect the validity of the Contract

12.8.1.1 In case of a unit price contract, if such changes increase the amount of the Work or materials, the Contractor will be paid according to the quantity of Work actually done at the prices established for such Work under the Contract.

12.8.1.2 In case of a lump sum contract, the price for the Work shall be determined as specified in Article 12.4 Proposed Change Order.

12.9 SUBSURFACE CONDITIONS FOUND DIFFERENT

12.9.1 Should the Contractor encounter (a) subsurface and/or latent conditions at the Site materially differing from those shown on the drawings or indicated in the specifications, or (b) unusual physical conditions at the S of an unusual nature, which differ materially from those ordinarily encountered and generally recognized as inherent in the Work of the character provided for in the Contract and which were not reasonably anticipated, he shall immediately give Notice to the County of such conditions before they are disturbed. The County shall thereupon promptly investigate the conditions and if it finds that they materially differ from those shown on the drawings or indicated in the specifications, it shall at once make such changes in the

drawings and/or specifications as he may find necessary. Any increase or decrease of cost resulting from such changes shall be adjusted in the manner provided herein for adjustments as to extra and/or additional work and changes.

12.10 OTHER CLAIMS

12.10.1 If the Contractor claims that additional cost or time is involved because of, but not limited to, (a) any written interpretation pursuant to Article 2 Architect/Engineer, (b) any order by the County to stop the Work pursuant to Article 3 County where the Contractor was not at fault, (c) failure of payment by the County pursuant to Article 9 Payments and Completion, or (d) any written order for a minor change in the Work issued pursuant to Article 12.8. Changes in Line and Grade; the Contractor shall make such claim as provided in this Article 12 Changes and Modification in the Work.

ARTICLE 13: CLAIMS AND DISPUTE PROCEDURE

13.1 NOTICE OF CLAIM

13.1.1 No claim shall be made under this Contract until and unless the Contractor has failed to obtain a Change Order pursuant to Article 12, except for a claim based upon a Notice of Termination. The Contractor shall give the County written Notice of its intent to file a claim within ten (10) calendar days of the occurrence giving rise to the claim or at the beginning of the Work upon which the claim is to be based, or the rejection of its Proposed Change Order, or upon receipt of a Notice of Termination, whichever is earlier.

13.1.2 No claim shall be allowed and no amounts paid for any and all costs incurred if Notice of intent to file a claim is not given to the County as herein provided.

13.2 CLAIM SUBMISSION AND REVIEW PROCESS

13.2.1 The **complete** written claim, with all supporting documentation, shall be submitted to the Purchasing Agent no later than sixty (60) days after final payment or receipt of the Notice of Termination, whichever is earlier ("60-Day Claim Submission Period"). No additional documentation or arguments in support of a claim will be considered if not submitted within the 60-Day Claim Submission Period. If the claim is not disposed of by agreement, the Purchasing Agent shall reduce its decision to writing and mail or otherwise forward a copy thereof to the Contractor within sixty (60) days of the expiration of the 60-Day Claim Submission Period.

13.2.2 The Purchasing Agent's decision shall be final unless the Contractor appeals within thirty (30) days of receipt of the Purchasing Agent's decision by submitting a written letter of appeal to the County Administrator. The County Administrator shall render a decision within sixty (60) days of receipt of the appeal.

13.2.3 A failure by the Purchasing Agent or the County Administrator to render a decision within the time periods set forth above shall be deemed a denial of the claim and shall not result in the Contractor being awarded the relief

claimed. The sole remedy for the County's failure to render a decision as set forth above shall be the Contractor's right to institute legal action. No litigation shall be instituted prior to the exhaustion of the claim submission and review process set forth in this Article 13. The Contractor may not introduce factual matters in such litigation that were not part of Contractor's submitted claim under this Article 13 claims process. Each party shall bear its own costs and expenses resulting from any litigation, including attorney's fees.

ARTICLE 14: UNCOVERING AND CORRECTION OF WORK

14.1 UNCOVERING OF WORK

14.1.1 If any portion of the Work should be covered contrary to: (a) the request of the A/E or County; (b) requirements specifically expressed in the Contract Documents; or (c) the requirements of applicable Construction Permits, it must, if required in writing by the County, be uncovered for their observation and shall be replaced at the Contractor's expense.

14.1.2 If any other portion of the Work has been covered which the County has not specifically requested to observe prior to being covered, the County may request to see such Work and it shall be uncovered by the Contractor. If such Work be found in accordance with the Contract Documents, the cost of uncovering and replacement shall, by appropriate Change Order, be charged to the County. If such Work be found not in accordance with the Contract Documents, the Contractor shall pay such costs unless it be found that this condition was caused solely by the County, in which event the County shall be responsible for the payment of such costs. If such Work be found not in accordance with the Contract Documents and the condition was caused by a separate contractor, Contractor may proceed against said separate contractor as provided in Article 6 Work by County or by Separate Contractors.

14.2 WARRANTY AND CORRECTION OF WORK

14.2.1 The Contractor guarantees and warrants to the County all Work as follows:

- 14.2.1.1 That all materials and equipment furnished under this Contract will be new and the best of its respective kind unless otherwise specified;
- 14.2.1.2 That all Work will be of first-class quality and free of omissions and faulty, imperfect or defective material or workmanship;
- 14.2.1.3 That the Work shall be entirely watertight and leak proof in accordance with all applicable industry customs and practices, and shall be free of shrinkage and settlement which are attributable to defective materials or workmanship;
- 14.2.1.4 That the Work, including but not limited to, mechanical and electrical machines, devices and equipment shall be fit and

fully usable for its intended and specified purpose and shall operate satisfactorily with ordinary care;

14.2.1.5 That consistent with requirements of the Contract Documents the Work shall be installed and oriented in such a manner as to facilitate unrestricted access for the operation and maintenance of fixed equipment; and

14.2.1.6 That the Work will be free of abnormal or unusual deterioration which occurs because of poor quality materials or workmanship.

14.2.2 All Work not conforming to guarantees and warranties specified in the Contract Documents, including substitutions not properly approved and authorized, may be considered defective. If required by the County, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment furnished and installed.

14.2.3 The Contractor shall within five (5) working days after receipt of written notice from the County during the performance of the Work, reconstruct, replace or correct all Work rejected by the A/E or County as defective, as failing to conform to the Contract Documents, or as not in accordance with the guarantees and warranties specified in the Contract Documents whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. The Contractor shall bear all costs of reconstructing, replacing or correcting such rejected Work, including compensation for the A/E's additional services made necessary thereby.

14.2.4 If, within one (1) year after the Date of Substantial or Final Completion of the Work or designated portion thereof or within one (1) year after acceptance by the County of designated equipment or within such longer period of time as may be prescribed by law or by the terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be defective, not in accordance with the Contract Documents, or not in accordance with the guarantees and warranties specified in the Contract Documents, the Contractor shall correct it within five (5) working days after receipt of a written notice from the County to do so unless the County has previously given the Contractor a written acceptance of such condition pursuant to 14.3 Acceptance of Faulty, Defective or Non-Conforming Work. This obligation shall survive termination of the Contract. The County shall give such notice promptly after discovery of the condition.

14.2.5 Subject to limitation as prescribed by law, if at any time deficiencies in the Work are discovered which are found to have resulted from fraud or misrepresentation, or an intent or attempt to defraud the County by the Contractor, any subcontractor or Supplier, the Contractor will be liable for replacement or correction of such Work and any damages which County has incurred related thereto, regardless of the time limit of any guarantee or warranty.

14.2.6 Any materials or other portions of the Work, installed, furnished or stored

on-site which are not of the character or quality required by the specifications, or are otherwise not acceptable to the County, shall be immediately removed and replaced by the Contractor to the satisfaction of the County, when notified to do so by the County.

14.2.7 If the Contractor fails to correct defective or nonconforming Work as required by Articles 14.2.3 and 14.2.4, or if the Contractor fails to remove defective or nonconforming Work from the Site, as required by Article 14.2.6, the County may elect to either correct such Work or remove and store materials and equipment at the expense of the Contractor. If the Contractor does not pay the cost of such removal and storage within ten (10) days thereafter, the County may upon ten additional days written Notice sell such Work at auction or at public or private sale and shall account for the net proceeds thereof, after deducting all the costs that should have been borne by the Contractor, including compensation for the A/E's additional services made necessary thereby. If such proceeds of sale do not cover all costs that the Contractor should have borne, the difference shall be charged to the Contractor and an appropriate Change Order shall be issued. If the payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the County.

14.2.8 The Contractor shall bear the cost of making good all work of the County, separate contractors or others, destroyed or damaged by such correction or removal required under this Article.

14.2.9 Nothing contained in this Section 14.2 shall be construed to establish a period of limitation with respect to other obligations which the Contractor might have under the Contract Documents. Establishment of the time period of one (1) year as described in 14.2.4 relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

14.3 ACCEPTANCE OF FAULTY, DEFECTIVE OR NON-CONFORMING WORK

14.3.1 If the County prefers to accept faulty, defective or nonconforming Work, it may do so instead of requiring its removal and correction, in which case a Change Order will be issued at County's option, to reflect a reduction in the Contract Price in an amount to be determined by the County.

ARTICLE 15: TERMINATION OF THE CONTRACT

15.1 CONTRACTOR'S RIGHT TO STOP WORK OR TERMINATE CONTRACT

15.1.1 If the Work should be stopped under an order of any court or other public authority for a period of ninety (90) days through no fault of the Contractor or anyone employed by Contractor, or if the County should fail to pay to the Contractor within thirty (30) days any sum certified by the Architect/Engineer when no dispute exists as to the sum due or any provision of the Contract,

then the Contractor may, upon ten (10) calendar days written Notice to the County, stop Work or terminate the Contract and recover from the County payment for the cost of the Work actually performed, together with overhead and profit thereon, but profit on the Work performed shall be recovered only to the extent that the Contractor can demonstrate that it would have had profit on the entire Contract if it had completed the Work. The Contractor may not receive profit or any other type of compensation for parts of the Work not performed. The Contractor may recover the reasonable cost of physically closing down the Site, but no other costs of termination. The County may offset any claims it may have against the Contractor against the amounts due to the Contractor. In no event shall termination of the Contract by the Contractor terminate the obligations of the Contractor's surety on its payment and performance bonds.

15.2 COUNTY'S RIGHT TO TERMINATE CONTRACT FOR CAUSE

15.2.1 The County may terminate the Contract for cause if:

- 15.2.1.1 If the Contractor is adjudged as bankrupt, or if it should make a general assignment for the benefit of its creditors, or if a receiver should be appointed on account of its insolvency;
- 15.2.1.2 If the Contractor refuses or fails, except in cases for which extension of time is provided, to supply enough properly skilled workmen or proper materials and equipment to achieve Substantial Completion or Final Completion of the Work within the Contract Times;
- 15.2.1.3 If the Contractor fails to make prompt payment to subcontractors or suppliers of material of labor as required herein;
- 15.2.1.4 If the Contractor should refuse to prosecute the Work or any part thereof with such diligence as will ensure the Substantial Completion or Final Completion of the Work within the Contract Times;
- 15.2.1.5 If the Contractor fails to Substantially Complete the Work within the Time for Completion;
- 15.2.1.6 If the Contractor fails to comply with applicable laws, ordinances, or the written instructions of the Architect/Engineer or the County, or otherwise be in substantial violation of any provision of the Contract;
- 15.2.1.7 If the Contractor fails to complete preconstruction requirements as defined in the Contract Documents;
- 15.2.1.8 If the Contractor fails to maintain the required insurance and bonds as set forth in the Contract Documents;

15.2.1.9 If the Contractor materially breaches any term or provision of the Contract Documents.

15.2.2 In the event a Termination for Cause is warranted based upon the Contractor's conduct set forth above, the County shall give the Contractor and its surety written Notice of Termination for Cause and allow the Contractor and/or its surety a period of ten (10) days (or such other period as may be designated in the Notice) to rectify or cure the basis for the Notice. If Contractor or its surety rectifies or cures the issue(s) to the satisfaction of the County within said ten (10) days (or other period designated in the Notice), the County may rescind its Notice of Termination for Cause. Any rescission of the Notice must be in writing to be effective. **If not rescinded, the Termination for Cause shall become effective at the end of the ten (10) day or other period designated in the Notice without further notice to the Contractor.** In the alternative, the County may, in writing, postpone the effective date of the Termination for Cause, at its sole discretion, if it should receive reassurances from the Contractor and/or its surety that the basis for the termination will be remedied in a time and manner which the County finds acceptable. If at any time after such postponement, the County determines that Contractor and/or its surety has not or is not likely to rectify the causes of termination in an acceptable manner or within the time allowed, then the County may immediately Terminate for Cause, without the necessity of further ten (10) day notice, by notifying the Contractor and its surety in writing of the termination. In no event shall Termination for Cause terminate the obligations of the Contractor's surety on its payment and performance bonds.

15.2.3 Upon Termination for Cause, the Contractor shall immediately cease work and the County shall take possession of the Site and of all materials, tools, and equipment thereon and finish the Work by whatever method it may deem expedient. In such case the Contractor shall not be entitled to receive any further payment until the County has finally completed the Project or Work through its own resources or those of a subsequent contractor. If the County's expense of finishing the Work, including, but not limited to, costs for additional design, managerial, and administrative services, exceeds the unpaid balance of the Contract Price retained by the County, the Contractor shall receive no further payments and shall also be liable to the County to pay the difference between the cost to complete the Work and the unpaid balance of the Contract Price. If the unpaid balance of the Contract Price exceeds the costs of finishing the Work, including costs for additional design, managerial, and administrative services, such excess shall be paid to the Contractor.

15.2.4 If it should be judicially determined that the County improperly terminated this Contract for cause, then the Termination for Cause shall be deemed to be a Termination for Convenience by the County.

15.2.5 Termination of the Contract for Cause is without prejudice to any other right or remedy of the County.

15.3 COUNTY'S RIGHT TO TERMINATE CONTRACT FOR CONVENIENCE

15.3.1 County may terminate this Contract for its convenience, in whole or in part, at any time upon giving the Contractor written Notice of Termination for Convenience. Upon receiving a Notice of Termination for Convenience, the Contractor shall immediately cease Work and remove from the Site all of its labor forces and such of its materials as County elects not to purchase or to assume in the manner hereinafter provided. Upon such Notice, the Contractor shall take such steps as County may require to assign to the County the Contractor's interest in all subcontracts and purchase orders designated by County. After all such steps have been taken to County's satisfaction, the Contractor shall receive as full compensation for termination and assignment the following:

15.3.1.1 Amounts due for Work performed in accordance with the Contract through the date of termination set forth in the Notice.

15.3.1.2 Reasonable compensation for the actual cost of demobilization incurred by the Contractor as a direct result of such termination. The Contractor shall not be entitled to any compensation or damages for lost profits or for any other type of contractual compensation or damages other than those provided by the preceding sentence. Upon payment of the foregoing, County shall have no further obligations to Contractor of any nature.

15.3.2 In no event shall termination for the convenience of the County terminate the obligations of the Contractor's surety on its payment and performance bonds.

15.3.3 After receipt of a Notice of Termination for Convenience, the Contractor shall submit its termination claim to the County utilizing the claims process set forth in Article 13. Upon failure of the Contractor to submit its Notice of Claim and/or its complete written claim within the time period set forth in Article 13, the County may determine, on the basis of information available to it, the amount, if any, due to the Contractor by reason of the termination.

15.4 CONTRACTOR'S RESPONSIBILITIES UPON TERMINATION

15.4.1 After receipt of a Notice of Termination pursuant to this Article 15, the Contractor shall mitigate any damages to the extent reasonably possible.

15.4.2 In addition to its duty to mitigate its damages, the Contractor shall:

15.4.2.1 At the option of the County, assign to the County, in the manner, at the time, and to the extent directed by the County, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the County shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

- 15.4.2.2 Transfer title and deliver to the County in the manner, at the times, and to the extent, if any, directed by the County:
- a. The fabricated or unfabricated parts, Work in process, completed Work, supplies, and other material procured as a part of, or acquired in connection with the performance of the Work terminated by the Notice of Termination; and
 - b. The completed or partially completed drawings, releases, information, manuals, and other property which, if the Contract had been completed, would have been required to be furnished to the County;
- 15.4.2.3 Complete performance of the part of the Work not terminated by the Notice of Termination; and
- 15.4.2.4 Take such action as may be necessary, or as the County may direct, for the protection and preservation of the property related to this Contract which is in the possession of the Contractor and in which the County has or may acquire an interest.
- 15.4.2.5 Perform Site clean-up pursuant to the provisions of Section 4.19.

15.5 DISPUTES UPON TERMINATION

- 15.5.1 The provisions of Article 13, Claims and Dispute Procedures, shall be applicable to any claim, dispute, or other matter arising because of termination under this Article 15.
