SUMMER 2024

loudoun.gov/PRCS

Summer 2024

Summer, the brightest season, is a time for fun, celebration and optimism. Whether you are beating the heat at one of our outdoor pools, finding community in one of our Caregiver support programs, or experiencing a new recreational activity, your Department of Loudoun County Parks, Recreation, and Community Services strives to serve you and your family this summer.

On June 20, the summer solstice, we hope you will join us in celebrating “play” through a statewide initiative from the Virginia Recreation and Park Society called *Play All Day VA*. In July, we will celebrate National Park and Recreation Month and connect all communities following this year's theme of “Where You Belong”. Be sure to join us throughout the month for exciting programs and activities across Loudoun County.

In addition to these programs, we look forward to our numerous fireworks celebrations and Independence Day festivities at your parks and facilities. Whether it is fireworks with Franklin Park, Lovettsville Community Park, Hal & Berni Hanson Regional Park, and the Sterling Community Center, or the 4th of July Celebration at Claude Moore Park, we hope you and your family will join PRCS to celebrate Independence Day.

We look forward to the improvements and progress of several facilities throughout the county, such as the Ashburn Recreation and Community Center, the Western Loudoun Recreation Complex, and the Dulles South Community Park. These projects will maintain our standard for excellence as we work to make Loudoun the community of choice through outstanding experiences.

Welcome to the Crazy 8's Club at Loudoun Valley Community Center! If you're looking for a unique and engaging way to help your child overcome their anxiety around math while having a blast, then this club is perfect for them. Inspired by the popular bedtime math concept, Crazy 8's Club takes a different approach by finding things that kids already find fun and incorporating math into them. Our goal is to make math enjoyable and exciting, rather than a daunting task. Each week, we will explore different math concepts through interactive and hands-on activities. From puzzles and games to real-life applications, your child will have the opportunity to discover the beauty of math in a social and supportive environment. Instructor: Kimberly
