

# Debt Service Fund FY 2025 Proposed Budget

### Contents

Debt Service Fund

12-2

### **Debt Management and Capital Financing**

Debt Management is the active implementation of a variety of strategies to manage the County's debt. These strategies include debt policies, issuance limits and guidelines, long-term capital planning, disclosure and compliance policies and procedures, and general management practices. The Loudoun County Board of Supervisors' adopted fiscal policy contains debt policies, which govern how and the extent to which, the County issues debt. Throughout the development of the County's Capital Improvement Program (CIP), the proposed use of debt financing for projects must be evaluated to ensure compliance with the debt policies. These policies contain several important debt ratios, which are among the information analyzed by the credit rating agencies each time the County seeks to sell bonds. Loudoun is one of 53 counties to hold the highest rating (AAA) from all three credit rating agencies ensuring access to the market at favorable rates. More information about these ratios is described in the following pages.

Financing for capital improvement projects have taken the form of general obligation bonds and appropriationbacked bonds including revenue bonds, lease purchase agreements, federal loans, and lease revenue bonds. The County issues debt for both School and General Government capital projects, except for lease purchase financing for vehicles and equipment entered into by the Schools. Of the above-mentioned financing types, general obligation bonds are the only type of debt secured by a pledge of the County's full faith and credit. A County's authorization to issue this type of debt is governed by the Constitution of the Commonwealth of Virginia and the Public Finance Act. Taxpayers must approve the issuance of general obligation bonds by public referendum, except in limited circumstances, such as bonds issued by the Virginia Public Schools Authority. The governing body of the County is authorized and required to meet debt service payments on its general obligation bonds by levying sufficient ad valorem taxes on all taxable property within the County. Funding for debt service payments on appropriation-backed debt is subject to annual appropriation by the County's governing body.

The following pages provide information about the County's debt, including actual and projected debt service payments in the Debt Service Fund, debt policies, the impact of the CIP on debt ratios and guidelines, the planned schedule of financing for capital projects over the CIP period, and information about the County's outstanding debt and referendum authority.

### **Debt Service Fund Budget**

Local tax funding and other resources used for the payment of principal and interest costs (i.e., debt service) of all financed capital improvement projects reside in the Debt Service Fund. The proposed FY 2025 and projected FY 2026 Debt Service Fund expenditures are shown in *Table 1* on the following page. Expenditures are comprised of the actual amount of principal and interest payments due on debt issued in prior years, the projected amount of principal and interest payments due on debt scheduled to be issued in FY 2024 and FY 2025, and certain costs of issuance incurred on that debt.

Expenditures in the Debt Service Fund budget are offset by fund balance, earned interest, interest rebates from the federal government for Build America Bonds issued in 2010 by VML/Vaco on the County's behalf, and Qualified School Construction Bonds issued through VPSA in FY 2012. Periodically, the Fund receives monies in the form of transfers from other funds such as the County and School Capital Project Funds as projects are closed out; landfill fees and rental income designated for debt service; or proceeds/premiums from the sale of bonds. Refunding proceeds, bond premiums, and transfers for project close-outs are unpredictable and are therefore not budgeted. If these resources become available, they become part of the Debt Service Fund balance and are used on other eligible projects to reduce future debt issuances, or are used to make future debt service payments, in accordance with rules and regulations governing municipal borrowing.

#### Table 1. Debt Service Fund Financial Summary 1

|   | FY 2022<br>Actual | FY 2023<br>Actual | FY 2024<br>Adopted | FY 2025<br>Proposed | FY 2026<br>Projected |
|---|-------------------|-------------------|--------------------|---------------------|----------------------|
| Expenditures  |                   |                   |                    |                     |                      |
| Debt Service on County Projects                           | \$81,533,170      | \$92,645,600      | \$104,460,536      | \$114,831,141       | \$129,445,802        |
| Debt Service on School Projects                           | 168,243,796       | 162,227,478       | 146,530,544        | 154,469,583         | 153,491,799          |

| Transfers from Other Funds <sup>7</sup>                   | 28,103,296        | 25,510,991        | 25,253,429         | 25,783,577          | 25,657,147           |
| Bond Issuance Premium and Refunding Proceeds <sup>8</sup> | 51,337,284        | 103,386,317       | -                  | -                   | -                    |
| Total – Revenues  | \$90,483,011      | \$138,285,631     | \$36,916,921       | \$37,493,077        | \$37,360,839         |
| Local Tax Funding   | \$198,693,748     | \$196,470,877     | \$215,208,559      | \$233,815,129       | \$247,235,746        |
| FTE <sup>3</sup>  | -                 | 3                 | 3                  | 3                   | 3                    |

The distribution of debt service expenditures resulting from the existing and planned General Government and School capital project financings through FY 2030 are shown below in Table 2 and Figure 1. Table 2 shows the actual

<sup>&</sup>lt;sup>1</sup> Totals may not add due to rounding.

<sup>&</sup>lt;sup>2</sup> Transfers from the Debt Service Fund are primarily to the Capital Projects Fund or to the General Fund. Beginning FY 2023, there are no transfers made to General Fund for personnel expenditures.

<sup>&</sup>lt;sup>3</sup> FY 2023 and onwards, personnel expenditures for three debt management staff will be charged to the Debt Service Fund as opposed to being transferred from the Debt Service Fund to the General Fund.

<sup>&</sup>lt;sup>4</sup> Cost of Issuance and Other Fees include Underwriter's Discount fees that are deducted directly from bond proceeds and other fees for services used to issue or manage the County's debt.

<sup>&</sup>lt;sup>5</sup> The County receives a federal interest subsidy related to the General Obligation Qualified School Construction Bond, Series 2011-2 issued through VPSA, and the 2010 VML/VACo Bonds issued on the County's behalf.

<sup>&</sup>lt;sup>6</sup> Per the lease agreement with DC Soccer, the team will make rental payments to the County for the use of facilities at Bolen Park, which will pay the debt service on the bonds issued to construct the facilities.

<sup>&</sup>lt;sup>7</sup> Transfers into the Debt Service Fund are primarily from the Capital Project Fund for debt service associated with Landfill construction, the General Fund for facility lease fees, and the Transportation District Fund for Metrorail tax revenue to cover debt service associated with the construction of the Metrorail project and Metrorail Parking Garages.

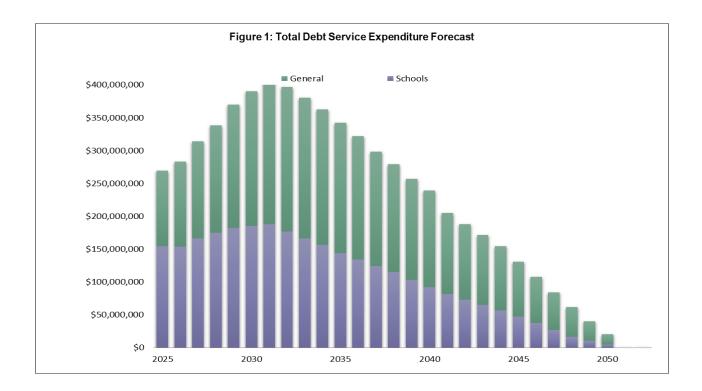

<sup>&</sup>lt;sup>8</sup> Represents bond premium received from issuance in FY 2022 and FY 2023, as well as refunding proceeds.

debt service due on previously issued debt and projected debt service on anticipated issuances attributable to general government and schools for FY 2025-FY 2030. Figure 1 presents this same information through FY 2048, when the last payment will be made on currently outstanding debt.

#### Table 2. FY 2025-2030 Debt Service Expenditures <sup>1</sup>

|                              | FY 2025       | FY 2026       | FY 2027       | FY 2028       | FY 2029       | FY 2030       |

| Actual Debt Service Due      | \$139,254,351 | \$118,267,562 | \$109,704,605 | \$96,311,210  | \$90,381,169  | \$81,037,371  |
| Projected Debt Service       | 15,215,233    | 35,224,237    | 56,532,564    | 78,388,889    | 91,798,384    | 104,308,694   |
| Subtotal                     | \$154,469,584 | \$153,491,799 | \$166,237,169 | \$174,700,099 | \$182,179,553 | \$185,346,065 |
|                              |               |               |               |               |               |               |
| Total - Debt Service         | \$269,300,725 | \$282,998,166 | \$314,181,843 | \$338,306,028 | \$370,094,869 | \$390,417,649 |

<sup>&</sup>lt;sup>1</sup> Sums may not equal due to rounding.

### **Debt Management**

While the Commonwealth of Virginia imposes no statutory limitation on the amount of debt a County may incur, Loudoun County establishes several debt ratio guidelines through its Fiscal Policy.<sup>1</sup> Below, the County's debt ratios are explained.

#### Loudoun County Debt Ratios

(Revised and adopted by the Board of Supervisors on October 18, 2022)

The County's debt capacity shall be maintained within the following primary goals:

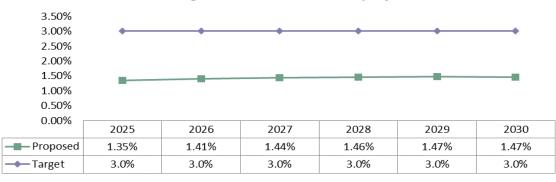

• Annual debt issuance guideline is set at \$350 million for FY 2025 and \$400 million for FY 2026 and beyond, to be reviewed by the Board in FY 2026. For planning purposes, \$400 million is assumed to remain in effect for FY 2027 through FY 2030.

This guideline represents the maximum amount of "new" debt that can be issued each year, excluding debt for projects supported by a specific revenue source, major economic development projects, or the purchase of assets demonstrated to produce net present value savings. Establishing an annual debt issuance guideline allows the County to actively manage the annual growth of its debt burden. The FY 2025 proposed Capital Budget abides by all County fiscal policies and debt ratios.

|                         | FY 2025       | FY 2026       | FY 2027       | FY 2028       | FY 2029       | FY 2030       |
|-------------------------|---------------|---------------|---------------|---------------|---------------|---------------|
| Debt Issuance Guideline | \$350,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 |
| Debt Issuance Projected | \$350,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 | \$400,000,000 |
| Remaining Debt Capacity | \$0           | \$0           | \$0           | \$0           | \$0           | \$0           |

• Net debt as a percentage of estimated market value of taxable property should not exceed 3.0 percent.

This ratio means that the amount of outstanding debt cannot exceed 3.0 percent of the value of the County's taxable real and personal property. The assessed value of taxable property is an indication of the County's ability to generate revenue. This ratio ensures that the County's outstanding debt is not too high compared to the assessed value, which can lead to overburdening the tax base and reducing the County's flexibility to use revenues for operations, or to meet future capital needs. The credit rating agencies consider this ratio to be very important and often cite the County's adherence to this ratio in their ratings reports.

<sup>1</sup> The Fiscal Policy is provided in the Volume 1 of this document in the Executive Summary.

• Net debt per capita as a percentage of income per capita should not exceed 8.0 percent.

This ratio means the amount of outstanding debt per person, cannot exceed 8.0 percent of the estimated income for each person based on population and income projections. This indicator measures the community's ability to support existing and additional indebtedness.

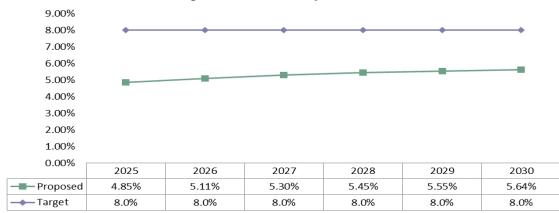

Figure 3: Debt to Per Capita Income

• Debt service expenditures as a percentage of governmental fund expenditures should not exceed 10.0 percent.

This ratio means the amount of debt service (principal and interest payments) in each fiscal year, cannot exceed 10.0 percent of total governmental funds expenditures. This includes all appropriated funds, not just the General Fund. Because debt service is considered a fixed cost (i.e., not discretionary) the established ratio ensures that the County does not lose budgetary flexibility to maintain or increase service levels by having a significant portion of its budget dedicated to debt service payments. This ratio works in tandem with the debt to assessed value ratio. The credit rating agencies also consider this ratio to be very important and often cite the County's adherence to this policy target as a measure of the County's ability to maintain an affordable debt burden.

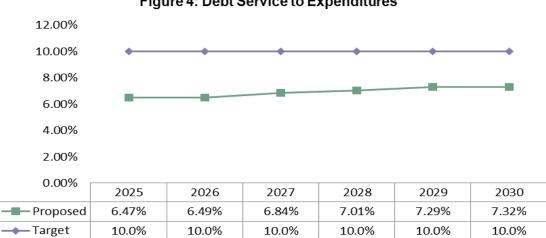

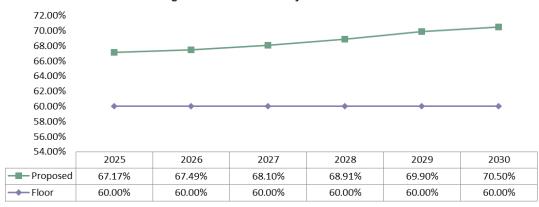

Figure 4: Debt Service to Expenditures

• Ten-year debt payout ratio should be above 60.0 percent.

This ratio means the amount of principal paid off in a ten-year period should be more than 60.0 percent of the projected debt outstanding. Per the Fiscal Policy, the County uses a level principal repayment structure for debt service whenever possible; thus, allowing the County to pay down principal faster.

#### Impact of the Capital Improvement Plan on the County's Debt Ratios

The development of the six-year Capital Improvement Program (CIP) and the inclusion of new debt financed projects must be analyzed and evaluated against previously authorized debt financed projects and the existing required debt service to ensure the inclusion of the new projects complies with the County's fiscal and debt policies. The results are shown on the *Impact on Future Debt Ratios* table on the following page (Table 3).

*Table 3* begins with the projected amount of tax supported debt outstanding, and then shows the impact of adding the debt-financed capital projects contained in the FY 2025 – FY 2030 Proposed CIP to the existing debt for projects appropriated and financed in prior years. In addition, the table depicts vital demographic and economic indicators for Loudoun County that are necessary in assessing the County's ability to retire old debt and issue new debt.

• Beginning Net Tax Supported Debt and Ending Net Tax Supported Debt

The Beginning Net Tax Supported Debt is the amount of principal projected to be outstanding at the beginning of each fiscal year. The Ending Net Tax Supported Debt is the amount of principal projected to be outstanding at the end of each fiscal year. The New Debt Issued, represents the amount of all new debt scheduled to be issued for the projects contained in the CIP. Retired Old Debt is the actual amount of principal on existing debt scheduled to be paid during that fiscal year. Retired New Debt is the projected amount of principal to be paid on the new debt that is issued during the fiscal year. Note that principal on new debt issued in the first year will not be paid in that year but will commence the following year. The Ending Net Tax Supported Debt represents the outstanding existing debt, plus new debt issued, less the retired debt.

• Debt Service

Debt service represents the amount of principal and interest that is expected to be paid during the year. This includes debt related to general obligation bonds and appropriation-backed debt such as lease revenue bonds, financing agreements, installment purchase agreements and loans.

• Ratios

The ratios section of the table shows the results of how the debt included in the CIP, coupled with the County's existing debt comply with the Board's fiscal policy targets. Throughout the development of the CIP, these ratios are constantly monitored to see how changes to project funding and timing impact the ratios. For more information on how the CIP is developed and the factors affecting the development of the CIP, see the Capital Improvement Program Executive Summary included in Volume 2 of the budget document.

• Annual Debt Issuance Guideline

As described above, the Board's fiscal policy has an annual debt issuance guideline of \$350 million in FY 2025 and \$400 million in FY 2026 and beyond excluding debt issued for projects supported by a specific revenue source, certain economic development projects, and the purchase of assets demonstrated to produce net present value savings. This section of the table shows the amount of debt projected to be issued each year and the remaining capacity under the guideline.

#### Table 3. Impact on Future Debt Ratios

|   |                 | IMPACT ON FUTUR | E DEBT RATIOS   |                 |                 |                 |

 1) Debt includes General Obligation bonds and Appropriation-backed financing.

 2) The annual debt issuance guideline includes projects in the CIP with the exception of the Dulles Corridor Metrorail Project, the Loudoun County-based Metrorail garages, the County Landfill, and certain economic development projects.

#### **Debt Issuance by Category**

Table 4 shows the projected amount of debt to be issued each year within each of the major categories of the CIP. The General Government category contains the functional areas of Administration; General Government; Health and Welfare; Parks, Recreation and Culture; and Public Safety. The Transportation category contains road, sidewalks, signals, traffic calming, and transit projects. The Schools category contains elementary, middle, and high school projects as well as other school facility projects.

#### Schedule of Major Financings

Table 5 shown on the following pages show the planned schedule of financing for capital projects. Information about each project is provided, including the name of the project, total project costs, total amount to be financed during the CIP period, planned start of construction, and referendum year and amount, if applicable. This schedule is a projected plan of issuance and is subject to change as various factors can impact the County's ability to adhere to the schedule, including project delays or advancements, structure of the debt issuance, and other rules and regulations governing municipal borrowing that may require a change in the planned issuance. The County works closely with Bond Counsel and financial advisors to achieve favorable results for the County from each issuance.

#### **Debt Service Projections**

Table 6 shows the projected debt service due for each project based on when the debt is planned to be issued. Included in the table is the total amount of principal and interest due for each project and a breakout of the amount that will be due in each year from FY 2025 through FY 2030. Table 7 summarizes the debt service projections by functional area for the County and the Schools.

#### **Outstanding Debt and Referendum Authority**

Table 8 below summarizes the outstanding debt by type. Outstanding debt represents the amount of existing debt (principal) the County is obligated to repay. General obligation bonds are issued directly by the County, VPSA general obligation bonds were issued through the Virginia Public School Authority, financing agreements were issued through the Economic Development Authority of Loudoun County, Revenue Obligations were issued through the Virginia Resources Authority (VRA) and installment purchase agreements are issued by Loudoun County Public Schools.

#### Table 8. Outstanding Debt as of December 31, 2023

| Type of Debt                    | Total \$        | Total % |
|---------------------------------|-----------------|---------|
| General Obligation Bonds        | \$1,142,980,000 | 64.1%   |
| VPSA General Obligation Bonds   | 17,475,000      | 1.0%    |
| Financing Agreements            | 597,030,000     | 33.5%   |
| Revenue Obligations             | 1,980,000       | 0.1%    |
| Installment Purchase Agreements | 22,647,533      | 1.3%    |
| Total                           | \$1,782,112,533 | 100.0%  |

\*Totals may not add due to rounding.

Table 9 displays the amount of general obligation bonds approved by voter referendum and the amount unissued. Referendum authority is valid for a period of eight years and may be extended to 10 years upon approval of a resolution by the Board of Supervisors requesting the Circuit Court to extend the period. This information is different from the table above because it represents general obligation debt the County has the authority to issue but has not issued; whereas the table above represents debt the County has issued and includes all types of debt. The table below is categorized by year and functional area.

 Table 9. Outstanding Referendum Authority as of December 31, 2023

| Referendum Year              | Functional Area | Approved Referendum Amount | Amount Authorized and<br>Unissued |
|------------------------------|-----------------|----------------------------|-----------------------------------|
| 2016                         | Schools         | \$76,115,000               | \$38,224,000                      |
