  - (2) If any court of competent jurisdiction shall adjudge invalid the application of any provision of this Ordinance to a particular property, building or structure, such judgment shall not affect the application of said provision to any other property, building or structure.
- (K) **Conflicting Provisions.** In interpreting and applying the provisions of this Ordinance, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity, or general welfare. Whenever any provision of this Ordinance imposes a greater requirement or a higher standard than is required in any State or Federal Statute or other County ordinance or regulation, the provision of this Ordinance shall govern. Whenever any provision of any State or Federal statute or other County ordinance or regulation imposes a

greater requirement or a higher standard than is required by this Ordinance, the provision of such State or Federal statute or other County ordinance or regulation shall govern.

- (L) **Proffered Conditions.** The text of this Zoning Ordinance shall apply to any parcel covered by a previous grant of zoning with proffered conditions pursuant to Section 15.2-2303 of Va. Code Ann. except where the imposition of the requirements of this Ordinance would be in conflict with a specific proffered condition, in which case, the proffered condition would supersede the requirements of this Ordinance.
- (M) **Existing PD-H Zonings.** Notwithstanding the designation shown on the zoning map adopted in conjunction with the adoption of this Ordinance, any proffered PDH zoning existing June 16, 1993 shall continue to have all applications for Zoning Ordinance Modifications, Proffer Amendments, Concept Plan Amendments, Preliminary Subdivisions, and Record Subdivisions processed in accord with the approved rezoning and the Loudoun County Zoning Ordinance in effect immediately prior to the effective date of this Ordinance, until June 16, 2008, unless the owner(s) of all the property within such proffered PDH zoning district elected to waive the protection of this section. Upon the expiration of the above time period, this Ordinance shall supersede the prior ordinance with respect to such PDH rezonings, unless such time is extended by resolution of the Board of Supervisors, upon written request of the owner(s) of all property within such PDH zoning district. Elections to waive the protection of this section must have been filed with the Zoning Administrator by June 16, 2004, with an affidavit indicating that all affected owners signed the notice. Such election shall require the property to be developed pursuant to the approved conditions of the rezoning for such development and under the provisions of this Ordinance for the new zoning district as shown on the zoning map; shall be permanent; and shall not relieve the owner(s) of any obligations under the previously accepted proffers.
- (N) **Route 28 Taxing District.** As required by state law and the legislation establishing the Route 28 Transportation Improvement District, (i) the Loudoun County Zoning Ordinance, promulgated in 1972, as it existed on (x) the date such District was established or, (y) in regards to any particular parcel, the most recent change in zoning of such parcel, whichever occurred latest in time, shall remain in full force and effect with respect to all commercially and industrially zoned properties situated in such District that are subject to the 1972 Loudoun County Zoning Ordinance and (ii) as to any

commercially and industrially zoned parcels in the District that are subject to the 1993 Loudoun County Zoning Ordinance as of January 7, 2003 such ordinance as it existed on (x) June 16, 1993 or (y) in regards to any particular parcel, the most recent change in zoning of such parcel, whichever occurred later in time shall remain in full force and effect with respect to such parcels.

- (1) Any for commercially or industrially zoned property administered under the 1972 Loudoun County Zoning Ordinance shall continue to have all applications for Zoning Ordinance Modifications, Proffer Amendments, Concept Plan Amendments, Preliminary Subdivisions, and Record Subdivisions processed in accord with the approved rezoning and the Loudoun County Zoning Ordinance in effect immediately prior to June 16, 1993. For any commercially or industrially zoned property administered under the 1993 Loudoun County Zoning Ordinance, all applications for zoning ordinance modifications, proffer amendments, concept plan amendments and special exceptions shall be processed in accordance with the provisions of Article VI in effect at the time any such application is submitted and considered.
- (2) Notwithstanding this provision, the owner(s) of all the property within a proffered commercial or industrial zoning district within the Route 28 Tax District, or the owner(s) of any other commercially or industrially zoned property within the Route 28 Tax District, may elect to waive the protection of this section by filing a written notice of such election, accompanied by an affidavit indicating that all owners have signed the notice, with the Zoning Administrator by January 7, 2004. Such election shall be permanent, and shall not relieve the owner(s) of any obligations under previously accepted proffers. If presently subject to the 1972 Loudoun County Zoning Ordinance, such election shall require the property to be developed pursuant to the conditions of the approved rezoning for such development, if applicable, and under the provisions of this Ordinance for the new zoning district as indicated below:

**(O) Vested Rights Not Impaired.**

A landowner's rights shall be deemed vested in a land use and shall not be affected by an amendment to this Ordinance when the landowner (i) obtains or is the beneficiary of a significant affirmative governmental act which remains in effect allowing development of a specific project; (ii) relies in good faith on the significant affirmative governmental act; and (iii) incurs extensive obligations or substantial expenses in diligent pursuit of the specific project in reliance on the significant affirmative governmental act.

For purposes of this section, the following are deemed to be significant affirmative governmental acts allowing development of a specific project; (i) the governing body has accepted proffers or proffered conditions which specify use related to a zoning amendment; (ii) the governing body has approved an application for a rezoning for a specific use or density; (iii) the governing body or board of zoning appeals has granted a special exception or use permit with conditions; (iv) the board of zoning appeals has approved a variance; (v) the governing body or its designated agent has approved a preliminary subdivision plat, site plan or plan of development for the landowner's property and the applicant diligently pursues approval of the final plat or plan within a reasonable period of time under the circumstances; or (vi) the governing body or its designated agent has approved a final subdivision plat, site plan or plan of development for the landowner's property.

In conjunction with the request for approval of a site plan, subdivision or building permit, the Zoning Administrator may make findings of facts, and, with concurrence of the County Attorney,

conclusions of law regarding determinations of vested rights accruing under Va. Code § 2307.

**(P) Approved Subdivisions and Site Plans.**

Nothing in this Ordinance shall interfere with the terms of validity of any subdivisions or site plans, as provided by State law.

**(Q) Effective Date.**

This ordinance shall become effective upon its adoption. Any amendments to this Ordinance shall be effective upon their adoption.

## **Section 1-200**

### **Interpretation of Ordinance.**

- 1-201 Provisions are Minimum Requirements.** In their interpretation and application, the provisions of this Ordinance shall be held to be the minimum requirements for the promotion of the public health, safety, comfort, morals and general welfare, as set forth in the provisions hereof establishing the intent and purpose of this Ordinance in general and its various sections in particular.
- 1-202 Interpretation of Terms.** For the purpose of this Ordinance, certain words and terms are to be interpreted as follows:
- (A) Words used in the present tense include the future; words used in the masculine gender include the feminine and neuter; words in the singular number include the plural; and words in the plural include the singular, unless the obvious construction of the wording indicates otherwise.
  - (B) The word "shall" is mandatory.
  - (C) Unless otherwise specified, all distances shall be measured horizontally and at right angles or radially to the line in relation to which the distance is specified.
  - (D) Unless otherwise specified, the term "day" shall mean working day.
  - (E) The word "lot" includes the word plot; the word "used" shall be deemed also to include designed, intended, or arranged to be used; the term "erected" shall be deemed also to include constructed, reconstructed, altered, placed, relocated or removed.
  - (F) The terms "land use" and "use of land" shall be deemed also to include building use and use of building.
- 1-203 Unspecified Uses.** Subject to the Zoning Administrator's interpretive powers as provided for herein, no uses are permitted unless included in a district use list or accessory use list.
- 1-204 Adding Unspecified Uses to the District Regulations.** Uses other than those allowed in the applicable district may be added to a district upon adoption of a text amendment approved by the Board of Supervisors.
- 1-205 Limitations and Methods for Measurements of Lots, Yards and Related Terms.** Notwithstanding this section of the Ordinance, required buffer yards are a separate regulation in the Ordinance which may require a different width than a required yard, setback or building restriction line.

- (A) **Lot Access Requirements.** No structure requiring a building permit shall be erected upon any lot which does not have frontage on a Class I, Class II, Class III road, or private access easement as specified in the individual district regulations, except as specifically provided for herein and the Land Subdivision and Development Ordinance (LSDO).
- (1) New access points (private or public) to arterial or major collector roads shall be limited to locations at existing median breaks, planned median breaks or other locations approved by Loudoun County or VDOT.
- (B) **Regular Lots, Width Measurements.** The width of a regular lot shall be determined by measurement across the rear of the required front yard. The distance between side lot lines at the points where they intersect with a street line shall not be less than eighty percent (80%) of the required width, measured along the street line. However, in cases where lots front on curved or circular (cul-de-sac) streets, the radii of which do not exceed ninety (90) feet, the distances between side lot lines where they intersect with the street line may be reduced to sixty percent (60%) of the required width, measured along the street line. Yards and street lines shall be measured along the arc of the curve for curvilinear yards and street lines. Lot width shall be measured only along continuous frontage facing one street. The minimum width of a lot on a private access easement shall be determined by measurement along the front yard around the private access easement extended into the lot.
- (C) **Regular Lots, Determination of Front Yard.**
- (1) On regular interior lots, the front shall be construed to be the portion nearest the street.
- (2) On regular corner lots, except as provided for in subparagraph (3) below, the front shall be construed to be the shorter boundary fronting on a street. If the lot has equal frontage on two or more streets, the front of the lot shall be determined and shown on the subdivision plat or site plan by the prevailing building pattern, or the prevailing lot pattern if a building pattern has not been established.
- (3) In an agricultural zoning district (A-3, A-10, AR-1 and AR-2), the front of the lot shall be determined and shown on the subdivision plat or site plan by the prevailing building pattern, or prevailing lot pattern if a building pattern has not

been established, provided that the shortest boundary fronting on a street in an agricultural zoning district is eighty percent (80%) or more of the required lot width.

- (4) On regular through corner lots, the front shall be construed to be the shorter boundary fronting the street, provided that if the shortest boundary fronting on a street is eighty percent (80%) or more of the length of the longest boundary fronting on a street, the applicant may select either frontage if lot width requirements are met.
- (5) On regular through lots, unless otherwise determined by the Zoning Administrator due to the prevailing building pattern, the front shall be construed to be the shorter boundary fronting on a street. If the lot has equal frontage on two streets, the front of the lot shall be determined and shown on the preliminary and final subdivision plats and site plans by the prevailing building pattern, or the prevailing lot pattern if a building pattern has not been established.

**(D) Regular Lots, Yards Adjacent to Street.**

- (1) Front yards of at least the depth required in the district shall be provided across the entire frontage of a regular lot.
- (2) Other yards adjacent to streets shall be provided across or along the entire portion of the lot adjacent to the street.
- (3) Street line for measurement of required yards adjacent to streets. Where the lot line adjacent to a street is straight, required yards shall be measured from such line, extended in the case of rounded corners. On convex or concave lots, front, side and rear yards, as applicable, shall be parallel to or concentric with, the street line. Depth of required yards adjacent to streets shall be measured perpendicular or radially to such straight street lines.

**(E) Rear Yards on Interior Regular Lots.** Rear yards on interior regular lots shall be provided of at least the depth required for the district, and shall run across the full width of the lot at the rear. Depth of a required rear yard shall be measured in such a manner that the yard is a strip of land with minimum depth required by district regulations with its inner edge parallel to or concentric with its outer edge.

- (F) **Yards on Corner Lots.** Corner lots shall be deemed to have no rear yards, only two (2) front yards which are adjacent to the streets and two (2) side yards, provided that if two (2) different side yards are required in a district, the larger available yard shall be used. Notwithstanding anything to the contrary contained in this Ordinance, setbacks on corner lots shall be sufficiently large to comply with VDOT sight distance requirements or Section 5-300 whichever is greater.
- (G) **Side Yards on Regular Lots.** Side yards on regular lots are defined as running from the required front yard line to the required rear yard line. On regular through lots the required side yard shall run from the required front yard line to the second required front yard line. On corner lots the required side yards shall run from the point where side yard lines intersect, to the required front yard lines.
- (H) **Irregular Lots, Dimensional Requirements.** An irregular lot shall be considered to meet the dimensional requirements of the district in which located, provided:
- (1) Lot area shall meet district requirements for the proposed use. Lot width need not meet district requirements if requirements set forth below are met.
  - (2) Open space in required yards and elsewhere on the lot shall be not less than as required for the use in the district on a regular rectangular lot of required minimum width and area.
  - (3) Building area remaining after required yards have been provided shall have dimensions and locations appropriate for all buildings proposed.
- (I) **Irregular Lots, Yard Requirements.** In general, all yards shall provide at least the same separation from all lot lines as required for minimum side yards in the district, provided, however, that where district regulations permit building to the lot line of a regular lot under specified circumstances, the same regulations shall apply on an irregular lot, except as provided with relation to accessory buildings and structures in Section 5-200. Additionally, if an irregular lot abuts a street at any point, a distance equal to the required yard on a regular lot adjacent to a street in the district shall be provided.
- (J) **Road Corridor Buffer and Setback and Other Setback Measurement From Streets.** All Road Corridor Buffers and

Setbacks and other setbacks from public streets shall be measured from the wider of (a) the existing dedicated right-of-way, or (b) the right-of-way proposed in the Comprehensive Plan or (c) the minimum dedicated right-of-way permitted for VDOT acceptance of the right-of-way for maintenance. For public streets, if no dedicated right-of-way exists, or if no construction plans are approved for the road or if less than the minimum right-of-way exists, the right-of-way shall be assumed to be centered on the existing travelway. All Road Corridor Buffers and Setbacks and other setbacks from private roads shall be measured from the outer edge of the associated easement.

(K) **Length to Width Ratio Measurement.** The width of a regular lot shall be determined by measurement across the rear of the required front yard. If the lot is of regular dimensions, the lot length is the horizontal distance between the front lot line and the rear lot line. If the lot is of irregular dimensions, the lot length is defined by determining the average of a representative number of distances between the front lot line and the rear lot line as measured in a straight line.

(L) **Reduction in Minimum Yard, Setback, and Buffer Requirements Based on Error in Building Location.** Notwithstanding any other provision of this Ordinance, the Zoning Administrator shall have the authority, as qualified below, to approve a reduction in the minimum yard, setback, and buffer requirements in the case of any building existing or partially constructed which does not comply with such requirements applicable at the time such building was erected. Such a reduction may be approved in accordance with the following provisions:

- (1) The Zoning Administrator determines that:
  - (a) The error does not exceed ten (10) percent of the applicable minimum yard, setback or buffer, and
  - (b) The noncompliance was done in good faith, or through no fault of the property owner, or was the result of an error in location of the building subsequent to the issuance of a Building Permit, if such was required, and
  - (c) It will not be detrimental to the use and enjoyment of the other property in the immediate vicinity, and

- (d) It will not create an unsafe condition with respect to both other property and public streets, and
  - (e) To force compliance with the minimum yard requirements would cause unreasonable hardship upon the owner, and
  - (f) The reduction will not result in an increase in density or floor area ratio from that permitted by the applicable zoning district regulations.
- (2) In approving such a reduction under the provision of this Section, the Zoning Administrator shall allow only a reduction necessary to provide reasonable relief and, as deemed advisable, may prescribe such conditions, to include landscaping and screening measures to assure compliance with the intent of this Ordinance.
  - (3) Upon the approval of a reduction for a particular building in accordance with the provision of this Section, the same shall be deemed to be a lawful building.
  - (4) The Zoning Administrator shall have no power to waive or modify the standards necessary for approval as specified in this Section.
  - (5) If there is an error greater than ten (10) percent of the measurement that is involved, a reduction may be granted by the BZA in accordance with the provisions of Section 6-1600.

**1-206**

**Calculations of Density.** Calculations of density in individual zoning districts shall be subject to the following:

- (A) Calculations of gross and net densities, gross and net residential area, lot area, floor area ratios, and similar measures shall be made in accordance with the formulas provided within the definitions of these terms in Article VIII of this Ordinance.
- (B) **Highway Transportation Improvement District.** This section is applicable solely for determining density credit for certain public road dedications within highway transportation improvement districts established in accord with Section 15.2-4600 et seq. of the Code of Virginia.

- (1) In those zoning districts, including planned development districts, where density or intensity of land use is controlled by number of dwelling units or floor area ratio, or other similar measure, such computations with respect to a lot from which land has been severed for the purpose of constructing or improving any primary highway interchange or portion thereof, shall be based upon the lot area including the area severed for such purpose when:
  - (a) The lot lies within or adjacent to an established highway transportation improvement district; and
  - (b) The area dedicated or conveyed is necessary for the installation or improvement of the primary highway interchange improvement and is in accordance with the adopted comprehensive plan; and
  - (c) The Board has specifically approved by resolution computation of density or intensity for the lot based upon the lot area existing prior to dedication or conveyance; and
  - (d) An effective irrevocable dedication in fee simple to public use or conveyance to Loudoun County or to another public instrumentality having the power to construct or maintain the highway use has occurred and evidence of such dedication or conveyance is of record among the land records of the County.
- (2) Calculations of allowable floor area shall be based on the floor area ratio as established by the zoning district in effect at the time a site plan is officially accepted for the lot.
- (3) For the purposes of this section, the terms "lot" and "lot area" may include all adjacent parcels owned in common and which are the subject of an approved unified concept development plan specifying the allocation of density calculated pursuant to this section; the term "interchange" shall mean a grade separated limited access intersection with one or more turning roadways for travel between portions of such intersection, and shall include all related improvements such as access or service roads necessitated by the interchange; and the term "area dedicated" shall include all property in excess of the right-of-way for a normal width typical highway section.

- (4) In no case shall conveyances or dedications to a public body made in exchange for monetary compensation be eligible for density computation under this section.
  - (5) Further, conveyances or dedications made or committed to by the landowners or predecessors in interest as part of an approved condition of a subdivision application, special exception application, or a zoning map amendment petition shall not be considered eligible for density computation under this section provided that an effective irrevocable dedication or conveyance made during the pendency of an application shall not decrease the lot area for purposes of density or intensity computation.
- (C) **Public Uses.** This section is applicable solely for determining density credit for public uses in any zoning district.
- (1) In those zoning districts, including planned development districts, where density or intensity of land use is controlled by number of dwelling units per acre or floor area ratio, or other similar measure, such computations with respect to a lot from which land has been severed for the purpose of constructing or improving any public use or portion thereof, including roads shown on the adopted Comprehensive Plan, shall be based upon the lot area including the area severed for such purpose when:
    - (a) The area dedicated or conveyed is necessary for the installation or improvement of the public use, including roads shown on the adopted Comprehensive Plan, and is in accordance with the adopted comprehensive plan; and
    - (b) The area dedicated or conveyed is suitable in location, size, shape, condition and topography for such needed public use and there are no encumbrances to the title which would interfere with such use; and
    - (c) The Board has specifically approved, by resolution, the computation of density or intensity for the lot based upon the lot area existing prior to dedication or conveyance; and

- (d) An effective irrevocable dedication in fee simple to public use or conveyance to Loudoun County or to another public instrumentality has occurred and evidence of such dedication or conveyance is of record among the land records of Loudoun County.
- (2) Calculations of allowable density shall be based on the following:
  - (a) For development which requires a site plan, allowable density shall be calculated in accord with the zoning district in effect at the time a site plan is officially accepted for the lot; or
  - (b) For development which does not require a site plan, allowable density shall be calculated in accord with the zoning district regulations in effect at the time a record plat of subdivision is officially accepted for the lot.
- (3) For the purposes of this section, the terms "lot" and "lot area" may include all adjacent parcels owned in common and which are the subject of an approved unified concept development plan specifying the allocation of density calculated pursuant to this section.
- (4) In no case shall conveyances or dedications made to a public body in exchange for monetary compensation be eligible for density computation under this section.
- (5) Further, conveyances or dedications made or committed to by the landowners or predecessors in interest as part of an approved condition of a subdivision application, special exception application, or a zoning map amendment petition shall not be considered eligible for density computation under this section provided that an effective irrevocable dedication or conveyance made during the pendency of an application shall not decrease the lot area for purposes of density or intensity computation.

**1-207**

**Applicability of Floor Area Ratio.** Wherever a Floor Area Ratio requirement is specified in this Ordinance, such requirement shall not apply to residential uses unless such requirement specifically states that it shall apply to residential uses.

**1-208**

**Applicability of Additional Regulations for Specific Uses in Section 5-600.** All of the uses that are included in Section 5-600, Additional Regulations for Specific Uses, shall be subject to those additional regulations, regardless of whether the use lists in the zoning districts specifically reference the applicable regulations in Section 5-600, except in the case where the regulations in Section 5-600 specifically limits applicability to particular zoning districts.

## **Section 1-300**

### **Zoning Map and District Boundaries.**

#### **(A) Zoning Map.**

- (1) The County is hereby divided into the zoning districts listed in Articles II, III & IV of this Ordinance and as shown on the map entitled "Zoning Map, Loudoun County, Virginia", which, together with all explanatory matter thereon, is hereby adopted by reference and declared to be part of this Ordinance.
- (2) The Zoning Map shall be located in the office of the Zoning Administrator and shall be the final authority as to the current zoning status of land and water areas, buildings and other structures in the County save for subsequent amendments enacted by the Board of Supervisors and not yet officially recorded on said map.
- (3) No changes of any nature shall be made on said Zoning Map or any matter shown thereon except in conformity with the procedures and requirements of this Ordinance. It shall be unlawful for any person to make unauthorized changes on the Zoning Map.

#### **(B) Zoning District Boundaries.** Where uncertainty exists as to the boundaries of zoning districts as shown on the Zoning Map, the following rules shall apply:

- (1) Boundaries indicated as approximately following the center lines of streets, highways, or alleys shall be construed to follow center lines of rights-of-way or prescriptive easements. In case of closure of a street or alley, or vacation of an easement, the boundary shall be construed as remaining at its prior location unless ownership of the closure or vacated area is divided other than at the center, in which case the boundary shall be construed as moving to correspond with the ownership, but not beyond any previous right of way or easement line.
- (2) Boundaries indicated as approximately following platted lot lines shall be construed as following lot lines.
- (3) Boundaries indicated as following County limit lines shall be construed as following such County limits.

- (4) Boundaries indicated as following railroad lines shall be construed to be midway in the right-of-way.
- (5) Boundaries indicated as following scarlines of bodies of water shall be construed to follow such scarlines. Boundaries indicated as approximately following the center lines of creeks, streams, rivers, canals, or other predominately linear bodies of water shall be construed to follow such center lines.
- (6) Boundaries indicated as parallel to or concentric with, or extensions of features indicated in Paragraphs (1) through (5) above shall be so construed. Distances and dimensions not specifically indicated on the Zoning Map shall be determined from the Zoning Map by the Zoning Administrator and as so noted on the map.
- (7) Where areas appear to be unclassified on the Zoning Map, and classification cannot be established by the above rules, such areas shall be considered to be classified AR-1 until action is taken to amend the Zoning Map.
- (8) Where territory is added to the jurisdictional area, it shall be considered to be classified as AR-1 until action is taken to amend the Zoning Map.
- (9) Where natural or man-made features actually existing on the ground are at variance with those shown on the Zoning Map, the Zoning Administrator shall interpret the district boundaries as so noted on the map.
- (10) Where uncertainties continue to exist and/or further interpretation is required beyond that presented in the above paragraphs, the question shall be presented to the Zoning Administrator for interpretation and as so noted on the map.

## **Section 1-400**

### **Nonconformities.**

#### **1-401**

**Purpose and Scope.** The purpose of this subsection is to regulate and limit the development and continued existence of uses, structures, and lots established prior to the effective date of this Ordinance which do not conform to the requirements of this Ordinance. Many nonconformities may continue, but the provisions of this subsection are designed to curtail substantial investment in nonconformities and to bring about their eventual improvement to a conforming status or elimination in order to preserve the integrity of this Ordinance and the desired character of the County. Any nonconforming use, structure, or lot which lawfully existed as of the effective date of this Ordinance and which remains nonconforming, and any use, structure, or lot which has become nonconforming as a result of the adoption of this Ordinance or any subsequent reclassification of zoning districts or other amendment to this Ordinance, may be continued or maintained only in accordance with the terms of this subsection. The limitations of this subsection shall not apply to structures or lots whose nonconforming features are the subject of a variance that has been granted by the Board of Zoning Appeals or a modification or condition that was approved by the Board of Supervisors.

#### **1-402**

### **Nonconforming Uses.**

- (A) **Expansion of Nonconforming Use.** Except in those cases approved pursuant to Section 6-1805 of this Ordinance, a nonconforming use shall not be expanded or extended beyond the floor area or portion of the lot area that it occupied on the effective date of this Ordinance. Notwithstanding the foregoing, a legal, nonconforming residential use on land which, on or after the effective date of this Ordinance, was classified to a non-residential zone shall not be considered to have been expanded or extended within the meaning of this subsection if the addition to an existing structure is less than 50% of the existing square footage on the effective date of this Ordinance and the yard requirements of the zoning classification which applied to the construction of such residences prior to the effective date of this Ordinance are maintained.
- (B) **Discontinuation of Nonconforming Use.** If a nonconforming use is discontinued or abandoned for a continuous period of more than two (2) years, including any period of discontinuation before the effective date of this Ordinance, then that use shall not be renewed or re-established and any subsequent use of the lot or structure shall conform to the regulations of this Ordinance.
- (C) **Change of Nonconforming Use.**

- (1) If no structural alterations are made, a nonconforming use may by special exception be changed to another nonconforming use provided that the Board of Supervisors, upon Planning Commission recommendation, either by general rule or by making findings in the specific case, finds that the proposed use is equally appropriate or more appropriate to the zoning district than the existing nonconforming use. The Board of Supervisors may impose appropriate conditions in accord with the provisions of this Ordinance.
- (2) When any nonconforming use is superseded by a permitted use, the use shall thereafter conform to the regulations for the district, and no nonconforming use shall thereafter be resumed.

**1-403 Nonconforming Structures.**

- (A) **Repair or Reconstruction of Nonconforming Structure.** Repairs, restoration and maintenance, including structural repairs, may be made to a nonconforming structure. Except as provided for in Section 4-1500, if a nonconforming structure is damaged or destroyed by a casualty or event beyond the owner's reasonable control, the owner may repair or replace such structure provided the degree of non-conformity is not increased.
- (B) **Alteration or Enlargement of Nonconforming Structure.** A nonconforming structure shall not be enlarged, increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance unless such improvements do not increase the degree of nonconformity. Notwithstanding the foregoing, a legal, non-conforming residential structure shall not be considered to have been enlarged, increased or extended within the meaning of this subsection if the addition to an existing structure is less than 50% of the existing square footage on the effective date of this Ordinance, and the yard requirements of the zoning classification which applied to the construction of such residences prior to the effective date of this Ordinance are maintained.
- (C) **Moving of Nonconforming Structure.** A nonconforming structure shall not be moved in whole or in part to any other location unless every portion of such structure and the use thereof is made to conform with all requirements of this Ordinance and other applicable County Ordinances.

- (D) **Pre-existing Structures in Subsequently Created Setback areas.** Residences, accessory structures, and accessory uses built before June 16, 1993 may increase their footprint existing on that date up to 50% and are exempt from the setbacks of Section 5-1403(B) but must maintain the setback created by the front of the residence even if the setback so created is less than what is required by this Ordinance.

**1-404**

**Nonconforming Lots.**

- (A) **Use of Nonconforming Lots.** If a lot was recorded prior to the effective date of this Zoning Ordinance, or is hereafter created in conformity with Section 1-103(H), and such lot met the requirements of the Zoning Ordinance in effect at the time of recordation, or complies with Section 1-103(H), then such lot may be used for any use permitted in the Zoning District in which it is located even though it does not meet the lot requirements of the district, provided all the other regulations of this Ordinance can be satisfied. Notwithstanding anything to the contrary contained herein, hamlet lots shall be governed by the Rural Hamlet Option as contained in Section 5-702.
- (B) **Establishment of Nonconforming Lot Prohibited.** A lot may only be established after the effective date of this Ordinance, if such lot conforms with all requirements of this Ordinance except as follows:
- (1) A lot not meeting lot area requirements of the zoning district is created by the subdivision of a previously existing split zoned lot along the existing zoning district line, and the lot meets all other ordinance requirements;
  - (2) A lot is created for use by LCSA, VDOT, municipal utilities, public utilities as defined in Section 56-232 of the Virginia State Code, or public service corporations as defined in Section 56-1 of the Virginia State Code and meets the requirements of Section 5-621; or
  - (3) An "outlot" is designated on a subdivision plat as open space. No habitable structures shall be built upon an "outlot".
- (C) **Boundary Line Adjustments.** Notwithstanding the provisions of paragraph (B) above, boundary line adjustments shall be permitted between nonconforming lots, or between a conforming and a nonconforming lot, provided the Zoning Administrator finds that the degree of nonconformity for any lot resulting from such boundary line adjustment is not increased due to such adjustment. In addition, the Zoning Administrator shall find that a boundary line adjustment

does not increase nonconformity and is permitted where the boundary line adjustment satisfies one of the following conditions: (1) it makes it possible to rectify a septic system or well failure by providing space for a replacement septic system or well that meets all applicable standards; (2) it incorporates acreage into a lot that is subject to a permanent conservation easement, with the new acreage added to the protected easement area; (3) it allows any existing nonconforming lot to meet the twenty acre minimum lot size in the AR-1 zoning district or the forty acre minimum lot size in the AR-2 zoning district; (4) it allows for boundary line agreements to correct survey inconsistencies; or (5) in the AR-1 and AR-2 zoning districts, no lot shall be decreased to less than 80,000 square feet.

- (D) **Highway Realignment or Condemnation.** Any lot, which by reason of realignment of a Federal or State highway or by reason of condemnation proceedings, has been reduced in size to an area less than that required by law, shall be considered a nonconforming lot of record subject to the provisions set forth in Section 1-404(A); and any lawful use or structure existing at the time of such highway realignment or condemnation proceedings which would thereafter no longer be permitted under the terms of this Ordinance shall be considered a nonconforming use or structure as that term is used in this Ordinance.

#### 1-405

#### **Procedure for Removal of Nonconforming Status.**

- (A) **Availability of procedure.** Notwithstanding any terms of this Section prohibiting the continuation, reconstruction, or expansion of nonconforming uses and structures, a nonconforming use or structure may be deemed to be in conformity with the requirements of this Section, and may be allowed to continue and to expand as a lawfully existing use or structure, through the issuance of special exception approval in accordance with the following procedures and standards.
- (B) **Application.** To establish a nonconforming use or structure as a lawfully existing use or structure, the owner of the property or his or her authorized agent shall apply for special exception use approval in accordance with the procedures set forth in Section 6 1300.
- (C) **Review by Board of Supervisors.** The Planning Commission shall review and recommend and the Board of Supervisors shall review and act upon the application for termination of nonconforming status in accordance with the procedures and standards set forth in Section 6 1300 of this Ordinance. In reviewing and acting upon an application, the Planning Commission and Board shall also consider

whether the nonconforming use or structure can be improved as follows:

- (1) A landscaped buffer could be provided between the nonconforming use or structure and any abutting lot in order to provide the maximum buffering effect for potentially adverse impacts of the use or structure on any abutting properties.
  - (2) Off-street parking areas located on the lot could be improved by landscaping sufficient to mitigate adverse impacts on any abutting properties.
  - (3) Nonconforming signs, outdoor lighting, off-street parking areas, and other nonconforming accessory structures located on the lot could be removed or brought into conformity with the applicable requirements of this Ordinance.
  - (4) A nonconforming structure would not be expanded or enlarged so as to increase the degree of nonconformity.
  - (5) Any expansion or enlargement of the use or structure could be limited to no greater than fifty percent (50%) of the floor area or lot area that it occupied on the effective date of this Ordinance or any amendment to this Ordinance which rendered the use or structure nonconforming.
- (D) **Effect of Approval.** Upon approval of the application for termination of nonconforming status by the Board, the use or structure shall no longer be treated as nonconforming and shall be allowed to continue as a lawfully existing use or structure unless it is abandoned or discontinued for a continuous period of one (1) year. This status as a lawfully existing use shall apply only to the use or structure for which the special exception approval is issued and not to any other use or structure that may be located on the lot.

**ARTICLE 2**  
**NON-SUBURBAN DISTRICT REGULATIONS**

**DIVISION A: RURAL DISTRICTS**

**Section 2-100**

**AR-1 Agricultural Rural-1**

**2-101**

**Purpose and Intent.** The purpose and intent of the AR-1 district is to:

- (A) Support the use of land for rural economy uses, with residential uses allowed at densities consistent with the general open and rural character of the rural economy uses.
- (B) Allow for a broad range of rural economy uses, including (agriculture, horticulture and animal husbandry), agriculture support and services associated with on-going agricultural activities, and other uses that can be developed in ways consistent with the rural character of the AR-1 district through mitigation or other standards.
- (C) Recognize the County’s tourism industry is interconnected with the rural economy and rural economy uses in the district by allowing for tourism uses related to agricultural uses, conference and training center uses, and rural activity and special event uses.
- (D) Promote consistency between residential development and rural economy uses through lower density residential development or clustering of residential development.
- (E) Ensure that the rural economy uses are compatible with any existing permitted residential development.

**2-102**

**Use Regulations.** Table 2-102 summarizes the principal use regulations of the AR-1 district.

- (A) **Organization of Use Table.** Table 2-102 organizes the uses in the AR-1 district by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: agricultural uses; residential uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., agricultural uses and residential uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the

type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
  - (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings, multi-family dwellings and town houses are Use Types in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-102 are defined in Article VIII (Definitions).
  - (C) **Permitted and Special Exception Uses.** A “P” in the column identified “AR-1” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the AR-1 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the AR-1 district as a special exception in accordance with the procedures and standards of Section 6-1300. An “M” indicates that a Use Type is allowed in the AR-1 district as a Minor Special Exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions or allowed as a Special Exception or Minor Special Exception under other conditions. In those instances, it is identified as “P/S” or “P/M,” as appropriate.
  - (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Category is defined in Article VIII. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article VIII.

- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-102 (AR-1 District Use Table) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.
- (F) **Minimum Lot Size Requirements.** Each principal permitted use shall meet the minimum acreage requirement, where specified in the “Additional Regulations for Specific Uses” in Section 5-600, for that use. Where two or more principal uses are located on one parcel, the parcel size shall be the larger of the two or more uses requirements, and not the sum of all the minimum lot sizes.

**Development Options.** Land within the AR-1 zoning district may be subdivided under one of the three development options identified below. Nothing in this section shall preclude the opportunity for a property owner to file for a Family Subdivision in accordance with the requirements of the Land Subdivision and Development Ordinance.

(A) **Base Density Division Option.** A Base Density Division meeting the following standards and criteria may be permitted in accordance with the procedures outlined in the Land Subdivision and Development Ordinance (LSDO) for such division:

(1) **Lot Yield.** Under the Base Density Division Option, the maximum lot yield shall be one lot per 20 acres.

(2) **Permitted Uses.** The uses permitted on lots developed in accordance with the Base Density Division Option are identified in Table 2-102 and are subject to the Additional Regulations for Specific Uses of Section 5-600.

(3) **Lot and Building Requirements.**

(a) **Minimum Lot Size.** 20 acres.

(b) **Minimum Lot Width.** 175 feet.

(c) **Minimum Yards.** Except where a greater setback is required by Section 5-1403(B), no structure shall be located within 25 feet of any property line or within 35 feet from any other road right-of-way, private access easement, and/or prescriptive easement.

(d) **Maximum Lot Coverage.** 25%, but only 10% may be used for residential or non-residential structures excluding agricultural, horticultural, and animal husbandry structures not open to the public.

(e) **Maximum Building Height.** 35 feet, excluding agricultural, horticultural, and animal husbandry structures not open to the public.

(4) **Creation of Lots.**

(a) **Request.** Requests for creation of lots by plat of division in the AR-1 District shall be submitted to the Director of the Department of Building and Development (or designee) for review and approval

in accordance with “AR-2 and AR-1 Divisions” of the Land Subdivision and Development Ordinance.

(b) **Public Road Frontage.** No such lot shall be created fronting on a public road unless the publicly dedicated width of the road along the entire frontage of the newly created lot, measured from the centerline of the road to the property line of the lot, satisfies the criteria of the Virginia Department of Transportation (VDOT).

(c) **Utility Requirements.** Each lot shall have an on-site water supply and individual sewage disposal system.

(5) **Lot Access.**

(a) Access to individual lots may be provided by a private access easement that complies with the requirements of the Facilities Standards Manual.

(b) A private access easement may serve as frontage in-lieu of public road frontage for up to 7 lots.

(c) The plat of division shall contain a note detailing the provisions for the maintenance of the private access easement.

(B) **Principal/Subordinate Subdivision Option:** The Principal/Subordinate Subdivision Option is a subdivision of land in which a maximum lot yield is calculated for an Originating Tract based on the gross acreage of such tract. The maximum lot yield shall be as set forth in Subsection 2-103(B)(1)(b) below. The Principal/Subordinate Subdivision Option results in the creation of one Principal Lot, and one or more Subordinate Lots. The number of Subordinate Lots created is subtracted from the maximum lot yield and the resulting number establishes the remaining number of lots, which is assigned to the Principal Lot. The creation of subsequent Subordinate Lots from the Principal Lot is permitted, with the number of lots assigned to the Principal Lot reduced by one for each Subordinate Lot created. Once the number of lots assigned to the Principal Lot is reduced to one, no more Subordinate Lots can be created. The Principal/Subordinate Subdivision Option typically allows the landowner to achieve a greater lot yield than the base density of the Base Density Division Option, while providing for the

establishment of rural economy uses as a primary use with single-family detached residential development as a secondary use.

(1) **General Requirements.**

- (a) **General.** A landowner may exercise this option on a site consisting of a minimum of 20 acres prior to development.
- (b) **Lot Yield.** The maximum lot yield shall be 1 lot per 10 acres.

(2) **Characteristics of Principal/Subordinate Subdivision Option.**

- (a) The lot yield of a Principal/Subordinate Subdivision shall be calculated from the Originating Tract of land in existence at the time the first Principal/Subordinate Subdivision is created.
- (b) Once a Principal/Subordinate Subdivision is created, the number of lots assigned to the subdivision shall not be altered.
- (c) The lot yield of the Originating Tract shall be calculated with each preliminary and/or record plat. At the time of the first subdivision, the number of Subordinate Lots created is subtracted from the number of lots calculated for the Originating Tract and the remaining number of lots is then assigned to the Principal Lot. Each subsequently created Subordinate Lot is subtracted from the number of lots assigned to the Principal Lot and shall reduce the number of lots assigned to the Principal Lot by one (1) for each lot.
- (d) A Principal Lot may be further subdivided, provided the minimum requirements of the Zoning Ordinance and Land Subdivision and Development Ordinance (LSDO) are met. Once the number of lots assigned to the Principal Lot is reduced to one, the Principal Lot may no longer be subdivided.
- (e) Subordinate Lots shall not be further subdivided. The record plat and initial deed of conveyance after establishment of a subdivision lot under the

Principal/ Subordinate Subdivision Option shall contain a statement to this effect.

- (f) A subdivision of one or more lots may occur at one time or in a series of subdivisions up to the maximum lot yield calculated for the Originating Tract.
- (g) Any subdivision record plat for a Principal/Subordinate Subdivision shall contain a tabulation of density showing, in addition to all Land Subdivision and Development Ordinance (LSDO) requirements, the lot yield originally calculated for the Originating Tract, all prior subdivisions from the Originating Tract and each resulting Principal Lot and number of lots created pursuant to such subdivisions.
- (h) The Principal Lot shall be clearly labeled on each record plat.
- (i) Each Principal/Subordinate Subdivision shall contain at least one Rural Economy Lot of a minimum of 15 acres in size.

(3) **Permitted Uses.**

- (a) **Principal and Subordinate Lots.** The uses permitted on lots developed in accordance with the Principal/Subordinate Development Option are identified in Table 2-102 and are subject to the Additional Regulations for Specific Uses of Section 5-600.

(4) **Lot and Building Requirements.** The Lot and Building Requirements for development under the Principal/Subordinate Subdivision Option are identified below, except where the performance standards in Section 5-600 (Additional Regulations for Specific Uses) specify different requirements for a particular use.

- (a) **Minimum Lot Size.** 80,000 square feet, exclusive of major floodplain. At least one lot in the development shall be a Rural Economy Lot with a minimum of 15 acres.
- (b) **Minimum Lot Width.** 175 feet.

- (c) **Maximum Length/Width Ratio.** 3:1.
  - (d) **Minimum Yards.** No structure shall be located within 25 feet of any property line or within 100 feet from the right-of-way of any arterial road; 75 feet from the right-of-way of any collector road; or 35 feet from any other road right-of-way, private access easement, and/or any prescriptive easement.
  - (e) **Maximum Lot Coverage.** 15%.
  - (f) **Building Height.** 35 feet maximum, excluding agricultural, horticultural, and animal husbandry structures.
- (5) **Landscaping/Buffering.** Notwithstanding the requirements of Section 5-1400, required buffers may be provided on either the Principal and/or Subordinate lot.
- (6) **Utility Requirements.**
- (a) **Water.** All lots shall be served by individual water supply systems located on the lot.
  - (b) **Sewer.** All lots shall be served by individual sewage disposal systems located on the lot.
- (7) **Fire Protection.** The development shall satisfy the fire protection standards set forth in the Facilities Standards Manual.
- (8) **Lot Access.**
- (a) Access to individual lots may be provided by a private access easement that complies with the requirements of Chapter 4: Transportation, of the Facilities Standards Manual.
  - (b) A private access easement may serve as frontage in lieu of public road frontage up to 25 lots per easement.
  - (c) The record plat of subdivision shall contain a note detailing the provisions for the maintenance of the private access easement.

(C) **Cluster Subdivision Option.** The Cluster Subdivision Option allows for the subdivision of a tract of land with a more compact residential design plus one or more large lots suitable for rural economy uses and/or common open space. Communal water and sewer systems may be used for such developments.

(1) **General Requirements.**

- (a) **General.** A landowner may exercise this option on a site consisting of a minimum of 20 acres prior to development.
- (b) **Lot Yield.** The maximum lot yield shall be 1 lot per 5 acres.

(2) **Characteristics of Cluster Subdivision Option.**

- (a) Depending on the tract size, the cluster subdivision may include one or more Rural Cluster Lots and at least one Rural Economy Lot and may include Common Open Space.
- (b) The lot yield of the cluster subdivision shall be calculated from the gross acreage for the tract of land from which the subdivision is created.
- (c) All lots within the cluster subdivision shall be created at one time.
- (d) The lots created by cluster subdivision shall not be further subdivided.
- (e) A Homeowners' Association is required for any subdivision with common elements as described in Section 2-104.
- (f) Each preliminary and record plat for a cluster subdivision shall contain a tabulation of lot yield for the cluster subdivision.
- (g) The perimeter setback required in Section 2-103(C)(6) shall be indicated and clearly labeled on each preliminary and record plat.
- (h) A minimum of 70% of the gross land area of the development shall be comprised of a Rural Economy

Lot(s) or a combination of Rural Economy Lot(s) and Common Open Space.

- (i) **Variation of Lot Sizes:** In all new residential subdivisions containing seven (7) or more lots, a mixture of lot sizes and dimensions shall be provided in order for a variety of housing opportunities and avoid monotonous streetscapes. No more than 25 percent of all lots shall be similar in total area. For purposes of this subsection, “similar” lot areas shall be defined as within 1,500 square feet of each other.
- (3) **Lot standards for Residential Cluster Lots.** The site layout of the proposed development shall occur in conjunction with preliminary subdivision plat review. Development of the cluster option shall comply with all of the following standards, in addition to the LSDO:
  - (a) **Number of Lots in Cluster(s).** Rural Cluster Lots shall be grouped in clusters consisting of a minimum of 5 lots and a maximum of 25 lots, except that a cluster may consist of fewer than 5 lots if any one of the following applies:
    - (i) There will be fewer than 5 lots in the entire subdivision.
    - (ii) In the AR-1 district, the area of the site is less than 50 acres.
    - (iii) It is demonstrated that a cluster of fewer than 5 lots will result in less disturbance of land within the Mountainside Development Overlay District (MDOD), Floodplain Overlay District (FOD) lands, and/or land containing steep slopes and/or wetlands.
  - (b) **Number of Clusters.** Multiple groupings of Rural Cluster Lots shall be required where the total number of lots on a site is greater than 25. A single grouping of Rural Cluster Lots shall contain all the lots where the total number of lots on a site is 25 or fewer, except that multiple clusters may be allowed where it is demonstrated that multiple clusters will result in less disturbance of land within the Mountainside Development Overlay District (MDOD), Floodplain

Overlay District (FOD) lands, and/or land containing steep slopes and/or wetlands.

- (c) **Distance Between Clusters.** If more than one grouping of Rural Cluster Lots is to be created from a parcel, a minimum of 500 feet shall separate the lot lines of the outer boundaries of each grouping of Rural Cluster lots (exclusive of open space and lots 15 acres or greater).
  - (d) **Minimum Lot Size.**
    - (i) **On-site Water and Wastewater.** 40,000 sq. ft., exclusive of major floodplain.
    - (ii) **Off-site Wastewater, On-site Water.** 20,000 sq. ft., exclusive of major floodplain.
    - (iii) **Off-site Water and Off-Site Wastewater.** No minimum lot size.
  - (e) **Maximum Lot Size.** 4 acres.

If such roads are to be maintained pursuant to a private road maintenance agreement, then the terms thereof shall be included on each record plat of subdivision for the development.
- (D) Notwithstanding the requirements of Section 2-104(A) above, communal water or sewage disposal systems may be maintained by LCSA or a public water or sewer (wastewater) utility as defined in Chapter 10.1 or 10.2 of Title 56 of the Code of Virginia.

## Section 2-200

### AR-2 Agricultural Rural-2

#### 2-201

**Purpose and Intent.** The purpose and intent of the AR-2 district is to:

- (A) Support the use of land for rural economy uses consistent with the pattern of rural and agricultural land uses in the district, including sustaining and nurturing the economically significant equine industry.
- (B) Allow residential uses at densities consistent with the general open and rural character of the rural economy uses, and consistent with the land use patterns in the district, which are marked by low density and large parcels relative to the other portions of the County.
- (C) Allow for a broad range of rural economy uses, including traditional and new agricultural uses (agriculture, horticulture and animal husbandry), agriculture support and basic services directly associated with on-going agricultural activities, and other uses that can be developed in ways that are consistent with the rural character of the AR-2 District through mitigation or other standards.
- (D) Recognize the County's tourism industry is interconnected with the rural economy and rural economy uses in the district by allowing for tourism uses related to agricultural uses, conference and training center uses, and rural activity and special event uses for tourists.
- (E) Promote consistency between residential development and rural economy uses through lower density residential development or the clustering of residential development.
- (F) Ensure that the rural economy uses are compatible with any existing permitted residential development.

#### 2-202

**Use Regulations.** Table 2-202 summarizes the principal use regulations of the AR-2 district.

- (A) **Organization of Use Table.** Table 2-202 organizes the uses in the AR-2 district by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: agricultural uses; residential uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., agricultural uses and residential uses).

The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings, multi-family dwellings and town houses are Use Types in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-202 are defined in Article VIII (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “AR-2” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the AR-2 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the AR-2 district as a special exception in accordance with the procedures and standards of Section 6-1300. An “M” indicates that a Use Type is allowed in the AR-2 district as a Minor Special Exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions or allowed as a Special Exception or Minor Special Exception under other conditions. In those instances, it is identified as “P/S” or “P/M,” as appropriate.
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column mean all of the uses in the

Use Category are allowed. The Use Category is defined in Article VIII. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article VIII.

- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-202 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.
- (F) **Minimum Lot Size Requirements.** Each principal permitted use shall meet the minimum acreage requirement, where specified in the “Additional Regulations for Specific Uses” in Section 5-600, for that use. Where two or more principal uses are located on one parcel, the parcel size shall be the larger of the two or more uses requirements, and not the sum of all minimum lot sizes.

**Development Options.** Land within the AR-2 zoning district may be subdivided under one of the three development options identified below. Nothing in this section shall preclude the opportunity for a property owner to file for a Family Subdivision in accordance with the requirements of the Land Subdivision and Development Ordinance.

(A) **Base Density Division Option.** A Base Density Division meeting the following standards and criteria may be permitted in accordance with the procedures outlined in the Land Subdivision and Development Ordinance (LSDO) for such division:

(1) **Lot Yield.** Under the Base Density Division Option, the maximum lot yield shall be one lot per 40 acres.

(2) **Permitted Uses.** The uses permitted on lots developed in accordance with the Base Density Division Option are identified in Table 2-202 and are subject to the Additional Regulations for Specific Uses of Section 5-600.

(3) **Lot and Building Requirements.**

(a) **Minimum Lot Size.** 40 acres.

(b) **Minimum Lot Width.** 175 feet.

(c) **Minimum Yards.** Except where a greater setback is required by Section 5-1403(B), no structure shall be located within 25 feet of any property line or within 35 feet from any other road right-of-way, private access easement, and/or prescriptive easement.

(d) **Maximum Lot Coverage.** 25%, but only 10% may be used for residential or non-residential structures excluding agricultural, horticultural, and animal husbandry structures not open to the public.

(e) **Maximum Building Height.** 35 feet, excluding agricultural, horticultural, and animal husbandry structures not open to the public.

(4) **Creation of Lots.**

(a) **Request.** Requests for creation of lots by plat of division in the AR-2 District shall be submitted to the Director of the Department of Building and

Development (or designee) for review and approval in accordance with “AR-2 and AR-1 Divisions” of the Land Subdivision and Development Ordinance.

- (b) **Public Road Frontage.** No such lot shall be created fronting on a public road unless the publicly dedicated width of such road along the entire frontage of the newly created lot, measured from the centerline of the road to the property line of the lot, satisfies the criteria of the Virginia Department of Transportation (VDOT).
- (c) **Utility Requirements.** Each lot shall have an on-site water supply and individual sewage disposal.

(5) **Lot Access.**

- (a) Access to individual lots may be provided by a private access easement that complies with the requirements of the Facilities Standards Manual.
- (b) A private access easement may serve as frontage in-lieu of public road frontage for up to 7 lots.
- (c) The plat of division shall contain a note detailing the provisions for the maintenance of the private access easement.

- (B) **Principal/Subordinate Subdivision Option:** The Principal/Subordinate Subdivision Option is a subdivision of land in which a maximum lot yield is calculated for an Originating Tract based on the gross acreage of such tract. The maximum lot yield shall be as set forth in Subsection 2-203(B)(1)(b) below. The Principal/Subordinate Subdivision Option results in the creation of one Principal Lot, and one or more Subordinate Lots. The number of Subordinate Lots created is subtracted from the maximum lot yield and the resulting number establishes the remaining number of lots, which is assigned to the Principal Lot. The creation of subsequent Subordinate Lots from the Principal Lot is permitted, with the number of lots assigned to the Principal Lot reduced by one for each Subordinate Lot created. Once the number of lots assigned to the Principal Lot is reduced to one, no more Subordinate Lots can be created. The Principal/Subordinate Subdivision Option typically allows the landowner to achieve a greater lot yield than the base density of the Base Density Division Option, while providing for the

establishment of rural economy uses as a primary use with single-family detached residential development as a secondary use.

(1) **General Requirements.**

- (a) **General.** A landowner may exercise this option on a site consisting of a minimum of 40 acres prior to development.
- (b) **Lot Yield.** The maximum lot yield shall be 1 lot per 20 acres.

(2) **Characteristics of Principal/Subordinate Subdivision Option.**

- (a) The lot yield of a Principal/Subordinate Subdivision shall be calculated from the Originating Tract of land in existence at the time the first Principal/Subordinate Subdivision is created.
- (b) Once a Principal/Subordinate Subdivision is created, the number of lots assigned to the subdivision shall not be altered.
- (c) The lot yield of the Originating Tract shall be calculated with each preliminary and/or record plat. At the time of the first subdivision, the number of Subordinate Lots created is subtracted from the number of lots calculated for the Originating Tract and the remaining number of lots is then assigned to the Principal Lot. Each subsequently created Subordinate Lot is subtracted from the number of lots assigned to the Principal Lot and shall reduce the number of lots assigned to the Principal Lot by one (1) for each lot.

## DIVISION B: JOINT LAND MANAGEMENT AREA (JLMA) DISTRICTS

### Section 2-1000 Joint Land Management Area-1 District: JLMA-1

**2-1001 Purpose and Intent.** This district is established to accommodate and foster the development of land within the joint land management areas (JLMAs) outside the incorporated towns in Loudoun County to:

- (A) Ensure development in the JLMA-1 district is consistent with the JLMA serving as a gateway to the towns;
- (B) Encourage an appropriate mix of residential and nonresidential land uses;
- (C) Provide a variety of housing types and lot sizes;
- (D) Where appropriate, achieve a pattern of development that generally conforms to the established, traditional pattern of development in the towns;
- (E) Establish the type and scale of development desired for the entranceway of the towns; and
- (F) Implement jointly adopted area plans, where applicable.

**2-1002 Size and Location.** This district modifies and replaces the Countryside Residential (CR-1) district within the JLMAs. It is the intent of the County that the JLMA-1 boundaries not be extended beyond the existing JLMA boundaries. The limits of this district are as designated on the Zoning Map.

**2-1003 Use Regulations.** Table 2-1003 summarizes the principal use regulations of the JLMA-1 district.

- (A) **Organization of Use Table.** Table 2-1003 organizes the uses in the JLMA-1 district Use Table by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the

type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classifications, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
  - (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1003 are defined in Article 8 (Definitions).
  - (C) **Permitted and Special Exception Uses.** A “P” in the column identified “JLMA-1” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the JLMA-1 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the JLMA-1 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted under certain conditions, or allowed as a special exception under other conditions. These uses are identified as “P/S”.
  - (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column means all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.
  - (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1003 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific

regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.

- (A) **Minimum Open Space.** Thirty (30) percent. Active recreational uses may be located within the open space.
- (B) **Maximum Gross Density.** The maximum gross residential density shall be one (1) unit per forty thousand (40,000) square feet, calculated based on the overall parcel, excluding roads. Open space shall be preserved by means of a permanent open space easement acceptable to the Board of Supervisors.
- (C) **Utilities.**
  - (1) Both municipal water and municipal sewer facilities must be provided to every development site, if available as determined by the Zoning Administrator, in consultation with the Town, and if the Town permits the connection. If municipal water and/or municipal sewer facilities are not available, or if the Town does not permit the connection, development may be served by an individual water supply system (private well) and/or an individual sewage disposal system.
  - (2) Notwithstanding subsection 2-1005(C)(1) above, Town owned or County owned and operated public uses shall be required to connect to municipal water and/or municipal sewer facilities only if the existing municipal water line and/or municipal sewer line is within three hundred (300) feet of the property line of the parcel being developed and if the Town permits such connection, unless the County and Town agree that the presence of other physical or geographical constraints would make the connection unreasonable. Otherwise, such Town or County public uses may use communal systems or an individual water supply system (private well) and/or individual sewage disposal system.
  - (3) Notwithstanding subsection 2-1005(C)(1) above, any development on a lot existing prior to January 7, 2003, that does not require the approval of any type of subdivision or site plan application in order to be developed may use an individual water supply system (private well) and/or individual sewage disposal system, provided, however, that if such development is required to connect to a public/municipal sewer pursuant to the Codified Ordinances of Loudoun County, then an individual sewage disposal system shall not be permitted. For the purposes of this Section 2-1005(C)(3), and notwithstanding the provisions of Section 1243.03(B) of

the Land Subdivision and Development Ordinance, lots established by or resulting from the recordation of a boundary line adjustment (BLAD) after January 7, 2003, where all of the lots involved in the BLAD existed prior to January 7, 2003, shall be deemed to have existed prior to January 7, 2003.

- (4) All utility distribution lines shall be placed underground. Private wells, septic systems, and communal systems may be located within the open space.

(D) **Neighborhood Development Standards.** To ensure new development in the JLMA-1 district reinforces existing development patterns in the adjacent town to the maximum extent feasible, reduces the need for automobile trips, minimizes the need for additional road improvements, and encourages walking to employment, shopping, and public facilities, development in this district shall meet the following requirements:

(1) **Street System/Connectivity.**

- (a) **Connections to Existing Streets.** Connections to the existing or planned street system shall be made to the maximum extent feasible. All development plans shall incorporate and continue all streets stubbed to or shown as stubbed to the boundary of the development by previously approved development plans/plats or existing development.
- (b) **Provision for Future Connections to Adjoining Land.** All developable land shall provide for future public street connections to adjacent developable parcels by providing a local street connection at least every six hundred sixty (660) feet along each subdivision plat boundary that abuts potentially developable or re-developable land, except that such street connections are not required on steep slopes, MDOD sensitivity areas, or FOD pursuant to Sections 5-1508, 4-1600, and 4-1500.
- (c) **Block Form and Size.** To the maximum extent feasible, blocks within developments shall maintain a rectilinear pattern except where deviation is necessitated by topographic or environmental considerations. Blocks shall measure not less than three hundred (300) nor more than six hundred sixty

(660) feet along each side, as measured from the edge of the right-of-way, except where deviation is necessitated by topographic or environmental considerations, or where deviation is required to comply with regulations concerning steep slopes, MDOD sensitivity areas, or FOD pursuant to Sections 5-1508, 4-1600 and 4-1500.

- (d) **Avoidance of Certain Street Types.** Cul-de-sacs and “P-loop” streets shall be avoided except where necessitated by topographic or environmental considerations.
- (e) **Provision of “T” Intersections.** “T” intersections are encouraged in locations where views of important civic, public or open space areas can be highlighted.

(2) **Variation of Lot Sizes.**

- (a) **General Rule.** In all new residential subdivisions containing ten (10) or more lots, a mixture of lot sizes and dimensions shall be provided in order to allow for a variety of housing opportunities and avoid monotonous streetscapes. For example, larger and wider lots are encouraged on corners. Smaller lots are encouraged adjacent to parks and open spaces. No more than sixty percent (60%) of all lots shall be similar in total lot area. For purposes of this subsection, “similar” lot areas shall be defined as within 500 square feet of each other.
- (b) **Exception.** Up to seventy percent (70%) of the lots within the subject subdivision may be similar if the Zoning Administrator, pursuant to Section 6-401, makes a finding that, notwithstanding deviation from the sixty percent (60%) standard stated above, lot sizes and dimensions are sufficiently varied, for different housing types, to avoid monotonous streetscapes.
- (c) **Dispersion of Lot Sizes.** Similar lot sizes shall be distributed throughout a subdivision rather than consolidated in one area, unless the Zoning Administrator, pursuant to Section 6-401, makes a finding that the intent of this district and of the

Zoning Ordinance will be better served by a design that tends to consolidate lots of similar sizes.

(3) **Sidewalks.**

- (a) **Provision of Sidewalks and/or Trails.** Sidewalks and/or trails shall be provided, at a minimum, along one side of all streets to provide pedestrian access to the town or neighborhood center, public buildings, schools, parks, and other destinations, or greater if required by the Facilities Standards Manual.
- (b) **Sidewalk and/or Trail Connections.** Connections to existing or planned sidewalks and/or trails shall be made at the property boundaries of the project by incorporating and continuing all sidewalks and/or trails stubbed to or shown as stubbed to the boundary of the development by previously approved development plans/plats or existing development. All development plans shall provide for future sidewalk and/or trail connections to adjacent developable parcels at planned or current local street connections along each subdivision plat boundary.

(4) **Civic and Open Space.**

- (a) **Variety of Spaces to Be Provided.** A variety of greens, parks or natural open spaces shall be located throughout the development, where appropriate, to provide community identity.
- (b) **Access to Civic Spaces.** Direct and convenient pedestrian and bicycle access shall be provided on the site being developed to adjacent residential land uses and to the civic and open space.
- (c) **Configuration of Park Access.** Land dedicated for parks shall be bordered on at least one side by public streets, preferably local or collector streets.

(5) **Other Design Requirements.**

- (a) **Street Trees.** Street trees planted pursuant to Section 5-1300 shall be planted at a density of no less than one (1) canopy shade tree per twenty-five (25)

feet on average, and shall be placed in arrangements consistent with the existing landscape of the vicinity.

- (b) **Garages.** Garages shall be set back at least four (4) feet behind the plane of the front door of the principal building. Garages shall have vehicular access only from the side or rear of the lot.
- (c) **On-Street Parking.** Parallel parking may be provided on streets in front of residential lots, except for lots fronting on collector or arterial roads.

(E) **Compatibility Standards.**

- (1) A minimum buffer width of twenty-five (25) feet with a Buffer Yard Type A shall be provided between existing agricultural uses and residential development sites.
- (2) On non-residential development sites:
  - (a) Areas for loading, delivery, and waste collection receptacles shall be sited so as to reduce the impact on surrounding properties to the maximum extent feasible, with highest priority given to reducing the impact on residential properties.
  - (b) Outdoor lighting shall be directed towards the interior of the development site and shall be shielded to prevent all direct illumination of other properties.

**2-1006**

**Alternate Neighborhood Development Standards.** In lieu of the development requirements specified in Sections 2-1004 and 2-1005 above, either the Board of Supervisors may initiate, or the landowner(s) in a JLMA-1 district may request the adoption of alternate neighborhood development standards as a special exception pursuant to the standards of this Section and Section 6-1300. These alternate development standards may be reviewed for all or a portion of a JLMA-1 district. Once adopted, the alternate neighborhood development standards supersede the requirements of Sections 2-1004 and 2-1005. The following requirements shall be met:

- (A) **Minimum Area.** Alternate neighborhood design standards shall be adopted for all of a JLMA-1 district or a portion of the district consisting of a minimum of twenty-five (25) contiguous acres.
- (B) **Initiation.** A request to have alternate neighborhood development standards adopted for all or a portion of a JLMA-1 district may be

initiated by the Board of Supervisors or the landowners in the area for which the request is made by submitting an application to the County for a Special Exception pursuant to Section 6-1300.

- (C) **Study/Proposed Standards.** Subsequent to the request, the applicant shall submit a set of proposed alternate neighborhood development standards for consideration that comply with the standards in Section 2-1006(E). The proposed alternate neighborhood development standards shall be in compliance with any overlay district requirements and based on a study of the existing and prevailing patterns of development in the adjoining town in the vicinity of the lands where the alternate neighborhood development standards are proposed to be adopted, as they relate to lot sizes, yards, setbacks, lot coverage, building heights, garages, porches, civic and open spaces, open space areas, block form, street pattern, sidewalks, and street trees.
- (D) **Recommendation of Staff and Town Council.** After their receipt, County staff shall forward a copy of the proposed alternate neighborhood development standards to the affected town for review and comment, and prepare a staff report on whether they comply with the standards of Section 2-1006(E).
- (E) **Standards.** The Board of Supervisors shall adopt the alternate neighborhood development standards only if the Board finds that:
  - (1) The standards include requirements addressing lot size, lot width and length, yards, lot coverage, building height, and open space that are consistent with the existing and prevailing patterns of development in the adjoining town in the vicinity of the lands where the alternate neighborhood development standards are to be adopted; and
  - (2) The standards include specific provisions requiring street system connectivity, variation of lot sizes, the provision of civic and open spaces, the provision of sidewalks, the provision of street trees, a grid street pattern and block sizes in a form that is consistent with the existing and prevailing patterns of development in the adjoining town in the vicinity of the lands where the alternate neighborhood development standards are to be adopted.
- (F) **Effect.** The approval of the special exception by the Board of Supervisors for all or a portion of a JLMA-1 district shall constitute a modification of the development standards for that area, subject to the conditions and terms of the special exception, and recognition

by the County that all development within the area subject to alternate neighborhood development standards shall comply with the alternate neighborhood development standards. In the case of conflict between adopted alternate neighborhood development standards and any other provision of this Ordinance, the alternate neighborhood development standards shall apply.

## Section 2-1100

### Joint Land Management Area-2 District: JLMA-2

#### 2-1101

**Purpose and Intent.** This district is established to accommodate and foster the development of land within the joint land management areas (JLMAs) outside the incorporated towns in Loudoun County to:

- (A) Ensure development in the JLMA-2 district is consistent with the JLMA serving as a gateway to the towns;
- (B) Encourage an appropriate mix of residential and nonresidential land uses;
- (C) Provide a variety of housing types and lot sizes;
- (D) Where appropriate, achieve a pattern of development that generally conforms to the established, traditional pattern of development in the towns;
- (E) Establish the type and scale of development desired for the entranceway of the towns; and
- (F) Implement jointly adopted area plans, where applicable.

#### 2-1102

**Size and Location.** This district modifies and replaces the Countryside Residential (CR-2) district within the JLMAs. It is the intent of the County that the JLMA-2 boundaries not be extended beyond the existing JLMA boundaries.

#### 2-1103

**Use Regulations.** Table 2-1103 summarizes the principal use regulations of the JLMA-2 district.

- (A) **Organization of Use Table.** Table 2-1103 organizes the uses in the JLMA-2 district Use Table by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classifications, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings are a Use Type in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1103 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “JLMA-2” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the JLMA-2 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the JLMA-2 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted under certain conditions, or allowed as a special exception under other conditions. These uses are identified as “P/S”.
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column means all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1103 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.

## Section 2-1200

### Joint Land Management Area-3 District: JLMA-3

#### 2-1201

**Purpose and Intent.** This district is established to accommodate and foster the development of land within the town's joint land management areas (JLMAs) outside the incorporated towns in Loudoun County to:

- (A) Ensure development in the JLMA-3 district is consistent with the JLMA serving as a gateway to the towns;
- (B) Provide for the continued practice of agriculture, farm operations, agriculturally related and home based businesses, low density clustered residential developments and other uses in a predominantly rural environment;
- (C) Encourage an appropriate mix of residential and nonresidential land uses;
- (D) Where appropriate, achieve a pattern of development that generally conforms to the established, traditional pattern of development in the towns; and
- (E) Implement jointly adopted plans where applicable.

#### 2-1202

**Size and Location.** This district replaces the Agricultural Residential (A-3) district within the JLMAs. It is the intent of the County that the JLMA-3 district boundaries not be extended beyond the existing JLMA boundaries.

#### 2-1203

**Use Regulations.** Table 2-1203 summarizes the principal use regulations of the JLMA-3 district.

- (A) **Organization of Use Table.** Table 2-1203 organizes the uses in the JLMA-3 district use table by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general "Use Categories" and specific "Use Types" based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classifications, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings are a Use Type in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1203 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “JLMA-3” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the JLMA-3 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the JLMA-3 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions, or allowed as a special exception under other conditions. These uses are identified as “P/S”.
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column mean all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Type is defined in Article 8.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1203 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.

## 2-1204 Lot and Building Requirements.

- (A) **Minimum Lot Size.** Twenty thousand (20,000) square feet.
- (B) **Minimum Lot Width.** Sixty (60) feet.
- (C) **Front Yard.**
  - (1) **On Arterial Road.** Thirty-five (35) feet.
  - (2) **On Collector Road.** Twenty-five (25) feet.
  - (3) **On Other Roads.** Fifteen (15) feet.
- (D) **Minimum Rear Yard.** Twenty-five (25) feet.
- (E) **Minimum Side Yard.** Ten (10) feet.

- (F) **Building Height.** Forty (40) feet maximum, except no restriction for buildings used exclusively for agriculture.
- (G) **Minimum Open Space.** Fifty (50) percent.
- (H) **Gross Density.** One (1) residential unit per three (3) acres.

**2-1205**

**Neighborhood Development Standards.** To ensure new development in the JLMA-3 district reinforces existing development patterns in the adjacent town to the maximum extent feasible, reduces the need for automobile trips, minimizes the need for additional road improvements, and encourages walking to employment, shopping, and public facilities, development in this district shall meet the following requirements:

- (A) **Street System/Connectivity.**
  - (1) **Connections to Existing Streets.** Connections to the existing or planned street system shall be made to the maximum extent feasible. All development plans shall incorporate and continue all streets stubbed to or shown as stubbed to the boundary of the development by previously approved development plans/plats or existing development.
  - (2) **Provision for Future Connections to Adjoining Land.** All developable land shall provide for future public street connections to adjacent developable parcels by providing a local street connection at least every six hundred sixty (660) feet along each subdivision plat boundary that abuts potentially developable or re-developable land, except that such street connections are not required on steep slope, MDOD sensitivity areas, or FOD pursuant to Sections 5-1508, 4-1600, and 4-1500.
  - (3) **Block Form and Size.** To the maximum extent feasible, blocks within developments shall maintain a rectilinear pattern except where deviation is necessitated by topographic or environmental considerations. Blocks shall measure not less than three hundred (300) nor more than six hundred sixty (660) feet along each side, as measured from the edge of the right-of-way, except where deviation is necessitated by topographic or environmental considerations, or where deviation is required to comply with regulations concerning steep slope, MDOD sensitivity areas, or FOD pursuant to Sections 4-1508, 4-1600 and 4-1500.

- (4) **Avoidance of Certain Street Types.** Cul-de-sacs and “P-loop” streets shall be avoided except where necessitated by topographic or environmental considerations.
- (5) **Provision of “T” Intersections.** “T” intersections are encouraged in locations where views of important civic, public or open space areas can be highlighted.

(B) **Variation of Lot Sizes.**

- (1) **General Rule.** In all new residential subdivisions containing ten (10) or more lots, a mixture of lot sizes and dimensions shall be provided in order to allow a variety of housing opportunities and avoid monotonous streetscapes. For example, larger and wider lots are encouraged on corners. Smaller lots are encouraged adjacent to parks and open spaces. No more than sixty percent (60%) of all lots shall be similar in total lot area. For purposes of this subsection, “similar” lot areas shall be defined as within five hundred (500) square feet of each other.
- (2) **Exception.** Up to seventy percent (70%) of the lots within the subject subdivision may be similar if the Zoning Administrator, pursuant to Section 6-401, makes a finding that, notwithstanding deviation from the sixty percent (60%) standard stated above, lot sizes and dimensions are sufficiently varied, for different housing types, to avoid monotonous streetscapes.
- (3) **Dispersion of Lot Sizes.** Similar lot sizes shall be distributed throughout a subdivision rather than consolidated in one area, unless the Zoning Administrator, pursuant to Section 6-401, makes a finding that the intent of this district and of the Zoning Ordinance will be better served by a design that tends to consolidate lots of similar sizes.

(C) **Sidewalks.**

- (1) **Provision of Sidewalks and/or Trails.** Sidewalks and/or trails shall be provided, at a minimum, along one side of all streets to provide pedestrian access to the town or neighborhood center, public buildings, schools, parks, and other destinations, or greater if required by the Facilities Standards Manual.

- (2) **Sidewalk and/or Trail Connections.** Connections to existing or planned sidewalks and/or trails shall be made at the property boundaries of the project by incorporating and continuing all sidewalks and/or trails stubbed to or shown as stubbed to the boundary of the development by previously approved development plans/plats or existing development. All development plans shall provide for future sidewalk and/or trail connections to adjacent developable parcels at planned or current local street connections along each subdivision plat boundary.

(D) **Civic and Open Space.**

- (1) **Variety of Spaces to Be Provided.** A variety of greens, parks or natural open spaces shall be located throughout the development, where appropriate, to provide community identity.
- (2) **Access to Civic Spaces.** Direct and convenient pedestrian and bicycle access shall be provided (on the site being developed) to adjacent residential land uses and to the civic and open space.
- (3) **Configuration of Park Access.** Land dedicated for parks shall be bordered on at least one side by public streets, preferably local or collector streets.

(E) **Other Design Requirements.**

- (1) **Street Trees.** Street trees planted pursuant to Section 5-1300 shall be planted at a density of no less than one canopy shade tree per twenty-five (25) feet on average, and shall be placed in arrangements consistent with the existing landscape of the vicinity.
- (2) **Garages.** Garages shall be set back at least four (4) feet behind the plane of the front door of the principal building. Garages shall have vehicular access only from the side or rear of the lot.
- (3) **On-Street Parking.** Parallel parking may be provided on streets in front of residential lots, except for lots fronting on collector or arterial roads.

- (A) Both municipal water and municipal sewer facilities must be provided to every development site, if available as determined by the Zoning Administrator, in consultation with the Town, and if the Town permits the connection. If municipal water and/or municipal sewer facilities are not available, or if the Town does not permit the connection, development may be served by an individual water supply system (private well) and/or an individual sewage disposal system.
- (B) Notwithstanding subsection 2-1206(A) above, Town owned or County owned and operated public uses shall be required to connect to municipal water and/or municipal sewer facilities only if the existing municipal water line and/or municipal sewer line is within three hundred (300) feet of the property line of the parcel being developed and if the Town permits such connection, unless the County and Town agree that the presence of other physical or geographical constraints would make the connection unreasonable. Otherwise, such Town or County public uses may use communal systems or an individual water supply system (private well) and/or individual sewage disposal system.
- (C) Notwithstanding subsection 2-1206(A) above, any development on a lot existing prior to January 7, 2003, that does not require the approval of any type of subdivision or site plan application in order to be developed may use an individual water supply system (private well) and/or individual sewage disposal system, provided, however, that if such development is required to connect to a public/municipal sewer pursuant to the Codified Ordinances of Loudoun County, then an individual sewage disposal system shall not be permitted. For the purposes of this Section 2-1206(C), and notwithstanding the provisions of Section 1243.03(B) of the Land Subdivision and Development Ordinance, lots established by or resulting from the recordation of a boundary line adjustment (BLAD) after January 7, 2003, where all of the lots involved in the BLAD existed prior to January 7, 2003, shall be deemed to have existed prior to January 7, 2003.
- (D) All utility distribution lines shall be placed underground. Private wells, septic systems, and communal systems may be located within the open space.

## **2-1207**

### **Use Limitations.**

- (A) No non-agricultural use shall be permitted which, because of its nature, location, or manner of operation, is dangerous or noxious because of noise, odor, fumes, gas, glare, light, vibration, smoke,

emission of particulate matter or effluents, or for other similar reasons.

## Section 2-1300

### JLMA-20 (JOINT LAND MANAGEMENT AREA – 20)

#### 2-1301

**Purpose and Intent.** The purpose and intent of the JLMA-20 district is to:

- (A) Provide for uses that are compatible with the Leesburg Executive Airport and allow for future expansion of the airport and/or existing agricultural use.
- (B) Provide for the continued practice of agriculture, farm operations, agriculturally related and home based businesses.
- (C) Encourage an appropriate mix of land uses;
- (D) Implement jointly adopted area plans, where applicable.

#### 2-1302

**Size and Location.** It is the intent of the County that the JLMA-20 district boundaries not be extended beyond the existing JLMA-20 boundaries.

#### 2-1303

**Use Regulations.** Table 2-1303 summarizes the principal use regulations of the JLMA-20 district.

- (A) **Organization of Use Table.** Table 2-1303 organizes the uses in the JLMA-20 district by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: agricultural uses; residential use; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., agricultural uses and residential uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.
  - (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.

- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings are a Use Type in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1303 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “JLMA-20” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the JLMA-20 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the JLMA-20 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional regulations for Specific Uses (Section 5-600), a Use type will be permitted under certain conditions, or allowed as a special exception under other conditions. These uses are identified as “P/S”.
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Type is defined in Article 8.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1303 (JLMA-20 District Use Table) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600.

## DIVISION C – TRANSITION DISTRICT REGULATIONS

### Section 2-1400 TR-10 (Transitional Residential - 10)

#### 2-1401 **Purpose and Intent.** The purpose and intent of the TR-10 district is to:

- (A) Create a visual/spatial transition between the suburban area and the rural area of the County;
- (B) Provide for an environment that is low density in character to facilitate a transition between the suburban area and the rural area of the County;
- (C) Achieve a blend of rural and suburban development;
- (D) Achieve a balance between the built and natural environment;
- (E) Protect drinking water resources; and
- (F) Implement requirements that open space be provided in conjunction with the standards of this Ordinance.

#### 2-1402 **Use Regulations.** Table 2-1402 summarizes the principal use regulations of the TR-10 district.

- (A) **Organization of Use Table.** Table 2-1402 organizes the uses in the TR-10 district by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.
  - (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining

the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.

- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings, multi-family dwellings and town houses are Use Types in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1402 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “TR-10” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the TR-10 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the TR-10 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions, or allowed as a special exception under other conditions. In those instances, it is identified as “P/S.”
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Categories are defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1402 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600. All the Use Categories and Use Types listed in Table 2-1402 are defined in Article 8 (Definitions).

## Section 2-1500

### TR-3 (Transitional Residential-3)

#### 2-1501

#### Purpose and Intent.

- (A) The purpose and intent of the TR-3 district is to:
  - (1) Create a visual/spatial transition between the suburban area and the rural area of the County;
  - (2) Achieve a blend of rural and suburban development;
  - (3) Encourage new development designs that incorporate both suburban and rural features;
  - (4) Achieve a balance between the built and natural environment;
  - (5) Protect and integrate open space and natural resources; and
  - (6) Implement requirements that open space be provided in conjunction with the standards of this Ordinance.
- (B) **TR-3UBF.** This sub-district establishes a minimum of 50% open space to be more compatible with adjacent suburban development.
- (C) **TR-3LBR** is created as a sub-district of TR-3 to reflect differing open space requirements. This sub-district establishes a minimum of 70% open space in order to be more compatible with rural development patterns in adjoining jurisdictions and to protect the environment and areas surrounding the Bull Run.
- (D) **TR-3LF.** This sub-district establishes a minimum of 50% open space in order to be more compatible with adjacent suburban development.

#### 2-1502

**Use Regulations.** Table 2-1502 summarizes the principal use regulations of the TR-3 districts.

- (A) **Organization of Use Table.** Table 2-1502 organizes the uses in the TR-3 districts by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general

classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.

- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). - (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1502 are defined in Article 8 (Definitions).
  - (C) **Permitted and Special Exception Uses.** A “P” in the column identified “TR-3” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the TR-3 districts, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type is allowed in the TR-3 districts as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions or allowed as a special exception under other conditions. In those instances, it is identified as “P/S.”
  - (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only

the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.

- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1502 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600. **2-1503      Development Standards.**

- (A)    **General.** All development in the TR-3 districts, unless exempted pursuant to Section 2-1503(B), shall be developed consistent with Section 5-701 (TR Districts Lot Standards) and Section 5-1403(B).
- (B)    **Exemptions.** The development of a lot existing on January 7, 2003, is exempted from the standards and requirements of Section 5-701 (TR Districts Lot Standards). The development of such lot shall be subject to the development standards of Table 2-1503(B).

<b>TABLE 2-1503(B): TR-3 BUILDING REQUIREMENTS FOR EXISTING LOTS (Lots Existing Prior to January 7, 2003)</b>	
<b>Minimum Required Yards</b>	Except where a greater setback is required by Section 5-1403(B), no building shall be located within 25 feet of any property line or 35 feet from any other road right-of-way, private access easement, and any prescriptive easement.
<b>Maximum Floor Area Ratio</b>	0.05
<b>Maximum Building Height</b>	40 feet. No restriction for buildings used exclusively for agriculture, horticulture and animal husbandry.

- 2-1504      Other Special Requirements.** No non-agricultural use shall be permitted which, because of its nature, location, or manner of operation, is dangerous or noxious because of noise, odor, fumes, gas, glare, light, vibration, smoke, emission of particulate matter or effluents, or for other similar reasons.

**Section 2-1600 TR-2 (Transitional Residential - 2)**

**2-1601 Purpose and Intent.** The purpose and intent of the TR-2 district is to:

- (A) Create a visual/spatial transition between the suburban area and the rural area of the County;
- (B) Achieve a blend of rural and suburban development;
- (C) Encourage new development designs that incorporate both suburban and rural features;
- (D) Achieve a balance between the built and natural environment;
- (E) Protect and integrate open space and natural resources; and
- (F) Implement requirements that open space be provided in conjunction with the standards of this Ordinance.

**2-1602 Use Regulations.** Table 2-1602 summarizes the principal use regulations of the TR-2 district.

- (A) **Organization of Use Table.** Table 2-1602 organizes the uses in the TR-2 district by Use Classifications, Use Categories and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.
  - (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.

- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single family detached dwellings, multi-family dwellings and town houses are Use Types in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1602 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “TR-2” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the TR-2 district, subject to compliance with all applicable standards and regulations in this Ordinance and all other county ordinances. An “S” indicates that a Use Type is allowed in the TR-2 district as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted under certain conditions (allowed as a permitted use), or allowed as a special exception under other conditions. In those instances, it is identified as “P/S.”
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Categories are defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 2-1602 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600. All the Use Categories and Use Types listed in Table 2-1602 are defined in Article 8 (Definitions).

**Section 2-1700 TR-1 (Transitional Residential - 1)**

**2-1701 Purpose and Intent.**

- (A) The purpose and intent of the TR-1 districts is to:
- (1) Create a visual/spatial transition between the suburban area and the rural area of the County;
  - (2) Achieve a blend of rural and suburban development;
  - (3) Encourage new development designs that incorporate both suburban and rural features;
  - (4) Achieve a balance between the built and natural environment;

  - (6) Implement requirements that open space be provided in conjunction with the standards of this Ordinance.

**2-1702 Use Regulations.** Table 2-1702 summarizes the principal use regulations of the TR-1 districts.

- (A) **Organization of Use Table.** Table 2-1702 organizes the uses in the TR-1 districts by Use Classifications, Use Categories and Use Types.
- (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). - (B) **Use Categories and Use Types Defined.** All the Use Categories and Use Types listed in Table 2-1702 are defined in Article 8 (Definitions).
- (C) **Permitted and Special Exception Uses.** A “P” in the column identified “TR-1” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the TR-1 districts, subject to compliance with all applicable standards and regulations in this Ordinance and all other county ordinances. An “S” indicates that a Use Type is allowed in the TR-1 districts as a special exception in accordance with the procedures and standards of Section 6-1300. In some instances and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions or allowed as a special exception under other conditions. In those instances, it is identified as “P/S.”
- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column, means all of the uses in the Use Category are allowed. The Use Categories are defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.

### **SUBURBAN DISTRICT REGULATIONS**

#### **Section 3-100**

#### **R-1 Single Family Residential.**

##### **3-101**

**Purpose.** The R-1 Single Family Residential district is established to provide for low density single family detached residences on lots of 40,000 square feet or more in locations consistent with the Comprehensive Plan. Urban R-1 land requires public water and sewer and should be limited to areas planned and served for public water and sewer.

**SPECIAL & OVERLAY DISTRICTS**

**Division A: Planned District Regulations**

**Section 4-100      Planned Development-Housing.**

**4-101      Purpose.** The Planned Development-Housing (PD-H) district is established to provide for a variety of single and multifamily housing types in neighborhood settings plus supporting non-residential uses in a planned environment fostering a strong sense of community.

**4-102      Size and Location.** A PD-H district, when mapped, shall be no less than fifty (50) acres in size for a PD-H3, no less than twenty five (25) in size for a PD-H 4, and a PD-H 6 district. Smaller parcels that are adjacent to and a logical extension of an approved PD-H district may be approved pursuant to 6-1200. Land may be rezoned to the PD-H district where consistent with the provisions of the residential elements of the Comprehensive Plan.

**4-103      Timing of Development.** It is the intent of these regulations that due consideration be given to the relationship of a PD-H proposal to:

- (A) The general housing demand in the County.
- (B) The existing and potential housing supply under development plans approved by the County.
- (C) The general pattern and organization of residential communities in the County, and
- (D) The relationship to existing and planned employment opportunities and supporting business and other services.

**4-104      Zoning Regulations Generally.** It is the intent of these regulations that there be three (3) PD-H district options PD-H3, PD-H4, and PD-H6 to be distinguished on the basis of the maximum net residential density of the proposed district. PD-H districts shall be developed according to the regulations of the Urban Residential Districts, in Article III of this Ordinance, identified for individual land bays within the development at the time of preliminary subdivision official acceptance with the following:

- (A) **Maximum Net Residential Density.** The maximum net residential density approved for a PD-H district shall be consistent with the Comprehensive Plan and the design criteria defined therein for various types of communities and as follows:

	PD-H3	PD-H4	PD-H6
Net Residential Density	3	4	6

Increases in density above the maximums noted above may be granted pursuant to Article VII of this Ordinance. In such cases, Comprehensive Plan design criteria and requirements for additional open space shall not apply.

- (B) **Uses.** Single family detached, single family attached, duplex, townhouse, two family and multi-family uses are allowed in each of the PD-H zoning districts. - (1) The approved Concept Development Plan for a PD-H district shall designate which individual land bays of the proposed district shall be developed for residential uses pursuant to Low Density (R-1, R-2, and R-3), Medium Density (R-4 and R-8), or High Density (R-16 and R-24) district regulations, the maximum size of the land bay and number of units per land bay to be developed. Residential uses in the PD-H districts shall follow those requirements set forth in the R-1, R-2, R-3, R-4, R-8, R-16, or R-24 zoning districts respectively as designated on the preliminary subdivision plan.
  - (2) The approved Concept Development Plan for a PD-H district shall designate which individual land bays of the proposed district shall be developed for office, commercial and industrial uses, the maximum size of the land bay and floor

area per land bay, to be developed. Office, commercial and industrial uses shall follow those requirements set forth in the PD-CC, PD-OP, or PD-IP zoning districts respectively as designated on the preliminary subdivision plan.

- (3) All common open space, as well as public recreational facilities, shall be specifically included in the development schedule and be constructed and fully improved by the developer at an equivalent or greater rate than the construction of residential structures.

## **Section 4-200**

### **PD-CC Planned Development - Commercial Center.**

#### **4-201**

**Purpose.** These districts are created to permit the development of neighborhood, community, and regional shopping centers in scale with surrounding market areas, at locations recommended in the Loudoun County Comprehensive Plan. These shopping centers shall serve areas not already conveniently and adequately provided with commercial and service facilities of the kind proposed. It is intended to permit the establishment of such districts with carefully organized buildings, service areas, parking areas and landscaped open space; with design features which reduce traffic; and with design, landscaping and buffers which protect property values in surrounding neighborhoods. Planned Development-Commercial Centers shall provide a broad range of facilities and services appropriate to the general need of the area served. Within the broad classification of Planned Development- Commercial Center, several separate types of shopping centers are identified. The type of center appropriate to any specific location shall be determined by the market served; the proximity and access provided to residential districts; and consistency with the Comprehensive Plan.

#### **4-202**

### **Purpose, Size and Location of Individual Districts.**

- (A) **Neighborhood Center (NC).** This district is established to permit the development of small scale commercial centers which serve the convenience needs of residential neighborhoods immediately adjacent to or within walking distance of the center. Neighborhood centers shall be located on local access or two lane minor collector roads, and shall be designed, landscaped and buffered so as to be compatible with neighboring development. When mapped, each district shall be a minimum of 1.5 acres and a maximum of six (6) acres in area. This district is intended to have a mix of uses of which no one use shall exceed five thousand (5000) square feet or fifty percent (50%) of the gross floor area of the center, whichever is less, without special exception approval.
- (B) **Community Center (CC).** This district is established to permit the development of commercial centers which serve the retail shopping needs of the surrounding community. Community centers are centrally located on collector roads within a ten (10) minute drive to the community it is intended to serve. Such centers shall be sited so as to complement the character of the surrounding community, to include appropriate pedestrian linkages with adjacent land uses, and shall be designed, landscaped and buffered so as to be compatible with neighboring development. When mapped such district shall be a minimum of six (6) acres and a maximum of twenty (20) acres in area.

- (C) **Small Regional Center (SC).** This district is established to permit the development of small regional centers consisting of individual large and small scale commercial uses selling a broad range of goods or services to a market area beyond the local community. Specialty centers shall be located with controlled access to major collector roads and will be designed, landscaped, and buffered so as to be compatible with neighboring development. When mapped, such district shall be a minimum of twenty (20) acres and a maximum of sixty (60) acres.
- (D) **Regional Center (RC).** This district is established to permit the development of large scale commercial centers which provide a wide range of retail, office, and service uses, with one or more anchor stores, to the regional market. Transportation facilities, public services, and site design shall be carefully planned so as to insure regional centers promote and reinforce the identity of the community and commercial facilities in the surrounding area. This district may be mapped in specific locations provided in the Comprehensive Plan. When mapped, this district shall be located with controlled access to arterial roads, and shall be a minimum of sixty (60) acres.

Ground-mounted solar energy generation facility as a Permitted Use shall be subject to the following criteria:

1. **Size of Use.**

- a. **Minimum Lot Size.** 500 Acres.
- b. **Height.** No ground-mounted solar panel shall exceed a height of 20 feet, which shall be measured from the highest natural grade below each ground-mounted solar panel to the top of the solar panel or its supporting structure, whichever is higher. This limit shall not apply to utility poles and the interconnection to the overhead electric utility grid.
- c. **Abutting Lots.** Lots no less than 250 acres in size and abutting the facility on a 500 acres lot may be utilized for such abutting facility.

2. **Visual Impacts.**

- a. The facility must minimize impacts on viewsheds, including from residential areas and areas of scenic, historical, cultural, archaeological, and recreational significance as demonstrated through project siting and proposed mitigation.
- b. The facility must utilize only panels that employ anti-glare technology, anti-reflective coatings, and other available mitigation techniques, all that meet or exceed industry standards, to reduce glint and glare.

3. **Location/Dimensional.**

- a. **Setbacks.** All elements of the facility must be set back a distance of at least 75 feet from all public rights-of-way and, and a distance of at least 25 feet from abutting property lines. However, where Section 4-605(B) provides for more restrictive setbacks, then the more restrictive setbacks must be complied with. Notwithstanding the forgoing, no setback from abutting property lines of an abutting lot shall be required if the facility is partially located on such abutting lot in accordance with Section 4-607(L)(1)(c). These setbacks shall not restrict the location of access, erosion and

stormwater structures, and interconnection to the electrical grid.

- b. **Other Setbacks.** The facility must not be located within 1 mile of an airport unless the applicant submits, as part of its application, written certification from the Federal Aviation Administration that the location of the facility poses no hazard for, and will not interfere with, airport operations.

- b. **Driveways.** Driveways are not permitted within required buffered setbacks except as necessary to access the site. Driveways must have all-weather roadways negotiable by loaded transport vehicles.

5. **Landscaping/Buffering/Screening.** Refer to Section 5-1400

6. **Decommission Plan/Security.**

- a. **Decommission Plan.** As part of the site plan submission, the facility owner or property owner must provide a detailed decommission plan acceptable to the County that provides procedures and requirements for removal of all parts of the facility and its various structures. Such decommission plan must be implemented at the end of the useful life of the facility or if the facility is deemed by the County to be unsafe or abandoned. The plan must include the anticipated life of the facility, the estimated overall cost of decommissioning the facility in current dollars, the methodology for determining such estimate, and the manner in which the project will be decommissioned. The decommission plan and the estimated decommissioning cost must be updated upon the request of the zoning administrator, provided the update shall be no more frequently than

once every 5 years and no less frequently than once every 10 years.

- b. **Security.** Prior to operation, the facility owner or property owner must provide a security in the amount of the estimated cost of the decommissioning. Options for security include a cash escrow, a performance surety bond, an irrevocable letter of credit, or other security acceptable to the County. Such security must be in an amount equal to the estimated decommissioning cost as developed and updated in accordance with the decommission plan determined to be acceptable to the County. The security must remain valid until the decommissioning obligations have been met. The security may be adjusted up or down by the County if the estimated cost of decommissioning the facility changes. The security must be renewed or replaced if necessary to account for any changes in the total estimated decommissioning cost that may result from the periodic updated estimates required by the decommission plan. The security shall be for the benefit of the County and shall be obtained and delivered to the County before any construction commences.

## 7. **Unsafe or Abandoned Projects/Decommissioning.**

- a. **Unsafe Project.** If the facility has been determined to be unsafe by the County, the facility shall be required to be either: i) repaired by the facility owner or property owner to meet federal, state, and local safety standards, or ii) removed by the facility owner or property owner. The facility owner or property owner must complete the repair or removal of the facility in compliance with the decommission plan established for such facility and within the time period established by the County.
- b. **Abandoned Project.** If any facility is not operated for a continuous period of 12 months, the County will notify the facility owner and property owner by registered mail and provide 45 days for a response. In its response, the facility owner and/or property owner shall set forth reasons for the operational difficulty and provide a reasonable timetable for

corrective action. If the County deems the timetable for corrective action to be unreasonable, it will notify the facility owner and property owner, and the facility owner and/or property owner must remove the facility in compliance with the decommission plan established for such facility.

- c. **Notification.** At such time that a facility is scheduled to be abandoned, the facility owner or property owner must notify the zoning administrator in writing.
- d. **Removal Period.** Within 365 days of the date of abandonment, the physical removal of the solar facility must be completed in compliance with the decommission plan established for such facility. This period may be extended at the request of the facility owner or property owner and upon approval of such request by the Board of Supervisors.
- e. **Handling and Disposal.** The handling and disposal of all equipment and facility components must be in compliance with the decommission plan and with federal, state, and local requirements.
- f. **Legal Action.** If the facility owner or property owner fails to timely remove or repair an unsafe or abandoned facility after written notice, the County may pursue legal action to have the facility removed at the expense of the facility owner and property owner, each of whom shall be jointly and severally liable for the expense of removing the facility. The County may also make use of the security required by Section 4-607(L)(6)(b) to remove the facility.

## Section 4-800

### PD-TC Planned Development - Town Center.

#### 4-801

**Purpose.** This district is established to provide for a compatible mixture of commercial, cultural, institutional, civic, governmental, and residential uses in compact, pedestrian oriented urban activity centers consistent with the Comprehensive Plan serving substantial residential areas. Specific objectives of such districts include:

- (A) Uses generally located in vertically-integrated buildings in close proximity to each other.
- (B) Generally rectilinear patterns of streets and blocks, arranged in a network of public and/or private streets, designed for automotive vehicles, public transit, bicycles, and pedestrians.
- (C) Well configured squares, greens, landscaped streets, and parks woven into the pattern of the district and dedicated to collective social activity, recreation, and visual enjoyment.
- (D) Civic and community buildings or spaces for public assembly that act as landmarks, symbols, or focal points for community identity.
- (E) On-street parking and centralized parking facilities to collectively support uses in the district.
- (F) An attractive environment in which to live, work, and play.

#### 4-802

**Size, Location and Components.** This district, when mapped, shall be no less than 30 acres nor more than 125 acres in size, and shall be served by minor collector, major collector, or arterial roads with capacity to handle the traffic generated. This district shall be located only in areas served by central water supply and sewer systems. No Town Center Core, as defined herein, shall be located within 10,000 feet of another Town Center Core, except that a Town Center Core may be located within 1 mile of another Town Center Core where a physical feature exists sufficient enough to alter access and travel patterns between the Town Center Cores, such as water bodies and roads with a minimum of 6 lanes. The district may be divided into the 2 following parts, but shall always include a Town Center Core.

- (A) **Town Center Core.** The Town Center Core shall be no less than 10 acres in size. For a district of up to 60 acres, the Town Center Core shall be a maximum of 30 acres in size. For a district greater than 60 acres, the size of the Town Center Core shall not exceed 50% of the land area of the district. The Town Center Core shall consist of vertically-integrated uses and pedestrian oriented design to generate substantial pedestrian activity. The Town Center Core

shall generally be the focal point and predominant activity center of the district.

- (B) **Town Center Fringe.** A Town Center Fringe shall be provided for districts greater than 30 acres in size. The Town Center Fringe shall generally serve as a transition between higher intensity uses in the Town Center Core and surrounding development. The Town Center Fringe shall consist of pedestrian oriented businesses and activity balanced with residential and other uses more dependent on vehicular access, located outside of and adjoining the Town Center Core.

**4-803 Use Regulations.** Table 4-803 provides the principal use regulations of the PD-TC district.

- (A) **Permitted and Special Exception Uses.** A “P” in a column indicates that a use is a Permitted Use in the Town Center Core or Town Center Fringe, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” in a column indicates that a use may be permitted in the Town Center Core or Town Center Fringe by the Board of Supervisors by Special Exception approval and may be subject to certain conditions, pursuant to Section 6-1300. An “M” in a column indicates that a use may be permitted in the Town Center Core or Town Center Fringe by the Board of Supervisors by Minor Special Exception approval and may be subject to certain conditions, pursuant to Section 6-1300.
- (B) **Use Limitations and Additional Regulations for Specific Uses.** References to sections in the column titled “Use Limitations and Additional Regulations for Specific Uses” indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Use Limitations” in Section 4-809 and/or the “Additional Regulations for Specific Uses” in Section 5-600.

The required town green may be located within the Town Center Fringe and adjacent to the Town Center Core if a public plaza of no less than 10,000 square feet is located within the Town Center Core. An additional 10% of the land area of a district above the base 60 acres shall be devoted to usable open space in the form of greens, pocket parks and/or outdoor plazas open to the public, and at least 50% of this additional area shall be located in the Town Center Fringe.

easement granted to the County that extends the full length of the pedestrian linkage. Vehicular access shall be prohibited on any such pedestrian linkage except for emergency and/or maintenance purposes.

- (2) At least 50% of the total of all block frontages within the Town Center Core, excluding frontages along alleys, shall be occupied by pedestrian oriented businesses on the ground floor. This requirement shall not apply to that portion of a block frontage that contains the following uses:

## 4-901

**Purpose and Intent.** This district is established to provide for the development of new, compact, moderately dense, mixed-use countryside villages. This district is intended to provide a development option which is consistent with the basic purpose and intent of the transition districts to provide a visual, spatial, and use transition between Loudoun’s suburban areas to the east and the rural areas to the west. It is the intent that this district’s planning, design and development will achieve, but not necessarily be limited to, all of the following objectives:

- (A) The creation of a distinct, moderately dense, compact mixed-use community with a variety of housing types, generally surrounded by a protected landscape of open land for scenic, recreational, and environmental protection purposes.
- (B) Provision of civic and institutional buildings for assembly or other civic purposes that constitute the predominant component of nonresidential uses within an identified Village Core, complemented by a variety of shops, services, and offices that support the needs of village residents.
- (C) The construction of modestly sized buildings fronting on, and aligned with, streets in a disciplined manner, uninterrupted by parking lots.
- (D) Development of a generally rectilinear pattern of interconnected streets, alleys, and blocks that provides for a balanced mix of pedestrians and automobiles.
- (E) Creation of a recognizable, functionally diverse, visually unified Village Core that serves as the focal point for the development.
- (F) Provision of open space such as natural areas, tot lots, athletic fields, parks, squares, and greens that are generally dispersed in the village so that they are conveniently located for residents.
- (G) Landscaped streets, parks and plazas integrated into block patterns to provide spaces for social activities, and visual enjoyment.
- (H) Creation of employment opportunities for Countryside Village and neighboring residents and to provide sites for compatible, small work places, without adverse impacts on the Village and surrounding residents.
- (I) The location of dwellings, shops, and work places generally in close proximity to each other; the scale of which accommodates and promotes pedestrian travel for trips within the Village Core.
- (J) Incorporation of architectural features, materials, and the articulation of building façades in the design of buildings visible from public streets, in order to avoid building façades in the Village Core that have continuous blank surfaces, by the use of architectural elements such as fenestration, towers, cupolas, murals and decorative glass to break the monotony of plain building surfaces.

**4-902**      **District Size.** This district, when mapped, shall be no less than five hundred (500) acres in size. Incremental and contiguous additions of land to an existing PD-CV zoning district shall be allowed. Such additions must demonstrate their relationship and compatibility with the previously approved district to which it is being added.

**4-903**      **Preparation of the Concept Development Plan (CDP).** All Concept Development Plans required by this section shall be prepared in accordance with Section 6-1200 of this Ordinance and, in addition, shall include and graphically show the following items:

- (A)    Primary Conservation Areas, on a Conservation and Development Area Map;
- (B)    The type and scale of proposed uses including residential unit type and quantity;
- (C)    Site designs to include the integration of the built and open space environment, pedestrian streetscape design, pedestrian, bicycle and motor vehicle connections between the uses;
- (D)    Illustrative drawings of a typical streetscape within a mixed use area in the Village Core;
- (E)    The physical and functional integration of the proposed mix of land uses, including but not limited to pedestrian and vehicle connections between the uses and planned parking;
- (F)    The location and design of focal points within the district;
- (G)    Phasing of the development;
- (H)    A comprehensive greenways, sidewalks and trails masterplan that is consistent with the Countywide Bicycle and Pedestrian Mobility Master Plan;
- (I)    A conceptual landscape plan which identifies the general location and size of both existing vegetation to be retained and proposed new vegetation, typical landscape sections and drawings, typical planting materials, and the phasing of landscape installation and planting methods;
- (J)    Transportation elements as required by Section 4-912; and
- (K)    A plan or statement showing how public utilities are, or will be provided.

The Concept Development Plan shall demonstrate conformance with the development standards contained in this Section.

**4-904**      **Land Use Elements and Location.** The Concept Development Plan shall include a plan of the Village Core, the Village Neighborhood, and the Village Conservancy areas. It may also include a plan for a Satellite Conservancy Area, if proposed.

- (A) **Countryside Village Core.** The Village Core provides the main organizing feature for the Countryside Village. The Village Core is intended to be a compact, pedestrian-scaled environment of predominantly non-residential uses. Residential dwelling units will, however, be permitted, but not at street level. One residential dwelling unit shall be permitted for every three thousand (3000) square feet of gross floor area devoted to nonresidential purposes. Such units shall not be counted towards overall residential density, rather they will be counted as bonus density units. Such units may be used to meet affordable dwelling unit requirements. Parks, squares, plazas and green open spaces are important organizing features of the Village Core, and can serve as gathering places for the community. The majority of nonresidential uses in the Village Core shall be comprised of civic and institutional uses, while commercial office, retail, and service uses shall provide employment opportunities and convenience goods and services for village and neighboring residents. The Village Core shall:
- (1) Be located such that the development does not adversely impact cultural resources, such as historical structures, archaeological sites or Virginia byways.
  - (2) Be contiguous and generally compact in shape.
  - (3) Be centrally located for pedestrian access in relation to a majority of residential units.
- (B) **Countryside Village Neighborhood.** The Village Neighborhood primarily comprises the residential component of a Countryside Village that generally surrounds the Village Core and consists of a mix of single-family detached development and higher density residential development in the form of single-family attached and multi-family units. The Village Neighborhood shall:
- (1) Be contiguous and generally surround the Village Core.
  - (2) Provide for a mix of housing styles, types and sizes to accommodate households of all ages, sizes, and incomes.
  - (3) Be located such that the development does not adversely impact cultural resources, such as historical structures, archeological sites or Virginia byways.
- (C) **Countryside Village Conservancy Area.** The Village Neighborhood shall generally be surrounded by an open area described hereafter as the Village Conservancy Area, which shall create a visual and physical distinction between the development and the surrounding countryside. The Village Conservancy Area is to generally be open land, providing significant buffering of neighboring properties, while allowing for limited residential use. The Village Conservancy Area shall:
- (1) Be contiguous and generally surround the Village Neighborhood.

- (2) Be placed under permanent open space easement limiting uses to those listed in Section 4-907.
- (D) **Countryside Village Satellite Conservancy Area (Optional).** The district may include detached parcels constituting a Satellite Conservancy Area(s). A Satellite Conservancy Area shall be included in calculating the total development potential of the Countryside Village. Such Satellite Conservancy Area shall only be allowed when converting existing TR1LF and TR3LF zoned areas to PD-CV zoned areas, and, provided that:
  - (1) The Satellite Conservancy Area is located partly, or wholly, within the area between three hundred (300) feet and five hundred (500) feet of Bull Run, (unless specifically modified by the County pursuant to Section 4-919); and
  - (2) It is placed under permanent open space easement limiting uses to those listed in Section 4-907.

#### **4-905 Final Development Plan.**

- (A) **FDP Required.** Prior to the commencement of development of a parcel in the Village Core or in the Village Neighborhood, the Planning Commission shall review and approve a Final Development Plan. Approval of the FDP shall serve as meeting the non-engineered requirements of a site plan. If more than one FDP is required, then each FDP shall indicate how the remainder of the development may be completed. The Planning Commission shall approve a Final Development Plan if it conforms to approved proffers and the approved Concept Development Plan and contains the information enumerated in Section (B) below:
- (B) **FDP Submission Requirements.**
  - (1) The Final Development Plan shall be prepared in accordance with the approved Concept Development Plan and proffers and shall contain the following information:
    - (a) A vicinity map at a scale of not less than one inch equals two thousand feet (1" – 2000').
    - (b) Bearings and distances of the perimeter property lines.
    - (c) Total area of property presented in square feet or acres.
    - (d) Scale and north arrow, with north, to the extent feasible oriented to the top of all drawings.
    - (e) Names and route numbers of boundary streets and the width of existing right(s)-of-way, any proposed change to the public right(s)-of-way, delineation of the existing centerline of all streets abutting the property, including

dimensions from the existing centerline to the edge of the pavement and to the edge of the right(s)-of-way.

- (f) The location and arrangement of all proposed uses, including a preliminary subdivision layout, if subdivision is proposed.
- (g) The maximum height in feet, to include lofts and penthouses, of all buildings, and the number of floors both above and below or partially below finished grade.
- (h) Proposed building footprints and elevations.
- (i) The traffic circulation system and the pedestrian and bicycle circulation system, including the location and width of all streets, driveways, entrances to parking areas and parking structures, pedestrian walkways, and bicycle paths.
- (j) Landscaping plan indicating the location and type of all plantings, and any trees to be conserved.
- (k) A plan or statement showing how public utilities are, or will be provided.
- (l) Approximate location and estimated size of all proposed stormwater management facilities.
- (m) When the development is to be constructed in sections, a final sequence of development schedule showing the order of construction of such sections, and an approximate completion date for the construction of each section.
- (n) Location and size of open space areas, specifying the proposed treatment of improvement of all such areas.
- (o) Elevations of proposed buildings.
- (p) Architectural sketches of typical proposed structures showing all facades of structures, not just street frontages, with bird's eye and pedestrian-eye views, including lighting fixtures and signs.
- (q) Location and quantity of required number of off-street parking and loading spaces provided and the location of on-street parking.
- (r) A statement that the proposed development conforms to the provisions of all applicable ordinances, regulations and adopted standards.

- (2) A final statement in tabular form which sets forth the following data, when such data is applicable to a given development plan:
- (a) Total number of dwelling units by type.
  - (b) Total floor area for each type of use and total floor area ratio in each subarea or landbay.
  - (c) Total area in open space including recreational open space provided and the amount required.
  - (d) Total number of off-street parking and loading spaces provided and the number required.

**4-906 Land Use Mix and Density.**

- (A) All developments in a PD-CV District shall conform to the district land use mix and density requirements set forth in Table 4-906 below.

<b>TABLE 4-906: LAND USE MIX AND DENSITY IN THE PD-CV DISTRICT</b>	
<b>Area</b>	<b>Land Use Mix/Density Use Requirements</b>
Village Conservancy Area	<b>Minimum of 50% of district gross land area.</b>
Village Satellite Conservancy Area	<b>None required.</b> However, when included as part of the PD-CV zoning district, the Village Satellite Conservancy Area shall be in addition to the minimum gross land area required for the district, and shall be included in the density calculation of the village.
Village Core	3.0% to 6.0% of the gross land area of the entire development. Greens, parks, open space and water features do not count towards the gross land area requirement for the Village Core. A vertical mix of uses is permitted in the Village Core, such as ground floor retail with upper story residences or offices.
Overall Residential Density for Countryside Village	Residential density shall not exceed two (2) dwelling units per acre. However, an option to increase density up to three (3) units per gross acre is permitted in accordance with Section 4-906(B) of the ordinance.
Percentage of Residential Units permitted in the Village Neighborhood	Single Family Detached: Minimum 60% Single Family Attached: Minimum 10% Multi-Family: Minimum 5% The Board of Supervisors may modify these minimum requirements by up to 10% of each dwelling type, during review of a Concept Development Plan

- (B) An increase in density shall be permitted when an open space easement(s) in the TR3LBR zoning district is acquired. One additional unit is permitted for every three (3) acres of land eased in the TR3LBR district. A commitment to acquiring such open space easement(s) must be made at the time of a zoning map amendment application. The maximum density in the PD-CV district shall not exceed three (3) dwelling units per gross acre.

#### 4-907

**Uses.** Table 4-907 below identifies the uses permitted and allowed by special exception in each land use area of the PD-CV district.

- (A) **Organization of Use Table.** Table 4-907 of this Section organizes the uses in the PD-CV district by Use Classifications, Use Categories, and Use Types.
  - (1) **Use Classifications.** The Use Classifications are: residential uses; agricultural uses; public and institutional uses; commercial uses; and industrial uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., residential uses and agricultural uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.
  - (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classification, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are the principal uses that most closely share the common characteristics that are key to the Use Category.
  - (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, single-family detached dwellings, multi-family dwellings, single-family attached dwellings, guesthouses and accessory dwellings are Use Types in the Household Living Use Category.
- (B) **Use Categories and Use Types Defined.** The Use Categories and Use Types listed in Table 4-907 are defined in Article 8 (Definitions) of this Ordinance.
- (C) **Permitted and Special Exception Uses.** A “P” in the columns identified with “PD-CV” indicates that a Use Category or specific Use Type is permitted as a matter of right (as a permitted use) in the corresponding PD-CV land use element, subject to compliance with all applicable

standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Category or Use Type is allowed in the PD-CV subdistrict as a special exception in accordance with the procedures and standards of Section 6-1300. An “M” indicates that a Use Category or Use Type is allowed in the PD-CV sub district as a Minor Special Exception in accordance with the procedures and standards of Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be permitted as a matter of right under certain conditions or allowed as a Special Exception under other conditions. In those instances, it is identified “P/S”.

- (D) **Reference to General Use Category.** References to “General Use Category” under the Use Type column mean all of the uses in the Use Category are allowed. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed.
- (E) **Additional Regulations for Specific Uses.** References to sections in the final column of Table 4-907 (Additional Regulations for Specific Uses) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Additional Regulations for Specific Uses” in Section 5-600. If no reference to Article V is made in Table 4-907 for a use, then such use is not subject to any additional regulation for specific uses as noted in Section 5-600, although the same use may be subject to such additional standards in another zoning district of the Ordinance.

**Notes to Table 4-909:**

- [1] Dimensional standards for greens, parks, squares and plazas are contained in the Development Standards section, at 4-911(D) of this Ordinance.
- [2] Detach garages located at the rear of a residential lot and attached to a similar garage on a contiguous lot may be located within the minimum required side yard and within two (2) feet of the rear property line. Detached garages that are accessed from the front of the lot may be located anywhere within the minimum rear yard.
- [3] Subject to [6] below, buildings in the Village Core should abut the sidewalks whenever feasible. For commercial buildings, also see Section 4-911(E).
- [4] There shall be a ten-foot minimum separation between two buildings. For zero lot line dwellings, an access easement must be recorded on the adjoining lot, for the purpose of dwelling maintenance.
- [5] Decks in the PD-CV district shall be permitted within the minimum required rear yard, provided they are located no closer than five (5) feet to the rear property line.
- [6] Buildings on corner lots adjacent to public or private streets in the Village Neighborhood and Village Core shall be set back at least sixteen (16) feet from the edge of the road pavement.
- [7] For nonresidential uses in the Village Neighborhood, the maximum Floor Area Ratio (FAR) permitted is 0.25.

**(A) General Guide:**

- (1) The Countryside Village should be sited so as to best preserve natural vistas and the existing topography.
- (2) The design of the Countryside Village should be such that there is a natural progression in scale from the denser predominantly non-residential, Village Core, to the multi-family and single-family attached units and civic uses adjacent to the Village Core in the surrounding Village Neighborhood area. The periphery of the Village Neighborhood adjacent to the Village Conservancy areas shall be predominantly single-family detached lots.
- (3) In the Village Neighborhood smaller single-family detached lots should be located towards the Village Core and larger single-family detached lots towards the periphery of the Village Neighborhood adjacent to Village Conservancy areas.
- (4) The boundaries of the Village Conservancy and Satellite Conservancy Areas should be designed to follow natural features whenever possible.
- (5) In the Village Core, buildings should be located within close proximity to each other so as to encourage pedestrian movement between different uses. Attention should be given to the relationship of building height, design of streetlights and signs, sidewalks, and distance between uses so as to provide for a well balanced, attractive and harmonious Village Core.
- (6) The Village Neighborhood and Village Core should be designed in a generally rectilinear pattern of blocks and interconnecting streets and alleys, defined by buildings, street furniture, landscaping, pedestrian ways and sidewalks. Pedestrian connections shall be provided from uses within the Village Neighborhood and Village Core to parks, squares, and open space owned by the Property Owners Association, except where pedestrian traffic would adversely interfere with or affect sensitive environmental or habitat areas.
- (7) Attention should be given to the architectural features, materials, and articulation of building facades. In The Village Neighborhood architectural elements such as porches, roof and entrance overhangs, to define the front entrance of residences are encouraged. In the Village Core, awnings, canopies, trellises and similar architectural features should cantilever over the pedestrian walkway or sidewalk to provide continuous all-weather protection for pedestrians on sidewalks.

- (8) Open space(s) such as natural areas, tot lots, athletic fields, parks, squares, and greens should generally be dispersed in the Countryside Village so that they are conveniently located to most residential units within the district.
- (9) Buildings in any given block in the Village Core should be aligned in one plane, and located close to the street. However, within the Village Neighborhood, single-family detached units may be staggered within a block to create a more varied streetscape.
- (10) In order to encourage a pedestrian-friendly environment and reduce vehicle trips within the Village Core, off-street parking should be located at the rear of the lots, with on-street parallel - parking for additional cars.
- (11) Lot width, front yards, side yards, driveway aprons and entrances, and blank street-facing building walls should be minimized to encourage pedestrian movement.
- (12) The Village Conservancy Area should generally surround the Village Neighborhood unless explicitly modified pursuant to Section 4-919, upon a finding that unique topographical or other natural features or pre-existing boundary constraints require an alternative arrangement.
- (13) Within the Village Neighborhood, Cul-de-sacs and P-loop streets shall not be permitted, except where used to access lots which are adjacent to the Village Conservancy.
- (14) Landscaping and streetscaping design in the village core should achieve the following:
  - (a) Clear definitions of edges of public corridors and spaces and access points for public spaces;
  - (b) Visual accessibility for public safety;
  - (c) Screening for privacy of adjoining private spaces where desirable;
  - (d) Shade and shelter in public spaces to provide for comfortable summer use of selected parts of space; and
  - (e) Ecological sustainability, with tree/plant species appropriate to climate, soils, drainage and sun and wind exposure.
- (15) Street lighting and open space lighting in the Village Core should encourage the following:
  - (a) Low-level ground lighting as well as pole lighting;

- (b) Lighting types and levels to provide for safety and prevent night-sky pollution;
- (c) Lighting types and placement of pole and ground lighting to define pathways, entrances to spaces;
- (d) Facilitate nighttime orientation for pedestrians, bicyclists and motorists;
- (e) Highlighting points/structures of interest; and
- (f) Evening use of public spaces in Village Core.

**(B) Specific Requirements.**

- (1) Cul-de-sacs and P-loop streets are not permitted in the Village Core.

**4-911 Development Standards.**

**(A) Block Form and Size.**

- (1) Blocks of a generally rectangular shape shall be the main organizing feature of the Village Neighborhood and Village Core. While topography, existing vegetation, stream channels and design intentions shall influence block shape and size, the length of such blocks in the Village Core and Village Neighborhood interior shall be no less than three hundred (300) feet nor more than six hundred (600) feet as measured along front lot lines, between intersections of streets. The block length along the periphery of the Village Neighborhood bordering the Conservancy Area shall be a maximum of one thousand (1000) feet to facilitate a visual transition towards the Conservancy Area.
- (2) The blocks of the Village Core shall be subdivided into generally rectangular shaped lots, having frontage on a street. The layout of such lots shall respond to environmental factors, the proposed use, and design intentions.

**(B) Variation of Lot Sizes and Building Types.**

- (1) Single-family detached development in the Village Neighborhood shall incorporate a variety of lot sizes, building types and/or forms (Typical drawing required).
- (2) **General Rule.** In all single-family detached subdivisions in the Village Neighborhood containing ten (10) or more lots, a mixture of lot sizes and dimensions shall be provided in order to allow a variety of housing opportunities and avoid monotonous streetscapes. For example, larger and wider lots are encouraged on corners. Smaller lots are encouraged adjacent to parks and open spaces. No more than sixty percent (60%) of all lots shall be similar

in total lot area. For purposes of this subsection, "similar" lot areas shall be defined as within five hundred (500) square feet of each other.

- (3) **Exception.** Up to seventy percent (70%) of the lots within the subject subdivision may be similar if the Zoning Administrator, pursuant to Section 6-401, makes a finding that, notwithstanding deviation from the sixty percent (60%) standard stated above, lot sizes and dimensions are sufficiently varied for different building types and forms, to avoid monotonous streetscapes.
- (4) **Dispersion of Lot Sizes.** Similar lot sizes shall be distributed throughout a subdivision rather than consolidated in one area, unless the Zoning Administrator, pursuant to Section 6-401, makes a finding that the intent of this district and of the Zoning Ordinance shall be better served by a design that tends to consolidate lots of similar sizes.

(C) **Village Core Features.** The Village Core shall incorporate on-site amenities or features listed below:

- (1) A centrally located park, green, or square and at least one additional park, square, green or plaza, pursuant to Section 4-911(D), below.
- (2) A water feature, such as a lake, pond, or fountain, which is easily accessible by pedestrians, and includes or integrates seating areas for pedestrians.
- (3) A minimum of fifty (50) and a maximum of one hundred (100) square feet of retail and office space, as specified under the **Retail Sales and Service Use Category** and **Office Use Category**, is required per dwelling unit in the village. A grocery store, if provided, shall count towards the minimum amount of retail space required, but shall not be subject to the maximum limit of required retail space.

- (5) Bicycle and Pedestrian accommodations as defined by the Loudoun County Bicycle and Pedestrian Mobility Master Plan.
- (6) The phasing for construction of on-site amenities within the Village Core shall meet the following minimums:
  - (a) Zoning permits for at least twenty-five percent (25%) of the **Retail Sales and Service Use Category** and **Office Use Category** as specified in [3] above, must be obtained, and all other on-site amenities required in the Village Core [(1), (2), (4) and (5)] above, must be provided prior to the

issuance of zoning permits for more than 75% of all residential units proposed in the Countryside Village.

- (b) Zoning permits for at least fifty percent (50%) of the **Retail Sales and Service Use Category** and **Office Use Category** as specified in [3] above, must be obtained prior to the issuance of zoning permits for more than ninety percent (90%) of all residential units proposed in the Countryside Village.
- (c) All zoning permits for the **Retail Sales and Service Use Category** and **Office Use Category** as specified in [3] above, must be obtained prior to the issuance of zoning permits for all residential units proposed in the Countryside Village.

- (c) 50 feet for a plaza.

(3) No residential unit in the Village Neighborhood shall be located more than one thousand five hundred (1500) feet from a neighborhood park, community park, square or green. Such parks, squares and greens must be interspersed throughout the Village Neighborhood.

(4) Greens, parks, squares and plazas shall be located in visually prominent areas. In the Village Core, they shall be located in conjunction with civic uses or commercial uses.

(5) Athletic fields may be located along collector roads, other than those listed in Table 4, and may be accessed therefrom. Such fields shall be buffered from all roads and residential development with a permanent common open space buffer of fifty (50) feet in depth with required landscaping equivalent to that of a Road Corridor

Buffer Type 2 (Section 5-1403(D)) and a Buffer Yard Type B (Section 5-1404(D)).

(E) **Frontage/Entrance Standards in the Village Core.**

- (1) The front of any commercial building shall be oriented towards the street or main village green or square. A minimum of sixty percent (60%) of any commercial building façade facing the front lot line shall abut the front lot line or sidewalk. The main entrance to such commercial building shall be from the front.
- (2) Commercial buildings fronting on the same street and located on the same block shall be attached except where pedestrian ways are located between buildings.

(F) **Buffering and Screening.** The buffering and screening requirements of Section 5-1403 shall not apply within the PD-CV district, except for the building and parking setbacks under Section 5-1403(B) and the road corridor buffer adjacent to any existing or planned arterial road under Section 5-1403(B). - (2) Village Core/Nonresidential Blocks and Mixed Use Blocks:
  - (a) Sidewalks shall be provided on both sides of a nonresidential or mixed-use block and shall connect to building entrances.

- (b) Minimum width: Eleven (11) feet, which may include a minimum six (6) foot wide sidewalk and a planting strip of five (5) feet at the curb.
  - (c) All sidewalks shall be aligned and connected with those on adjacent properties and public rights-of-way.
  - (d) Each point at which the system of sidewalks or pedestrian trails crosses a parking area or street to make a required connection, such connections shall be clearly marked using a change in paving materials or distinctive colors as approved by VDOT.
- (3) The developer shall construct temporary pedestrian paths, extending across undeveloped land designated for commercial development and linking other portions of the Village Core, at the same time as adjoining areas are developed. Such paths shall be a minimum of five (5) feet in width, constructed of gravel, sand, woodchips, or other similar type materials.
  - (4) Pedestrian paths linking land designated for commercial development with residential areas shall be constructed concurrent with development of the remainder of the network, so as to connect residential areas across undeveloped commercial areas.

**(I) Road and Street Standards.**

- (1) Roads, streets and alleys should be designed to:
  - (a) Parallel and preserve existing fence lines, tree lines, hedgerows and stone walls.
  - (b) Minimize alteration of natural site features and to the extent feasible follow natural site contours.
  - (c) Maximize views to prominent natural and manmade vistas.
  - (d) Promote pedestrian movement, comfort, convenience and safety.
- (2) Alleys. Alley travel ways shall not exceed twelve (12) feet of pavement width.
- (3) Within the Village Core, parking shall only be allowed on one side of the street.

**(J) Parking Requirements.**

- (1) Parking in the Village Core should generally be located at the rear of the lots and no off-street parking shall be permitted in front yards.

- (2) Additional parking may be provided in the Village Core by continuous parallel on-street parking to help slow traffic (Typical drawings required).

  - (4) In the Village Core, notwithstanding the requirement of Section 5-1103(A), all parking shall be located on the lot being served, or on a separate lot or parcel within ¼ mile of the principle pedestrian entrance of the building that it serves.
  - (5) In the Village Core, access for off-street parking shall generally be achieved by means of alleys, off-street vehicular connections between adjacent parking lots and side streets.
  - (6) In the Village Core, off-street parking areas and parking lots should be designed to have low visibility and consequently shall not be located at the visual termination of roads and streets and shall not be the principal use of corner lots.
  - (7) In the Village Neighborhood, shared driveways are encouraged.
- (K) **Administrative Reductions, Waivers, or Modifications of Parking Requirements.** The Zoning Administrator may grant administrative reductions, waivers, or modifications of parking requirements in the Village Core for permitted or special exception uses contained in Section 4-907, Table 2 above, in accordance with the provisions of Section 5-1102(F), as applicable.
- (L) **Garages.** Single-family detached units in the Village Neighborhood shall include one of the following:
- (1) Rear loaded attached or detached garages located at the rear or side of the lot and accessed by alleyways or rear driveways.

### PD-TREC Planned Development - Transit Related Employment Center.

#### 4-1001

**Purpose.** This Planned Development - Transit Related Employment Center (PD-TREC) District is established to provide for a mix of compatible uses in a high-density, pedestrian and transit-oriented, and compact employment or special activity center. The district regulations are designed to accommodate high-intensity employment or a special activity use and supporting a mixture of uses appropriate to a district location that is: (1) within the 65 Ldn noise contours associated with Washington/Dulles Airport, and (2) impeded by significant floodplain (Broad Run) and highway right-of-way (Dulles Greenway, Routes 606 and 789), and (3) adjacent to planned rapid bus and rail transit lines. Specific objectives of this district include:

- (A) Provide the opportunity for a high intensity and mix of development that is supportive of and served by mass transit service;
- (B) Encourage development that is compatible within the 65 Ldn noise contours of Washington/Dulles Airport;
- (C) Provide for pedestrian, bicycle and vehicle connections between different land uses within the district, and from development in the district to adjacent and nearby transit, open spaces, recreational and other community facilities, employment centers and adjacent pedestrian and bicycle facilities, enhanced by short “city scale” blocks arranged in a rectilinear grid-street pattern;
- (D) Provide for the use of mass transit to reduce the number of peak hour vehicle trips;
- (E) Provide for a mix of supporting commercial retail and service uses to serve the shopping and service needs of district employees, visitors, and commuters;
- (F) Encourage the development of well-configured plazas, squares, greens, landscaped streets, and parks woven into the pattern of the transit-oriented and pedestrian-oriented development and dedicated to collective social activity, recreation, and visual enjoyment; and
- (G) Ensure high-quality design and construction.
- (H) Take advantage of the future rail connection to the Washington Dulles International Airport to attract corporate office users making frequent use of the Airport.
- (I) Take advantage of the viewshed of the Washington Dulles International Airport to attract tourists visiting the Smithsonian Museum Facility and those using the airport.

#### 4-1002

#### Location, Size and Components.

- (A) **Location.** The district shall be mapped only in locations that meet the following criteria:

- (1) The district shall be located entirely on the north side of the eastbound lanes of the Dulles Greenway north of the Washington/Dulles Airport property.
  - (2) A transit stop shall be planned to be an integral feature of the district at a location determined by the Washington Metro Area Transit Authority (WMATA). The district shall be located no further than ½-mile from the transit stop.
  - (3) The district location and proposed arrangement of land uses will provide opportunities to safely and conveniently connect district land uses with the transit stop.
- (B) **Minimum District Size.** The initial application to this district shall be a minimum of 40 acres. Subsequent applications shall be adjacent to or across the road from previously mapped PD-TREC districts and shall be a minimum of 25 acres. Notwithstanding the provisions of Section 6-1217, the only provision in this paragraph that may be modified is that regarding subsequent district size.
- (C) **District Subareas.** The PD-TREC District shall be divided into two (2) parts or subareas. The boundaries of the subareas will vary to correspond with physical and natural barriers that limit compact development, pedestrian connections and movement, and access to the transit station.
- (1) **“Inner Core” Subarea.** The “Inner Core” subarea of the PD-TREC District shall mean the total gross land area located generally within a one-quarter (¼) mile from the outer edge of the planned rail transit station platform, as shown on an approved Concept Development Plan. The highest land-use intensities shall be located close to the planned transit stop. The primary focal point of the development will be located in this subarea. Retail, office, and service commercial uses are located in this subarea, with a vertical mix of uses, public gathering places, and a predominance of pedestrian-oriented uses (uses located at street level that are visible and accessible from the street).
  - (2) **“Outer Core” Subarea.** The “Outer Core” of the PD-TREC District shall mean the total gross land area located outside the Inner Core subarea, but generally within one-half (½) mile from the outer edge of the planned rail transit station platform, as shown on an approved Concept Development Plan. Densities are high, yet decrease in intensity as they increase in distance from the transit stop. Supporting retail, office, light industrial, and service commercial uses are located in this subarea, with a vertical mix of uses and a predominance of pedestrian-oriented uses (uses located at street level that are visible and accessible from the street).

- (A) **CDP with Rezoning Applications.** Rezoning to and subsequent development under this district will be permitted only in accordance with a Concept Development Plan approved according to the review criteria in Section 6-1200 of this Ordinance. Flexibility in design options will be allowed.

- (3) No accessory, off-street surface parking lot in the Outer Core subarea shall be located between the principal entrance of a building and an adjacent street.

(E) **Location of Off-Street Accessory Parking.** Notwithstanding the requirements of Section 5-1103(A), all accessory parking shall be located on the lot being served or on a separate lot or parcel within ¼ mile of the principal entrance of the building that it serves.

(F) **Access to Off-Street Parking.** Off-street parking facilities shall have access from streets or, if no street access is available, from alleys with adequate security measures.

(G) **Above-Grade Parking Structures.** All above-grade parking structures shall be designed in a manner that is compatible with nearby building architecture to minimize visual impact.

- (H) The parking facility may be shared by two or more uses if the sum of the parking space requirements of all of the uses is provided.
- (I) After rail service is available, structured parking shall be required to meet 70% of the parking requirements for the construction of new buildings in the Inner and Outer Core subareas.

**4-1016 Landscaping, Buffering, and Screening.**

- (A) Landscaping, buffering, and screening shall be used to screen outdoor storage, areas for collection of refuse, loading areas and parking from streets and residential uses.
- (B) For individual lots within the PD-TREC district that are developed in accordance with a proffered Concept Development Plan, the buffer and screening requirements of Section 5-1400 shall not be applicable between uses on adjacent lots developed within the center or between uses within the PD-TREC district and differently zoned properties.

**4-1017 Street Trees.** Trees shall be planted on both sides of the street at a density of one tree per twenty five (25) linear feet along all areas dedicated for use for vehicular access. Such trees shall have a minimum caliper of 1 (one) inch and a height at maturity of 15 (fifteen) feet or more. If in the opinion of the Planning Commission at time of review of the Final Development Plan, upon the advice of the County Urban Forester/Arborist, street trees will not survive in a given location, substitute plantings or substitute locations may be provided.

**4-1018 Tree Canopy.** Notwithstanding the requirements of Section 5-1303, the tree canopy requirements of Section 5-1303 shall not apply to the Inner Core subarea.

Such restriction shall be for the benefit of, and enforceable by all present or future property owners and the Board of Supervisors of Loudoun County.
- (C) All common open space, as well as public recreational facilities, shall be specifically included in the development schedule and be constructed and fully improved at an equivalent or greater rate than the construction of other non-residential structures.

## 4-1101

**Purpose.** This district is established to provide for a compatible mixture of commercial, cultural, institutional, governmental, recreational, and high density housing uses in compact, pedestrian oriented, transit oriented developments and transit-designed supportive areas serving as focal points for nearby related activity centers and residential areas. Planned rail and bus facilities are integral to this mixed-use concept and the County will consider density increases as roads, bus and rail service are available to the district. These higher intensity, mixed-use development projects will serve to promote linkage of employment and residential uses. Specific objectives of such districts include:

- (A) Provide a pedestrian-scale development containing residential, commercial, public, and employment uses;
- (B) Provide the opportunity for a town center at an intensity of development that can be supported by multi-modal transportation and other services;
- (C) Provide for pedestrian and bicycle facilities and for pedestrian and bicycle connections among land uses in the district and for connections with land uses in adjacent areas through links with bicycle and pedestrian systems in those other areas;
- (D) Provide for the use of mass transit to reduce the number of peak hour vehicle trips;
- (E) Encourage high-quality design; and
- (F) Encourage the development of well-configured plazas, squares, greens, landscaped streets, and parks woven into the pattern of the transit oriented development and dedicated to collective social activity, recreation, and visual enjoyment.

## 4-1102

**Location, Size and Components.**

- (A) **Location.** Land zoned PD-TRC shall be divided into three parts or subareas as described in Section 4-1102(C) below. Neither the Inner Core subarea nor the Outer Core subarea shall extend further north than Shellhorn Road (Route 643).
- (B) **Size.** The initial application to this district shall be a minimum of 40 acres. Subsequent applications shall be adjacent to or across the road from previously mapped PD-TRC districts and shall be a minimum of 25 acres. Notwithstanding the provisions of Section 6-1217, the only provision in this paragraph that may be modified is that regarding subsequent district size.
- (C) **District Subareas.** The Transit Related District shall be divided into three (3) parts or subareas. The boundaries of the subareas will vary to correspond with physical and natural barriers that limit compact development, pedestrian and bicycle connections and movement, and access to the transit station. Limiting factors will include topography and

major arterials so that the subareas may not be a full radius, but will be influenced in form by natural and man-made barriers:

- (1) *Inner Core* - shall mean the total gross land area located generally within a one-quarter (1/4) mile from the outer edge of the planned rail transit station platform, as shown on the approved Concept Development Plan. The highest land-use intensities will be located close to the planned transit stop. The primary focal point of the development will be located in this subarea. Retail, office, service commercial, and high density residential uses are located in this subarea, with a vertical mix of uses, public gathering places, and a predominance of pedestrian oriented uses (uses located at street level that are visible and accessible from the street);
- (2) *Outer Core* - shall mean the total gross land area located outside the Inner Core subarea, but generally within one-half (1/2) mile from the outer edge of the planned rail station platform, as shown on the approved Concept Development Plan. Densities are high, yet decrease in intensity as they increase in distance from the transit stop. Major retail, office, service commercial, and high density residential uses are located in this subarea, with a vertical mix of uses and a predominance of pedestrian-oriented uses (uses located at street level that are visible and accessible from the street); and
- (3) *Transit-Designed Supportive Area* - shall mean the total gross land area located outside the Outer Core subarea, but generally within one mile from the outer edge of the planned rail station platform, as shown on the approved Concept Development Plan. This subarea is meant to provide a transitional and complementary area between the high-density core and the surrounding development pattern. The Transit-Designed Supportive Area should provide a mix of land uses that complement and support the uses of the Inner and Outer Core subareas. This subarea is adjacent to and an extension of development in the Inner and Outer Core subareas and includes design features that complement the Inner and Outer Core subareas such as flexible lot design and pedestrian and bicycle connections. Commercial uses within the TDSA should complement retail, office, and service commercial uses in the Inner and Outer Core subareas.

  - (iv) For any lot with a Floor Area Ratio other than .40, the Floor Area Ratio shall be shown on the approved record plan, site plan, and Final Development plan for the lot.
  - (v) In the event the Concept Development Plan for the TDSA subarea does not provide the information set forth in Section 6-1215, the applicant may limit the development on an individual lot to an FAR of less than .40.   - (3) Each development application (including site plans and subdivisions) shall include a tabulation of approved total floor area for the appropriate subarea, the proposed floor area for the application, and the remaining square footage for the subarea including density increases tied to the availability of bus and rail.
  - (4) The Final Development Plan will specify the maximum developable floor area approved for the subarea(s), the amount proposed, and the remaining square footage for the subarea(s).
  - (5) In mixed use buildings containing dwellings, floor area ratio, which shall include residential floor area, shall determine the bulk of the building above finished grade. The Concept Development Plan and site plan shall identify how dwelling units per acre requirements, as identified in Section 4-1108, are achieved.

**4-1108 [RESERVED]**

**4-1109 Mix of Uses.**

Residential	20%
Office	20%
Commercial Retail and Services	10%
Parks, Civic & Open Space	20%

*\* At least one publicly-accessible plaza shall be located in the Inner Core subarea to represent the urban focal point as shown on the Concept Development Plan. In addition, publicly-accessible greens, publicly-accessible active recreation space, and publicly-accessible mini-parks shall be appropriately distributed within walking distance from uses and generally depicted as to a street block location on the Concept Development Plan. Such publicly-accessible greens, active recreation space, and mini-park locations implementing the Concept Development Plan shall be shown on the Final Development Plan. These publicly-accessible features shall be considered for each incremental addition proposed to the district to maintain open space within a reasonable actual walking distance.*

- (B) **Transit-Designed Supportive Subarea.** The land use mix to be achieved within the Transit-Designed Supportive subarea, and the phasing thereof, shall be shown on the Concept Development Plan.
- (C) In order to exceed the minimum percentage in any one category, the minimum percentage in all categories must be achieved as evidenced by an approved Final Development Plan. After the minimum percentages have been achieved, in addition to the requirements of Section 6-1000, a zoning permit for change in tenant occupancy shall include a tabulation indicating that the minimum percentages continue to be met.
- (D) A vertical mix of uses is encouraged in multi-story buildings in the Inner and Outer Core subareas, such as ground floor retail with upper story residences or offices. When multiple use types are located within a single building, the land use mix requirements for Residential, Office and Commercial Retail Services, identified in Section 4-1109(A), may be modified by 10% by the Planning Commission during review of a Final Development Plan to achieve integration of uses.

Blocks designed to include a mid-block through-alley, that permits secondary vehicle access to land uses on the block, may be a maximum of 800 feet in length, half of which shall be used in the calculation of average block length.
- (E) All new utility distribution lines located on PD-TRC designated land shall be placed underground.
- (F) The Transit-Designed Supportive Area street network should complement and support the Inner and Outer Core subarea street network by providing multiple and direct vehicular, bicycle, and pedestrian connections to the transit station.

- (B) The creation of a distinct physical settlement surrounded by a protected rural landscape of generally open land for agricultural, forestal, recreational and environmental protection purposes.
- (C) Dwellings, shops and workplaces generally located in close proximity to each other; the scale of which accommodates and promotes pedestrian travel for trips within the village.
- (D) Modestly sized buildings fronting on, and aligned with, streets in a disciplined manner, uninterrupted by parking lots.
- (E) A generally rectilinear pattern of streets, alleys, and blocks reflecting the street network in existing rural villages which provides for a balanced mix of pedestrians and automobiles.

All proposals must meet State and Local Health Department requirements for water and wastewater treatment facilities.

- (A) Lots within the Village Center shall be served by appropriately sized public water and wastewater collection facilities provided and constructed by the applicant and dedicated to the Loudoun County Sanitation Authority (LCSA), the public body which will be ultimately responsible for utility operation, control and maintenance.

**4-1215 Utilities.** All utilities in the Village Center shall be located underground. All above ground utility boxes and other facilities shall be co-located and screened from road and street view. (Typical drawings permitted.)

**4-1216 Land Use Arrangement.**

- (A) **Overall Form.** (See Figures 2-8)
  - (1) The boundaries of Village Conservancy and Satellite Conservancy subdistrict lots should be designed to follow natural features whenever possible and such lots should seek to provide for an agricultural, forestal, or open space use of the land.
  - (2) The Village Center shall be distinguished from the Village Conservancy by a well defined "hard edge" of closely spaced buildings in contrast with the open, largely unbuilt farm, forestal and open space character of the conservancy.
  - (3) The village should be sited so as to best preserve natural vistas and the existing rural topography.
  - (4) The Village Center should be designed in a generally rectilinear pattern of blocks and interconnecting streets and alleys, defined by buildings, street furniture, landscaping, pedestrian ways and sidewalks.

- (5) A hierarchy of parks and squares shall be distributed strategically for maximum benefit and convenience throughout the Village Center and shall include a central civic park, called the main village green.

**(B) Spatial Relationship of Village Subdistricts and Areas.**

- (1) The Village Conservancy subdistrict shall surround the Village Center subdistrict unless explicitly modified pursuant to Section 4-1218(B) upon a finding that unique topographical or other natural features or pre-existing boundary constraints require an alternative arrangement.
- (2) Village Center commercial and workplace areas shall be surrounded by the residential lots or, where applicable, by a combination of residential lots and civic areas.
- (3) Higher density residential lots should generally be located between the designated commercial area and lower density residential lots, providing a transition between the business and residential uses of each.
- (4) The designated workplace area should generally abut the designated commercial area, shall be located in no more than two (2) geographic places at the periphery of the Rural Village Center subdistrict and shall be buffered to have the least impact on residences within the Rural Village District or on adjacent properties.
- (5) Every Village Center shall be provided with a centrally located main village green. The main village green should abut the designated commercial and civic areas.

**(C) Block Design.**

- (1) Blocks of a generally rectangular shape should be the main organizing feature of the Village Center subdistrict. While topography, existing vegetation, hydrology and design intentions should influence block shape and size, the perimeter of such blocks should range between 1,100 and 1,800 feet in length as measured along lot frontage lines, between intersections of streets.
- (2) The blocks of the Village Center subdistrict may be subdivided into lots, having frontage on a street, whose generally rectangular shape should respond to environmental factors, the proposed use and design intentions. This Ordinance is best served by Village Center lot design which includes a variety of sizes.
- (3) Village Center subdistrict lots should minimize both front and side yards, garage aprons and entrances and blank walls and should

generally have as narrow a width as is practical in order to encourage pedestrian movement. (Typical drawings permitted.)

- (4) Townhouse lots of less than thirty two (32) feet in width shall not be developed with garage doors on their principal facade.

**(D) Additional Criteria.**

- (1) Road, street and alley layouts in the Village Center subdistrict shall be designed in a hierarchical, rectilinear pattern with geometrical variation as required by traffic safety, environmental factors and design intentions. Village Center roads, streets and alleys should terminate on other roads and streets.
- (2) Roads, streets and alleys should be designed to:
  - (a) Parallel and preserve existing fence lines, tree lines, hedgerows and stone walls.
  - (b) Minimize alteration of natural site features.
  - (c) Secure the view to prominent natural and man made vistas.
  - (d) Minimize the area devoted to motor vehicle travel.
  - (e) Promote pedestrian movement so that it is generally more convenient and safe to walk than to drive.
- (3) Village roads and streets should be designed as a set of parallel zones:
  - (a) A zone of moving vehicles.
  - (b) A buffer area of street trees, planting and parked cars.
  - (c) A sidewalk or pedestrian path zone.
  - (d) A yard adjacent to residential buildings or an entrance adjacent to other buildings. (Typical drawings permitted.)
- (4) **Parking.**
  - (a) Parking for residential, civic, commercial, workplace and recreational uses in Village Center should generally be located at the rear of lots and no off-street parking shall be permitted in front yards. Adjacent off-street parking lots shall have off-street vehicular and pedestrian ways. Continuous parallel parking for additional cars and visitors should be provided on the streets. (Typical drawings permitted.)

- (b) Access for off-street parking in Village Center subdistrict shall generally be achieved by means of alleys, off-street vehicular connections between adjacent parking lots and side streets. Driveway curb cuts on neighborhood streets serving residential lots may be allowed if spaced to allow parallel parking for at least two (2) cars (a minimum of 36 feet) between successive driveways. (Typical drawings permitted.)
- (c) Off-street parking areas, carports, and garages in a Village Center should be designed to have low visibility and consequently shall not be located at the visual termination of roads and streets and shall not be the principal use of corner lots. To this same end, front load garages and carports should offset from direct view and should be located a minimum of six (6) feet behind the principal building facade. Any parking lot which abuts a street shall be buffered by a landscaped strip no less than ten (10) feet wide and planted with a continuous row of shrubs no less than 3 1/2 feet high, and/or shielded by a wall no less than 3 1/2 feet and no more than six (6) feet high.

(5) **Landscaping.**

- (a) The applicant shall submit a conceptual Landscape Master Plan as part of the Concept Development Plan which identifies design intentions, the general location and size of both existing vegetation to be retained and proposed new vegetation, typical landscape sections and drawings, typical planting materials, and the phasing of landscape installation and planting methods.
- (b) Roads and streets in Village Center residential areas should generally be planted on both sides with street trees spaced, according to species, at regular intervals. The width of sidewalks required pursuant to Section 4-1213 should account for such street trees. Streets in the storefront areas of the Village Center shall be planted on at least one (1) side with street trees spaced, according to species, at regular intervals. (Typical drawings permitted.)

**4-1217**

**Village Governance.** Every rural village shall have an established homeowners association with documents reviewed and approved by the County prior to first Record Plat approval. The Rural Village Homeowner Association documents shall provide for maintenance of street trees, and other community landscaping such as in village greens, parks and squares, private streets, stormwater management systems, water and sewer facilities. In addition, all roads, streets and alleys, and infrastructure improvements shall be provided by the applicant and maintained in a manner approved by the County either by the applicant or the Village Homeowner Association unless accepted for maintenance by a public entity.

**4-1218****Modification of Regulations.**

- (A) **Precedence.** Where there are explicit differences between provisions of the Rural Village Ordinance and general zoning, subdivision or other County regulations, the provisions of the Rural Village Ordinance shall apply.
- (B) **Locational Requirements.** The Board of Supervisors may grant modifications permitted pursuant to Section 6-1217.

## 4-1351

**Purpose and Intent.** A Planned Development Mixed Use Business district is established to provide for mixed use business developments. The district encourages a compact pedestrian-oriented mix of uses, such as, but not limited to office, flex-industrial, retail, service, civic, public amenities and/or residential, located in close proximity to each other in order to create an attractive environment in which to live, work and play. The mix of uses is anticipated to create a sense of place, organized in a manner to unify the overall development. The district is desirable and generally consistent for properties located within the Suburban Policy Area of the Revised General Plan.

The pedestrian-oriented nature of the district should be emphasized by the building scale and design, block sizes, pedestrian-oriented uses and pedestrian-friendly streetscapes. The major land uses shall be linked by way of pedestrian linkages, trails and greenways that connect the businesses, residences and open space. Environmental features shall be preserved and integrated into the plan of development to the greatest extent feasible. Specific objectives of the Planned Development Mixed Use Business (PD-MUB) district include:

- (A) Provide the opportunity for a high intensity development and vertical mix of uses that is supportive of and served by an adequate transportation network;
- (B) Provide a design and layout that efficiently utilizes the land, is arranged in a generally rectilinear grid-street pattern, and that provides for multi-modal connections between different land uses within the district and from development in the district to nearby development;
- (C) Provide for a mix of supporting commercial retail and service uses to serve the shopping and service needs of district employees, visitors, and residents;
- (D) Encourage the development of well-configured and well utilized open space, such as plazas, squares, greens, landscaped streets, and parks, that promotes the collective social activity, recreation, and visual attractiveness of the district to visitors, employees, and residents;
- (E) Ensure high-quality design and construction;
- (F) Promote the assemblage of parcels to form a unified development concept;
- (G) Provide housing choices and opportunities compatible within the district; and
- (H) Encourage centralized parking facilities with complimentary on-street parking to collectively support principle uses within the district.

## 4-1352

**Size and Location.** A PD-MUB district shall contain no fewer than 25 acres, except that the district may contain fewer than 25 acres, but no fewer than 5 acres, where the district is integrated, visually and functionally, within an existing

nonresidential development that is under unified control with the proposed PD-MUB district or subject to an approved concept development plan that will be amended to include the proposed PD-MUB district, and the proposed PD-MUB district demonstrates a compatible site design.

Contiguous additions of any size shall be allowed to an existing PD-MUB district if the applicant demonstrates that the addition is integrated with the district that was previously approved. Existing uses on lots that are included within a proposed PD-MUB district may be used to meet the minimum use percentages required in Section 4-1354(A) during the rezoning process.

A PD-MUB district shall be located on sites served by one or more arterial or major collector roadways and shall be supported by an adequate road network or transit as demonstrated by a traffic impact study. The district shall be located in areas served by public central water and sewer systems.

#### **4-1353**

**Use Regulations.** Table 4-1353 provides the principal use regulations of the PD-MUB district.

(A) **Organization of Use Table.** Table 4-1353 organizes the uses in the PD-MUB district by Use Classifications, Use Categories and Use Types.

- (1) **Use Classifications.** The Use Classifications are: residential uses; public and civic; institutional uses; commercial uses; employment uses; and utility uses. The Use Classifications provide a systematic basis for assigning present and future land uses into broad general classifications (e.g., employment uses and residential uses). The Use Classifications then organize land uses and activities into general “Use Categories” and specific “Use Types” based on common functional, product, or physical characteristics, such as the type and amount of activity, the type of customers or residents, how goods or services are sold or delivered, and site conditions.
- (2) **Use Categories.** The Use Categories describe the major sub-groups of the Use Classifications, based on common characteristics (e.g., the residential Use Classification is divided into two major Use Categories: Household Living and Group Living). Principal uses are identified in defining the Use Category. They are principal uses that most closely share the common characteristics that are key to the Use Category.
- (3) **Use Types.** The Use Categories are then divided into specific Use Types. The specific Use Types are included in the respective Use Category. They identify the specific uses that are considered to fall within characteristics identified in the Use Category. For example, multi-family dwellings and single-family attached dwellings are Use Types in the Household Living Use Category.

(B) **Permitted and Special Exception Uses.** A “P” in the column identified “PD-MUB” indicates that a Use Category or specific Use Type is a

Permitted Use in the PD-MUB district, subject to compliance with all applicable standards and regulations in this Ordinance and all other County ordinances. An “S” indicates that a Use Type may be permitted in the PD-MUB district by the Board of Supervisors by Special Exception approval and may be subject to certain conditions, pursuant to Section 6-1300. An “M” indicates that a Use Type may be permitted in the PD-MUB district by the Board of Supervisors by Minor Special Exception approval and may be subject to certain conditions, pursuant to Section 6-1300. In some instances, and based on the Additional Regulations for Specific Uses (Section 5-600), a Use Type will be a Permitted Use under certain conditions or may be permitted by Special Exception or Minor Special Exception approval under other conditions. Such instances are identified as “P/S” or “P/M,” as appropriate.

- (C) **Reference to General Use Category.** References to “General Use Category” under the Use Type column means that all of the uses in the Use Category are allowed. The Use Category is defined in Article 8. Where specific Use Types are listed in the Use Type column, only the listed Use Types in the Use Category are allowed. The Use Types are defined in Article 8.
- (D) **Use Limitations and Additional Regulations for Specific Uses.** References to sections in the column titled “Use Limitations and Additional Regulations for Specific Uses” of Table 4-1353 (PD-MUB Planned Development Mixed-Use Business Use Table) indicate that the listed use is subject to use-specific regulations. The numbers provide a cross-reference to the “Use Limitations” in Section 4-1358 and/or the “Additional Regulations for Specific Uses” in Section 5-600.

the maximum overall FAR of the entire district pursuant to the regulations herein.

(1) **Calculation of Minimum Floor Area Required for Each Use Category.** The minimum floor area required in the district for each Use Category shall be calculated as follows:

(a) First calculate the total floor area allowed in the district by multiplying the maximum overall FAR permitted for the district times the total land area in square footage of the rezoning application excluding any land area proposed for Single-Family Attached Dwellings and Single-Family Detached Dwellings. Then multiply the total floor area allowed in the district by the minimum percentage required for each Use Category to derive the minimum floor area required for each Use Category. The floor area of Single-Family Attached Dwellings and Single-Family Detached Dwellings shall be excluded from this floor area calculation.

(B) **Residential Density.** The availability of bus service to the PD-MUB district shall determine the maximum number of dwelling units permitted per acre in 2 phases: (1) prior to the establishment of bus service to the district, and (2) after the establishment of bus service to the district. For the purpose of this section, bus service to the district shall be established when facilities for the riders of such bus service, whether located internal to buildings, attached to the exterior of buildings or externally located on a property as a bus shelter, have been constructed within one-quarter (1/4) mile of the boundary of the district and scheduled bus service is operational. The minimum and maximum density for each phase shall be as follows:

TABLE 4-1356(B): PD - MUB PLANNED DEVELOPMENT MIXED-USE BUSINESS DENSITY TABLE					
Availability of Bus Service	Minimum Number of Dwelling Units Per Acre	Maximum Number of Dwelling Units Per Acre	Minimum % of Land Area Required for Parks and Open Space	Minimum % of Floor Area Required for Employment Use	Required Number of Affordable Dwelling Units (ADUs) and Unmet Housing Needs Units (UHNUs)
Prior to Establishment of Bus Services	8	20*	10%	15%	ADUs to be provided in accordance with Article 7.
After Establishment of Bus Services	8	30**	15%	20%	UHNUs to be provided in accordance with Section 4-1357. ADUs to be provided in accordance with Article 7.

\*The maximum number of dwelling units per acre does not reflect any density bonuses that may be provided pursuant to Article 7. Prior to establishment of Bus Services, no density bonuses may be provided pursuant to Section 4-1357.

\*\* The maximum number of dwelling units per acre does not reflect any density bonuses that may be provided pursuant to Section 4-1357 and/or Article 7. In no event shall the maximum density of a PD-MUB district, including any density bonuses received pursuant to Section 4-1357 and/or Article 7, exceed 54 dwelling units per acre.

**(1) Calculation of Minimum and Maximum Number of Dwelling Units.**

To calculate the minimum number of dwelling units required for a PD-MUB district multiply the total land area of the PD-MUB district times the minimum number of dwelling units per acre required in Table 4-1356(B). The result is the minimum number of dwelling units required for the PD-MUB district.

To calculate the maximum number of dwelling units permitted for a PD-MUB district multiply the total land area of the PD-MUB district times the maximum number of dwelling units per acre permitted in Table 4-1356(B). The result is the maximum number of dwelling units permitted for the PD-MUB district (excluding any density bonuses that may be provided pursuant to Section 4-1357 and/or Article 7)

The resulting minimum number of dwelling units required and maximum number of dwelling units permitted for the PD-MUB district is irrespective of dwelling unit type.

**(2) The total number of dwelling units proposed for a PD-MUB district shall not exceed a maximum density of 54 dwelling units per acre (including any density bonuses that may be provided pursuant to Section 4-1357 and/or Article 7).**

Individual lots developed with Multi-Family Dwellings may exceed the maximum density of the district, provided that the proffered concept development plan limits the total number of dwelling units and maximum density of the district pursuant to the regulations herein.

**4-1357**

**Unmet Housing Needs Units (UHNUs).** Applications for a rezoning to the PD-MUB district proposing a maximum density greater than 20 dwelling units per acre (possible only after establishment of bus services) shall provide dwelling units affordable for rental to households earning 60% or less and affordable for purchase to households earning greater than 30% but no more than 100% of the median income for the Washington Metropolitan Statistical Area (MSA), herein referenced as the Washington Area Median Income (AMI), in accordance with Table 4-1357(A). This requirement shall not apply if the maximum proposed density exceeds 20 dwelling units per acre solely due to the application's compliance with Article 7. All UHNUs, unless provided pursuant to Section 4-1357(F), shall be administered by the County under the County's UHNU Rental and Purchase Program. Under the County's UHNU Rental and Purchase Programs, UHNUs shall be administered pursuant to the applicable Affordable Dwelling Unit Provisions of Article 7 of the Zoning Ordinance and in accordance

with the applicable provisions of Chapter 1450 of the Codified Ordinances of Loudoun County. Rents for UHNUs shall be controlled for a period of at least 30 years from the date of the issuance of the occupancy permit for each rental UHNU and sales prices for UHNUs shall be controlled for a period of at least 20 years from the initial sale transaction for the respective UHNU.

- (A) UHNUs shall be of the same dwelling unit type and occupancy type (rental or purchase) as the market rate dwelling units receiving the density bonus. The architectural style of UHNUs shall be compatible with the market rate dwelling units within the proposed development. In general, an UHNU's dimensions and number of bedrooms shall be comparable to equivalent market rate dwelling units within the proposed development.
- (1) If an application proposing for rent dwelling units is required to provide rental UHNUs pursuant to this section, a minimum of one-third of such rental UHNUs shall be affordable for rental to households earning 30% or less of the AMI.
- (2) If an application proposing for purchase dwelling units is required to provide for purchase UHNUs pursuant to this section a minimum of one-third of such for purchase UHNUs shall be affordable for purchase to households earning greater than 30% but less than 70% of the AMI, and a minimum of one-third of such for purchase UHNUs shall be affordable for purchase to households earning 70% or greater but no more than 100% of the AMI.

<b>TABLE 4-1357(A): PD - MUB PLANNED DEVELOPMENT MIXED-USE BUSINESS UNMET HOUSING NEEDS UNITS TABLE</b>			
<b>Column A</b>	<b>Column B</b>	<b>Column C</b>	<b>Column D</b>
<b>Dwelling Unit Type</b>	<b>Density Bonus</b>	<b>Required Percentage of Dwelling Units to be Provided as Unmet Housing Needs Units</b>	<b>Additional Regulatory Adjustment</b>
<b>Attached Multi-Family Dwellings</b>	20%	6.25%	Increase maximum FAR permitted by 0.2
<b>Stacked Multi-Family Dwellings</b>	10%	6.25%	Increase maximum FAR permitted by 0.1
<b>Single-Family Attached Dwellings and Single-Family Detached Dwellings</b>	10%	6.25%	Increase maximum land area permitted for Single-Family Attached Dwellings and Single-Family Detached Dwellings under Section 4-1358(J) by 2% of total district size

- (B) **Calculation of Density Bonus.** Multiply the number of each type of dwelling unit (Column A of Table 4-1357(A)) proposed for the PD-MUB district prior to compliance with Article 7 times the corresponding Density

Bonus (Column B of Table 4-1357(A)) for that dwelling unit type. The resulting number is the total number of bonus dwelling units that shall be permitted for that dwelling unit type.

- (1) Although the bonus dwelling units will increase the maximum number of dwelling units per acre permitted by the PD-MUB district, such bonus dwelling units shall be provided only as the dwelling unit type for which the density bonus percentage was calculated.
  - (2) In no event shall bonus dwelling units cause the maximum number of dwelling units per acre permitted by the PD-MUB district to exceed 54 dwelling units per acre (including any density bonuses that may be provided pursuant to Section 4-1357 and/or Article 7).
- (C) **Calculation of Required Percentage of Dwelling Units to be Provided as Unmet Housing Needs Units (UHNUs).** Multiply the number of each type of dwelling unit (Column A of Table 4-1357(A)) proposed for the PD-MUB district prior to compliance with Article 7 times the Required Percentage of Dwelling Units to be Provided as Unmet Housing Needs Units (Column C of Table 4-1357(A)). The resulting number is the number of dwelling units that shall be provided as UHNUs for that dwelling unit type.
- (D) In the event that bonus dwelling units cause an application to exceed the upper density limit set forth in the Comprehensive Plan, then the upper density limit set forth in the Comprehensive Plan applicable to the area subject to the rezoning application shall be increased by the total number of bonus dwelling units calculated pursuant to Section 4-1357(B).
- (E) Nothing in this Section shall be construed to prohibit an applicant's voluntary participation with Article 7, to include providing additional units and receiving density increases, or to prohibit an application from providing more than the required number of units addressing the income ranges specified in this section so long as the application is in conformance with Section 4-1357 and Article 7, and the maximum density of the district does not exceed 54 dwelling units per acre (including any density bonuses that may be provided pursuant to Section 4-1357 and/or Article 7).
- (F) **Compliance with State/Federal/Local Laws.**
- (1) A development that provides a total number of rental UHNUs, pursuant to Federal, State, or other local programs that meet the terms and restrictions of Section 4-1357, and ADUs, pursuant to Article 7 if applicable, that equals the same number or more UHNUs as required under Section 4-1357 shall satisfy the requirements of Section 4-1357.
  - (2) A development that provides a total number of rental UHNUs, pursuant to Federal, State, or other local programs that meet the terms and restrictions of Section 4-1357, and ADUs, pursuant to

Article 7 if applicable, that equals a fewer number of UHNUs as required under Section 4-1357 shall provide the additional number of UHNUs necessary to make up the shortage pursuant to the County's UHNU Rental and Purchase Programs.

- (3) The rents prices for rental UHNUs provided pursuant to Federal, State, or other local programs shall be in accordance with the rules and regulations governing such programs and these dwelling units shall be marketed in accordance with such rules and regulations, provided that rents shall not exceed those set pursuant to this section and shall be controlled by covenant for a period of at least 30 years for subsequent re-rentals after the initial rental transaction for the respective rental UHNU. Such covenant shall be recorded among the land records of Loudoun County, Virginia, shall run with the land, shall be in a form approved by the applicable Federal or State program administrator and shall be in favor of such Federal or State program or its designee, or, if such UHNU's are not provided pursuant to a Federal or State Program, in a form approved by the County and in favor of the County or its designee and shall provide the rent control described by this section for 30 years from the date of the issuance the occupancy permit for each rental UHNU.

**DIVISION B: SECTION RESERVED FOR FUTURE USE**

## DIVISION C: ENVIRONMENTAL IMPACT DISTRICTS

### Section 4-1400 AIOD-Airport Impact Overlay District

**4-1401 Purpose.** The purpose of the Airport Impact Overlay District (AIOD) is to acknowledge the unique land use impacts of airports, regulate the siting of noise sensitive uses, ensure that the heights of structures are compatible with airport operations, and complement Federal Aviation Administration (FAA) regulations regarding noise and height.

#### **4-1402 AIOD Boundaries.**

(A) The following sources were used as a basis for delineating the Ldn aircraft noise contours:

- (1) Washington Dulles International Airport: Washington Dulles International Airport Aircraft Noise Contour Map Update, May 2019, and
- (2) Leesburg Municipal Airport: Environmental Assessment Report, October 1985.

(B) The AIOD is composed of three (3) aircraft noise impact areas:

- (1) **Within one (1) mile of Ldn 60.** The area outside of but within one mile of the Ldn 60 noise contour.
- (2) **Ldn 60 – 65.** The Ldn 60 noise contour and the area between the Ldn 60 noise contour and Ldn 65 noise contour.
- (3) **Ldn 65 or higher.** The Ldn 65 noise contour and the area within the Ldn 65 noise contour.

**4-1403 Overlay District Established.** The AIOD is hereby established as an overlay district, meaning that it is a district overlaid upon other districts. Land within the AIOD may be used as permitted in the underlying district, subject to the separate regulations of the AIOD. The AIOD boundaries are depicted on the AIOD Map, which is a component of the Zoning Map.

**4-1404 Use Limitations.** In addition to the use limitations and regulations for the district over which the AIOD is located, the following use limitations apply to residential uses and structures located within the AIOD:

(A) **Within one (1) mile of Ldn 60:**

- (1) **Disclosure Statement.** A disclosure statement must be provided in accordance with Section 4-1405.

(B) **Ldn 60 – 65:**

- (1) **Disclosure Statement.** A disclosure statement must be provided in accordance with Section 4-1405.
  - (2) **Acoustical Treatment.** The applicant must incorporate acoustical treatment into all residential uses and structures to ensure that interior noise levels within living spaces (not including garages, sunrooms, or porches) do not exceed an average sound level of Ldn 45 db(A). Compliance with this must be based upon a certification from a Licensed Professional Engineer (P.E.) or Architect licensed in the Commonwealth of Virginia, submitted prior to zoning permit approval, that the design and construction methods and materials to be used in the construction of the residential use or structure are such that the foregoing standard will be met, assuming exterior noise levels between Ldn 60 – 65.
  - (3) **Avigation Easements.** Prior to the approval of any subdivision plat creating a lot upon which a residential use could be constructed, zoning permit for a residential use or structure on an existing lot of record, excluding residential accessory uses and structures, or site plan for one or more dwellings, the owner(s) of the property subject to such subdivision plat, zoning permit, or site plan must dedicate an avigation easement to the Metropolitan Washington Airports Authority, indicating the right of flight to pass over the property, as a means to securing the long-term economic viability of Washington Dulles International Airport.
- (C) **Ldn 65 or higher:** Residential uses and structures are not permitted.
- (1) Exception: New residential uses and structures and additions to existing legally established residential uses and structures may be permitted, provided that:
    - (a) **Lot Creation.** The lot upon which such residential use is established or proposed was recorded or had subdivision plat approval prior to June 16, 1993 (original adoption date) or notwithstanding Section 1-103(O), such residential use was designated on a proffered rezoning approved prior to January 17, 2023 as being located outside of the Ldn 65 or higher aircraft noise impact area, and subsequently became located within the Ldn 65 or higher aircraft noise impact area as a result of the adoption of ZMAP-2021-0011 & ZOAM-2021-0002;
    - (b) **Disclosure Statement.** A disclosure statement must be provided in accordance with Section 4-1405;
    - (c) **Acoustical Treatment.** The applicant must incorporate acoustical treatment into all residential uses and structures to ensure that interior noise levels within living spaces (not including garages, sunrooms, or porches) do not exceed an average sound level of Ldn 45 db(A). Compliance with

this must be based upon a certification from a Licensed Professional Engineer (P.E.) or Architect licensed in the Commonwealth of Virginia, submitted prior to zoning permit approval, that the design and construction methods and materials to be used in the construction of the residential use or structure are such that the foregoing standard will be met, assuming exterior noise levels between Ldn 65–70; and

- (d) **Avigation Easements.** Prior to the approval of any subdivision plat creating a lot upon which a residential use or structure could be constructed, zoning permit for a residential use on an existing lot of record, excluding residential accessory uses and structures, or site plan for one or more dwellings, the owner(s) of the property subject to such subdivision plat, zoning permit, or site plan must dedicate an avigation easement to the Metropolitan Washington Airports Authority, indicating the right of flight to pass over the property, as a means to securing the long-term economic viability of Washington Dulles International Airport.

- (D) **Building Heights:** Notwithstanding Section 1-103(D)(2), no building or other structure will be located in a manner or built to a height that constitutes a hazard to aerial navigation. Where a structure is proposed in a location or to be built to a height that may be hazardous to air traffic such structure shall not be erected without certification from the FAA that it will not constitute a hazard to air traffic.

#### 4-1405

**Disclosure Statement Required.** A disclosure statement, in a form approved by the Zoning Administrator, must be conspicuously placed on all subdivision plats and site plans applicable to any lot or development within the AIOD, that clearly identifies any lot that is located within the AIOD and any aircraft noise impact area of the AIOD (i.e., Section 4-1402(B)(1), 4-1402(B)(2), or 4-1402(B)(3)) within which the lot is located, and states that such lot is located within an area that will be impacted by aircraft overflights and aircraft noise. Such disclosure statement also must be provided in writing by the applicant and every subsequent owner of such lot to all prospective purchasers of, and included in all sales contracts, brochures, and promotional documents, including any illustrative site plan(s) on display within any sales related office(s), and all deeds of conveyance applicable to, such lot. At the time they are created, homeowner association Declarations must clearly state that the community is located near an airport, may be impacted by overflight noise, and subject to the regulations of the Airport Impact Overlay District of the Loudoun County zoning ordinance. In addition, homeowner associations may include a statement in their resale disclosure packets as follows: “Homes in this community are located near an airport and subject to aircraft overflights and noise due to aircraft. Contact Loudoun County Government to verify whether your home is located within the Airport Impact Overlay District and the regulations that apply.”

**4-1406**

**Definitions.** Unless otherwise specially provided, or unless clearly required by the context, the words and phrases defined in this subsection shall have the following meanings when used in Section 4-1400.

- (A) Ldn: The term for "yearly day-night average sound level", which means the 365-day average, in decibels, for the period from midnight to midnight, obtained after the addition of ten decibels to sound levels for the periods between 10 p.m. and 7 a.m.
- (B) Ldn 45 db(A): The term for the required level of noise attenuation in residential structures, expressing a required yearly interior day-night average sound level of 45 decibels or or less.

**4-1501**

**Purpose and Intent.** The purpose of these provisions is to conserve the natural state of watercourses and watersheds and to prevent: the loss of life and property, the creation of health and safety hazards, the disruption of commerce and governmental services, the extraordinary and unnecessary expenditure of public funds for flood protection and relief, and the impairment of the tax base by (1) regulating uses, activities, and development which, alone or in combination with other existing or future uses, activities, and development, will cause unacceptable increases in flood heights, velocities, and frequencies; (2) restricting or prohibiting certain uses, activities, and development from locating within areas subject to flooding; (3) requiring all those uses, activities, and developments that do occur in areas susceptible to flooding to be protected and/or flood-proofed against flooding and flood damage; and ; (4) preventing individuals from using land and erecting structures which are unsuited for intended purposes because of flood hazards. These provisions shall apply to all privately and publicly owned lands within the jurisdiction of the County of Loudoun and identified as being located within the Floodplain Overlay District (FOD). Only those uses set forth in Section 4-1505 and 4-1506 shall be permitted or special exception uses within the FOD, and land so encumbered may be used in a manner permitted in the underlying zoning district only if and to the extent such use is also permitted in the FOD.

The degree of flood protection sought by Section 4-1500 is considered reasonable for regulatory purposes and is based on acceptable engineering methods of study, but does not imply total flood protection. Larger floods may occur on rare occasions. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. Section 4-1500 does not imply that property outside the FOD or land uses permitted within the FOD will be free from flooding or flood damages. Section 4-1500 shall not create liability on the part of Loudoun County or any officer or employee thereof for any flood damages that result from reliance on Section 4-1500 or any administrative decision lawfully made thereunder.

**4-1502**

**Authority.** Authority for these provisions includes:

- (A) Flood Damage Reduction Act, Va. Code Sections 10.1-600 et seq.
- (B) Va. Code Sections 15.2-2200 through 15.2-2329 (Planning, Subdivision of Land and Zoning).
- (C) Soil Conservation Districts Law, Va. Code Sections 10.1-500 et seq.
- (D) Erosion and Sediment Control Law, Va. Code Section 62.1-44.15:51 et seq.
- (E) Potomac River Basin Compact, Va. Code Section 28.2-1001.
- (F) National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., as amended by the National Flood Insurance Reform Act of 1994 and the Flood Insurance Reform Act of 2004.

(G) Code of Federal Regulations, Title 44, Section 59.1-70.9

**4-1503**

**Definitions.** The words and phrases defined in this subsection shall have the following meanings when used in Section 4-1500.

- (A) **Alteration.** A development action which will change the cross section of the floodplain and will increase either the erosive velocity or height of floodwaters either on-site or off-site. Alterations include, but are not limited to, land disturbing activities.
- (B) **Base Flood.** The flood having a one percent (1%) chance of being equaled or exceeded in any given year. Also known as the 100-year flood.
- (C) **Base flood elevation.** The water surface elevations of the base flood. The water surface elevation of the base flood is calculated based on the datum specified on Loudoun County's Flood Insurance Rate Map.
- (D) **Basement.** That portion of a building having its floor below ground level on all sides.
- (E) **Conditional Letter of Map Revision (CLOMR).** A formal review and written comment from FEMA on a proposed project that would, upon construction, cause an increase in base flood elevation. Upon completion of the construction of such project, a Letter of Map Revision (LOMR) issued by FEMA, determining that the increase was warranted, shall be required.
- (F) **Cross section.** Shape and dimensions of a channel and valley of the floodplain perpendicular to the line of flow.
- (G) **Development.** Any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations, or storage of equipment or materials.
- (H) **Elevated building.** A non-basement building built to have the lowest floor elevated above the ground level by means of solid foundation perimeter walls, pilings, or columns (posts and piers).
- (I) **Flood or Flooding.**
  - (1) A general or temporary condition of partial or complete inundation of normally dry land areas from:
    - (a) the overflow of inland waters; or,
    - (b) the unusual and rapid accumulation or runoff of surface waters from any source.
    - (c) mudflows which are proximately caused by flooding as defined in paragraph (1)(b) of this definition and are akin to a river of liquid and flowing mud on the surfaces of

normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.

- (2) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature such as a flash flood, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph 1(a) of this definition.
- (J) **Flood Insurance Rate Map (FIRM).** The official map of Loudoun County on which the Federal Emergency Management Agency (FEMA) has delineated areas in the floodplain subject to inundation of the base flood and the risk premium zones based on the technical data in the Flood Insurance Study. The FIRM that has been made available digitally is called the Digital Flood Insurance Rate Map (DFIRM).
- (K) **Flood Insurance Study (FIS).** A report by FEMA that examines, evaluates and determines flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudflow and/or flood-related erosion hazards.
- (L) **Floodplain.** Any land area susceptible to being inundated by water from the base flood and having a drainage area greater than one hundred (100) acres. For purposes of regulation under this Ordinance, a distinction is made between the Major Floodplain and Minor Floodplain. Major floodplain shall correspond to Zones AE and A as shown on the FIRM, as may be subsequently revised or amended by FEMA, and is considered to be the Special Flood Hazard Area by FEMA. All watersheds draining greater than 640 acres shall be considered Major Floodplain. Minor Floodplain shall correspond to watersheds of 640 acres or less that are not designated as Zone AE or A.
- (M) **Floodproofing.** Any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.
- (N) **Floodway.** The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without any cumulative increase the base flood elevation. Floodways are included within, and regulated as, FOD (Major Floodplain). Floodways are not shown on the FIRM but are included within the Special Flood Hazard Area designated on the FIRM, which is regulated as FOD (Major Floodplain).
- (O) **Freeboard.** A factor of safety expressed in feet above a flood level for purposes of floodplain management. "Freeboard" compensates for the many unknown factors that contribute to flood heights greater than the

height calculated for Base Flood, such as wave action, bridge openings, and the hydrological effect of urbanization in the watershed.

- (P) **Historic structure.** Any structure that is:
- (1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
  - (2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
  - (3) Individually listed on the Virginia Landmarks Register; or,
  - (4) Individually listed on the Loudoun County Register of Heritage Resources.
- (Q) **Lowest floor.** The lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of Code of Federal Regulations 44CFR §60.3.
- (R) **Manufactured Home.** A structure constructed and subject to federal regulation, which is transportable in one or more sections; is built on a permanent chassis; is designed to be used as a single-family dwelling, with or without a permanent foundation, when connected to utilities. The term "manufactured home" also includes recreational vehicles placed on a site for greater than 180 consecutive days whether connected to utilities or not.
- (S) **New construction.** Structures for which the start of construction commenced on or after January 5, 1978. All such structures shall comply with the Loudoun County regulations in effect at the time of construction. Any improvement(s) to a structure shall comply with the Loudoun County regulations in effect at the time of construction of the improvement(s).

- (1) built on a single chassis;
  - (2) 400 square feet or less when measured at the largest horizontal projection;
  - (3) designed to be self-propelled or permanently towable by a light duty truck; and

- (4) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational camping, travel, or seasonal use.
- (U) **Road, Crossing of the Floodplain or Road Crossing.** Any public road, private road or driveway traversing a floodplain generally perpendicular to the flow of the drainageway.
- (V) **Special Flood Hazard Area (SFHA).** The land in the floodplain subject to a one (1%) percent or greater chance of being flooded in any given year. This area corresponds to where the National Flood Insurance Program's (NFIP's) floodplain management regulations must be enforced and includes Zones A, AO, AH, A1-30, AE, A99, AR, AR/A1-30, AR/AE, AR/AO, AR/AH, AR/A, VO, V1-30, VE, and V as shown on the FIRM.
- (W) **Start of construction.** Means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, substantial improvement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of the construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

- (CC) **Substantial improvement.** Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds fifty percent (50%) of the market value of the structure before the start of construction of the improvement. This term includes structures which have incurred flood related damages on two (2) occasions in which the cost of the repair on the average equaled or exceeded twenty-five percent (25%) of the market value of the structure at the time of each such flood event or substantial damage regardless of the actual repair work performed. The term does not, however, include either:
- (1) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions, or
  - (2) Any altering, repair or rehabilitation of a historic structure, provided that the altering, repair or rehabilitation will not preclude the structure's continued designation as a historic structure. Historic structures undergoing altering, repair or rehabilitation that would constitute a substantial improvement as defined above, must comply with all requirements of Section 4-1500 that do not preclude the structure's continued designation as a historic structure. Documentation that a specific requirement of Section 4-1500 will cause removal of the structure from the National Register of Historic Places or the Virginia Landmarks Register must be obtained from the Secretary of the Interior or the State Historic Preservation Officer. Any exemption from the requirements of Section 4-1500 will be the minimum necessary to preserve the historic character and design of the structure.

#### **Floodplain Overlay District Development Procedures.**

- (A) **Floodplain Information to be Submitted with Land Development Applications.** All new subdivision proposals and other proposed development greater than fifty (50) lots or five (5) acres, whichever is the lesser, on any parcel of land which includes FOD within its boundaries, shall include with such proposals base flood elevation data in accordance with Chapter 5 of the FSM. The submission of such base flood elevation data shall be considered a request for a cartographic interpretation pursuant to Section 6-407, to interpret the exact location of the boundaries of the FOD based on such data.
- (B) **Floodplain Alteration.** Any proposed development in the FOD shall require approval of a Declaration of No Impact to Floodplain or Floodplain Alteration in accordance with Chapter 5 of the FSM. Any required Floodplain Alteration shall conform with the following:
  - (1) **Procedures for Floodplain Alterations.** Applications for Floodplain Alterations shall be in accordance with Chapters 5 and 8 of the FSM and conform with the following procedures:
    - (a) An approved CLOMR from FEMA shall be provided prior to approval of a Floodplain Alteration that proposes any increase in the base flood elevation within the FOD (Major Floodplain).
    - (b) Floodplain Alterations that would result in changes to the boundaries of the FOD shall be subject to the following:
      - (i) The application for such Floodplain Alteration shall be considered a request for a cartographic interpretation pursuant to Section 6-407 to interpret the exact location of the boundaries of the FOD upon approval of the Floodplain Alteration.
      - (ii) Prior to approval of a Floodplain Alteration that would result in any increase in the base flood elevation off-site or other changes to the boundaries of the FOD off-site, an instrument describing the change in the base flood elevation executed by each affected property owner shall be recorded among the land records of Loudoun County, Virginia.
  - (2) **Engineering and Environmental Criteria for Floodplain Alterations.** All proposed alterations to the floodplain shall meet the following criteria:

- (a) Alterations to the floodplain shall not create erosive water velocity on-site or off-site (where erosive water velocity is based on analysis of the surface material and permissible velocities for specific cross sections affected by the proposed alteration,), and the mean velocity of stream flow at the downstream end of the site after alteration shall be no greater than the mean velocity of the stream flow under existing conditions.
  - (b) Alterations to the floodplain shall be in conformance with Chapter 1220 of the Codified Ordinances of Loudoun County and the Erosion and Sediment Control Law, Va. Code Section 62.1-44.15:51 et seq.
  - (c) The flood carrying capacity within the altered floodplain shall be maintained.

#### 4-1509

#### **Floodplain Overlay District Development Standards:**

- (A) **General Development Standards.** The following provisions shall apply to development located in the FOD (Major Floodplain):
  - (1) **Residential Construction.** New construction or substantial improvement of any residential structure (including manufactured homes) shall have the lowest floor, including basement, elevated to or above (one (1) foot freeboard recommended) the base flood elevation.
  - (2) **Non-Residential Construction.** New construction or substantial improvement of any commercial, industrial, or non-residential building (including manufactured homes) shall have the lowest floor, including basement, elevated to or above the base flood

elevation. Non-residential buildings may be flood-proofed in lieu of being elevated provided that all areas of the building components lower than one (1) foot above the base flood elevation are water tight with walls impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. A licensed professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification, including the base flood elevation to which such structures are floodproofed, shall be retained by Floodplain Administrator.

- (3) All new construction and substantial improvements (including manufactured homes) shall be in accordance with all applicable sections of this Ordinance, the FSM, and Chapter 1410 of the Codified Ordinances, and anchored to prevent flotation, collapse or lateral movement of the structure.
- (4) Newly placed manufactured homes and/or substantial improvements to manufactured homes shall meet all applicable State anchoring requirements for resisting wind forces and shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.
- (5) All new construction and substantial improvements (including manufactured homes) shall be constructed with materials and utility equipment resistant to flood damage.
- (6) All new construction or substantial improvements (including manufactured homes) shall be constructed by methods and practices that minimize flood damage.
- (7) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities, including duct work, shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
- (8) New and replacement public and individual water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.
- (9) New and replacement public sewer systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.
- (10) Individual sewage disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

- (11) Prior to the approval of a Floodplain Alteration for any proposed alteration or relocation of any channel or watercourse, all required permits shall be obtained from the U. S. Army Corps of Engineers, the Virginia Department of Environmental Quality, and the Virginia Marine Resources Commission (a joint permit application is available from any of these agencies). The applicant shall provide notification of such alteration or relocation to the Department of Conservation and Recreation (Division of Dam Safety and Floodplain Management) and FEMA. If such alteration or relocation results in a change to the floodplain in an adjacent town, city, county, or state, notification shall also be provided by the applicant to such jurisdiction.
  - (12) The flood carrying capacity within an altered or relocated portion of any channel or watercourse shall be maintained. Under no circumstances shall any development adversely affect the water carrying capacity of any channel or watercourse.
- (B) **Space Below the Lowest Floor.** In FOD (Major Floodplain), fully enclosed areas, of new construction or substantially improved structures, which are below the base flood elevation shall meet the following minimum standards:
- (1) Such areas shall not be designed or used for human habitation. Such areas shall only be used for parking of vehicles, building access, or limited storage of maintenance equipment used in connection with the premises. Access to such areas shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment (standard exterior door), or entry to the living area (stairway or elevator).
  - (2) Such areas shall be constructed entirely of flood resistant materials below the base flood elevation.
  - (3) Such areas shall include measures to automatically equalize hydrostatic flood forces on walls by allowing for the entry and exit of floodwaters that are either certified by a licensed professional engineer or architect or that meet the following minimum design criteria:
    - (a) Provide a minimum of two (2) openings on different sides of each enclosed area. Foundation enclosures made of flexible skirting are not considered enclosed areas for regulatory purposes, and, therefore, do not require openings. Masonry or wood underpinning, regardless of structural status, are considered as enclosed areas and require such openings.
    - (b) The total net area of all openings must be at least one (1) square inch for each square foot of enclosed area subject to flooding.

- (c) If a building has more than one (1) enclosed area, each area must have openings to allow floodwaters to automatically enter and exit.
  - (d) The bottom of all required openings to such enclosed areas shall be no higher than one (1) foot above the adjacent grade.
  - (e) Openings shall only be equipped with screens, louvers, or other opening coverings or devices that permit the automatic flow of floodwaters in both directions.
- (C) **Standards for Recreational Vehicles.** The following provisions shall apply to recreational vehicles located within the FOD (Major Floodplain):
- (1) Any recreational vehicles placed on a site shall be fully licensed, on its wheels or jacking system, and attached to the site only by quick disconnect type utilities and security devices, and shall have no permanently attached additions; or
  - (2) Recreational vehicles placed on a site for 180 days or longer shall be deemed to be manufactured homes and shall meet all development standards of Section 4-1509(A) and 4-1509(B).
- (D) **Standards for Subdivision Proposals.** The following provisions shall be required for any subdivision of a parcel that includes FOD (Major Floodplain):
- (1) All subdivision proposals shall be consistent with the need to minimize flood damage.
  - (2) All subdivision proposals that have public utilities and facilities, such as sewer, gas, electrical and water systems, shall have such utilities and facilities located and constructed to minimize flood damage.
  - (3) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards.

**4-1510 Density Calculations.** For purposes of calculating the permitted floor area and number of residential units in the underlying zoning district, the land area in any portion of the FOD shall be included as part of the land area for such calculations.

**4-1511 Variations.**

- (A) **Authority.** Pursuant to Code of Federal Regulations 44CFR60.6, the Board of Supervisors may approve a variation of the standards of Sections 4-1509(A), (B), and (C) for any proposed development within the FOD (Major Floodplain) in the instances as set forth below. Requests for approval of a variation of the standards of Sections 4-1509(A), (B), and (C) shall be made in accordance with the procedures for a Minor Special Exception application as set forth in Section 6-1300, except that the issues

for consideration shall be as set forth in Section 4-1511(B). No variation shall be approved for any proposed development within the FOD (Major Floodplain) that will cause any increase in the base flood elevation of the FOD (Major Floodplain).

- (1) New construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood elevation provided that such new construction or substantial improvement is protected by methods that minimize flood damages during the base flood and creates no additional threats to public safety.
- (2) Repair or rehabilitation of historic structures provided that such repair or rehabilitation shall not preclude the structure's continued designation as a historic structure and the variation is the minimum necessary to preserve the historic character and design of the structure.

(B) **Application for a Variation of the Standards of Sections 4-1509(A), (B), and (C).** Any person owning property, or having a possessory or contract interest in property and the consent of the owner, may file an application for variation of the standards of Sections 4-1509(A), (B), and (C) in regard to such property with the Floodplain Administrator. The application shall contain the following information and such additional information as required by Section 6-403:

- (1) The particular standards of Sections 4-1509(A), (B), and (C) that prevent the proposed construction on, or use of, the property.
- (2) The existing zoning of the property, including any previously approved modifications, conditions, or proffers.
- (3) The special conditions, circumstances or characteristics of the land, building or structure that prevent the use of the land in compliance with the standards of Sections 4-1509(A), (B), and (C).
- (4) The particular hardship that would result if the specified standards of Sections 4-1509(A), (B), and (C) were to be applied to the property.
- (5) The extent to which it would be necessary to vary the standards of Sections 4-1509(A), (B), and (C) in order to permit the proposed construction on, or use of, the property.
- (6) An explanation of how the requested variation conforms to each of the applicable standards set out in Section 4-1511(D).

(C) **Issues for Consideration.** In considering an application for a variation of the standards of Sections 4-1509(A), (B), and (C), the following factors shall be given reasonable consideration:

- (1) The danger to life and property due to increased flood heights or velocities caused by encroachments.
- (2) The danger that materials may be swept on to other lands or downstream to the injury of others.
- (3) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.
- (4) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owners.
- (5) The importance of the services provided by the proposed facility to the community.
- (6) The requirements of the facility for a waterfront location.
- (7) The availability of alternative locations not subject to flooding for the proposed use.
- (8) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
- (9) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
- (10) The safety of access by ordinary and emergency vehicles to the property in time of flood.
- (11) The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site.
- (12) The historic nature of a structure.
- (13) Such other factors which are relevant to the purposes of this ordinance.

(D) **Decision on Application for Variation of the Standards of Sections 4-1509(A), (B), and (C).** No such variation of the standards of Sections 4-1509(A), (B), and (C) shall be approved by the Board of Supervisors unless all of the following findings are made:

- (1) The applicant has demonstrated good and sufficient cause.
- (2) Failure to grant the variation of the standards of Sections 4-1509(A), (B), and (C) would result in exceptional hardship to the applicant.
- (3) Granting of such variation of the standards of Sections 4-1509(A), (B), and (C) will not result in:

- (a) any increase in base flood elevation of the FOD (Major Floodplain);
  - (b) additional threats to public safety;
  - (c) extraordinary public expense;
  - (d) the creation of nuisances;
  - (e) fraud or victimization of the public; or
  - (f) conflicts with other local laws or ordinances.
- (4) The variation of the standards of Sections 4-1509(A), (B), and (C) is the minimum required to provide relief.
- (E) **Notice of Approval.** Upon approval of a variation of the standards of Sections 4-1509(A), (B), and (C), the Floodplain Administrator shall notify the applicant of such approval, in writing, and that development in accordance with the approved variation may increase the risks to life and property and may result in increased premium rates for flood insurance.

## Section 4-1600

## MDOD - Mountainside Development Overlay District

### 4-1601

**Purpose and Intent.** These provisions are created to regulate land use and development on the mountainsides of the County, in such a manner as to provide for low density residential development in remote areas and to: (1) assure mountainside development will not result in substantial damage to significant natural resource areas, wildlife habitats or native vegetation areas; (2) assure that mountainside development is compatible with the slope of the land; (3) assure proper design is utilized in grading and in the development of structures, roadways and drainage improvements; (4) assure mountainside conditions are properly identified and incorporated into the planning process for subdivision and site development; (5) prevent erosion and minimize clearing and grading; (6) ensure that all development is compatible with the existing topography and soils conditions; and (7) implement the intent of the Comprehensive Plan.

### 4-1602

#### **Mountainside Development Overlay District Established.**

- (A) The Mountainside Development Overlay District is hereby established as an overlay district, meaning that this district is overlaid upon other districts and the land so encumbered may be used in a manner permitted in the underlying district only if and to the extent such use is also permitted in the overlay district.
- (B) Mountainsides will be defined by the presence of certain natural features such as elevation, forests, steep slopes, unstable soils, and groundwater recharge areas that are commonly associated with these areas.
- (C) The limits of this district shall be shown on the Loudoun County Mountainside Protection Area Map, which is adopted as a part of this Ordinance. The Zoning Administrator is charged with making necessary cartographic interpretations of that map with recommendation and referral from the County Soil Scientist.
- (D) The following categories of mountainside area are established within the Mountainside Development Overlay District as shown on the Mountainside Protection Area Map:
  - (1) **Somewhat Sensitive Areas.** Areas with potentially slight or limited environmental and/or public safety impacts from development.
  - (2) **Sensitive Areas.** Areas with moderate environmental and/or public safety impacts from development.
  - (3) **Highly Sensitive Areas.** Areas with potentially severe environmental and/or public safety impacts from development.

### 4-1603

#### **Uses in the Mountainside Development Overlay District.**

- (A) **Permitted Uses.** All uses and structures permitted by right in the underlying zoning district are permitted subject to the performance standards listed in Section 4-1604, except that permitted uses involving

land disturbing activity in highly sensitive areas shall meet the criteria of Section 4-1605 and shall require special exception approval granted in accordance Section 6-1300 of this ordinance prior to issuance of a zoning permit.

- (B) **Special Exception Uses.** All uses and structures permitted by special exception in the underlying zoning district may be permitted subject to the performance standards listed in Section 4-1604, except that special exception uses involving land disturbing activity in highly sensitive areas shall meet the criteria set forth in Section 4-1605 and shall require special exception approval granted in accordance with Section 6-1300 of this ordinance prior to issuance of a zoning permit.
- (C) **Exemptions.** Agricultural, horticultural, forestry, or silvicultural uses are exempt from the application of the performance standards in Sections 4-1604 and 4-1605 except that, (1) agricultural operations shall be conducted only in conformance with a Farm Management Plan approved by the Loudoun County Soil and Water Conservation District, and (2) timber harvesting shall be conducted only in conformance with a plan approved by the Virginia Division of Forestry. Furthermore, any addition to a single family detached dwelling which existed within a highly sensitive area prior to October 4, 1995 shall be permitted by right, subject to the criteria in Sections 4-1604 and 4-1605, and provided that such addition does not increase the total floor area of the dwelling, as existed on October 4, 1995, by more than fifty percent (50%).
- (D) The uses described in and subject to Article I Section 1-404(B)(2) are exempted from the special exception requirements, subject to obtaining an approved "Location Clearance Permit" from the Zoning Administrator or his/her designee, accompanied by as much information as the Zoning Administrator deems pertinent and such additional information as the Zoning Administrator may require to approve such "Location Clearance Permit."

#### **4-1604**

**Performance Standards in Somewhat Sensitive and Sensitive Areas.** All uses and structures permitted by right or special exception in Somewhat Sensitive and Sensitive Areas of the Mountainside Development Overlay District, shall comply with the following standards:

- (A) In somewhat sensitive areas, land disturbing activities exclusive of house, driveway, drainfield and wells shall be permitted subject to the following:
  - (1) Selective clearing, to the extent necessary to locate the use, of up to fifty percent (50%) of forestal areas on existing slopes less than fifteen percent (15%).
  - (2) Selective clearing, to the extent necessary to locate the use, of up to 25 percent of forestal areas on existing slopes of fifteen (15) to 25 percent.

- (3) No clearing of existing slopes greater than 25 percent except the minimum necessary to locate the use.
  - (4) The limits of land disturbing activities shall be reduced by fifty percent (50%) in the following soil conditions associated with major groundwater recharge areas: soil mapping units 27, 48, 50, 52, 54, 55 and 89.
- (B) On lots in sensitive areas containing ten (10) acres or less, no more than one (1) acre of land disturbing activity shall be permitted, exclusive of house, driveway, drainfield and well. On lots containing more than ten (10) acres, land disturbing activities shall not exceed ten percent (10%) of the lot exclusive of house, driveway, drainfield and well. In addition to the above area constraints, in areas where the existing slope is over fifteen percent (15%), land disturbing activity limits shall be reduced by fifty percent (50%) and shall be permitted only after the applicant has demonstrated that no suitable alternative locations exist on areas with existing slopes less than fifteen percent (15%). In all such cases, a grading plan shall be submitted to demonstrate methods of minimizing the extent of erosion.
- (C) No land disturbing activity shall be permitted on soil mapping units 59 or 88 except for access roads and drives when no alternatives exist.
- (D) Prior to any land disturbing activity on existing slopes of 25 percent or more, or in soil mapping units 27, 59, 88 or 89, the applicant shall provide a Type I Preliminary Soils Review concurrent with zoning permit application. The review shall follow the procedures found in The Loudoun County Facilities Standards Manual.
- (E) No land disturbing activities shall be permitted within 100 feet of springs.
- (F) Prior to any land disturbing activity, the applicant shall provide a sketch plan which shows how the disturbed area will be restored; including existing and proposed slope contour and ground cover.

#### **4-1605**

**Performance Standards in Highly Sensitive Areas.** Land disturbing activity in Highly Sensitive Areas of the Mountainside Development Overlay District shall comply with the following criteria in addition to the standards set forth in Section 4-1604. Where there is a conflict between these sections, the more restrictive standard shall apply.

- (A) Roads, drives, and dwellings shall not be placed on existing slopes greater than 25% or placed in Soil Mapping Unit 59 without a geotechnical study approved by the Department of Building and Development.
- (B) The centerline grade of private roads and drives shall not exceed 16%. Under drainage and culvert design shall conform to the requirements of the Loudoun County Facilities Standards Manual.

- (C) Land disturbing activities, exclusive of utility easements, such as clearing and grading shall be minimized, but shall be allowed as necessary for building sites and related improvements, not to exceed one (1) acre, exclusive of house, driveway, drainfield and well, and existing cleared areas and shall require a grading permit. Special exception conditions limiting clearing may include, but are not limited to:
  - (1) Selective clearing up to a maximum 50% of existing forest areas on existing 0-15% slopes.
  - (2) Selective clearing up to a maximum 25% of existing forest areas on existing 15-25% slopes; and
  - (3) Minimal clearing for roads and drives on existing slopes of greater than 25%.
- (D) Standards and criteria set out in Sections 4-1605(A), (B), and (C) may be modified by Special Exception procedures set forth in Section 6-1300 provided that the application satisfies the public purpose of those standards and criteria to an equivalent degree.
- (E) Where a site is to be served by groundwater, a proven supply approved by the County Health Department shall be provided as follows:
  - (1) **Existing lots.** Prior to issuance of a zoning permit.
  - (2) **Lots created after the effective date of this Ordinance.** Prior to approval of a record plat.
- (F) Such other standards which are relevant, including Section 6-1310 Issues for Consideration and Section 1-102, Purposes of Zoning.

#### 4-1606

#### **Procedures.**

- (A) **Permitted Uses.** Application for approval of a location clearance permit shall be made to the Department of Environmental Resources prior to or concurrent with the initial submission for approval of a zoning permit, subdivision, or site plan application.
  - (1) **Single Family Dwellings on Existing Lots.** Application for approval of a location clearance permit shall be made concurrent with the initial submission for approval of a Zoning Permit. No Zoning Permit shall be issued unless the location clearance permit has been approved.
  - (2) **Additions to Existing Single Family Dwellings.** Application for approval of additions to single family dwellings, existing as of October 4, 1995 within highly sensitive areas, shall apply for approval of a location clearance permit concurrent with the initial submission for approval of a Zoning Permit. No Zoning Permit shall be issued unless a locational clearance, confirming

compliance with the standards in Section 4-1604 and 4-1605, has been approved.

- (3) **Preliminary Subdivision Plans and Preliminary Site Plans.** An application for preliminary subdivision or preliminary site plan within the MDOD shall clearly identify the portion of the site within the MDOD and the location of springs, steep slopes, moderately steep slopes, somewhat sensitive, sensitive and highly sensitive areas, soil mapping units 27, 59, & 88, forest cover, along with the existing and proposed building sites, roads, driveways, drainfields, wells, and limits of clearing and grading. A note should be placed on that plan that also identifies the acreage of land proposed to be disturbed by clearing and grading on each proposed lot. The preliminary subdivision or site plan shall be approved only if the County determines that the preliminary plan is in compliance with the performance standards listed in Section 4-1604 of this ordinance.
- (B) **Special Exceptions.** Application for special exceptions shall be submitted prior to or concurrently with the initial submission for approval of a subdivision or site plan proposing land disturbing activity in a Highly Sensitive Area. If the proposed use or structure does not require the subdivision of land or the approval of a site plan, but involves land disturbing activity in a Highly Sensitive Area, a special exception must be applied for separately. Applicable permits shall not be issued until approval of a special exception application. Special exception applications shall be made and processed in accordance with the provisions of Section 6-1300 of this ordinance.

In addition to the requirements for a special exception application established in Section 6-1300 of this ordinance, the following information must be submitted:

- (1) Existing conditions map, prepared at a scale of 1 inch = 200 feet and including planimetric detail with 5 foot contour intervals. This map shall include the location of existing wells, drainfields, and springs within 100 feet of the property boundary to the extent available from existing records.
- (2) Concept plan of proposed development including proposed roads, lot lines, buildings, wells, drainfield location, and limits of clearing, grading or other land disturbing activity.
- (3) Soil map approved by the Department of Environmental Resources.
- (4) Removed pursuant to ZOAM 1993-0002.

**Section 4-1800      QN - Quarry Notification Overlay District.**

**4-1801      Purpose.** This district is established to acknowledge the unique land use impact of a quarry on neighboring land uses and the need to notify the owners of the presence of a neighboring quarry.

**4-1802      District Boundaries.** The Quarry Notification (QN) Overlay District boundaries shall be based on the presence of quarrying operations at any location in the County. The district shall include all parcels within 3,000 (three thousand) feet of any property approved for quarrying operations regardless of whether or not blasting operations occur on such property.

**4-1803      Overlay District Established.** The Quarry Notification (QN) Overlay District is hereby established as an overlay district, meaning that it is a district overlaid upon other districts. Land within the Quarry Notification (QN) Overlay District may be used as permitted in the underlying district, subject to the additional regulations of this district.

**4-1804      Use Limitations.** In addition to the use limitations and regulations for the zoning district over which a Quarry Notification (QN) Overlay District is located, the following use limitation shall apply:

**Full Disclosure Statement.** For all residential and/or non-residential structures constructed within the Quarry Notification (QN) Overlay District, the owner shall disclose in writing to all prospective purchasers that they are located within an area that may be impacted by quarry operations and blasting. Such notification will be accomplished by inclusion of this information in all sales contracts, brochures and promotional documents, including the *Illustrative Site Plan(s)* on display within any sales related office(s), as well as in homeowner association documents, and displayed on all subdivision and site plans, and within all *Deeds of Conveyance*.

## Section 4-1900

## Limestone Overlay District

### 4-1901

**Purpose and Intent.** The County seeks to preserve and protect the unique geologic characteristics and the quality of the groundwater in its limestone area. A large area just east of the Catoclin Mountain range in the Rural Policy Area of Loudoun County is comprised of limestone and “Karst terrain” areas. The limestone geology of carbonate deposits in Karst terrain areas is dissolved over time by mildly acidic precipitation, creating fissures. The deposits are highly permeable, allowing surface water to pass through quickly to underlying aquifers and groundwater, and possibly to reappear elsewhere as springs. The terrain is also characterized by the presence of certain natural features, such as sinkholes and rock outcrops. Thus development on Karst terrain has a direct correlation to the potential for ground surface collapse and the susceptibility of groundwater and surface water pollution, and spring contamination, posing serious risks to public health, safety and welfare. The limestone cannot environmentally support land development activity without performance standards and monitoring. Therefore, the provisions of this Section 4-1900 are intended to regulate land use and development in areas underlain by limestone and in areas with Karst features and Karst terrain in such a manner as to:

- (A) Protect the health, safety and welfare of the public;
- (B) Protect groundwater and surface water resources from contamination; and
- (C) Reduce potential for property damage resulting from subsidence or other earth movement.

### 4-1902

**Authority.** Authority for these provisions includes:

- (A) Chapter 11, Title 15.2, Code of Virginia (Planning, Subdivision of Land and Zoning).
- (B) Soil and Water Conservation, Va. Code Sections Title 10.1, Chapter 5.
- (C) Environmental Quality law, Va. Code Title 10.1, Chapter 11.1.
- (D) Erosion and Sediment Control law, Va. Code Section 10.1-560 *et seq.*
- (E) Uniform Statewide Building Code and International Building Code Chapter 18.

### 4-1903

#### **Applicability and Exemptions.**

- (A) **Applicability – Land Area Included in the LOD.** This Section 4-1900 shall apply to all land included in the Limestone Overlay District (LOD), as shown on the official Limestone Overlay District Map (“LOD Map”), which, with all explanatory matter thereon, is hereby incorporated by reference. The LOD is established as an overlay district, meaning that this district is overlaid upon other districts and the land so encumbered may be used in a manner permitted in the underlying district only if and to the extent that such use is also permitted in the overlay district. Pursuant to Section 6-407, the Zoning Administrator is charged with making

necessary cartographic interpretations of the LOD Map with recommendation and referral from the County Soil Scientist.

- (B) **Applicability – Covered Activities.** This Section shall apply to all land development applications, including all Zoning Map Amendments, Special Exception applications and Commission Permit applications, as well as all land disturbing activities, including non-agricultural rural economy uses, new single-family development, preliminary subdivisions, family subdivisions, preliminary/record subdivisions, site plans, grading permits, construction plans and profiles, and zoning/building permits that involve land disturbing activities, that occur within the LOD.
- (C) **Exemptions.** The following land disturbing activities shall be allowed within the LOD, subject to the specific limits set forth below:
  - (1) **Agricultural Operations.** This section shall not apply to agricultural, horticultural, or animal husbandry operations located in the LOD that are covered by, and conducted in conformance with, a Conservation Farm Management Plan, that includes best management practices, approved by the Loudoun County Soil and Water Conservation District or the U.S. Natural Resources and Conservation Service, and a Nutrient Management Plan approved by the Loudoun County Soil and Water Conservation District. Structures associated with agricultural operations are not exempt from these provisions. For purposes of this Section 4-1900, the term “structure” shall include, but not be limited to, all buildings, water/dam embankments, retaining walls, field/ tile drainage, road construction and cut or fill operations.
  - (2) **Forestry and Silviculture.** This section shall not apply to Forestry and Silviculture conducted in conformance with a Forest Management Plan that is prepared by the Virginia Department of Forestry, or a professional forester with, at a minimum, a Bachelor of Science degree from and accredited School of Forestry, in accord with requirements in the Facilities Standards Manual and approved by the County Urban Forester.
  - (3) **Gardens.** Gardens shall be exempt from the provisions of this Section 4-1900 provided that no cutting, filling, or berming is required to create such garden.
  - (4) **Existing Structures within LOD.** Except as provided herein expansion, alteration, or reconstruction of legally existing buildings, structures, and impervious surface areas existing on February 17, 2010 shall be exempt from the provisions of Section 4-1900, provided that such alteration does not increase the total footprint of a building or structure, or increase the total amount of impervious surface areas (exclusive of existing buildings and structures), as it existed on February 17, 2010, by more than twenty-five percent (25%) or 2,000 square feet, whichever is greater, and provided further that any such expansion does not

encroach into a Karst/Sensitive Environmental Feature Setback. If the existing building, structure, or impervious surface is located within a Karst/Sensitive Environmental Feature Setback, then such expansion shall not get closer to the Karst/Sensitive Environmental Feature than the closest point of the existing structure, as it existed on February 17, 2010. However, if expansion away from a Karst/Sensitive Environmental Feature is not feasible, then such expansion may get closer to the Karst/Sensitive Environmental Feature if such expansion conforms to the provisions of Section 4-1906(A)(2)(a). Expansion or alteration of legally existing buildings, structures or impervious surfaces pursuant to this section shall require locational clearance approved by the County Department of Building and Development, as set forth in Section 4-1904(A)(2). Reconstruction of a structure pursuant to this section, in the exact location it occupied on February 17, 2010 shall not require a locational clearance.

- (5) **Paving of Existing Driveways.** The paving of driveways existing on February 17, 2010 shall be exempt from the requirements of this Section 4-1900 except that any proposed paving shall require locational clearance approved by the Department of Building and Development, as set forth in Section 4-1904(A)(2).
- (6) **Structures or Land Disturbance of 720 Square Feet or Less.** Any land disturbing activities or structures involving the disturbance of 720 square feet or less of land shall be exempt from the provisions of this Section 4-1900, except:
  - (a) No such disturbance shall be permitted within 20 feet of a Karst/Sensitive Environmental Feature; and
  - (b) No structures, even if 720 square feet or less, shall be permitted within the Karst/Sensitive Environmental Feature Setback; and
  - (c) This exemption shall not apply to swimming pools, principal dwellings, accessory dwellings, or to structures or land disturbing activities whose purpose is to change water flow; and
  - (d) This exemption shall not apply to wells, except in cases involving the replacement of a dry well serving an existing inhabited structure.

#### **4-1904 Review Procedures.**

##### **(A) Administrative Applications**

- (1) All land disturbing activities, including non-agricultural rural economy uses, new single-family development, preliminary subdivisions, family subdivisions, preliminary/record

subdivisions, site plans, grading permits, and construction plans and profiles in the LOD shall be governed by procedures in Chapter 8 of the Facilities Standards Manual (FSM). In addition, each such application shall include proposed roads, lot lines, buildings, wells, drainfield locations and limits of clearing and grading and other land disturbing activities.

- (2) All zoning/building permits within the LOD shall require that an applicant obtain a locational clearance from the County Department of Building and Development. The applicant shall submit a map, plan, or plat showing the location and extent of land disturbing activities and mitigation measures, and shall include the proposed building sites, paved areas, drainfields, well locations, and other uses.

(B) **Legislative Applications.** All applications for Zoning Map Amendments, Special Exceptions and Commission Permits shall be required to submit, in addition to the material required under the provisions of Article 6 of this Ordinance for each respective application type, the following material:

- (1) Existing Conditions Map, prepared at a scale of 1 inch = 200 feet and including planimetric detail with, at a minimum, five foot contour intervals. This map shall include the location of existing wells, drainfields, fill sites, faults (as shown on United States Geologic Survey Maps), and Karst/Sensitive Environmental Features within 100 feet of the property boundary. For purposes of identifying fill sites on the Existing Conditions Map, the applicant shall include areas of fill identified on the County's G.I.S. database, identified in the Preliminary Soils Report and/or identified in a Geophysical or Geotechnical Study.
- (2) Concept Plan of proposed development including proposed roads, lot lines, buildings, wells, drainfield locations, Karst/Sensitive Environmental Features, Karst/Sensitive Environmental Feature Setbacks, and other areas of non-disturbance.
- (3) Preliminary Soils Review in accordance with Chapter 6 of the FSM.

#### 4-1905

#### **Establishment of Karst/Sensitive Environmental Features**

(A) **Karst/Sensitive Environmental Features Associated with Limestone Bedrock.** For all land development applications and land disturbing activities, as specified in Section 4-1903(B), involving properties subject to LOD, as identified on the LOD Map, the applicant shall submit a Geophysical Study, pursuant to the requirements of Chapter 6 of the FSM. The Geophysical Study shall identify the following Karst/Sensitive Environmental Features associated with limestone bedrock:

- (1) Sinkholes, Swallets, or Closed depressions;

- (2) Rock Outcrops;
- (3) Underground Solution Channels within 45 feet of the surface;
- (4) Cave Openings;
- (5) Springs; and
- (6) Perennial Sinking Streams;

A Geotechnical Report shall also be required to verify any of the above conditions whenever recommended by the Geophysical Study.

(B) **Karst/Sensitive Environmental Feature Setback.** For each Karst/Sensitive Environmental Feature within the LOD including, without limitation, those identified in any required Geophysical Study, or any Preliminary Soils Review as required by the Facilities Standards Manual, a setback shall be established from the outermost edge of each such feature. All such features must be identified on the land development application and must have a minimum setback of fifty (50) feet, except for the following:

- (1) One hundred (100) feet minimum from the rim of any Sinkhole, Swallet or Closed Depression; and
- (2) One hundred (100) feet minimum from any Cave Opening.
- (3) Springs. Land disturbing activities, development, and impervious surface coverage are prohibited within 1) one hundred (100) feet from a spring, measured from the first emergence of the spring or 2) two hundred (200) feet when the first emergence of the spring is on a slope greater than 15% and is downslope from the land disturbing activities, development or impervious surface coverage.
- (4) Perennial Sinking Streams. One hundred (100) feet minimum setback from any perennial sinking stream, as measured along the slope of the ground from the channel scar.
- (5) The setback from rock outcrops for wells shall be ten (10) feet

The setback shall be reduced, by up to 50%, based on the conclusions of the Geophysical Study, if the Geophysical Study concludes that the risks of collapse and groundwater contamination are non-existent or insignificant for the proposed location and use. However, no such reduction shall be approved for any perennial sinking stream, nor for any spring, nor for any sinkhole, swallet, closed depression, or cave opening that receives either a perennial or intermittent sinking stream. In addition, no such reduction shall be allowed in the required setback from rock outcrops for wells.

**(A) Uses and Activities within Karst/Sensitive Environmental Feature Setback.**

- (1) Land disturbing activities, development, and impervious surface coverage are prohibited within Karst/Sensitive Environmental Feature Setbacks except for the following:
  - (a) Fences that do not obstruct surface water flow;
  - (b) Trails and other passive recreation facilities, excluding buildings, for pedestrian, bike or other non-motorized use, provided that such facility is designed with permeable materials and is located a minimum of 25 feet from the edge of each Karst/Sensitive Environmental Feature; and
  - (c) Restoration and vegetation.
- (2) Residential structures shall be located outside Karst/Sensitive Environmental Feature Setbacks (as set forth in Section 4-1905(B) or as may be reduced pursuant to the provisions of that section), except as follows:
  - (a) On any lot existing on February 17, 2010, where there is no feasible development site available outside of the Karst/Sensitive Environmental Feature Setback, a principal residential structure, and/or a drainfield for such principal residential structure, if otherwise permitted under this ordinance, may be permitted if, prior to the issuance of a zoning permit, the owner shall provide, or comply with, as applicable, the following:
    - (i) Provide a Geophysical Study for the proposed structure and/or drainfield, ;
    - (ii) Comply with any recommendations of the Geophysical Study; and
    - (iii) Such structure and/or drainfield, shall be sited on the lot so as to be located as far from the Karst/Sensitive Environmental Feature as is feasible.
    - (iv) Development on such lot shall not be allowed if the Geophysical Study shows subsidence poses a serious risk to public health or safety or to the safety of residents or users of the proposed development unless the design of the proposed development is certified, both structurally and geotechnically, by a professional engineer.

- (b) No structures for uses other than a principal residential structure permitted under subsection (a), above (i.e. no accessory structures) shall be permitted to locate within the Karst/Sensitive Environmental Feature Setback.
- (B) **Uses and Activities in the Limestone Overlay District, Outside Karst/Sensitive Environmental Feature Setback.** Except as provided in Section 4-1906(E) all uses and structures permitted by right in the underlying zoning district are permitted within the Limestone Overlay District outside of the Karst/Sensitive Environmental Feature Setback, subject to standards and mitigation measures required pursuant to this section of the Zoning Ordinance.
- (C) **Special Exception Uses.** Except as provided in Section 4-1906(E), all uses and structures permitted by special exception in the underlying zoning district may be permitted subject to the procedures and criteria stated in Section 6-1300, "Special Exception" of the Zoning Ordinance, Section 4-1904(B), above, and to conditions identified in such special exception and to any mitigation measures required according to Section 4-1908, below.
- (D) **Creation of New Lots.** Prior to approval of any building lot created after February 17, 2010 it shall be demonstrated that there is a sufficient area (to include sewage disposal and well sites, where applicable, unless an approved sewage disposal site exists which is subject to Section 1066.17 of the Loudoun County Codified Ordinances and/or an approved well site exists which is subject to Section 1040.19 of the Loudoun County Codified Ordinances ) outside of the Karst/Sensitive Environmental Feature Setbacks, identified in Section 4-1905(B), for the intended use.
- (E) **Prohibition of Specific Pollution Sources.** The following uses shall be prohibited within the LOD:
  - (1) Facilities or uses that generate or manufacture hazardous substances;
  - (2) Storage of hazardous substances in an aggregate amount greater than 55 gallons (or the dry weight equivalent) on site at any one time, excluding heating oil or gasoline within above ground storage tanks;
  - (3) Automobile Service Stations;
  - (4) Gas Pumps accessory to Convenience Food Store;
  - (5) Motor Vehicle service and repair;
  - (6) Underground Storage Tanks, except for propane tanks and water cisterns shown on an approved Geophysical Study;
  - (7) Landfills and waste sites.

**Development Standards for the LOD.** Unless otherwise exempt by Section 4-1903(C) above, all uses permitted by right or special exception and all land disturbing activities in the LOD shall adhere to the following development standards:

- (A) **Structures in Potential Subsidence Areas.** No structure shall be built in an area where a Geophysical Study indicates that potential subsidence may occur that would cause property damage, physical injury or harm to the public or future residents unless there are no alternative locations within a given lot of record, and a subsequent Geotechnical Report indicates that such potential harm can be mitigated. In such cases the structures must be constructed in accord with the mitigation techniques recommended by the Geotechnical Report.
- (B) **Site Grading.** A grading permit is required for all land disturbing activities. Site grading, including any fill or berm placement, shall maintain natural drainage patterns. Berms and filling operations shall require a Geophysical Study.

If no other alternative exists than to impact natural drainage patterns, then drainage shall be designed to avoid damage to Karst/Sensitive Environmental Features as identified in the required Geophysical Study, and in any subsequently required Geotechnical Report, by mimicking pre-development volumes.

- (C) **Surface Water Run-Off.**
  - (1) Non-point source pollution load of surface runoff from land disturbing activity, that is naturally conveyed to a Sinkhole, Swallet, Closed Depression, or Cave Opening shall meet the stormwater quantity and quality standards specified in Chapter 5 of the Facilities Standards Manual. In addition, the runoff shall travel over vegetative filters or other filtration measures, as established in the Virginia Stormwater Management Handbook, prior to entering such features.
  - (2) Surface water runoff shall not be redirected or concentrated to enter a Sinkhole, Swallet, Closed Depression or Cave Opening.
  - (3) Post-development flow to a Sinkhole, Swallet, Closed Depression, or Cave Opening that receives a Sinking Stream shall be the same as pre-development flow.
- (D) **Limits of Disturbance and Revegetation.** Disturbed areas shall be limited to what is necessary to locate the use, and any disturbed areas that are not covered by paving, stone, or other solid materials shall be revegetated.
- (E) **Wells.** Wells shall be installed in accordance with the provisions of Chapter 1040 of the Loudoun County Codified Ordinance, the Virginia Department of Health Private Well Regulations and the Virginia

Department of Health Waterworks Regulations and Chapter 6 of the Facilities Standards Manual, relating to “Subdivisions with Communal Water Systems”. Communal Water Supply Systems shall be required for all subdivisions of fifteen (15) or more lots approved after [action date], except for subdivisions in which each lot of the subdivision contains ten (10) or more acres of land.

- (F) **On-Site Sewage Disposal Systems.** On-site sewage disposal systems, as defined in the Land Subdivision Development Ordinance, are allowed in the LOD for individual lots and subdivisions with fewer than fifteen (15) lots, and for subdivisions in which each lot of the subdivision contains ten (10) or more acres of land. Sewage disposal systems shall be subject to the review processes and requirements in the LSDO (Section 1245.10) and shall comply with requirements of the Virginia Department of Health – Division of Sewage and Water Services, and the Loudoun County Health Department.
- (G) **Communal Wastewater Systems.** Proposed subdivisions containing fifteen (15) or more lots shall be served by communal wastewater systems, unless the applicant demonstrates to the County that other types of systems are available that will achieve and maintain the same or superior treatment results. Additionally, subdivisions in which each lot of the subdivision contains ten (10) or more acres of land shall be exempt from this requirement. The County shall allow communal wastewater systems in the LOD subject to the following standards:
  - (1) Where sufficient area exists on the portion of the property outside of the Karst/Sensitive Environmental Feature Setback to accommodate a proposed communal wastewater disposal system, then such system shall be located outside of the Karst/Sensitive Environmental Feature Setback; or
  - (2) Where insufficient buildable land area exists outside of the Karst/Sensitive Environmental Feature Setback as much of the proposed communal wastewater disposal system shall be sited outside the Karst/Sensitive Environmental Feature Setback as possible and the applicant shall demonstrate through a Geophysical Report and Detailed Soils Site Investigation Report acceptable to the County that the communal wastewater disposal system will prevent a change in the levels of pre-development run-off within the Karst/Sensitive Environmental Setback area, enhance filtration, and will not have an adverse environmental impact on underlying aquifers and groundwater. In addition, the applicant shall provide a plan for regular operation and maintenance.
  - (3) All Communal Wastewater Systems shall be capable of producing secondary effluent, or better, as identified in the Sewage Handling and Disposal Regulations of Virginia.

- (H) **Golf Course Use.** Any golf course use within the LOD shall adhere to a Water Management Plan approved by the County Department of Building and Development and a nutrient management plan approved by the Loudoun County Soil and Water Conservation District and the County Department of Building and Development.
- (I) **Stormwater Management Facilities and Best Management Practice Facilities (BMPs).**
  - (1) Stormwater management ponds and BMP facilities shall not be located within Karst/Sensitive Environmental Feature Setbacks.
  - (2) Stormwater management ponds, and BMPs constructed within the LOD shall require a Geophysical Study, and all stormwater management ponds, sediment traps, and sediment basins shall be lined with impervious materials to prevent groundwater pollution, in accordance with Chapter 5 of the Facilities Standards Manual
- (J) **Irrigation Systems.** Irrigation systems shall be prohibited unless the water for such system is supplied from a source that is not dependent on groundwater, such as, but not limited to, cisterns and stormwater management ponds. Communal water systems that obtain water through communal wells are not an acceptable source for irrigation systems.
- (K) **Explosives and Blasting.** Blasting within LOD shall require conformance to Section 6.157 of the FSM
- (L) **Notice to Property Owners.** Notes containing the following or similar language shall be placed in all deeds of conveyance, and on all record subdivision plats and site plans for land in the LOD:
  - (1) “In addition to the requirements of the underlying zoning district this property is also subject to the restrictions, standards and criteria of the Limestone Overlay Zoning District. Please contact the County Zoning Office for more information.”
  - (2) “Maintenance of sewage disposal systems must be done in accordance with all State and County requirements in order to help prevent potential groundwater contamination.”

#### 4-1908

**Mitigation Measures for the LOD.** In addition to compliance with the development standards in Section 4-1907, land disturbing activities shall employ measures necessary to mitigate any potential adverse impacts to the County’s subsurface water resources or Karst/Sensitive Environmental Features associated with limestone bedrock, as identified in the required Geophysical Study as set forth in Section 4-1905(A), and any subsequently required Geotechnical Report, or in any other study required by the Zoning Ordinance, Land Subdivision Development Ordinance or Facilities Standards Manual.

- (A) **General.** Mitigation measures shall be directly related to proposed land disturbing activities and its potential adverse impact on the County’s water

resources or Karst/Sensitive Environmental Features associated with limestone bedrock identified on the subject property

- (B) **Mitigation Measures.** If mitigation measures are recommended by a study required by the Zoning Ordinance, Land Subdivision and Development Ordinance or Facilities Standards Manual, in order to protect against ground surface collapse, surface or groundwater pollution, and/or spring contamination, the County shall require such measures to mitigate the identified adverse impacts. Such measures may include, but shall not be limited to, the following list. This provision shall not be construed to limit the County's ability to impose mitigating conditions in its review of special exception applications, nor its ability to accept mitigating proffers in its review of zoning map amendment applications:
- (1) **Ineligibility for Density Increases.** The applicant may not be eligible for density increases otherwise permitted under the clustering provisions of this Ordinance.
  - (2) **Use of a Cluster Subdivision.** Where not otherwise required by this Ordinance, the County may require cluster development.
  - (3) **Landscaping and Reductions in Impervious Surface Coverage.** The County may require:
    - (a) Reductions in the maximum impervious surface coverage allowed;
    - (b) Reductions in the area devoted to landscaped lawns, and;
    - (c) Use of xeriscape (i.e., use of native plant materials and landscape materials that have lower water and nutrient requirements).
  - (4) **Storage Tank Testing and Containment.** The County may require leak testing and secondary containment for above ground storage tanks other than propane or water tanks.
  - (5) **Conservation of Indigenous Vegetation.** The County may require retention of indigenous vegetation to the maximum extent feasible, and in accordance with Tree Conservation Standards in Chapter 7 of the Facilities Standards Manual.
  - (6) **Groundwater Protection.** The County may require the applicant to establish a regular system of groundwater monitoring by a qualified professional for the proposed development and such other measures as may be recommended by other County Ordinances.
  - (7) **Prohibition of Additional Specific Pollution Sources.** The County may prohibit specific pollution sources, as defined in Chapter 5 of the Facilities Standards Manual as "stormwater hotspots", and other uses and activities with high risk of releasing

pollutants, if the applicant does not propose effective mitigation measures acceptable to the County, provide evidence that pollution sources will be monitored, and that facility design standards will be followed.

## **Section 4-2100**

### **Village Conservation Overlay District.**

**4-2101 Purpose.** The overlay is established to recognize the development patterns existing in traditional villages, considered to be valuable heritage resources, and to encourage the retention and reinforcement of the pattern, character and visual identity of the individual village.

**4-2102 District Boundaries.** The Village Conservation Overlay District boundaries shall be as established on the adopted zoning map and affect the following villages set forth below.

**(A) Traditional Villages.**

- (1) Aldie
- (2) Aldie Mountain
- (3) Ashburn
- (4) Bluemont
- (5) Lincoln
- (6) Loudoun Heights
- (7) Lucketts
- (8) Neersville
- (9) Paeonian Springs
- (10) Philomont
- (11) St. Louis
- (12) Taylorstown
- (13) Waterford

**(B) Expansion of Village Conservation Overlay District Boundaries.** Expansion of the Village Conservation Overlay District shall only be permitted for those areas designated for traditional village on the adopted Comprehensive Plan.

**4-2103 Overlay District Established.** The Village Conservation Overlay District is hereby established as an overlay district, meaning that it is a district overlaid upon other districts. Land within the Village Conservation Overlay District may be used as permitted in the underlying district, subject to the additional neighborhood development standards of this district.

**4-2104 Additional Neighborhood Development Standards.** Where the following requirements conflict with other provisions of this Ordinance, then the following requirements of this Section shall apply:

(A) **Contextual Compatibility Development Standards.**

- (1) **Average Front Yard.** Adjacent buildings shall have front yard distances that maintain visual continuity of the streetscape. Buildings shall have front yards consistent with the front yard of principal buildings on the same side of the street within 150 feet of both sides of the parcel or parcels being developed.
- (2) **Building Height.** Proposed buildings shall have a building height no greater than 50% higher than the highest building on the same side of the street within 150 feet of both sides of the parcel or parcels being developed, not to exceed the maximum building height permitted in the underlying zoning district. Notwithstanding the foregoing, accessory buildings within 150 feet shall not be included when determining the highest building.

(B) **Other Standards.**

- (1) **Street System / Connectivity.**
  - (a) **Connections to Existing Streets.** Connections to the existing or planned street system shall be made to the maximum extent feasible. All development plans shall incorporate and continue all streets stubbed to or shown as stubbed to the boundary of the development by previously approved development plans/plats or existing development.
- (2) **Variation of Lot Building Sizes.**
  - (a) In all new residential subdivisions containing six (6) or more lots, a mixture of lot sizes and dimensions shall be provided. For example, larger and wider lots are encouraged on corners. Smaller lots are encouraged adjacent to parks and open spaces. No more than 33 percent of all lots shall be similar in total lot area. For purposes of this subsection, "similar" lot areas shall be defined as within 500 square feet of each other.
- (3) **Sidewalks.**
  - (a) Sidewalks may be provided for the parcel or parcels being developed in accordance with the Facilities Standards Manual (FSM).
- (4) **Street Trees.** In addition to tree planting and replacement requirements of Section 5-1300, street trees shall be provided along the frontage of each lot and shall be regularly spaced.
- (5) **Garage locations.** Front-loaded garages shall be setback at least 20 feet behind the front line of all principal buildings, except when a lot within 150 feet of, and on the same side of the street as, the

subject lot has a garage setback less than 20 feet from the front lot line of all principal buildings on such lot, in which case the minimum garage setback shall be equal to the garage setback on such lot.

## DIVISION D: ROUTE 28 CORRIDOR

### Section 4-2200 Generally.

#### Executive Summary.

The Route 28 Corridor districts include three Optional Overlay (CO, CB and CI) and one Planned Development (PD-CM) district. The Optional Overlay districts include 2 types of development: Standard Method and Alternative Method.

**Standard Method** development includes basic use, building height, setback and floor area ratio (FAR) standards. This type of development is very similar to development in most of the County's underlying zoning district regulations, including the existing PD-OP, PD-IP, PD-RDP and PD-GI zoning district that comprise most of the land area within the overlay districts. The Standard Method offers higher development potential and contemporary development standards that are not possible under the existing zoning districts. **Alternative Method** development allows higher FAR and lot coverage, along with process streamlining and other regulatory incentives, along with design controls and amenities that do not apply to Standard Method development.

Because these are Optional Overlay districts, the existing zoning districts remain on the map when a property owner proceeds under these regulations.

This means that property owners are free to develop under their underlying district regulations without regard to the Optional -Overlay district regulations. This gives property owners in the CO, CB and CI Optional Overlay districts 3 options:

1. Develop under their **existing zoning district** regulations. In this case, the Optional Overlay district regulations do not apply.

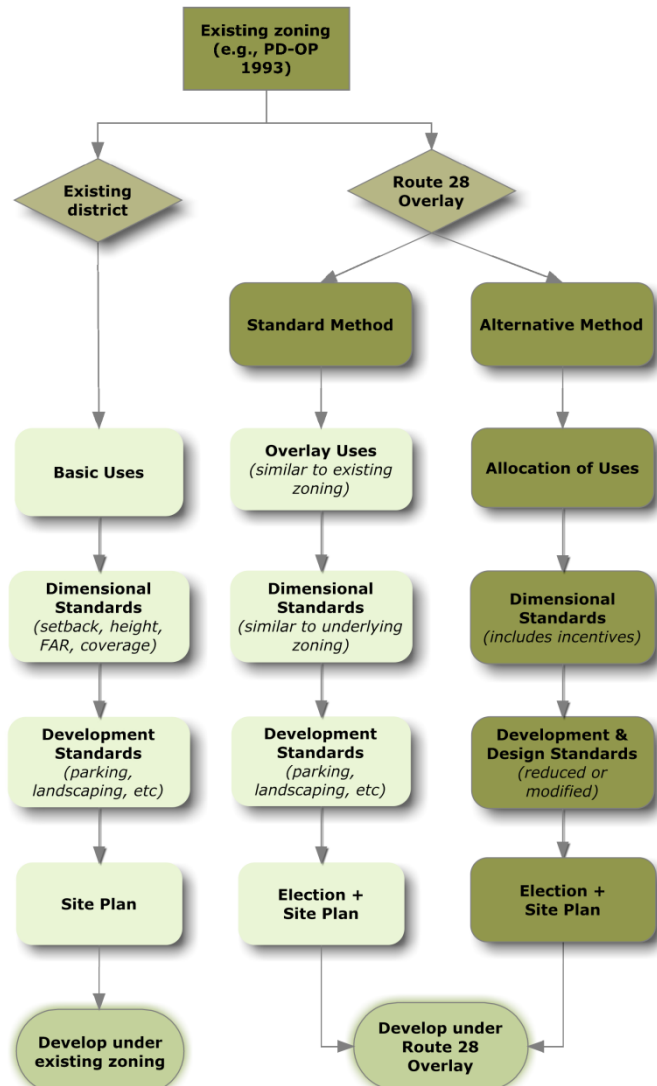

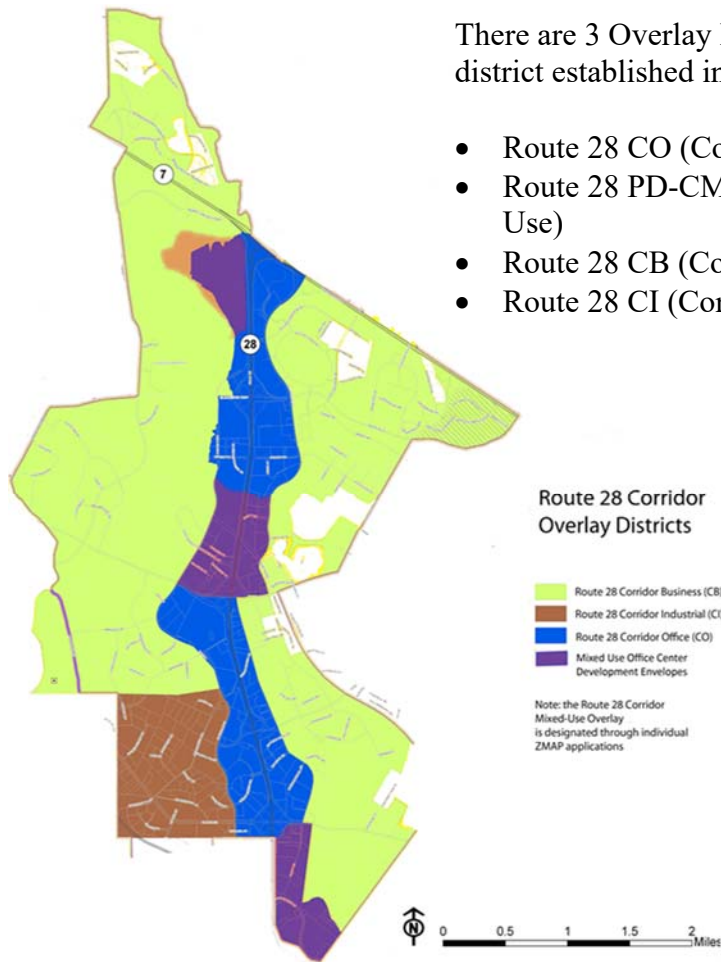

Figure 1 Zoning Options in Route 28 Corridor Overlay Districts

2. Develop under the **Optional Overlay** district regulations, using a **Standard Method** of development.
3. Develop under the **Optional Overlay** district regulations, using an **Alternative Method** of development.

The property owner's choices, and the implications of those choices, are illustrated in Figure 1. Property owners may proceed to site plan approval under their existing zoning, and subject to all of the use, dimensional and development standards of their existing districts. Or, property owners may elect to develop per the Optional Overlay regulations and file a site plan under the Optional Overlay district using the Standard Method, which triggers standards that are similar to the existing zoning regulations in the districts. Finally, property owners may elect to develop per the Optional Overlay regulations and proceed under the Optional Overlay district using the Alternative Method. This gives the property owner an initial FAR bonus, along with the ability to build significantly more floor area by undertaking incentive items listed in the district regulations.

Most of the property within the Route 28 Corridor Districts is subject to the Route 28 Transportation Improvement District legislation, which generally prohibits the County from eliminating, reducing, or restricting commercial or industrial classifications and related criteria on property for which a special tax is imposed, or making them less permissive. Before proceeding under this Division, the property owner shall file an election to waive the protections of the Route 28 Tax District legislation. Development then proceeds under the Revised 1993 Zoning Ordinance.

There are 3 Overlay Districts and 1 Planned Development district established in these regulations. These include:

- Route 28 CO (Corridor Office Overlay)
- Route 28 PD-CM (Planned Development-Corridor Mixed-Use)
- Route 28 CB (Corridor Business Overlay)
- Route 28 CI (Corridor Industrial Overlay)

The CO, CB and CI districts are mapped by the County. The PD-CM district (generally in areas currently mapped CO) requires a zoning map amendment.

A copy of the zoning map is shown here. Refer to Section 1-300 of this Ordinance for rules relating to the official Zoning Map.

**Figure 2 Map of Zoning District Boundaries**

**4-2201 Districts & Standard / Alternative Methods Established.**

(A) **Purpose.** This section establishes four (4) districts to implement the Route 28 Corridor Plan (March 15, 2011)(hereinafter the “Route 28 Plan”). These districts are intended to provide planned development and incentive zoning as tools to coordinate new development with the Route 28 Plan’s goals and objectives to:

- (1) Provide premier locations for regional, national, and international businesses with a high-quality image that offer employees vibrant centers of activity and highly-integrated pedestrian and transit-friendly employment developments, and
- (2) Provide development along corridors that are employment-based, with residential development that is subordinate to employment uses, and
- (3) Provide design standards that create a unified development pattern and distinct places or centers of activity, and
- (4) Take advantage of economic assets such as Washington Dulles International Airport, and
- (5) Promote multi-modal connectivity, and
- (6) Encourage sustainable development practices.

(B) **Districts Established.** The following Planned Development and Optional Overlay districts are hereby established for the Route 28 Corridor:

District	Subdistrict
Route 28 CO (Corridor Office) Optional Overlay	<ul style="list-style-type: none"><li>• Subdistrict 1 (north of Sterling Boulevard)</li><li>• Subdistrict 2 (South of Sterling Boulevard)</li></ul>
Route 28 PD-CM (Corridor Mixed-Use) Planned Development District	<ul style="list-style-type: none"><li>• Subdistrict 1 (north and central development envelopes designated in the Route 28 Corridor Plan)</li><li>• Subdistrict 2 (southern development envelope designated in the Route 28 Corridor Plan)</li></ul>
Route 28 CB (Corridor Business) Optional Overlay	
Route 28 CI (Corridor Industrial) Optional Overlay	

(C) **Optional Overlay Districts.** The CO, CB and CI districts in subsection (B) are established as Optional Overlay districts. This means that they are overlaid on other districts. Within these Optional Overlay districts, property owners have the option to use their property in any manner permitted in the underlying districts, unless property is subject to a site plan approved under Section 4-2900 pursuant to an Optional Overlay district. Therefore, the Optional Overlay districts do not apply unless the property owner elects to become subject to the Optional Overlay district standards and procedures. Accordingly, a property owner with a Route 28 Optional Overlay district has **3 options**:

- (1) Develop under the underlying, existing zoning regulations, or
  - (2) Develop under the Optional Overlay district, using a Standard Method of development (see section 4-2202(B)), or
  - (3) Develop under the Optional Overlay district, using an Alternative Method of development (see section 4-2202(C)).
- (D) As a Planned Development district, development in the PD-CM district requires legislative approval pursuant to Section 6-1200 of this zoning ordinance.
  - (E) This Division D of Article 4, including the zoning district standards and development standards, applies only to development that elects to proceed under a Route 28 Corridor Optional Overlay or Planned Development district. This Division D does not apply to property within a Route 28 Corridor Optional Overlay district that elects to proceed under an existing, underlying zoning district. *(See Section 4-2900 for election procedures.)*

#### **4-2202 Standard and Alternative Methods of Development.**

- (A) The Optional Overlay and Planned Development zoning districts in this Division include 2 types of development: Standard Method and Alternative Method. Each is subject to different zoning standards, depending on how the property owner elects to proceed.
- (B) **Standard Method** is subject to the base Optional Overlay and Planned Development zoning district standards, and is not subject to the design standards that apply to the Alternative Method. The Standard Method standards apply to all development that elects to proceed under a Route 28 District except for property that:
  - (1) Is subject to a zoning amendment approval that limits development to an Alternative Method (see Section 6-1200), or
  - (2) is subject to a valid, unexpired Site Plan or Special Exception that has been approved to develop pursuant to an Alternative Method.
- (C) An **Alternative Method** is a **style of development** that is tied to **incentives** in the Route 28 Corridor Optional Overlay and Planned Development districts. An Alternative Method development incorporates design standards (such as frontage types regulated in Sections 4-2300 to 4-2500) and amenities (such as parks and civic uses) as described in the district regulations. However, an Alternative Method provides the property owner incentives such as:
  - (1) Election to proceed under a Route 28 Corridor Optional Overlay without a zoning map amendment, and

- (2) Longer time periods to build out a project without a zoning approval (such as a zoning permit, site plan, or special exception) expiring (see Section 4-2905), and
  - (3) Flexibility, clarity, and predictability in the application of zoning standards such as setbacks, building height, and lot coverage, and
  - (4) Reductions in development standards requirements related to parking and buffering, elimination of the bulk plane standard, and an increase in floor area ratio and lot coverage.
- (D) This Division establishes six (6) Alternative Methods of development. The table below lists the Alternative Methods, and the Optional Overlay and Planned Development districts where they are permitted:

Alternative Method	CO	CB	CI	PD-CM
(1) Office Cluster Alternative Method	■			
(2) Office Center Alternative Method				■
(3) Business Campus Alternative Method	○	■		
(4) Custom Campus Alternative Method	■	■		
(5) Secure Office Campus Alternative Method	○	■		
(6) Flex			■	

■ = permitted with Site Plan approval | ○ = permitted with Special Exception approval  
The PD-CM district is designated through individual Zoning Map Amendment applications

- (E) With the exception of the Campus Alternative Method (see Section 4-2710), the standards that apply to each Alternative Method are established in the regulations for each Optional Overlay and Planned Development district, below.

## **Section 4-2300      Route 28 CO (Corridor Office).**

### **4-2301      Purpose.**

The Route 28 Corridor Office district provides for high intensity office and employment development along the Route 28 corridor. The CO district provides for two (2) predominant development types:

- medium to high intensity, pedestrian-oriented **office clusters** that include supportive retail and service uses, and
- custom office and research-and-development campuses that combine these uses with limited manufacturing.

The design standards in this district are designed to form a “wall” of mid- to high density, high quality office buildings along employment-based corridors.

**Figure 2 The CO district implements the Route 28 Corridor Plan’s vision of a “wall” of medium to high intensity Class A office development along this important economic development corridor.**

### **4-2302      [RESERVED]**

### **4-2303      Uses.**

- (A) See Section 4-2800 (Use Table).
- (B) The following Alternative Methods of development are permitted in this District:
  - (1) Office Cluster pursuant to site plan approval (Section 4-2305).
  - (2) Custom Campus pursuant to site plan approval (Section 4-2710).
  - (3) Business Campus or Secure Office Campus pursuant to special exception approval (Section 4-2710).

**(C) Retail and service.**

- (1) Retail and service** uses in the CO district shall be permitted only on the ground floor of buildings, except as provided in subsection (2) below.
- (2)** Single-story or multi-story **retail** and service uses are permitted in the CO district if subsections (a) and (b) apply:
  - (a)** The use shall be integrated within the development, as follows:
    - (i)** The use is part of an Office Cluster or Campus Alternative Method and is either visually integrated (subsection (ii) below) or functionally integrated (subsection (iii) below) to the development.
    - (ii)** The use is **visually integrated** if:
      - 1.** It is located in a building that is attached as a wing wall, by a breezeway, or similar architectural feature, or is located on the same block or within 75 feet of a multistory building and connected to that building by a sidewalk or pedestrian path which may be integrated with landscaping, and
      - 2.** The use includes building materials and architectural features that are similar to or compatible with adjacent multi-story buildings. At least two (2) of the following features must match those of adjacent multi-story buildings:
        - a.** Frontage types (see Section 4-2704), or
        - b.** Roofline features such as cornices and eaves, or
        - c.** Window styles and proportions, or
        - d.** Primary building materials (see Section 4-2705), or
        - e.** Spacing of entryways, projections, and other vertical elements of the façade at the ground level.

3. The buildings that include the retail and service uses are not separated from other buildings by parking areas.

(iii) The use is **functionally integrated** if:

1. It is located within the Interior Zone of an Alternative Method development and occupies no more than 2% of the total development's floor area, or
2. It is located within the Street Zone on the same building line as adjacent buildings, and does not have a floor area exceeding 5,000 square feet.

- (b) The building shall provide pedestrian accessibility through sidewalks or pedestrian paths that connect public or private streets or adjacent buildings to the building's primary entrance.

**(D) Hotels and Full-Service Hotels.**

- (1) For any Alternative Method, Hotels are not required to be located within mixed-use buildings.
- (2) Hotels shall provide, at a minimum, restaurant, lounge facilities, meeting space, room service and bell service.
- (3) A Full-Service Hotel located in CO Subdistrict 2 (see Section 4-2201(B)) shall not exceed 40% of the overall square footage of an Alternative Method development.
- (4) The minimum floor area ratio for a Full-Service Hotel as part of an Alternative Method development in CO Subdistrict 2, shall be 0.2.

**(E) Flex Uses**

- (1) See section 4-2710 for the Flex land use allocation in the Campus Alternative Method.
- (2) At least 20% of the gross floor area of a Flex Building (except for a data center) in the CO District shall include offices.

**4-2304 Dimensional Standards.**

## 4-2305 Office Cluster Alternative Method.

**Figure 3 Office Cluster illustration**

### Description:

An office development that is configured around a street grid, with high quality office development concentrated along Route 28. An Office Cluster is divided into 3 subareas:

1. The **Corridor Zone**, located within 100 feet of the existing or planned right-of-way of Route 28.
2. The **Street Zone**, including all areas outside of the Corridor Zone located within 50 feet of any other public street other than Route 28.
3. The **Interior Zone**, including all areas outside of the Corridor Zone or Street Zone.

To implement the County's design objectives while providing market flexibility, a CDP for an Office Center shall designate "A" Streets and "B" Streets, as follows:

1. An **"A" Street** is a street with frontage that is restricted to building types and uses that promote pedestrian activity, and which benefit from pedestrian and/or transit access. A street shall be deemed to be classified an "A" Street unless otherwise designated on the CDP.
2. A **"B" Street** is a street that permits front-loaded surface parking, retail and service uses, and single-story buildings. A "B" designation may be considered an interim designation as part of a phased development plan. The aggregate length of the "B" Streets on an application shall not exceed 50 linear feet per Buildable Acre subject to the application, and shall not exceed thirty-five percent (35%) of the total length of all streets within the proposed development.

**4-2701          Applicability.**

- (A) These development standards apply to any property that elects to proceed under a Route 28 Corridor Planned Development or Optional Overlay district. *(See Sections 4-2201(D) and 4-2201(E) for applicability and Section 4-2900 for “election to waive” procedures.)*
- (B) If an application is filed under this Division D: Route 28 Corridor:
  - (1) Unless otherwise provided in this Division D, the use, building setback, height, parking, landscaping, and other standards of this Ordinance apply to any Standard or Alternative Method of development (including, without limitation, Section 5-1403(B)), and
  - (2) After an election is filed (see Section 4-2902), the property owner is subject to all requirements of the Revised 1993 Zoning Ordinance that are not otherwise regulated by this Division D.
- (C) An applicant may pursue a modification(s) for a CO, CB, CI, or PD-CM district, other than the required mix of uses, in accordance with Section 6-1217(A) of the zoning ordinance. In addition to the criteria for a modification established in Section 6-1217(A), these additional criteria shall apply:
  - (1) The parcel is too small to completely implement the standard, and
  - (2) The property owner provides an alternative standard that, to the extent possible, meets the intent of the design standards, and
  - (3) The property owner demonstrates that the project as modified is compatible and integrated with adjacent developments.

**4-2702          General Standards.**

- (A) **Applicability.** This sub-section applies to:
  - (1) Any rezoning to a PD-CM District, and
  - (2) Any Standard or Alternative Method of development.
  - (3) Any other development within a Route 28 Corridor district that requires subdivision plat, site plan, or special exception approval.
- (B) **Outdoor Storage / Refuse Collection / Loading Area.**
  - (1) Areas used for outdoor storage, refuse collection, and loading area shall be:

(a) Screened by a building wall, or

(b) Screened by a wall consisting of brick, masonry, or primary materials that are compatible with those used by the principal buildings on the site.

**(C) Transportation and Pedestrian Amenities**

(1) All development proposals shall conform to a generally rectilinear grid system of streets.

(2) Development proposals shall include access points to the adjacent properties that allow for a continuation of the existing street network.

**(D) Utility Lines.** All new utility distribution lines shall be placed underground.

**(E) Landscaping (Alternative Method Only).**

Under any Alternative Method of development, for individual lots that are developed in accordance with a Site Plan or Concept Development Plan the buffer yard requirements of Section 5-1404 and the parking area landscaping and screening requirements of Section 5-1407 shall not apply between non-residential uses located within the Route 28 Corridor Plan area. Only the road corridor buffer requirements of Section 5-1403 for specifically listed roads, other arterial roads, and other major collector roads shall apply.

**4-2703 Incentive Elements.**

**(A) Generally.** The Alternative Method of development for each Planned Development and Optional Overlay zoning district in this Division allows an increase in FAR, lot coverage, and other elements by applying Incentive Elements. This section establishes a schedule of Incentive Elements that describes the incentive conditions and the FAR, lot coverage and bonuses associated with each element.

**(B) Incentive Elements.** An application for zoning amendment, site plan or special exception approval is eligible for increased FAR or other incentives by applying the following Incentive Elements. For each Incentive Element, a property owner may select only one incentive from Columns 2 and 3.

1 Incentive	2 FAR Bonus	3 Lot Covera ge Bonus	4 Other Incentive
Filing an election to waive the existing 1972, 1993 or Revised 1993 Zoning Ordinance (see Section <u>4-2902</u> ):

#### 4-2704 Frontage Types.

The following frontage types apply to the Alternative Methods described in Sections 4-2300, 4-2400, 4-2500, and 4-2710. In order to count as a required frontage, the frontage shall include a principal public access entry for the building.

**Projected Entry:** An entry that:

- extends exterior from the front wall plane,
- has a width that is evident as a building entrance.

**Recessed Entry:** An entry that:

- Recesses into the front of the building plane, and
- extends vertically at least 15 feet or to the top of the front elevation, and
- has a continuous width of at least 12 feet at all points along the required vertical dimension.

A Recessed Entry shall be integrated with the building's roof plane.

**Courtyard:** A pedestrian promenade, whether covered by a roof or not, within or between any structure or buildings upon which the Principal Entry is located. A "Courtyard" does not include a parking area. The Principal Entry of the buildings that surround the courtyard shall open directly on the courtyard space or a sidewalk or pedestrian pathway that directly abuts the courtyard space. The courtyard may be located at, above or below grade level. However, an above or below grade courtyard shall be accessible by steps and/or sloped surfaces or ramps, and not require vertical lifts to meet accessibility needs. The access points shall lead directly to building entrances. The courtyard shall be bounded on at least three sides by the walls of a building, and may not be completely enclosed by building walls.

*Plan view*

A courtyard located on the corner of two streets or internal drives will have two (2) sides.

**Forecourt:** the facade is aligned close to the frontage line, with a central portion set back. Landscaped courts and driveways are permitted within the setback. A fence or wall at the property line may be used to define the private space of the court. The court may also be raised from the sidewalk, creating a small retaining wall at the property line with entry steps and/or sloped surfaces or ramps, and not require vertical lifts to meet accessibility needs..

**Arcade.** An arcade is a covered porch supported by evenly spaced columns or similar vertical elements, and that is attached to the front building façade. The upper portion of the Arcade may include either the floor of an upper floor that projects from the façade, or a colonnade that supports a roof. Arcades shall align with the grade of the adjoining public sidewalk and may encroach on the sidewalk space. Arcades may include a balcony that overlaps the sidewalk. Arcades shall have at least eight feet clearance in all directions.

**Shop front:** the front facade has an entrance at sidewalk grade next to windows that allow pedestrians to view the interior space. A cantilevered awning or shed roof may cover the shopfront over the sidewalk.

**Stoop:** the facade is placed close to the frontage line with the ground story elevated at least 18 inches from the sidewalk. A porch may cover the stoop.

This type is suitable for ground floor residential uses at short setbacks by creating privacy for the windows.

## 4-2705 Building Materials.

(A) **Purpose and Intent.** This ensures that building exteriors for Alternative Methods are durable and compatible with the character of development along the corridor. These standards are designed to promote these objectives in a reasonable and flexible way that avoids unreasonable cost burdens and unnecessary regulatory detail.

(B) **Applicability.** This section applies to any development that incorporates an Alternative Method described in Sections 4-2300, 4-2400, and 4-2500.

(C) **Permitted Building Materials and Configurations.** Building materials are divided into **Primary** and **Secondary** materials. Building exteriors

facing and visible from Route 28 or a street shall be composed predominantly of primary materials, with any secondary materials limited to accents or subordinate elements of the façade. Additional materials not listed below are permitted if the Zoning Administrator determines that they are similar in appearance and quality to the listed materials.

(1) Permitted primary and secondary materials are as follows:

### Primary Materials

- Brick – solid or modular
- Concrete masonry units – split faced, or burnished
- Precast concrete<sup>1</sup>
- Concrete tilt-wall<sup>1</sup>
- Glass – clear
- Glass – architectural panels
- Metal panels
- Native stone (or synthetic equivalent)
- Tile masonry / terra cotta
- Stucco / EIFS (reinforced)

### Secondary Materials

- Brick - panel/veneer, imprint or overlay systems
- Cement fiber board / cementitious siding
- Concrete masonry units (flush/plain, split faced or burnished)
- Gypsum Reinforced Fiber Concrete

- Pre-cast concrete (for trim and cornice elements only)
- Cast stone
- Wood or cementitious siding
- Composite Wood Trim
- Fiber reinforced plastic

<sup>1</sup> Permitted only on walls that meet the articulation standards of the applicable Alternative Method development.

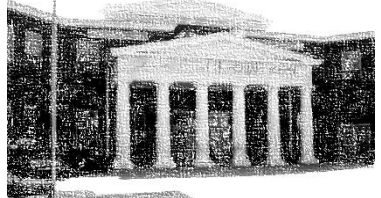

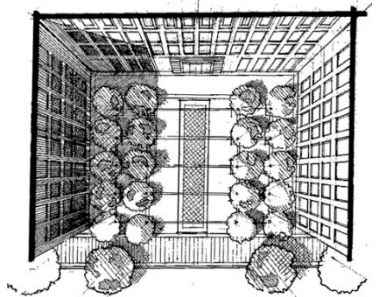

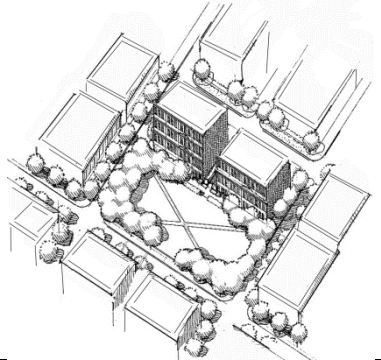

- (2) Wall materials shall be consistent horizontally (i.e. joints between different materials shall be horizontal and continue around corners) except for panel inserts (up to 15% of facade) and/or towers, chimneys and piers.

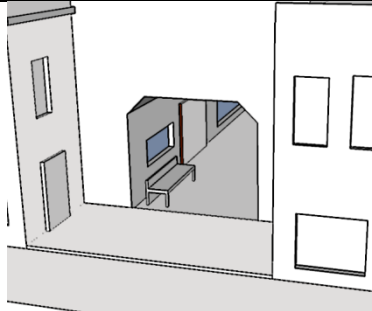

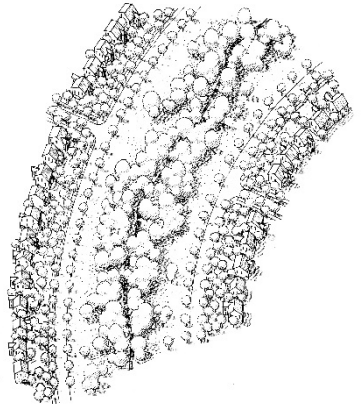

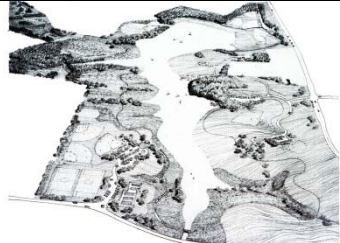

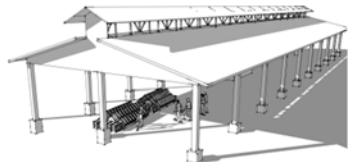

- (D) A building material not listed above is permitted if it is similar to the other materials in the same category with regard to:
- (1) Durability and quality, and
  - (2) Appearance, and
  - (3) Compatibility with the architectural style of neighboring buildings.

## 4-2706 Public & Civic Uses / Parks & Open Spaces.

- (A) **Typologies.** The following types of Public and Civic Uses / Parks and Open Spaces apply to the Standard and Alternative Methods in the CO, PD-CM, CI and CB districts. The table indicates the ratio at which these spaces are counted for compliance with the requirements for the minimum area or ratio of Public and Civic Uses / Parks and Open Spaces that shall be provided.

Type	Ratio	Category	Description	
Civic	1.0	Civic	A single-use or shared building operated by a nonprofit group or organization that is dedicated to social, recreational, religious, educational, or charitable services. A single-use building or shared building operated for-profit for public assembly may be considered a civic use if the Zoning Administrator determines that the use is compatible with the purpose of the zoning district.	
Public	1.0	Public	Any building or structure, accessible to the general public, and held, used or controlled exclusively for public purposes by any department or branch of the federal, state, or Loudoun County government, such as post offices, motor vehicle departments, general government support offices, libraries, community centers, recreation centers, sheriff substations, fire and rescue stations, or similar facilities.	
Plaza	1.0	Parks	An open area with seating that is adjacent to, or part of, a building. A Plaza may be combined with the Courtyard frontage type. Plazas function as gathering places and may incorporate a variety of non-permanent activities such as vendors and display stands. A plaza requires a minimum depth and width of 10 feet and a minimum total area of 300 square feet.	
Square	1.0	Parks	<p>Areas that are improved with a combination of lawn, landscaping and seating areas, and that are accessible to the public or the project's tenants or customers. A Square shall be:</p> <ul style="list-style-type: none"> <li>• bounded by streets on at least one side and pedestrian walkways on at least 2 sides, or</li> <li>• not bounded by streets, but accessible to the public, or</li> <li>• located on a rooftop.</li> </ul> <p>A Square requires a minimum depth and width of 30 feet and a minimum total area of 1,000 square feet.</p>	
Transport	1.0 or 1.2 for PD-CM	Public	On-site transportation amenities, including bus or shuttle stops and customer pick-up/drop-off stations.	

Type	Ratio	Category	Description	
<b>Pathways</b>	1.0	Parks	Protected customer walkways or easily identifiable building pass-throughs that contain window displays and are intended for general public access. A Pathway shall have a minimum vertical clearance of 9 feet and horizontal clearance of 12 feet for pedestrian access. A pathway is not to be construed as a sidewalk that is parallel to an abutting street.	
<b>Water feature</b>	0.7	Open Space	A lake, pond, or fountain that is easily accessed by pedestrians and includes or integrates seating areas for pedestrians. A stormwater management facility may count as a water feature if it meets these standards, and is designed with a permanent pool.	
<b>Greenways</b>	1.0	Open Space	Natural areas (including areas protected by state or federal law) such as woodlands, floodplains, or protected tree canopy that connect buildings or gathering spaces with trail systems, or that buffer the site from streets or neighboring areas. A Greenway shall have a minimum average width of 30 feet and length of 100 feet.	
<b>Natural Areas</b>	0.5 for required, 1.0 for bonus	Open Space	<p>Areas established for the protection of natural attributes of local, regional, and statewide significance, which may be used in a sustainable manner for scientific research, education, aesthetic enjoyment, and appropriate use not detrimental to the primary purpose. These areas are resource rather than user-based, but may provide some passive recreational activities such as hiking, nature study, and picnicking. Natural Areas may include the Floodplain Overlay District, Scenic Creek Valley Buffer, and Steep Slope Standards.</p> <p>In order to receive a credit, the application shall divide the area into Required and Bonus space. Required space includes areas that are protected by County, state or federal law, such as floodplains. Other Natural Areas such as jurisdictional waters and wetlands and riparian buffers are considered bonus space.</p>	
<b>Heritage Resource Spaces</b>	1.0	Civic	Areas that are established and actively managed in a way that reflects the County's culture and heritage. These include areas that are preserved and managed as Farm Markets, Commercial Wineries, Farm Based Tourism, or Agricultural Cultural Centers in compliance with the standards established for those uses in Article 5. This type is allowed only in CO, PD-CM and CB Districts.	

**(B) Cash in Lieu of Parks & Open Spaces / Public & Civic Uses.**

- (1)** Where this Division allows the property owner to contribute cash in lieu of providing Parks and Open Spaces / Public and Civic Uses and the property owner elects this option, the value of the contribution shall equal:

  - (a)** the fair market value of the land subject to the contribution; and
  - (b)** the proportionate cost of improvements, construction or equipment subject to the contribution.
- (2)** The land and construction or equipment costs waived pursuant to subsection (B)(1) above shall be determined as provided in subsections (3) through (4), below.
- (3)** Fair Market Value of Land.

  - (a)** The cash-in-lieu shall be based on the fair market value of the property as a whole, proportionate to the amount of the contribution, as determined by a certified property appraiser hired and paid for by the property owner.
  - (b)** If the County rejects the property owner's appraisal, the County may hire and pay for a second appraiser to appraise the property.
  - (c)** If either party rejects the second appraisal, a third appraisal may be performed by an appraiser chosen by the first and second appraisers, the costs of which are to be shared equally by the County and the property owner. The third appraisal is binding on both parties.
  - (d)** All appraisals shall be consistent with generally-accepted appraisal techniques, reflect the value of comparable properties within the Route 28 corridor, and be based on the value of the property as of the date of the application review.
- (4)** Improvements, Construction, and Equipment.

  - (a)** The cash-in-lieu contribution for improvements, construction, and equipment, other than land, shall reflect the proportionate costs incurred by the property owner to provide the remaining on-site required Parks and Open Spaces / Public and Civic Uses improvements.
  - (b)** The contribution amount shall be verified through receipts, bids, and other evidence of actual costs incurred or to be incurred by the property owner to meet the remaining

requirements for providing Parks and Open Spaces / Public and Civic Uses.

**4-2707      Parking Requirements.**

- (A) For an Alternative Method of development, the number of parking spaces required by Section 5-1102 is reduced by the following percentage:

<b>Alternative Method</b>	<b>Parking Reduction</b>
<b>Office Cluster</b>	25%
<b>Office Center</b>	35%
<b>Campus</b>	10%

- (B) The parking reductions provided above are in addition to any reductions provided by Section 5-1102(F) or Section 4-2703.
- (C) A parking space located on a street may be included in the calculation of parking requirements if it is adjacent to the building site where the use is located.

**4-2708      Site Standards.**

- (A) **Applicability.** This section applies to the Alternative Method of development in the CO, PD-CM and CB districts.

(B) **Blocks.**

- (1) This subsection (B) applies to:

- (a) Business Campus and Custom Campus Alternative Method development sites that are larger than 30 acres. This subsection does not apply to a Secure Office Campus.
- (b) Office Cluster and Office Center development sites.

- (2) The development site shall be divided into blocks.

- (3) Block length within the development area shall not exceed –

- (a) 600 feet for an Office Cluster,
- (b) 800 feet for a Business or Custom Campus, and
- (c) 400 feet for an Office Center.

(C) **Streets.**

- (1) Streets interior to an Alternative Method development may be public or private, consistent with the Facilities Standards Manual.
- (2) Streets shall be arranged in a generally rectilinear grid.
- (3) Streets shall align with existing or planned streets on adjacent sites.

**Grid Street Pattern**

- (D) **Parking Arrangement.** Parking spaces and parking structures shall be located internal to a block, or in the areas outside of the Frontage Buildout and separated from a road by landscaping and screening as provided in Section 5-1407.

(E) **Street Trees.**

- (1) Canopy trees shall be planted at the following density along all areas dedicated for use for vehicular access in the Office Center, Office Cluster, Business or Custom Campus at a rate of one tree per 30 linear feet.
- (2) Canopy trees shall have a minimum caliper of 2 (two) inch and a height at maturity of 15 (fifteen) feet or more. As part of a site plan approval, the Zoning Administrator (on the advice of the County Urban Forester/Arborist) may approve substitute plantings or substitute locations if street trees will not survive in a given location.

**4-2709 Sustainability Incentives.**

- (A) **Applicability.** Property owners applying for the Alternative Method of Development may qualify for the sustainability incentive using the method below.
- (B) **Stormwater management.** A property owner may achieve an intensity bonus for stormwater management treatment that captures and retains on-site, through infiltration, re-use, and/or other best management practices, at least 20% of site runoff volume, based on the first inch of runoff (see Section 4-2703). The property owner shall provide plans, with supporting

documentation as necessary, that demonstrate how the performance targets established are met with the site plan or concept development plan approval. The plans should identify practices to be employed, such as permeable pavements, stormwater harvesting for non-potable uses, and green roofs, and be otherwise consistent with low-impact development practices consistent with Chapter 5 of the Facilities Standards Manual.

## 4-2710 Campus Alternative Method.

### Description:

A Campus is an office-oriented development that includes a mix of uses in a park-like setting. This section establishes three types of Alternative Method Campus Developments: **Business Campus**, **Custom Campus**, and **Secure Office Campus**.

### Campus type –

(the predominant use in each campus type is office and/or research-and-development)

### Mix of Uses:

Minimum Square Feet Required	Maximum Square Feet Permitted
------------------------------	-------------------------------

### Business Campus -

An office-oriented planned development that combines office / research-and-development / flex buildings and supportive retail and service uses. This campus type does **not include manufacturing and production** uses.

Office / Research & Development	75%	100%
Flex / Data Centers	0%	10%
Retail & Services*	0%	10%

### Custom Campus -

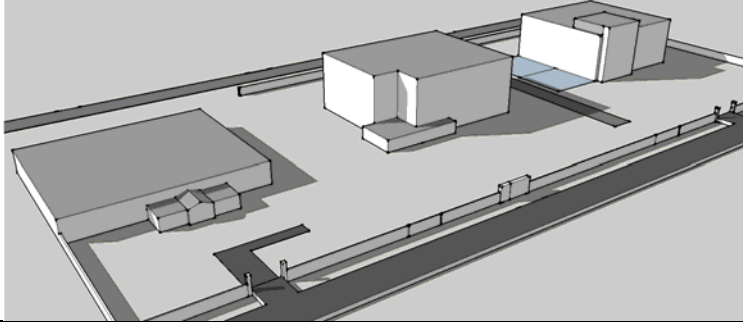

An office-oriented planned development -that combines office, research-and-development, and **manufacturing and production** uses.

Office / Research & Development	60%	100%
Manufacturing and Production	0%	10%
Retail & Services*	0%	10%

## Definition and Mix of Uses:

	<i>Minimum Square Feet Required</i>	<i>Maximum Square Feet Permitted</i>
<b>Secure Office Campus -</b>		
	An office-oriented planned development that includes design standards that accommodate security elements, such as greater building setbacks, secured perimeters, and controlled site access. To use this option, the applicant must demonstrate that a secured perimeter and standoff distances are required for the applicant's prospective tenants by state or federal law or regulations.	
	<b>Office / Research &amp; Development</b>	60% 100%
	<b>Retail &amp; Services*</b>	0% 10%
<b>Generally (applicable to all campus types)</b>		
	<b>Flex / Data Centers</b>	<ul style="list-style-type: none"> <li>Up to <b>10%</b> of <b>all floor area</b> in <b>CO</b></li> <li>Up to <b>100%</b> of the <b>Office/Research &amp; Development</b> allocation in <b>CB</b></li> <li>Flex uses are not permitted within a Major Street Zone. This restriction does not apply to Data Centers.</li> </ul>
	<b>Public &amp; Civic Uses / Parks &amp; Open Spaces</b>	<ul style="list-style-type: none"> <li>Refer to the applicable Optional Overlay district standards (Sections 4-2308 or 4-2506)</li> </ul>

\* Retail and services do not include showrooms that are accessory to flex buildings and located entirely within the flex building.

A Campus is divided into 2 or 3 subareas:

1. The **Street Zone** includes all areas located within 50 feet of the right-of-way of a public street other than Route 28. A Street Zone adjacent to the following roadways is considered a "**Major Street Zone**": George Washington Boulevard, Russell Branch Parkway, Waxpool/Church Road (Route 625), Loudoun County Parkway, Moran Road, Sterling Boulevard, Route 7, and Route 606 east of Route 28. The Street Zone does **not apply to a Secure Office Campus**.
2. The **Interior Zone**, includes all areas outside of the Street Zone other than the Corridor Zone, if applicable.
3. If the Campus is adjacent to the Route 28 right of way, a **Corridor Zone** applies, and is located within 100 feet of the planned right-of-way of Route 28.

*[Lot & Building Placement Standards begin on next page]*

## Lot and Building Placement Standards:

**Street Setback.** In the **Street Zone** - 0 feet (minimum) and 30 feet (maximum). No front setback applies to the **Interior Zone**. In the **Corridor Zone**, the setback is 50 feet (maximum) from the planned right-of-way of Route 28. This setback shall supersede the building and parking setback requirements of Section 5-1403(B). Road corridor buffers in accordance with Section 5-1403(B) shall be required.

1. **Frontage Buildout (minimum).** In the **Street Zone**, **Front** building walls shall occupy at least **50%** of the lot width at the maximum **Street Setback** lines. In the **Corridor Zone**, building walls shall occupy at least **60%** of the lot width at the maximum Corridor Setback lines.
2. **Rear and Side Setbacks** are not required.

## Building Standards:

1. **Height.** At least 50% of a **Major Street Zone** frontage setback shall be occupied by buildings that are at least 4 stories or 48 feet in height. If a Corridor Zone is present, the frontage buildout, corridor setback and height standards for the Corridor Zone in Section 4-2305 apply.
2. **Orientation.** In the **Street Zone**, front building walls shall face streets or adjacent Civic Uses (see classification system in Section 4-2706).
3. **Frontage Types.** Buildings within the Frontage Buildout of the **Street Zone** shall use the Frontage Types listed in Section 4-2704.
4. **Massing / Façade.** In the **Street Zone**, building planes above the fifth story or 60 feet above average finished grade shall be separated by at least 60 feet.
5. **Open Space Network.** Buildings, parking areas and exterior spaces shall be connected by a continuous open space network. The open space network shall include interior paths that link buildings with pedestrian walkways, bikeways, plazas, and trails. The open space network is counted toward the required parks and open space area (section 4-2308(B)).
6. **Materials.** Building walls that face a Road or Street shall comply with Section 4-2705.

Frontage Types are not required in the  
**Corridor Zone.**

**Section 4-2800 Use Table and Supplemental Regulations.**

**4-2801 Use Table.**

The Use Table for the Route 28 Corridor Districts establishes the following categories of uses:

<b>Notation</b>	<b>Category</b>	<b>Description</b>
<b>P</b>	<b>By right</b>	Permitted if they meet the standards established in the zoning district.
<b>S</b>	<b>Special Exception</b>	Requires special exception approval by the Board of Supervisors (refer to Section 6-1300).
<b>A</b>	<b>Alternative Development</b>	Uses that are permitted only as part of an Alternative Development.
<b>B</b>	<b>“B” Streets</b>	Uses that are permitted only on “B” streets as designated in a concept development plan for a PD-CM rezoning.

**4-2802 Land Use Allocations.**

- (A) The categories in the Use Table (Section 4-2801) are used to compute land use allocations.
- (B) For purposes of computing land use allocations for an Alternative Method, any building square footage associated with a use listed under the Parks and Open Spaces or Utilities and Transportation is excluded.
- (C) If a use is not defined in this Division or in Article 8, the Zoning Administrator shall refer to the most recent edition of Webster’s Unabridged Dictionary. If a use is not defined in Webster’s Unabridged Dictionary, the Zoning Administrator shall refer to the *North American Industry Classification Manual* (Executive Office of the President, Office of Management and Budget, 2012)(“NAICS”). If the use is not defined in the NAICS, the Zoning Administrator shall refer to the American Planning Association, *Land-Based Classification Standards LBCS Tables* (April 1, 2001).

## Section 4-3000 Definitions for Route 28 Corridor Regulations.

The words, terms and phrases used in this Division have the meanings assigned in Article 8 of this Ordinance and this Section. If a definition in this section conflicts with a definition in Article 8, this section controls.

**Average Finished Grade:** A reference plane representing the average of finished ground level adjoining the building at its exterior walls. Where the finished ground level slopes away from the exterior walls, the reference plane is established by the lowest points within the area between the building and the lot line, or where the lot line is more than 6 feet from the building, between the building and a point 6 feet from the building.

**Average Height.** The average height is computed as the weighted average of building height based on building frontage, as follows:

$$H = (\sum S \times W) / \sum W$$

Where:

H = average building height

S = stories of each building at the front building line

W = width of each building at the front building line

**Block Length.** The length of a block face lying between 2 intersection streets, or between an intersection street and a pedestrian feature. Block length is measured from the mid-point of the corner along each opposite intersection if there is no pedestrian feature. If there is a pedestrian feature between the intersection streets, block length is measured from the mid-point of the intersection street corner to the mid-point of the pedestrian feature. For purposes of this definition, a “pedestrian feature” is a mid-block through alley with pedestrian access (which may permit secondary vehicle access to land uses on the block), a pedestrian way that connects land uses on both sides of the block, or another significant pedestrian gathering place such as a plaza, park, or promenade.

**Option 1: Block face formed by 2 intersections.**

**Option 2: Block face formed by intersection and pedestrian feature.**

**Building Frontage.** The side, or façade, of a building closest to and most nearly parallel to an abutting street.

**Building Wall:** A vertical element that is used to enclose space that is intended for human occupancy.

**Building Wall, Front:** The building wall that includes the principal entrance to a building.

**Corridor Zone:** the area within 100 feet of the existing or planned right-of-way of Route 28.

**Discretionary Approval.** For purposes of the Route 28 Corridor regulations, zoning amendment or Concept Development Plan.

**Entryway.** A door or similar building entry that allows entry by the general public, customers, residents, or employees. An entryway may be secured or unsecured.

**Exterior Wall:** A wall, bearing or nonbearing, that is used as an enclosing wall for a building, other than a fire wall, and that has a slope of 60 degrees or greater with the horizontal plane.

**Flex or Flex Building.** A building designed to accommodate a combination of uses, the exact proportions of each use being subject to user needs over time and the applicable district and/or Alternative Method regulations. A multiple use flex building includes office or research and development, and any of the following uses:

- Wholesale trade establishment, or
- warehousing, or
- laboratories, or
- data centers, or
- training facilities that relate to the office or research and development uses, or
- retail or commercial uses that support the uses listed above, up to 10% of the gross floor area of the building, or
- showrooms, consisting of retail or service uses but may exceed the 10% threshold listed above, or
- where allowed in the Use Table (Section 4-2801), manufacturing and production or industrial uses.

**Front Building Line:** the point at which a building façade is closest to the front property line.

**Frontage, Development:** either –

- The frontage of an individual lot that is not subject to an application that includes multiple lots as described below, or
- For a development, the combined lot frontage all of lots within an area covered by an application that includes more than one lot. An “application” includes any application for Zoning Map Amendment, Zoning Modification, Final Site Plan, or Special Exception.

**Frontage Buildout:** The linear percentage a line parallel to the Development Frontage that is occupied by buildings that face a road. The required percentage and the location of the parallel line is designated by regulations that apply to Alternative Methods (as designated in Sections 4-2300, 4-2400, and 4-2500) and, if applicable, the zoning district regulations.

**Glazing.** Placed in transparent glass. "Transparent" means capable of transmitting light in a manner that permits a person standing outside of a building to view shapes, tones, and objects inside a building. A tinted window is considered transparent if it meets the requirements of this paragraph.

**Gypsum or Glass Reinforced Fiber Concrete (or “GRFC”).** A cementitious matrix composed of cement, sand, water, and admixtures, in which short length glass fibers are dispersed. GRFC is concrete that uses glass fibers for reinforcement instead of steel. It is typically used for nonstructural façade panels.

The Board of Supervisors may impose appropriate conditions limiting the duration or transfer of special exceptions granted under the provisions of this Ordinance.

This simulation shall be provided from a minimum of three (3) perspectives. The applicant shall address how the facility can be designed to mitigate the visual impact on area residents, facilities, and roads.
  - (b) Except for areas where permitted by right, an applicant for a new commercial public telecommunication monopoles shall demonstrate that location on an existing telecommunications facility or structure greater than 40 feet in height is not feasible. The applicant shall evaluate telecommunications facilities and structures greater than 40 feet in height within a one (1) mile radius of the proposed facility within the Eastern Loudoun Urban Growth Area. Elsewhere in the County, the applicant shall evaluate these locations within a two (2) mile radius of the proposed facility. Technological, physical, and economic constraints may be considered in determining infeasibility.

Co-location may be determined to be infeasible in the following situations:

- (2) Prior to approval of a record plat for subdivision for the development:
  - (a) The landowner shall submit documents for the creation of the HOA to the County for review and approval, including its bylaws, and all documents governing ownership, maintenance, and use restrictions for common areas, including a legal description of such areas and a description of restrictions placed upon the use and enjoyment of the land.
  - (b) The landowner shall agree that the association shall be established by the landowner or applicant and shall be operating (with financial subsidization by the owner or applicant, if necessary) before approval of the first record plat for the property; and
  - (c) Membership in the association shall be automatic (mandatory) for all purchasers of dwelling units therein and their successors in title.

- (F) **Recognizing Protection by Right to Farm Act.** In the TR districts, record plats and deeds authorized pursuant to this section shall include a statement that agricultural operations enjoy the protection of the Right to Farm Act (Va. Code Section 3.2-300 et seq.).

**5-702**

**Rural Hamlet Option.**

- (A) **Purpose and Intent.** The primary purpose of the Rural Hamlet Option is to provide an alternative to conventional A-3 and A-10 district subdivision in rural areas. Such clustered development is intended to better harmonize rural development with surrounding agricultural activities recognizing that it is the County's primary goal to preserve and enhance farming and farmland in rural Loudoun by the most feasible, effective, and equitable methods available. This option is intended to conserve agricultural, forestal and open space land, historic and natural features at the time that such land realizes the development potential currently allowed in the agricultural zoning district. Such clustered development is intended to permit the compact grouping of homes located so as to blend with the existing landscape, such as the rise and fall of the topography, hedgerows and wooded areas, and to preserve to a greater extent the agricultural, forestal and visual character of the landscape.
- (B) **Rural Hamlet Permitted.** Rural hamlets are permitted in the A-3 and A-10 districts. The district regulations shall apply to the extent not in conflict with the regulations contained herein.
- (C) **Rural Hamlet Defined.** A rural hamlet is characterized by the configuration of all or a portion of the density permitted on a tract of land under the district regulations, into a grouping of small residential lots on a portion of the tract. More than one rural hamlet may be located on a tract. A rural hamlet may consist of the following categories of land:
- (1) **Hamlet Lots.** Smaller residential lots located in a contiguous group, with adjacent and fronting lots oriented towards each other as on a street, a green or a paved square. No fewer than five (5) and no more than twenty five (25) hamlet lots may be grouped together as a rural hamlet. Hamlet lots shall have a designated building area. All land not designated as building area, private access easements, and road rights-of-way shall be placed in a permanent open space easement.
  - (2) **Open Space.** Residual land, excluding the building area of hamlet lots and conservancy lots, contiguous to a rural hamlet, which is subject to a permanent open space easement.
  - (3) **Hamlet Green/Square.** Land located in the interior of a rural hamlet, owned in common by hamlet lot owners and which is in a permanent open space easement.
  - (4) **Conservancy Lots.** A lot, excluding the hamlet lots, open space and/or hamlet green/square, which will remain as large parcel(s),

the bulk of which is in permanent open space easement and a portion of which is designated a building area.

- (D) **Uses.** The following shall be the uses for the various categories of rural hamlet land. These uses shall supersede the permitted, minor special exception, and special exception uses that would otherwise apply in the underlying zoning district regulations.

(1) **Building Area of Hamlet Lots and Conservancy Lots.**

- (a) **Permitted Uses.** The following uses shall be permitted in the Building Area of Hamlet Lots and Conservancy Lots.

- (2) **Open Space.** All areas of the tract of land devoted to the Rural Hamlet Option other than the building area of hamlet lots and conservancy lots and road rights-of-way, shall be subjected to a permanent open space easement. Such open space may be used for the following uses:

- (a) **Open Space Permitted Uses.** The following uses shall be permitted in open space.

- (i) Agriculture, horticulture, forestry, and fishery uses including barns, stables and other structures accessory or incidental to such uses.

  - (1) **Hamlet Lot.**
    - (a) **Lot Size.** 10,000 sq. ft. minimum. 3 acres maximum.
    - (b) **Building Area.** 5,000 sq. ft. minimum. 15,000 sq. ft. maximum.
    - (c) **Lot Width.** 64 feet minimum. 150 feet maximum.
    - (d) **Length/Width Ratio.** 6.0:1 maximum.

- (e) **Front Yard.** (as defined in Article VIII) 6 feet minimum. 40 feet maximum, provided that all principal buildings shall be located so that the maximum deviation for adjacent front facades shall not exceed 15 feet, and provided further that this maximum Front Yard requirement shall not apply to lots located within subdivisions approved under the zoning ordinance in effect prior to June 16, 1993, and subject to the provisions of Section 1-103(H) of this Ordinance.
- (f) **Rear Yard.** 20 feet minimum.
- (g) **Side Yard.** 8 feet minimum.
- (h) **Building Height.** 35 ft. maximum.
- (i) **Building side yard restriction line.** Dwellings, guest houses, garages and other such structures shall not trespass into minimum side yards. However, detached garages located at the rear of a lot (i.e., behind the rear building line) and attached to a similar garage on a contiguous lot may be located within the side yard setback.

(2) **Hamlet Green/Square.** Maximum distance between building areas of cluster lots facing across a hamlet green/square: 350 feet.

(3) **Conservancy Lots.**

(b) <b>Lot Width.</b>	300 ft. min.	500 ft. min.

(f) <b>Rear Yard.</b>	20 feet min.	
(g) <b>Building Height.</b>	35 feet max.	

(G) **Determination of Density.** The potential number of hamlet and conservancy dwelling units shall be based on either of the following, at the option of the landowner:

- (1) In the A-3 District, one (1) dwelling unit per five (5) net acres. In the A-10 District, one dwelling unit per ten (10) acres.
- (2) The number of dwelling units permitted at a minimum lot size of three (3) or ten (10) acres in the A-3 or A-10 zoning districts respectively is based on topography, floodplain and availability of

septic drainfields. Drainfields shall be submitted to the Loudoun County Health Department for approval in accord with the Land Subdivision and Development Ordinance (LSDO).

- (3) For each conservancy lot of fifty (50) acres or greater in size, one (1) additional dwelling unit shall be included in the determination of density.

(H) **Open Space Requirements.**

- (1) **Minimum Open Space.** The minimum amount of land in a Rural Hamlet devoted to open space and subject to permanent open space easements shall be no less than eight-five percent (85%) of the total land area in the Rural Hamlet. All land not designated as building areas, private access easements, and rights-of-way for roads shall be permanent open space.
- (2) **Minimum Open Space Widths Surrounding the Hamlet.** There shall be a minimum of 200 feet width of land in open space between the outside boundary of hamlet lot building areas and the tract boundary. There shall be a minimum of 800 feet between the hamlet lot building area boundaries of two hamlets on the same tract. Reduction of these dimensions may be permitted by the Board of Supervisors (see 5-702(L)), upon recommendation of the Planning Commission, based upon a finding that due to the topography, forestation, or presence of prime agricultural soils or environmentally sensitive areas, such reduction will preserve rural vistas, preserve farmland, screen dwellings from existing roads or adjacent properties, or preserve environmentally sensitive areas.
- (3) **Maximum Hamlet Building Area Depth.** The outside boundaries of the building areas of hamlet lots facing one another across a street shall not exceed 300 feet. The outside boundaries of the building areas of hamlet lots facing one another across a hamlet green/square shall not exceed 550 feet.

(I) **Utilities and Public Facilities Requirements.**

- (1) **Water.** Hamlet lots shall be served either by:
  - (a) Individual wells on or off each lot, or
  - (b) A communal water system constructed by the developer, or
  - (c) A municipal water system if located within an area designated for such connection in the Comprehensive Plan, or
  - (d) Connection with an existing rural village, rural hamlet or other public water system.

All water systems shall comply with applicable town, County, State, and/or LCSA standards and requirements, including a commission permit if required by applicable law. As for (a) and (b) above, the Health Department approval of both a safe and adequate water supply system and designated backup well sites based on hydrogeological studies, shall be a precondition to recordation of a record plat establishing a rural hamlet.

(2) **Wastewater.** Hamlet lots shall be served either by:

- (a) Individual septic tank drainfields located on or off the lot, or
- (b) A communal wastewater treatment system constructed by the developer, or
- (c) A municipal wastewater system, if located within an area designated for such connection in the Comprehensive Plan; or
- (d) Connection with an existing rural village, rural hamlet or other public wastewater treatment system.

All wastewater systems shall comply with applicable town, County, State, and LCSA standards and requirements, including a commission permit if required by applicable law.

(3) **Fire Protection.** Every hamlet shall satisfy the fire protection standards set forth in the Facilities Standards Manual, or if no such standards are in effect, shall have all weather access road for a pump truck to an adequate pond with a water withdrawal main or to a water tank of sufficient capacity for fire protection.

(4) **Roads.** Seven (7) rural hamlet lots or less may be served by a private access easement. Twenty-five (25) rural hamlet lots or less may be served by a VDOT fixed generation, tertiary Class II road. All other roads shall be VDOT Class II roads. All other Rural Hamlet roads shall be built to VDOT secondary road standards. Roads serving two or more hamlets, with a combined traffic loading exceeding 250 vehicles per day, shall generally have two (2) access points to the existing rural road network.

- (a) The Planning Commission may waive the two (2) access requirement upon finding special topographic or other circumstances which preclude implementation, but may in this eventuality require alternative configurations of road design, such as a divided median.

(b) Further, the Planning Commission may waive the public road standards, thereby allowing up to twenty-five (25) rural hamlet lots to be served by private access easements, should the Planning Commission find that the waiver provisions contained in this section are met. This alternative roadway design option must be requested as part of the subdivision application, and shall not be granted for the sole purpose of circumventing the previously referenced public roadway design criteria. In reviewing any proposed waiver, the Planning Commission shall consider the following:

- (i) Whether granting of the proposed waiver will adequately provide for access by public safety service (police, fire and rescue services).
- (ii) Whether granting of the proposed waiver will protect to the greatest extent possible topographic or physical, natural, scenic, archaeological or historical features of significant importance.
- (iii) Whether the granting of the proposed waiver will be in the public's best interest, specifically with regard to future road maintenance considerations.
- (iv) Whether the granting of the proposed waiver will meet engineering standards with regard to steep slopes, storm water control, drainage, soil erosion control; mitigate floodplain impacts; assure adequate dust control measures; and will minimize, to the greatest extent possible, the impact on water and air quality on adjoining properties.
- (v) Whether the granting of the proposed waiver will facilitate orderly and safe road development.
- (vi) Whether the granting of the proposed waiver will minimize the impact of traffic on the existing roadway network.
- (vii) Waiver requests shall be considered by the Planning Commission at a public meeting held within sixty (60) days of receipt of such request.

(5) **Parking.** Every hamlet lot shall include sufficient parking (which may or may not be paved) to accommodate four (4) cars.

(J) **Homeowners' Association.**

(1) Each rural hamlet or group of rural hamlets comprising a common development shall have an incorporated Homeowners'

Association ("HOA") which shall have the right and responsibility to maintain the following areas and improvements:

- (a) Common open space.
  - (b) Private roads, if any, within or serving the rural hamlet.
  - (c) Any stormwater management ponds or areas,
  - (d) Fire protection pond, dry mains, or other improvements; and
  - (e) Such other common facilities or improvements as may be designated in the HOA Bylaws.
- (2) Easements for septic drainfields and wells located off of the lot shall be established at the time of the record plat for such lot, and shall run to the benefit of the lot served. The responsibility for maintaining or replacing such septic fields or wells shall be borne by the lot owner served by such easement.
  - (3) The permanent open space easement required in the rural hamlet shall be enforced by the County. Such easement shall be in a form approved by the County, and shall provide that, notwithstanding such easement, the eased portion of conservancy lots or hamlet lots shall be maintained by the owners of such lots, and that the County should bear no responsibility or liability for such maintenance. However, nothing contained herein shall prevent such landowners from leasing such open space for agricultural or other purposes as allowed in Section 5-702(D)(2)(a) and (c).
  - (4) The Homeowners' Association documents shall be submitted as part of the initial record plat application and shall provide for adequate initial funding and assessments to fund the maintenance of common property and improvements.
- (K) **Plat and Deed Notations.** Record plats and deeds for rural hamlet subdivisions shall include a statement that agricultural operations enjoy the protection of the Right to Farm Act, Va. Code Section 3.2-300 et seq.
- (L) **Modification of Regulations.**
- (1) Where there are conflicts between the rural hamlet provisions herein and the general zoning, subdivision or other regulations and requirements, the rural hamlet regulations shall apply.
  - (2) In addition, the Board of Supervisors may allow reasonable modifications to other applicable regulations as follows:
    - (a) These other regulations serve public purposes to a lesser degree than the rural hamlet, or

- (b) The designs or solutions proposed by the applicant, although not literally in accord with these other regulations, satisfy public purposes to a greater degree, or
- (c) The strict implementation of these other regulations would prevent well designed rural hamlet development.

Such modifications may be granted by the Board of Supervisors by special exception. Such modifications may be sought prior to filing a preliminary plan of subdivision. The landowner shall include a sketch plan of the proposed hamlet as part of the application for modification and shall demonstrate the reasons for the request.

(M) **Advisory Rural Hamlet Siting and Design Guidelines.** Loudoun County recognizes that every rural hamlet design will be a custom response to the unique assets and constraints of each tract. As a consequence, the County has only incorporated in the Rural Hamlet Ordinance those siting and design rules required to preserve open space and to allow the clustering of dwellings. However, the County does wish to encourage design consistent with Loudoun's past in rural Loudoun and appends the following general design guidelines as a suggestion to rural hamlet designers.

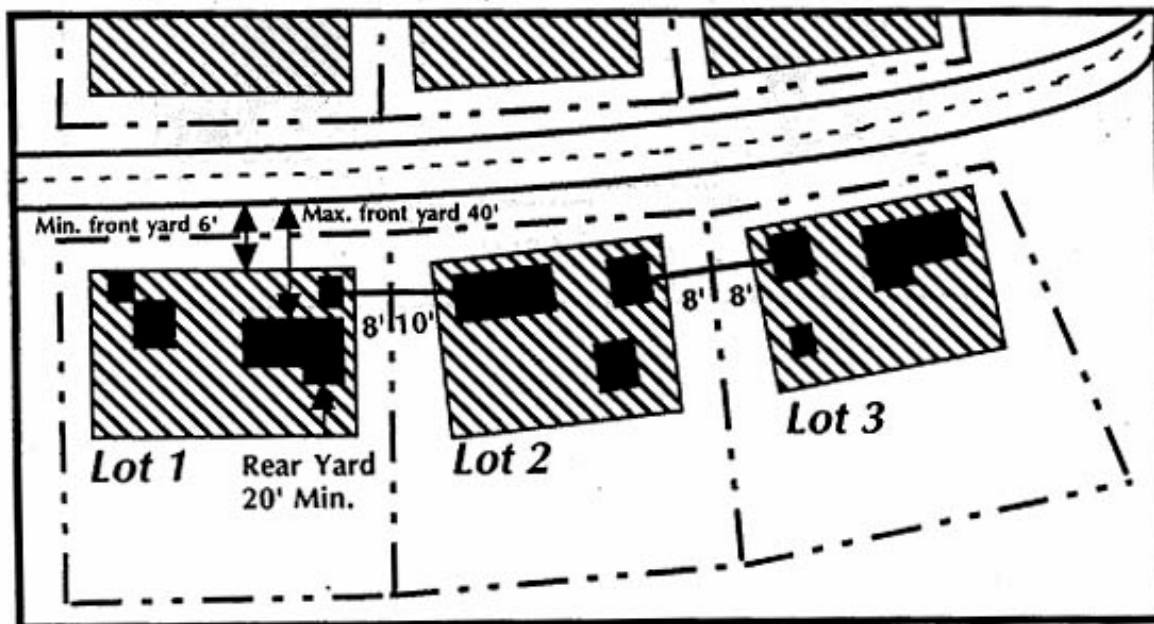

- (1) **Siting.** Rural hamlets should be sited so as to nestle, or blend in a subordinate way, into the existing landscape. Rural hamlets should not be placed on the crest of a ridge but rather should be located in a dip or depression or on the side of a hill.
- (2) **Landscaping.** Rural hamlet designs should incorporate a mix of evergreen trees, generally located to the north and west for winter wind protection, and deciduous trees, located to the west and south, for summer shade. Given the time required for trees to attain maturity, existing stands of trees and hedgerows should be incorporated in the new hamlets whenever possible. New plantings of evergreen and deciduous trees should be native to the northern Piedmont, such as yellow poplar, northern red and white oak, hickory, white ash, black gum, hemlock, spruce and eastern red cedar among others.
- (3) **Ground Modeling and Screening.** In those circumstances where natural contours, subsurface conditions and tract boundaries prevent discreet hamlet placement, hamlet designers should seek to reduce the development's apparent presence by locating earth berms near adjacent roadways and/or planting screens of trees adjacent to existing roads and tract boundaries.
- (4) **Grouping of Structures.** Dwellings in rural hamlets should be placed in proximity to one another and to common wells or facilities.

**Common Open Space for Permitted Urban Clusters as permitted in various sections contained in Article III and Article IV of this Zoning Ordinance.**

- (A) Common open space shall be designed to constitute a contiguous and cohesive unit of land which may be used for active or passive recreation by residents.
- (B) Common open space shall be accessible to all permitted uses and all residential units within the subject development and shall be located within a reasonable walking distance of such units.
- (C) All common open space shall be permanently reserved, managed, and maintained as open space by a means acceptable to the Board of Supervisors, and at no cost to the County.
- (D) No major floodplain shall be included in calculating the amount of common open space required.

**Limitations on Vehicles in Residential Districts.**

- (A) **Major Recreational Equipment.** No major recreational equipment or any container constructed for the transportation or storage of such equipment shall be parked or stored on any road, lot, or dedicated open space in a residential district except in a car port or enclosed building or behind the nearest portion of a building to a street, provided, however, that such equipment may be parked anywhere on residential premises for a period not to exceed 24 hours. No such equipment shall be used for living, sleeping, or housekeeping purposes.
- (B) **Commercial Vehicles.** The parking or storage of a commercial vehicle, or a container constructed for the transportation of cargo is prohibited in all residential districts, except that one (1) commercial vehicle with a manufacturer's rating of less than 1-1/2 tons may be parked on any lot on which there is located a principal building, provided that such vehicle is parked in an enclosed garage, accessory building, approved off-street parking area or behind the nearest portion of buildings to streets and is used by a resident of the premises. This regulation shall not be interpreted to prohibit commercial vehicles or containers from loading and unloading in any residential district.
- (C) **Inoperable Vehicles.**
- (1) No repair, maintenance or restoration of motor vehicles is permitted on any residential lot or common area serving such lot located within any urban residential zoning district, as defined in Article 3 of this Ordinance, unless the vehicle is owned by and registered in the name of an occupant of the dwelling constituting the principal use for such lot.
  - (2) No inoperable vehicle shall be parked or stored outside a building for more than one (1) week on a lot of less than ten (10) acres in area in any residential district. Not more than one (1) inoperable vehicle may be parked outdoors at a time on any lot greater than ten (10) acres in area in any residential district. Any vehicle not displaying current license plates and inspection validation certificate as required by Virginia law shall be construed as an inoperable vehicle. Not more than one (1) inoperable item of major recreational equipment shall be parked outdoors on any lot of less than ten (10) acres in area in any residential district
- (D) **Limitations on Parking and Paved Parking Surfaces Within Residential Yards.**

The following requirements shall apply to single family detached dwellings on lots in the R-1, R-2, R-3, R-4, and R-8 Zoning Districts and the portions of PD-H Zoning Districts that are administered as the R-1, R-2, R-3, R-4, and R-8 Zoning Districts.

- (1) All parking for vehicles in any yard shall be on a paved parking surface, provided, however, that this shall not be deemed to preclude temporary parking on an unpaved surface in a yard for active loading and unloading.
- (2) The maximum amount of paved parking surface in a front yard shall not exceed twenty-five (25) percent of the front yard area in the R-1 and R-2 Zoning Districts; thirty (30) percent of the front yard area in the R-3 and R-4 Zoning Districts; and forty (40) percent of the front yard area in the R-8 Zoning District, except that these limitations may be exceeded for a paved surface that is:
  - (a) Directly contiguous with, and providing primary access to, two (2) side-by-side parking spaces as long as the dimensions of the paved surface access area are not more than twenty-five (25) feet long and eighteen (18) feet wide; or
  - (b) Located on a lot which has its primary access from a collector or arterial road, and comprises two (2) side-by-side parking spaces and a vehicular turn-around area, as long as the dimensions of the paved surface area are not more than twenty-five (25) feet long and eighteen (18) feet wide, and the area of the turn-around does not exceed 162 square feet; or
  - (c) A driveway on a pipestem lot.
- (3) The maximum amount of paved parking surface in a rear yard shall not exceed twenty-five (25) percent of the rear yard area in the R-1, R-2, R-3, R-4, and R-8 zoning districts.
- (4) For the purposes of this Section, “paved parking surface” shall mean the area of a lot that is used for the parking of vehicles, inclusive of the driveway for accessing such parking, that is surfaced with asphalt, poured or precast concrete, brick, stone, gravel, or any other impervious surface, or grasscrete or other similar pervious surface. A fully enclosed garage shall not be considered a paved parking surface.
- (5) The Zoning Administrator may modify the requirements of Section 5-800(D) if an applicant can demonstrate that the requirements of this Section cannot be met, while meeting the amount of parking required by Section 5-1100, because of (a) the exceptional size and/or shape of the lot; (b) environmental or engineering constraints on the lot; (c) special accessibility needs; or (d) other extraordinary situations or conditions of the lot. The Zoning Administrator may attach conditions to any modification to ensure that the results of the modification will be in accordance with the purpose and intent of this Section.

**Section 5-900****[RESERVED] See 5-1400.****Section 5-1000****Scenic Creek Valley Buffer.****5-1001**

**Purpose and Intent.** The Scenic Creek Valley Buffer is established to govern the construction of buildings, structures, parking, and other impervious surfaces in areas adjacent to scenic rivers and all waterways draining greater than 640 acres, by providing for a setback area from the channel scar line in which construction of improvements would not occur except as set forth below. The intent is to (1) promote water quality and the preservation of significant environmental resource areas, wildlife habitat and corridors, and native vegetation areas; (2) protect and enhance water and groundwater recharge processes by protection of the natural capacity of vegetative areas along rivers and creeks to filter and purify storm water runoff; (3) protect aquatic environments from the warming effects of solar radiation by preserving riparian tree canopy cover; (4) promote tourism and high quality corporate investment by maintaining to the extent reasonably possible, existing high water quality; (5) to maintain the scenic beauty of the streams of Loudoun County; and (6) implement the Comprehensive Plan.

**5-1002**

**Scenic Creek Valley Buffer Established.** The following setbacks are established along all waterways draining greater than 640 acres in areas where the major 100 year floodplain is less than the setbacks provided below.

- (A) 250 feet measured along the slope of the ground from the channel scar line on the Potomac River.
- (B) 200 feet on each side of the creek measured along the slope of the ground from the channel scar line of the Scenic River designated portions of Goose Creek and Catoctin Creek.
- (C) 150 feet on each side of the creek measured along the slope of the ground from the channel scar line of each creek or stream where the watershed is greater than 640 acres.
- (D) The above setbacks may be reduced as follows:
  - (1) A reduction of 100 feet shall be allowed for the retention of an existing forested area or the creation of a forested area, as approved by the County Urban Forester as part of a management plan between the ultimate setback line and the channel scar line; or
  - (2) A reduction of 100 feet shall be allowed for the use of and retention of stormwater management/BMP practices in accordance with the FSM at time of development within any developed area on the lot or site.
- (E) The above setback does not apply to agricultural, horticultural, or forestal uses where a farm plan approved by the Loudoun County Soil and Water Conservation District or other County approved agency is kept continuously in place.

- 5-1003**      **Effect of Buffer.** The construction of buildings, structures, parking lots, or other impermeable surfaces within the Scenic Creek Valley Buffer is prohibited, except as stated herein. Existing buildings and structures within the Scenic Creek Valley Buffer are not considered nonconforming, i.e., they can be added to and, if destroyed by fire or casualty, they can be rebuilt to the same or an equivalent footprint. This buffer or setback area does not regulate uses within the setback area, although the County encourages the growth, through plantings or natural succession, of vegetative and forestal cover within the Scenic Creek Valley Buffer area. Utilities may be located within the buffer.
- 5-1004**      **Existing Lot Criteria.** On any existing lot of record as of June 16, 1993, one (1) single family residence and its attendant unpaved driveway, unpaved parking area, and/or detached garage and incidental structures cited in Section 4-1500 shall be permitted within the setback area.
- 5-1005**      **Development Criteria.** The Scenic Creek Valley Buffer is not intended to, and shall not, limit development density (gross floor area or units per acre) otherwise allowed on land within the Scenic Creek Valley Buffer area. The Scenic Creek Valley Buffer shall be administered like any other setback provided for in this Ordinance in allowing otherwise developable land within the setback area to be counted for density computation purposes and applied toward the construction of improvements outside the setback area. Road crossings and driveways, shall be permitted subject to applicable federal and state regulations, to this Ordinance, and to such performance standards as may be contained in the Facilities Standards Manual.

## **DIVISION B: Off-Street Parking and Loading**

### **Section 5-1100 Off-Street Parking and Loading Requirements.**

#### **5-1101 Compliance Required.**

- (A) **General Requirement.** Except as provided elsewhere in this Ordinance, there shall be provided, at the time of the erection of any building, or at the time any principal building is enlarged or increased by adding dwelling units, guest rooms, seats or floor area, or before conversion from one type of use or occupancy to another, permanent parking and off-street loading space in the amount specified and pursuant to the requirements of this Section. Parking space may be provided in a garage and properly surfaced open area. In residential districts where streets and travelways have been designed pursuant to County and VDOT standards to accommodate on-street parking, such on-street parking can be used to meet the requirements of this section for up to one parking space per dwelling.
- (B) **Application to Addition or Change in Use.** When a change in intensity of use of any building or structure would increase the required parking by ten (10) or more spaces or ten (10) percent, whichever is greater, cumulatively from the date of this Ordinance, through an addition or change in the number of dwelling units, gross floor area, gross leasable area, seating capacity, or other units of measurements specified herein, the increment of additional required parking shall be provided in accordance with this Section unless an adjustment is permitted per subparagraph 5-1102(F) below. If fewer than ten (10) spaces or ten (10) percent, whichever is greater, are required by a change or series of changes in use, the Zoning Administrator may waive up to the incremental required number of parking spaces, after determining that the granting of the waiver will not be detrimental to the public welfare and will be consistent with the County of Loudoun Comprehensive Plan.
- (C) **Review of Parking and Loading Facilities Plan.** Each application for a subdivision, site plan, zoning permit, or certificate of occupancy shall include information as to the location and dimensions of parking and loading space; and the means of ingress and egress to such spaces. This information shall be in sufficient detail to determine if the requirements of this Ordinance are met and shall contain such information as is required by applicable provisions of the Land Subdivision and Development Ordinance.

**(F) Adjustments to Parking Requirements.**

- (1) **Procedure.** In the specific instances set forth in Paragraphs 2 through 5 below, the Zoning Administrator may approve a reduction in required parking spaces. Applications for such a reduction shall include the following information and in the case of special exception shall also meet the requirements of Section 6-1300.
  - (a) A parking demand analysis which substantiates the need for a reduced number of spaces.
  - (b) A plan showing how the parking spaces shall be provided on the site.
  - (c) A covenant must be executed for a period of 20 years, guaranteeing that the owner will provide the additional spaces if the Zoning Administrator, upon thorough investigation of the actual utilization of parking spaces at the building or complex, recommends to the Board of Zoning Appeals that the approved reduction be modified or revoked. Said covenant shall meet the same requirements for covenants set forth in Section 5-1103. The Zoning Administrator will review the above completed application and make a recommendation to the Board of Zoning Appeals. The Board of Zoning Appeals may impose such additional conditions as are deemed necessary to protect and to assure compliance with the objectives of this section.
- (2) **Shared Parking and Loading Facilities.** In the case of mixed uses (not qualifying as accessory or complementary uses) or two or more buildings upon a single lot or unified parcel or upon contiguous parcels, the total requirements for parking and loading facilities shall be the sum of the requirements of the various uses computed separately. However, cumulative parking requirements for mixed-use occupancies may be reduced where it can be determined by the Zoning Administrator that the peak requirement of the several occupancies occurs at different times (either daily or seasonally), and the parking demand can be provided on the premises.

- (3) **Captive Market.** Parking requirements for retail and restaurant uses may be reduced where it can be determined that some portion of the patronage of these businesses comes from other uses (i.e., employees of area offices patronizing restaurants) located within the same building or a maximum walking distance of 400 feet.
- (4) **Availability of Public Parking.** Parking requirements may be reduced if a property has available to it a sufficient supply of existing under-utilized public parking spaces in both off-street public parking lots and/or on-street public parking spaces, and where the applicant adequately demonstrates that such availability will continue in the future.
- (5) **Alternative Transportation Reductions.**
  - (a) **Transit.** A reduction of up to 20% of the required parking may be granted for any use, building or complex within 1,000 feet of any regularly scheduled bus stop, equal to the substantiated and verifiable projections of use of public transportation by users of the building or complex.
  - (b) **Carpooling/Vanpooling.** A reduction of up to 20% of required parking, based on substantiated and verifiable projections of reduction in parking demand, may be granted for any building or complex exceeding 50,000 square feet GFA that institutes and maintains a carpooling/vanpooling program.
  - (c) **Shuttle Service.** A reduction of up to 10% of required parking, based on substantiated and verifiable projections of reduction in parking demand, may be granted for any building or complex that provides and maintains a regular shuttle service.
  - (d) **Maximum Reduction.** A combination of the reductions allowed pursuant to (a), (b), and (c) above may be granted provided that the total reduction of required parking does not exceed 35%.
- (6) Any person who can present circumstances to justify a reduction in parking may apply for a special exception to the Board of Supervisors. Applications for such a reduction shall include the information required by Section 5-1102(F) above and shall also meet the requirements of Section 6-1300.

## 5-1103

### General Location Requirements.

- (A) **Parking Facilities.** All parking facilities shall be provided on the same lot or parcel of land being served, or on a separate lot or parcel of land within five hundred (500) feet of the principal entrance of the building lot being served, if the zoning classification of such separate lot or parcel of

land is the same as or less restrictive than the classification of the lot upon which the use is located.

- (B) **Loading Spaces.** All required loading spaces shall be located on the same lot or parcel as the uses being served.
- (C) **Requirements For Multiple Property Ownership.** Wherever required off-street parking facilities are proposed to be provided elsewhere than on the lot or parcel of land on which the principal use served is located, when such facilities are collectively or jointly provided and used, and/or when the parcels or lots are owned by different parties, the facilities shall be in the same possession, either by deed or long term lease, as the property occupied by the principal use. A certified true copy of the recorded deed or long term lease must be filed with the County of Loudoun prior to site plan or subdivision approval. There shall further be a covenant on the separate parcel or lot guaranteeing the maintenance of the required off-street parking facilities during the existence of said principal use. Said covenant shall:
  - (1) Be executed by the owner of said lot or parcel of land and the parties having beneficial use thereof;
  - (2) Be enforceable by either the parties having beneficial use thereof or both;
  - (3) Be enforceable against the owner, the parties having beneficial use, and their heirs, successors and assigns or both; and
  - (4) Be first recorded in the Office of the Clerk of the Circuit Court.

## Division C: Sign Regulations

### Section 5-1200

### Sign Regulations.

#### 5-1201

**Purpose.** The visual environment has an effect on, and is an important element of, safeguarding life, health, and property, and preserving the natural beauty, historic and cultural attributes, unique character, and attractiveness of communities. Careful control of signs can protect the general welfare, safety of individuals, and property values, support economic vitality and viability, and enhance Loudoun's communities overall. The intent of this section, therefore, is to establish well-designed signage that contributes in positive ways to Loudoun County's visual environment while expressing local character and helping to develop a distinctive image of the County. The primary purposes of sign regulations are (1) to help people find a location without difficulty or confusion, and (2) to clearly identify places of business and communities. Signs shall be considered accessory components of an overall composition of architectural elements, not as dominant architectural elements by themselves. Signs shall be subordinate to the structures and land use functions that they reference. This Section establishes standards for the location, design, construction, installation, display, and safety of signs. More specifically, while not restricting freedom of expression, regulations are hereby established to: (1) Ensure the compatibility of signs with land uses, (2) Promote orderly, attractive, and effective signage, (3) Establish the type, number, physical dimensions, design, and location of signs, (4) Treat similar types of signs consistently, and (5) Minimize competing demands for visual attention to graphic messages or displays by preventing and reducing visual clutter.

the sign is located and the violator who is responsible for the sign. Within five working days of the receipt or refusal of the order, the owner or violator must correct the sign based on the Zoning Administrator's order. The Zoning Administrator may grant one extension, not to exceed ten (10) working days, based on written justification for the need of an extension. Failure to comply shall constitute grounds for the Zoning Administrator to issue a civil summons pursuant to Section 6-504 and to take other appropriate actions to have the sign removed.

**5-1204 Sign Requirements.**

- (A) **Sign Requirements Matrix Contents.** Signs shall be permitted in accordance with the Sign Requirements Matrix set forth in Section 5-1204(D) which governs the following: 1) total aggregate sign area; 2) maximum number of signs; 3) maximum area of any one sign (with special provisions for ground mounted signs and ground mounted background structures); 4) illumination permitted; 5) minimum setback from road right-of-way; 6) maximum height; 7) sign type permitted; and 8) other additional requirements.
- (B) **Ground Mounted Sign Bonus Multiplier.** The Sign Requirements Matrix provides for the use of a bonus multiplier, for certain uses, allowing an increase in the maximum area of a ground mounted sign. This provision is not intended to allow an increase in the total aggregate sign area permitted by the Matrix.
- (C) **Ground Mounted Sign Background Structure Bonus Multiplier.** The Sign Requirements Matrix provides for the use of a bonus multiplier, for certain uses, allowing an increase in the maximum area of the background structure of a ground mounted sign.

### Sign, Building Façade for Determining Size of Building 1

Building Façade is equal to the entire area of an exterior wall of a building within a continuous perimeter (depicted with a dashed line). The Building Façade area for Building 1 is 3600 SF.

### Building 2

Building Façade is equal to the entire area of an exterior wall of a building within a continuous perimeter (depicted with a dashed line). The Building Façade area for Building 2 is 4500 SF.

**Figure 6**

Sign, Linear Foot (LF) for Determining Size of

Linear Foot (LF) is equal to the length of a wall of a building which physically encloses usable interior space. Said frontage shall be measured at a height not greater than ten feet above grade. In this example, the Linear Foot (LF) of Units 1 and 3 is 30 feet, the Linear Foot (LF) of Unit 2 is 60 feet, and all lengths have been measured at 7.5 feet above grade (depicted with a dashed line).

## **Division D: Landscaping, Buffering and Tree Preservation**

### **Section 5-1300 Tree Planting and Replacement.**

**5-1301 Purpose.** The purpose and intent of this Section is to promulgate regulations for the planting and replacement of trees destroyed or damaged during the development or redevelopment process, pursuant to Section 15.2-961 of the Code of Virginia.

### **5-1302 General Standards.**

- (A) All trees to be planted shall meet the specifications of the American Association of Nurserymen.
- (B) The planting of trees shall be done in accordance with either the standardized landscape specifications jointly adopted by the Virginia Nurserymen's Association, the Virginia Society of Landscape Designers and the Virginia Chapter of the American Society of Landscape Architects, or the road and bridge specifications of the Virginia Department of Transportation. The County shall maintain current copies of these specifications available to the public.
- (C) The minimum caliper of all deciduous trees planted shall be one (1) inch, and the minimum height of all evergreen trees shall be six (6) feet.

### **5-1303 Canopy Requirements.**

- (A) **Site Planning.** A Final Site Plan, or Construction Plans and Profiles for single family attached units in those districts where applicable, required under Section 6-701, shall include the planting and replacement of trees on site to the extent that, at maturity of twenty (20) years, minimum tree canopy shall be provided as follows:
  - (1) Ten (10) percent tree canopy for sites zoned business, commercial, or industrial in the GB, PD-MUB, PD-IP, PD-OP, PD-GI, MR-HI, PD-CC, PD-RDP, PD-SA, PD-TRC, PD-TREC, PD-TC, CLI, RC, and PD-H Districts.
  - (2) Ten (10) percent tree canopy for sites zoned PD-H and R-24 with densities of twenty (20) or more units per acre.
  - (3) Fifteen (15) percent tree canopy for sites zoned PD-H and R-16 for multi-family and single family attached units with densities of eleven (11) to nineteen (19) units per acre.

- (4) Twenty (20) percent tree canopy for sites zoned PD-H and R-8 for multi-family and single family attached units with densities of three (3) to ten (10) units per acre.

(B) **For development requiring a plan of subdivision, but not a site plan, property not zoned A-3, A-10, AR-1, AR-2, i.e. single family and duplex dwellings.** When a plan of subdivision is required under the Land Subdivision and Development Ordinance and the property is not zoned A-3, A-10, AR-1, AR-2, a landscape plan shall be included at Record Plat or construction drawings, whichever shall occur first, that provides for the planting or replacement of trees on the site to the extent that, at maturity of twenty (20) years, minimum tree canopies will be provided as follows:

- (1) If the site has a tree canopy coverage of 20% or more, the plan shall provide for the preservation, or planting and replacement of trees on site so as to result in a tree canopy of at least 20%, calculated at 20 years maturity.
- (2) If the site has a tree canopy coverage of less than twenty (20%) prior to recordation of the subdivision, the plan shall provide for the preservation or planting and replacement of an equivalent percentage of tree canopy coverage as existed prior to development, calculated at 20 years maturity.
- (3) Every platted lot shall have a minimum tree canopy coverage of 2.5%, or 3,000 square feet, whichever is less, calculated at 20 years maturity, exempting lots for which no permits for new structures will be sought and the designated parent tract. Such trees shall be counted toward the minimum tree canopy requirements in (1) and (2) above.
- (4) Trees shall be planted at a density of one tree per 50 linear feet along both sides of all areas dedicated for use for vehicular access. Such trees shall have a minimum caliper of 1" and a height at maturity of 15 feet or more. Such trees shall be counted toward the minimum tree canopy requirements in (1), (2) and (3) above.

(C) **Exclusions.** For the purpose of calculating the area of a site, to determine tree canopy coverage requirements, the following areas shall be excluded:

- (1) Properties reserved or dedicated for future street construction or other public improvements.
  - (2) Ponds and unwooded wetlands.
  - (3) Properties reserved or dedicated for school sites, playing fields and other non-wooded recreation areas, and other facilities and areas of a similar nature.
  - (4) Portions of a site which contain existing structures that are not the subject of a pending application.
- (D) **Existing Conditions.** Existing trees which are to be preserved may be included to meet all or part of the canopy requirements, and may include wooded preserves, if the site plan or record plat, or construction plans and profiles, identifies such trees and the trees meet standards of desirability and life-year expectancy established by the Zoning Administrator.

**5-1304**      **Variations.** Reasonable exceptions to or deviations from the requirements in this Section to allow for the reasonable development of farmland or other areas devoid of woody materials, including the preservation of wetlands, or when the strict application of the requirements would result in unnecessary or otherwise unreasonable hardship to the developer, shall be considered by the Zoning Administrator upon application by the owner.

**5-1305**      **Enforcement.** Penalties for violations of the requirements of this Section shall be the same as those applicable to violations of other provisions of this Ordinance.

## **Section 5-1400**

## **Landscaping, Buffer Yards, Screening, and Landscape Plans**

### **5-1401**

**Purpose.** The purpose and intent of this Section is to foster attractive and harmonious development through the use of landscaping; to minimize the harmful impacts of noise, dust and other debris, motor vehicle headlight glare or other artificial light intrusion; to protect property values by reducing visual impacts and land use conflicts; provide shade; enhance natural drainage systems; to contribute to ecosystem benefits; and to preserve and promote the health, safety and general welfare of the public.

### **5-1402**

#### **Applicability.**

- (A) The provisions of this Section shall apply to all land development requiring a site plan, construction plans and profiles, subdivision, and/or a zoning permit application.
- (B) Exceptions. The exceptions below shall not apply to the building and parking setbacks of Section 5-1403 and the Cemetery, Burial Ground, and Grave Buffer of Section 5-1405.
  - (1) Road Corridor Buffers required by Section 5-1403 and Buffer Yards required by Section 5-1404 shall not apply to zoning permit applications for single family detached dwellings and residential accessory uses and structures.
  - (2) Road Corridor Buffers required by Section 5-1403 and Buffer Yards required by Section 5-1404 shall not be required at the time of subdivision application in the AR-1, AR-2, A-10, A-3, JMLA-20, JLMA-3, TR-10, and TR-3 Zoning Districts.
  - (3) Road Corridor Buffers required by Section 5-1403 shall only apply along roads adjacent to the boundary of the PD-CC, PD-TC, PD-TRC, PD-TREC, PD-RV, PD-MUB, and the Route 28 Corridor Overlay Zoning Districts. All other roads within these Zoning Districts shall be subject to the street tree requirement for such Zoning Districts.
  - (4) Buffer Yards required by Section 5-1404 shall not apply within the PD-CC, PD-CV, PD-TREC, PD-TRC, PD-TC, and PD-MUB Zoning Districts. Buffer Yards within these Zoning Districts shall be provided in accordance with the regulations for such Zoning Districts.
  - (5) The Road Corridor Buffers required by Section 5-1403 and Buffer Yards required by Table 5-1404 shall not apply to any use subject to Section 5-1404(A)(6).

- (6) The Road Corridor Buffers required by Section 5-1403 shall not apply to roads that abut Agriculture, Horticulture, or Animal Husbandry uses, or to Category B and Category C roadways as provided by the Facilities Standards Manual.

### **Road Corridor Buffers and Setbacks**

#### **(A) Road Corridor Buffers and Setbacks, General Provisions.**

- (1) Road Corridor Buffers and Setbacks shall be provided in accordance with Table 5-1403(B), the Road Corridor Buffer and Setbacks Matrix, except for development requiring a subdivision application but not a site plan application, which shall be subject to the requirements of Section 5-1303(B). Road classifications shall be determined by the Countywide Transportation Plan.
- (2) The Road Corridor Buffers and Setbacks required by this Section shall be provided in accordance with Section 1-205(J), and extend across the length of the proposed development site. The required width of the Road Corridor Buffer may vary by up to 50% from the minimum width

required at any point along the required length, as long as the width is not reduced to less than 10 feet and the total area for the length of Road Corridor Buffer with varied width is not reduced below the minimum area that would have been required. Road Corridor Buffers may be set back from the right-of-way line where easements, covenants or natural features would prevent the required Road Corridor Buffer from abutting the public street or private road, in which case the required Road Corridor Buffer shall be provided in addition to such easements, covenants, or natural features.

- (3) Certain roads within Loudoun County because of their function, location and capacity require that uses be set back a certain minimum distance from them. All other provisions of this Ordinance notwithstanding, all buildings and parking, except for agricultural structures and structures located within Village Conservation Overlay Districts (Section 4-2100) and the Joint Land Management Area Districts (2-1000 thru 2-1300), shall be subject to the setback provided in Table 5-1403(B) or the setback provided in an approved corridor study whichever setback is greater. Residences, accessory structures, and accessory uses built before June 16, 1993 are exempt from this provision pursuant to Section 1-403(D).
- (4) For subdivisions that require open space, Road Corridor Buffers shall not be located on individual residential lots of 20,000 square feet or less. When a Road Corridor Buffer is located on an individual residential lot the Road Corridor Buffer shall be located within an easement dedicated to the County of Loudoun.
- (5) For lots as they existed on June 16, 1993, the building setback from a road in Table 5-1403(B) may be reduced on shallow lots to allow a building area of up to 85 feet in depth, measured forward from any required rear Buffer Yard, yard, or setback, whichever is more restrictive. In no case shall the modified building setback from the road be less than the yard or setback required by the underlying zoning district. In these cases, parking setbacks shall be coterminous with building setbacks. No lot may be altered or reconfigured to increase the degree of its shallowness.

(C) **Road Corridor Buffer Types.** The intent of the 4 Road Corridor Buffer Types that appear in Table 5-1403(B) are described below. All vegetative material within the Buffer Yard Types below shall meet the criteria of the FSM.

- (1) Road Corridor Buffer Type 1. This buffer is intended to function as an intermittent visual obstruction.
- (2) Road Corridor Buffer Type 2. This buffer is intended to function as a semi-opaque screen.
- (3) Road Corridor Buffer Type 3. This buffer is intended to provide a strong impression of total separation between the road and the parcel.
- (4) Gateway Corridor Buffer. This buffer is intended to provide a boulevard environment creating a sense of enclosure and transition to mark County gateways.

(1) **Design Elements Specific to the Route 50 Corridor:**

- (a) **Plant Location:** The plants required in Table 5-1403(E) above shall be installed on the parcel as follows:
  - (i) The plants shall be located within the first 50 feet of the required 100 foot Buffer Yard immediately adjacent to the right of way of Route 50.
  - (ii) Each 100 foot segment of frontage shall contain the plants required per 100 linear feet.
  - (iii) The plants shall be located in front of the linear element required in Section 5-1403(E)(1)(b) below.
  - (iv) The plants and the linear element shall be configured to align with the plants and the linear element on adjacent parcels, thereby creating a uniformly landscaped frontage along the right-of-way, where feasible.
- (b) **Linear Element:** A linear element shall be provided within the Gateway Corridor Buffer for at least 40% of a parcel's frontage adjacent to Route 50 and shall consist of a stone-faced feature and may also include a fence and/or hedgerow.
  - (i) The stone-faced feature (i.e. wall, pillar, sign, and the like) shall be faced with materials having characteristics similar to native stone. Notwithstanding the Section 5-200 height limitation for fences in front yards, the stone-

faced feature shall be a minimum of 3 feet in height. If combined with a fence or hedgerow, the stone-faced feature shall have a minimum length equal to 10% of a parcel's frontage.

- (ii) Notwithstanding the height limitation of Section 5-200 for fences in front yards, the fence shall be a maximum height of 4.5 feet, as measured from the ground to its highest point, to include posts or other supporting structures. The fence shall be constructed of wood or a wood-like polymer in a rail, paddock, or horizontal board design and shall have a minimum opacity of 50%.
- (iii) The hedgerow shall consist of a minimum of 10 shrubs planted in a continuous row, planted 36 inches on center and at a minimum height of 24 inches. The shrubs used in the hedgerow do not count towards fulfilling the required plants in Table 5-1403(E) above.
- (iv) The linear element is not required to be a continuous element. However, if any portions of the linear elements overlap, then for the length of the overlapping elements only one element can be counted towards satisfying the required length.
- (v) Areas of existing vegetation used to meet the Gateway Corridor Buffer plant requirements shall be excluded for the purposes of calculating the frontage length for determining the required minimum length of the linear element.
- (vi) The linear element does not have to be located parallel to the road.
- (vii) The linear element can be used towards fulfilling the Peripheral Parking Lot Landscaping requirements in Section 5-1407(B).

(2) Design Elements Specific to the Route 7 Corridor:

- (a) Plant Location: The plants required in Table 5-1403(E) above shall be installed on the parcel as follows:
  - (i) The plants may be located within the full 100-foot width of the required Buffer Yard immediately adjacent to the right of way of Route 7.
  - (ii) The total plants required for each 100-foot segment of frontage shall contain the plants required per 100 linear feet, except that plants may be relocated within the Buffer Yard where existing environmental constraints or public utility easements prevent planting within a particular segment.
- (b) Pollinator Habitat: Plants within the required Buffer Yard shall consist of plant material that supports pollinator habitat, as follows:
  - (i) A minimum of 50% of the plants required by Section 5-1403(E) shall consist of native species as specified in the Facilities Standards Manual.
  - (ii) A minimum of 75% of the small deciduous trees and shrubs required by Section 5-1403(E) shall produce conspicuous flowers at some point during their growing season.
- (3) Use of Gateway Corridor Buffer: In addition to the uses specified in Section 5-1408(C), the following uses are permitted in the Gateway Corridor Buffer:
  - (a) Storm water management and BMP facilities. Such facilities may not be located within the first 50 feet adjacent to the right-of-way, unless the facility is designed as a water feature in accordance with Section 5-1403(E)(3)(b) below.
  - (b) A water feature, defined as a permanent aqueous element to include a fountain, stream, waterfall, and/or cascade; a wet pond that includes a fountain, waterfall and/or cascade; or a bioretention facility and/or wetland. In the case where a water feature is incorporated in the design of the Gateway Corridor Buffer and located within the first 50 feet

immediately adjacent to the right-of-way, the following variations are permitted:

- (i) The number of shrubs required by Section 5-1403(E) above may be reduced by 50% for the total amount of linear feet of frontage that is occupied by the water feature; and
  - (ii) Notwithstanding Section 5-1403(E)(1)(a) and 5-1403(E)(2)(a) above, regarding required plant locations, for the frontage occupied by the water feature, the required large deciduous trees are to be located between the right-of-way and the water feature and the required small deciduous trees, evergreen trees and shrubs may be located around and behind the water feature.
- (4) Reduction: The required width of the Gateway Corridor Buffer may be reduced to 50 feet subject to the Modification and Waiver provisions of Section 5-1409.
  - (5) Other Landscaping and Screening: Where the Ordinance requires the screening of parking, service and loading areas, and utility equipment from roads, such screening as may be necessary shall be in addition to the Gateway Corridor Buffer plantings and shall be provided within the Gateway Corridor Buffer, but outside of the first 50 feet of the required 100-foot-wide Buffer Yard as measured from the right-of-way.

## **5-1404**

### **BufferYards**

#### **(A) Buffer Yards, General Provisions.**

- (1) Side and Rear Buffer Yards shall be provided on the developing parcel in accordance with Table 5-1404(B), the Use Buffer Yard Matrix, and in accordance with the provisions of this Section.
- (2) Side and Rear Buffer Yard Types shall be determined based on the proposed use group of the developing parcel and the existing use group of the adjacent parcel, in accordance with Table 5-1404(B).
- (3) In those instances where a proposed use and/or an existing use on a parcel is not identifiable under the use groups in Table 5-1404(B), the Zoning Administrator, using Table 5-

1404(B) as a guide, shall determine the appropriate Buffer Yard Type for the developing parcel.

- (4) Where a structure is proposed to contain more than one use group under Table 5-1404(B) the more stringent requirements of Table 5-1404(B) shall apply.
  - (5) Where a developing parcel and/or an adjacent parcel or parcels contain multiple use groups, the Buffer Yard Type required by Table 5-1404(B) may vary on the developing parcel to correspond to the location of each use group on the adjacent parcel. When the adjacent parcel is used for a wayside stand or temporary use, the Buffer Yard Type shall be determined as if the adjacent parcel were vacant as provided in Table 5-1404(B).
  - (6) Specific Uses in Section 5-600 that reference this section for Landscaping, Buffering, and Screening requirements shall provide the following between the Specific Use and any existing adjacent parcel 4 acres or less in size or any existing adjacent parcel that contains a dwelling unit within 300 feet of the parcel containing the Specific Use:
    - (a) A minimum 50-foot setback measured from the property line;
    - (b) A 6-foot high fence, wall, or berm providing a minimum opacity of 95%, or equivalent natural topography, and/or a Buffer Yard Type B for side and rear yards, and a Road Corridor Buffer Type 2 for front yards.
    - (c) The required fence, wall, or berm for side or rear yards may be configured to surround the Specific Use. The Buffer Yard Type B for side or rear yards may be configured to surround the proposed use so long as the intent of the Buffer Yard Type B is met as described in Section 5-1404(C).
    - (d) Existing vegetation, and trees may be used to meet the requirements of this section in accordance with Section 5-1402(D).
- (B) **Use Buffer Yard Matrix, Table 5-1404(B).** Note that required Buffer Yards may require a different width than a required yard, setback or building restriction line.

<sup>2</sup>Buffer yards shall not be required between playgrounds or passive uses when located internal to a residential neighborhood.

(C) **Buffer Yard Types.** The intent of the 3 Buffer Yard Types that appear in Table 5-1404(B) is described below. All vegetative material within the Buffer Yard Types below shall meet the criteria of the FSM.

- (1) Buffer Yard Type A: Aesthetic. This Buffer Yard Type is intended to function as an intermittent visual obstruction, and create the impression of spatial separation without eliminating visual contact between uses.
- (2) Buffer Yard Type B: Semi-opaque. This Buffer Yard Type is intended to function as a semi-opaque screen between uses.
- (3) Buffer Yard Type C: Opaque. This Buffer Yard Type is intended to provide the greatest degree of screening feasible and minimize visual contact between uses, creating a strong impression of total separation.

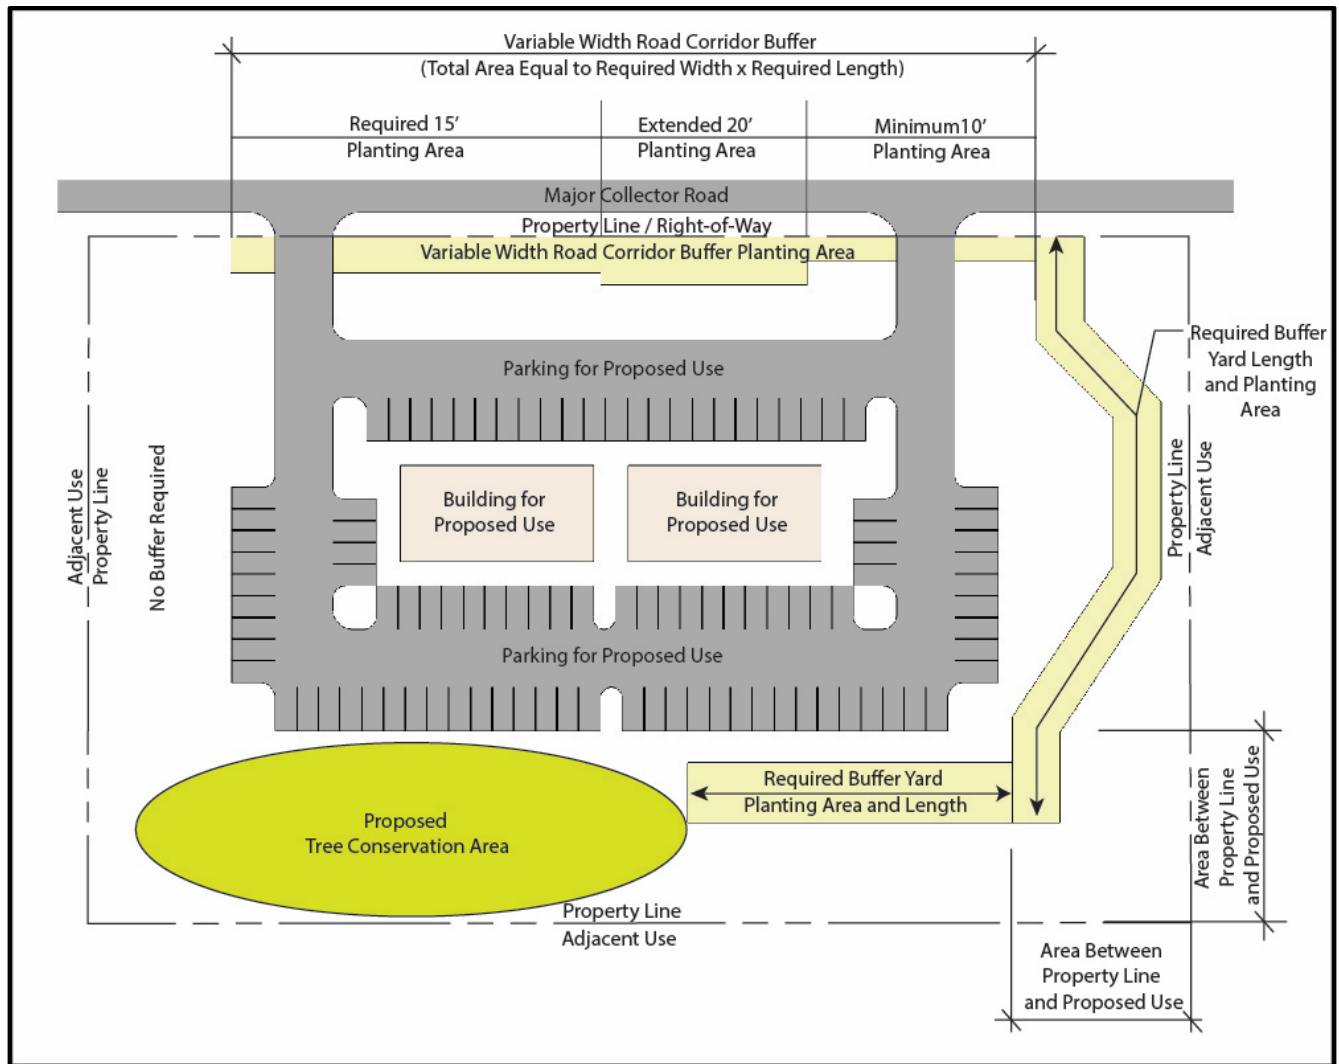

(D) **Buffer Yard Widths and Plant Requirements.**

Required plant units may be planted on a berm.		

(E) **Buffer Yard Location.**

- (1) Required buffer yards shall be provided between the property line and the proposed use, and may be configured to surround the proposed use so long as the intent of the required Buffer Yard Type is met as described in Section 5-1404(C).
- (2) The location of required buffer yards may vary between the property line and the proposed use so long as the required plant units are planted within the required width throughout the full length of the buffer yard.

## Buffer Yard Location Example

**5-1405**

**Cemetery, Burial Ground, and Grave Buffer:** All existing cemeteries, burial grounds, and graves shall be subject to this section.

- (A) Exceptions. The Cemetery, Burial Ground, or Grave Buffer shall not apply to the following:
- (1) A cemetery, or an existing cemetery's expansion, legally established after January 7, 2003.
  - (2) A cemetery, burial ground, or grave for animal remains.
  - (3) A cemetery, burial ground, or grave accessory to a religious assembly use.

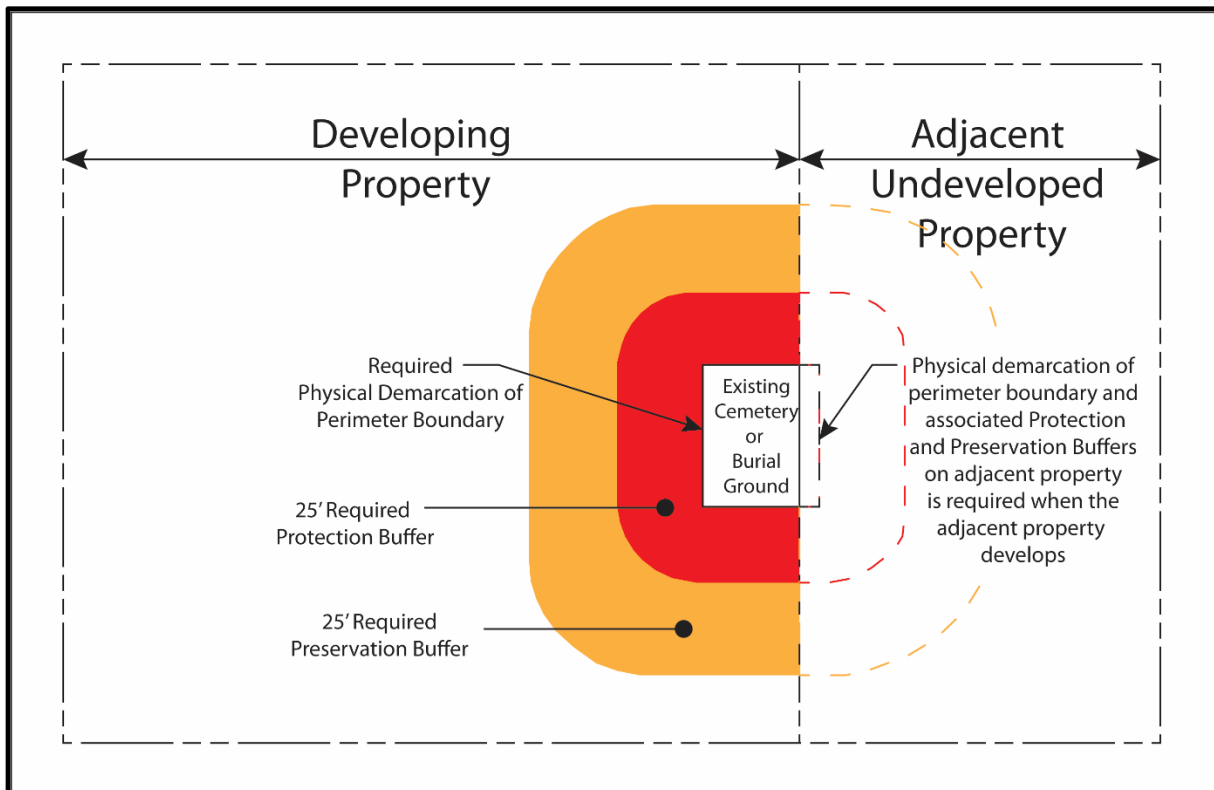

- (4) A cemetery, burial ground, or grave from which all human remains have been removed in accordance with the Code of Virginia.
- (B) The delineated perimeter boundary of a cemetery, burial ground, or grave shall be physically demarcated with a fence between a minimum of 3 feet and a maximum of 4 feet in height, or other perimeter demarcation as approved by the Zoning Administrator. No land disturbing activity shall be permitted within the delineated perimeter boundary of the cemetery, burial ground, or grave except for the following:
  - (1) Removal and reinternment of burials in accordance with the Code of Virginia;
  - (2) Land disturbing activity associated with the excavation and filling of grave shafts for new burials;
  - (3) Clearing of invasive vegetation on the surface, excluding any species that were planted in association with burials; and
  - (4) Construction of the perimeter demarcation.
- (C) **Protection Buffer.** A 25-foot protection buffer shall be established outside of and abutting the delineated perimeter boundary of the cemetery, burial ground, or grave, or property line in accordance with Section 5-1405(E), to protect the physical integrity of existing burials and to preserve the natural and cultural features associated with the cultural landscape.
  - (1) No land disturbing activity shall be permitted within the protection buffer except for the following:
    - (a) Land disturbing activity associated with construction of the perimeter demarcation required by Section 5-1405(B)
    - (b) Construction associated with pedestrian access; and
    - (c) Clearing of invasive vegetation on the surface, excluding any species that were planted in association with burials.
  - (2) The protection buffer may be modified only by Minor Special Exception in accordance with the provisions of Section 6-1300.
- (D) **Preservation Buffer.** An additional 25-foot preservation buffer

shall be established outside of and abutting the protection buffer required under Section 5-1405(C) above, or property line in accordance with Section 5-1405(E), to create separation from adjacent land uses to preserve the historic context of the existing cemetery, burial ground, or grave. Historic context shall include physical characteristics such as, without limitation, vegetation, topography, water courses, monuments, enclosures, and other cultural features associated with the cemetery, burial ground, or grave.

- (1) No land disturbing activity shall be permitted within the preservation buffer except for the following:
  - (a) Land disturbing activity associated with construction of the perimeter demarcation required by Section 5-1405(B);
  - (b) Construction associated with pedestrian access; and
  - (c) Clearing of invasive vegetation on the surface.
- (2) The Zoning Administrator may approve a waiver or modification of the preservation buffer in accordance with the requirements of Section 5-1409.

**Cemetery, Burial Ground, and Grave Buffer Example**

(E) **Off-site Cemetery, Burial Ground, or Grave Buffer.** When a developing parcel is located adjacent to a parcel containing an existing cemetery, burial ground, or grave for which the perimeter boundary has not been delineated, the location of the protection buffer and preservation buffer shall be determined as follows:

- (1) If a known grave on the adjacent parcel is located less than 50 feet but no closer than 25 feet from the parcel line, and no evidence of a grave is found on the developing parcel, then the developing parcel shall provide a Preservation Buffer measured from the parcel line that is equal in length to the extent of any known graves.
- (2) If a known grave on the adjacent parcel is located less than 25 feet from the parcel line, and no evidence of a grave is found on the developing parcel, then the developing parcel shall provide a Protection Buffer measured from the parcel line that is equal in length to the extent of any known graves, and a Preservation Buffer.
- (3) If the closest known grave on the adjacent parcel is located 50 feet or greater from the parcel line, and no evidence of a grave is found on the developing parcel, then no Cemetery, Burial Ground, or Grave Buffer shall be required on the developing parcel.

#### **Off-site Cemetery, Burial Ground, and Grave Buffer Example**

**5-1406****Screening of Certain On-site Functions**

- (A) On-site functions, to include loading areas, dumpsters, outside storage areas, maintenance areas, mechanical equipment, and utility equipment, shall be screened from view from all public streets and adjoining parcels using at least one of the following screening options:
- (1) An opaque fence or wall that is a minimum of 6 feet in height, the height of the fence or wall shall be no lower than the function/items being screened. An aesthetically compatible gate shall be provided, if applicable.
  - (2) A berm that is a minimum of 3 feet in height with evergreen plantings that are a minimum of 6 feet in height at time of planting.
  - (3) For mechanical and similar equipment, any architectural element compatible with the building that screens the view of the equipment.

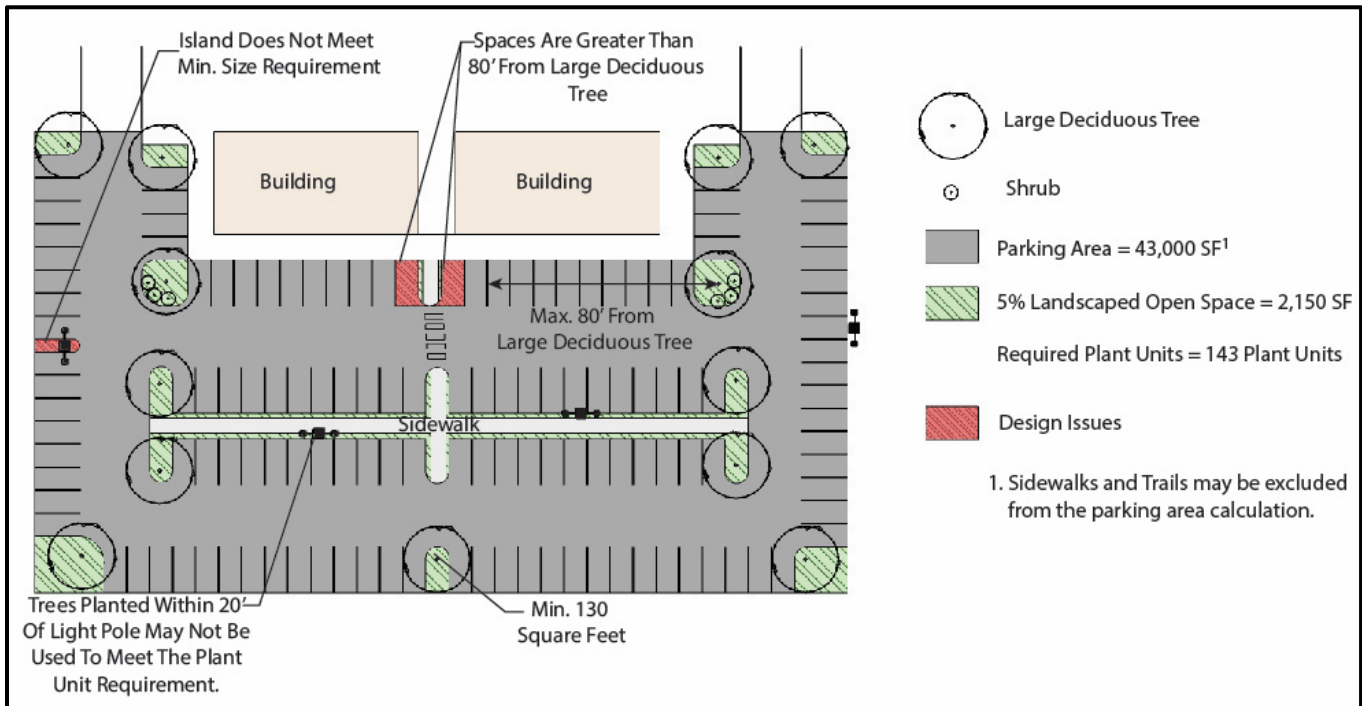

**5-1407****Parking Area Landscaping and Screening Requirements**

- (A) **Interior Parking Area Landscaping:** Any parking area that contains 20 or more parking spaces, except areas used for accessory storage of vehicles, shall include interior parking area landscaping, as follows:
- (1) At least 5% of the gross area of the parking area shall be composed of landscaped open space. The gross area of the parking area shall consist of all parking spaces, vehicular travelways, and designated crosswalks within the parking area, but shall not include other pedestrian facilities within the parking area.
  - (2) Any individual area used as landscaped open space provided to meet the requirements of this section shall be no less than 130 square feet in size.
  - (3) Landscaped open space shall be provided at each end of every row of parking spaces, and shall be equal in length to the adjoining parking space. Where less than 8 parking spaces are proposed in a single row, landscaped open space shall be required at only one end of the row.
  - (4) Landscaped open space shall be planted with a minimum of 10 plant units per 150 square feet and shall be designed in

such a way that no parking space is more than 80 feet from a large deciduous tree.

- (5) A minimum of 75% of the total plant units required for landscaped open space shall consist of large deciduous trees. Perennials shall be used only where taller vegetation would conflict with County and VDOT sight distance standards.
- (6) Evergreen trees shall not be used to meet the minimum interior parking area landscaping plant unit requirement.
- (7) No trees or shrubs shall be planted closer than 3 feet to any curb or paved area unless planted within an approved bio-retention structure.
- (8) Light poles may be placed within landscape islands. Large or small deciduous trees planted within 20 feet of a light pole shall not be used to meet the minimum interior parking area landscaping plant unit requirement.

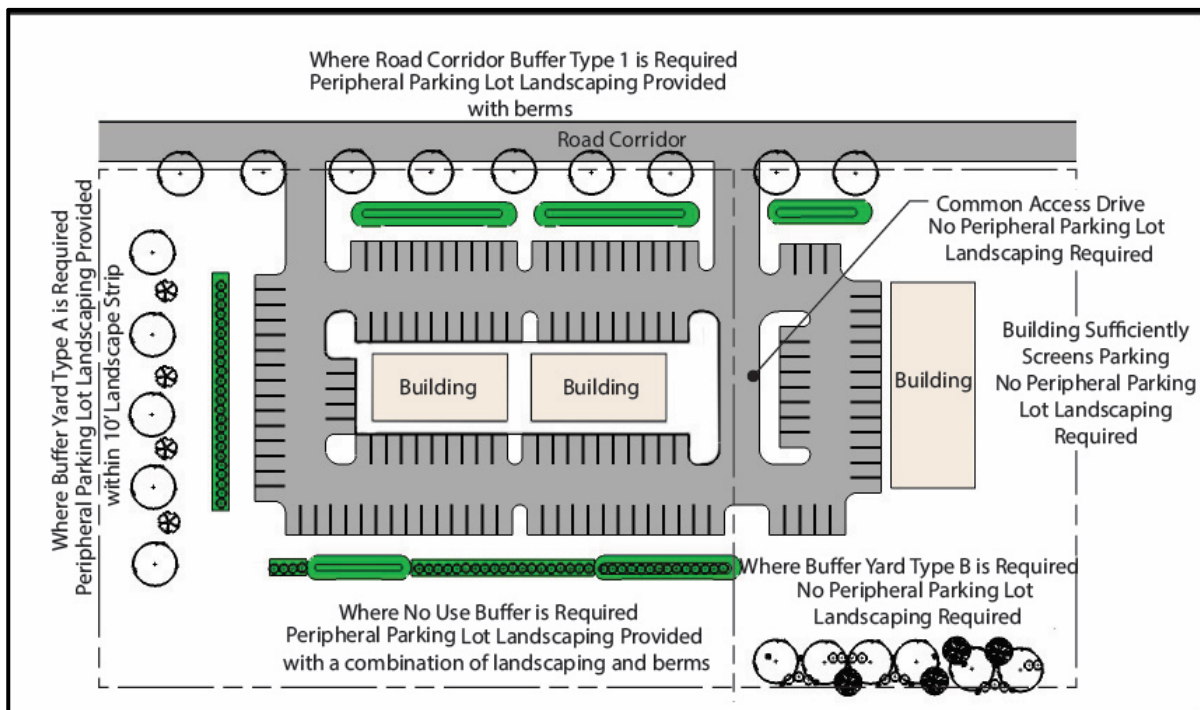

#### **Interior Parking Area Landscaping Example**

- (B) **Peripheral Parking Area Landscaping:** Except where a parking area adjoins a Buffer Yard Type B or C, a Road Corridor Buffer Type 2 or 3, or a Gateway Corridor Buffer, any parking area that contains 20 or more parking spaces shall include peripheral parking area landscaping as follows:

- (1) Parking areas and parking area travelways that are not screened by buildings or other structures shall be screened with either berms or landscaping, or a combination of both, to a minimum height of 30 inches. Berms shall not have a grade steeper than 2:1. Such berms and/or landscaping shall be located between the parking area and the parcel line or right of way. Where the boundary between abutting parcels is located within a parking area travelway, no such screening shall be required.
- (2) Where landscaping is proposed, a minimum of 50 plant units per 100 linear feet shall be required within a continuous landscape strip 10 feet in width. A minimum of 75% of the total plant units required shall consist of evergreen shrubs.
- (3) No trees or shrubs shall be planted closer than 3 feet to any curb or paved area unless planted within an approved bio-retention structure.

#### **Peripheral Parking Area Landscaping Example**

5-1408

  - (a) All landscaping and screening required by this Section shall be depicted on such landscape plan, which shall be designed by a licensed landscape architect or other licensed or certified professional in accordance with the Facilities Standards Manual.
  - (b) All landscaping and screening depicted on such landscape plan shall be installed or bonded in accordance with current County requirements prior to issuance of any Certificate of Occupancy.

**(B) Plant Unit Requirements.**

- (1) The number of Plant Units that a particular plant type shall be considered to be equivalent to shall be determined in accordance with Table 5-1408(B)(1), Plant Unit Equivalents.

<b>Table 5-1408(B)(1), Plant Unit Equivalents</b>

## 5-1409

### **Waivers and Modifications.**

- (A) **Zoning Administrator Waivers and Modifications.** Unless otherwise specified, the Zoning Administrator may approve waivers or modifications to the requirements of this section as part of the site plan, subdivision, and/or zoning permit process upon finding that site conditions make a specific requirement either impracticable or ineffective relative to accomplishing the impact mitigation and site design objectives of this Section.
- (1) **Justification.** Site conditions that may justify a waiver or modification include, but are not limited to, the following:
    - (a) Topography, soil, vegetation, or other existing environmental features are such that full compliance is impossible or impracticable.

- (b) Improved environmental quality would result from implementation of modified requirements.
  - (c) Space limitations, unusually shaped lots, and/or existing utility easements.
  - (d) Change of use on a developed site increases the required Buffer Yard to more than what is feasible to provide.
  - (e) Safety or security conditions make modified requirements necessary.
  - (f) Existing development patterns on surrounding properties would enable implementation of the applicable Place Type of the General Plan with modified requirements.
- (2) **Conditions.** The Zoning Administrator may impose conditions upon any waiver or modification in order to ensure that the purpose and intent of this Section continue to be met.
- (3) **Application.** Each request for a waiver or modification shall include the following components:
- (a) **Written Narrative.** A written narrative justifying the request that identifies the specific requirement of this Section for which the modification or waiver is requested, provides a description of the site conditions that necessitate the modification and waiver request, and explains how the approval of the waiver or modification will provide equal or enhanced mitigation of impacts between uses and/or site design than what otherwise would have been required by this Section.
    - (i) **Exception – Cemetery, Burial Ground, and Grave Treatment Plan.** The written narrative shall describe how the modified buffer will achieve the purpose and intent of the required preservation buffer, and address how the historic context of the cemetery, burial ground, or grave will be preserved through the proposed alternative mitigation techniques.
  - (b) **Design.** An exhibit that clearly depicts and tabulates

the quantity, type, location, and size of all proposed plant units and any other proposed design elements. Additional site elevations, plan views, perspectives, and/or pictures may be required by the Zoning Administrator.

(i) **Exception - Reduction of Gateway Corridor Buffer.** When a reduction in the width of a Gateway Corridor Buffer is requested pursuant to Section 5-1403(E)(4), the design elements specified by Section 5-1403(E)(1) or Section 5-1403(E)(2), as applicable, also shall be depicted.

(ii) **Exception – Cemetery Burial Ground and Grave Treatment Plan.** When a waiver or modification is requested to modify the cemetery, burial ground, and grave preservation buffer required by Section 5-1405(D), a Cemetery, Burial Ground, and Grave Treatment Plan shall be required in accordance with the Facilities Standards Manual. The Cemetery, Burial Ground, and Grave Treatment Plan shall indicate how the modified buffer will achieve the purpose and intent of the required preservation buffer, and address how the historic context of the cemetery, burial ground, or grave is being preserved through alternative mitigation techniques.

(B) **Legislative Modifications**

(1) **Road Corridor Building and Parking Setbacks.** The Road Corridor building and parking setbacks of Table 5-1403(B) may be modified by Minor Special Exception approval in accordance with Section 6-1300 upon a finding that such modification is necessary to maintain consistency with the streetscape established by existing development on adjacent properties.

(2) The Board of Supervisors or the Board of Zoning Appeals may modify the requirements of this Section as part of an approval action of a special exception, variance, or as part of proffered conditions. In such event, the requirements of such approval shall govern.

## **DIVISION E: Performance Standards**

### **Section 5-1500**

#### **Performance Standards.**

##### **5-1501**

**Purpose.** It is the intent of these regulations to prevent land or buildings, including those permitted by right or by special exception from being used or occupied in any manner so as to create any dangerous, injurious, or noxious activity such as fire, explosive, radioactive or other hazardous condition; noise or vibration; smoke, dust, odor or other form of air pollution; electrical or other disturbance; glare or heat; liquid or solid refuse or waste condition, conducive or elements, (all referenced to herein as "dangerous or objectionable elements") in a manner or amount as to adversely affect the surrounding area. It is also the intent of these regulations to prevent the disturbance of land on steep slopes in a manner that creates erosion, slippage, slope failure, or other conditions that adversely impacts the environment.

##### **5-1502**

**Zoning Districts Regulated.** All permitted and special exception uses, whether such uses are permitted as a principle use or an accessory use, shall operate in conformance with the performance standards set forth in this Division.

##### **5-1503**

#### **Applicability.**

- (A) **Existing Uses.** All uses shall comply with the performance standards set forth in this Ordinance. However, any use which did not comply with these standards when enacted may be permitted to continue so long as the degree of nonconformity is not increased.

Any use which is a lawful nonconforming use, and which on the effective date of this Ordinance complies with the applicable performance standards of this Division, shall continue to so comply. If, at such time, the operations of such lawful nonconforming use violate the standards specified herein, such operations shall not be varied or changed in such a way as to increase the degree of such violation.

- (B) **Agricultural Uses.** The standards contained in this Division shall not apply to any lawful agricultural operation.

##### **5-1504**

#### **Light and Glare Standards.**

- (A) **General Requirements.** All sources of glare (direct or reflected artificial light) from any source (other than in connection with operating motor vehicles, lighting at publicly owned facilities utilized for athletic competition, and/or street lighting) must not cause illumination in excess of 0.25 foot candles above background light levels measured at the boundary of any commercial or industrial use abutting any residential use or at the lot line with any residential district, or, in residential or agricultural districts, at the lot line of any adjacent lot. In addition, in the A-3, A-10, AR-1, AR-2, and CR

districts, lights shall be shielded so that the direct glare of the bulb is not visible beyond the property line of the parcel. Publicly owned facilities utilized for athletic competition, as exempted above, other than at public schools (elementary, middle or high), shall use cut-off and fully shielded lighting fixtures that 1) are aimed downward and inward toward the athletic field or interior of the property, and 2) are shielded in directions away from the athletic field to minimize glare and light trespass onto adjacent properties. Publicly owned athletic competition facilities must not cause illumination in excess of ten foot candles above background light levels measured at the boundary of any residential district, or, in residential or agricultural districts, at the lot line of any adjacent lot. Lighting for recreational and athletic fields and facilities at public schools (elementary, middle or high) shall adhere to the performance standards specified in Section 5-666.

- (B) **Method of Measurement.** Illumination levels shall be measured with a photoelectric photometer having a spectral response similar to that of the human eye, following the standard spectral luminous efficiency curve adopted by the Internal Commission on Illumination
- (C) **Special Exception Review for Lighting that does not Comply with Standards.** Lighting that does not meet the standards of Section 5-1504(A) may be permitted by special exception, pursuant to Section 6-1300, upon a finding that the proposed alternative lighting is appropriate.

#### **5-1505 Earthborn Vibration Standards.**

- (A) **Required Performance Level.** No use, operation or activity shall cause or create earthborn vibrations in excess of the peak particle velocities prescribed below.
- (B) **Method of Measurement.**
  - (1) Measurements shall be made at or beyond the adjacent lot line, the nearest residential district boundary line, or the nearest district boundary line as indicated below. Ground transmitted vibration shall be measured with a seismograph or complement of instruments capable of recording vibration displacement and frequency, particle velocity, or acceleration simultaneously in three (3) mutually perpendicular directions.
  - (2) The maximum particle velocity shall be the maximum vector sum of three (3) mutually perpendicular components recorded simultaneously. Particle velocity may also be expressed as 6.28 times the displacement in inches multiplied by the frequency in cycles per second.
  - (3) For the purpose of this Ordinance, steady state vibrations are vibrations which are continuous or vibrations in discrete

impulses more frequent than sixty (60) per minute. Discrete impulses which do not exceed sixty (60) per minute shall be considered impact vibrations.

**(C) Light Intensity Land Uses.**

- (1) Light intensity land use standards apply to all residential districts, all industrial districts, excepting the PD-GI and the MR-HI district(s).
- (2) Uses subject to these standards shall not cause steady state vibrations to exceed the maximum permitted particle velocities described below. Where more than one set of vibration levels apply, the most restrictive shall govern. Readings may be made at points of maximum vibration intensity.
- (3) Maximum Permitted Steady State Vibration Levels:

<b>Table 5-1505(C)(3) Area of Measurement</b>		
<u>Type of vibration</u>	<u>At residential district boundaries</u>	<u>At other lot lines within district</u>
Continuous	.003	.015
Impulsive (100 per minute or fewer)	.006	.030

- (4) Between the hours of 8 p.m. and 7 a.m., all of the permissible vibration levels indicated above at residential district boundaries shall be reduced to one-half (+) the indicated values.

**(D) Heavy Intensity Land Uses.**

- (1) Heavy intensity land use standards apply to the MR-HI and PD-GI district(s).
- (2) Uses subject to these standards shall not cause steady state vibrations to exceed the maximum permitted particle velocities described in the table below. Where more than one set of vibration levels apply, the most restrictive shall govern. Readings shall be made at points of maximum vibration intensity.
- (3) Maximum Permitted Steady State Vibration Levels.

Impulsive (100 per minute or fewer)	.006	.060
Fewer than 8 pulses per 24 hours	.015	.150

- (4) Between the hours of 8 p.m. and 7 a.m., all of the permissible vibration levels indicated above at residential district boundaries shall be reduced to one-half (+) the indicated values.

#### 5-1506

**Stone Quarrying, Extraction and Mining Standards.** In addition to the performance standards set forth in this Division, all stone quarrying extraction and mining uses, whether in the Mineral Resource/Heavy Industrial District (MR-HI) or otherwise, shall satisfy the following additional performance standards:

- (A) No permit for an extraction and mining use shall be issued for any tract of land containing less than fifty (50) acres. This requirement, however, shall not preclude the approval of a permit to enlarge or extend an existing extraction and mining use onto contiguous parcels.
- (B) All blasting shall be limited to the hours of 7 a.m. to 6 p.m. or such lesser time as may be established by special exception.
- (C) All vehicles used to transport excavated material shall be required to be loaded in such manner that the material may not unintentionally be discharged from the vehicle. Trucks shall be cleaned of all material not in the load-bed prior to entering the public streets.
- (D) **Landscaping and Screening Requirements.**
  - (1) All areas within 100 feet of an adjacent public road or a zoning district on land bay allowing or planned to allow residential uses shall meet the standards of Section 5-1400, and shall be landscaped, bermed, screened and maintained with natural vegetation to buffer and screen such areas.
  - (2) In addition to Section 5-1400 existing trees and ground cover along all other boundary lines shall be preserved, maintained and supplemented by selective cutting, transplanting, and addition of new trees, shrubs and other ground cover for the depth of the setback.
  - (3) The type, time of planting, design and spacing of planting screen shall be in accordance with Section 5-1400. Approval of maintenance of landscape areas by the Zoning Administrator shall be required for zoning permit extension and zoning permit renewal.

(E) Notwithstanding the provisions of Sections 5-1505 and 5-1507 of this Division, all extraction and mining special exception operations shall be subject only to the following performance standards as they relate to noise and earthborn vibrations:

- (1) Blasting vibration shall be limited to peak particle velocity\* for a corresponding frequency level, as shown in the chart below:

\*Peak particle velocities shall be recorded in three mutually perpendicular directions. The maximum peak particle velocity shall be the largest of any of the three measurements.

- (2) Earth vibration produced from sources other than blasting shall not exceed a maximum resultant peak particle velocity of .03 inches per second.
  - (3) The peak over pressure (noise) from any blast shall be limited to 129 dB, as measured at 5 or 6 Hz high pass system.
  - (4) Airborne noise produced from extractive operations other than blasting shall not exceed the following limit, as measured at the lot line of the extractive industry: 80dBA maximum, continuous noise.
  - (5) For noise and vibrations induced by blasting, measurement shall be taken at the nearest off-site occupied building, measured in a straight line distance from the point of the blast.
  - (6) For noise and vibrations induced by sources other than blasting, measurement shall be taken at the property line of the extractive industry.
- (F) In addition, the Board of Supervisors, as a condition of a special exception, may further limit vibration and noise levels where, in the Board's opinion, the existing and proposed surrounding land use or proximity of population in the area warrants additional protection.

## 5-1507

### Noise Standards.

- (A) **Purpose.** The purpose of these standards is to protect citizens from excessive sound (noise), which is detrimental to the health and peaceful enjoyment of property. No use shall be operated or permitted to be operated in such a manner as to create a sound which exceeds the maximum A-weighted sound levels set forth in Table 5-1507(E). Examples of sounds regulated by this Ordinance include, but are not limited to amplified music or voice, or barking dogs at kennels.

- (B) **Applicability.** The maximum A-weighted sound levels of this Section shall apply unless a different decibel level is specified for a use under Section 5-600 et seq., Additional Regulations for Specific Uses.

These standards shall not apply to extraction and mining special exception operations otherwise regulated herein or between multiple uses located within the same building or on the same lot, unless the receiving property is Mixed-Use residential.

- (C) **Definitions.** For the purposes of this section only, the below terms are defined as follows:

- (1) A-Weighted Sound Level is the sound pressure level in decibels as measured on a sound level meter (SLM) using the A-weighting network.
- (2) Emergency is any occurrence or set of circumstances involving actual or imminent physical trauma, property damage or loss of electric or phone services, which require immediate action.
- (3) L Equivalent (Leq) is the constant sound level that, in a given situation and time period, conveys the same sound energy as the actual time-varying A-weighted sound level.
- (4) Mixed-Use Residential is any dwelling unit located in a Planned Development zoning district listed in Article 4, Division A or Division D that permits residential uses, excluding the Planned Development – Housing (PD-H) zoning district.
- (5) Residential is any dwelling unit located in a zoning district listed in Article 2 or 3, or the PD-H zoning district, and any other dwelling unit that does not meet the definition of mixed-use residential.
- (6) Receiving property is the lot or parcel, or for mixed-use residential, the affected dwelling unit, that is the recipient of the subject sound.
- (7) Sound is an oscillation in pressure, particle displacement, particle velocity, or other physical parameter, in a medium with internal forces that causes compression and rarefaction of that medium.

**(D) Methods of Measurement.**

- (1) A-weighted sound levels shall be measured with an integrating SLM that meets or exceeds American National Standard Institute S1.43-1997 for Type 1 SLMs. The response of such SLM shall be set to FAST, and a time period of fifteen (15) seconds shall be used. The operator may select another time period between a minimum of ten (10) seconds and maximum of one (1) minute if a fifteen (15) second time period cannot adequately capture the A-weighted sound level.
- (2) Samples shall be taken only when the subject sound can be clearly heard and identified by the operator without any extraneous sounds such as passing traffic, bird songs, etc.
- (3) The operator shall take a minimum of three (3) samples that demonstrate the repeatability and consistency of the subject sound. When possible, the operator should also take at least one (1) sample when the subject sound is not heard for the purpose of comparison.

- (4) The arithmetic average of all samples that demonstrate the repeatability and consistency of the subject sound shall comply with the maximum A-weighted sound levels in Table 5-1507(E).
- (5) For residential, rural economy, commercial, civic, institutional, and industrial uses, samples of the subject sound shall be taken from the point on the receiving property line that is located the closest to the source of the subject sound. The microphone of the SLM shall be aimed toward the source of the subject sound, and a standard microphone height of five feet (5') above grade shall be used.
- (6) For mixed-use residential, samples of the subject sound shall be taken from the receiving property at an open window, door, or other aperture that faces in the direction of the source of the subject sound. The window, door, or other aperture that is the closest to the source of the subject sound shall be used. The microphone of the SLM shall use a windscreen, shall be located at the center, and shall extend approximately 0.5 inch beyond the outer plane of said open window, door, or other aperture, and shall be aimed towards the source of the subject sound.

(E) **Maximum A-Weighted Sound Levels (decibels).** The maximum A-weighted sound level is provided in Table 5-1507 (E) and shall apply any time of day or night.

Table 5-1507(E)				
Receiving Development Type	Mixed - Use Residential	Residential and Rural Economy Uses	Commercial, Civic, and Institutional Uses	Industrial Uses
Maximum A-Weighted Sound Level (decibels)	60	55	65	70

(F) **Exemptions.** The maximum A-weighted sound levels in Table 5-1507(E) shall not apply to the following:

- (1) All aircraft sound.
- (2) Sounds produced by activities listed in Chapter 654.02(e) of the Codified Ordinances of Loudoun County, however, sounds produced by outdoor public address systems at public schools shall be regulated pursuant to Section 5-666, and sounds produced by commercial indoor firearm ranges shall be subject to the maximum A-weighted sound levels in Table 5-1507(E).

- (3) Sounds created by the operation of power equipment, such as power lawn mowers, chain saws, and similar equipment, and construction, demolition and/or maintenance activities.
- (4) Sounds created by generators and accessory equipment operating during an emergency or at the request of a utility, and the testing of said generators and associated equipment.
- (5) Sounds created by air conditioner condensers for single-family attached dwellings and single-family detached dwellings.
- (6) Sounds created by utilities and public uses, including, but not limited to utility substations, utility transmission lines, sanitary landfills, public sewer, and public water.

**5-1508 Steep Slope Standards.**

(A) **Purpose and Intent.** Improper uses and disturbances in naturally occurring steep slope areas cause erosion, result in structural failure of structures and roads, and lead to downstream flooding and other hazards. Development in these areas also requires higher volumes of cut and fill and greater removal of vegetation than on flatter lands. The provisions in this Section 5-1508, including a general prohibition of land disturbing activities on naturally occurring very steep slope areas greater than 25% and performance standards for development on steep slope areas of 15% or greater, are intended to specifically promote the following:

- (1) Undertake development in a manner that will protect life and property from hazards due to slope, unstable and erodible soils, earth movement, and other geologic and hydrologic hazards;
- (2) Reduce potential for increased erosion, sedimentation, and surface runoff, and the resulting adverse impacts on water quality;
- (3) Promote a safe means of ingress and egress for vehicular and pedestrian traffic in sloped areas;
- (4) Preserve the visual quality of steep slope areas, which are a valuable natural and economic resource; and
- (5) Encourage innovative and imaginative building techniques to create structures and site plans that are suited to sloped terrain.

(B) **Applicability and Exemptions.**

- (1) **Applicability.**

- (a) **General Rule.** Except as exempted in Section 5-1508(B)(2) below, this section shall apply to all land disturbing activity, including new development and subdivision, proposed on areas of properties containing steep slope areas as that term is defined in Section 5-1508(C) below.
- (b) **Steep Slopes in the MDOD—Conflicting Provisions.** This Section 5-1508 shall apply to steep slope areas, as defined in Section 5-1508(C) below, that are located within the MDOD - Mountainside Development Overlay District and subject to the standards in the MDOD, Section 4-1600. However, to the extent that the standards in this Section 5-1508 conflict with provisions in the MDOD (Section 4-1600), the standard that affords the steep slope areas the greater level of protection shall apply.

(2) **Exemptions.**

- (a) **Single Family Dwelling on Existing Legal Lot.** Construction of a single residential use on a legal lot existing as of June 16, 1993, is exempt from the requirements of Section 5-1508(D). Such exemption shall not apply to non-residential uses. Development on such lot shall be subject to all standards in Sections 5-1508(E) and 5-1508(F).
- (b) **Agricultural Operations.** In order to be considered a lawful agricultural operation under Section 5-1503(B), to which Steep Slope Standards shall not apply, such agricultural operation shall be conducted only in accordance with the Facilities Standards Manual and a Conservation Farm Management Plan approved by the Loudoun County Soil and Water Conservation District or the U.S. Natural Resources and Conservation Service that includes best management practices. Structures associated with agricultural operations shall not be exempt from these provisions. Agricultural operations not conducted in accordance with such approved Conservation Farm Management Plan shall not be considered a lawful agricultural operation and shall not be exempt from Steep Slope Standards.
  - (i) **Timber Harvesting.** In order for timber harvesting or other silvicultural activities to be considered a lawful agricultural operation under Section 5-1503(B), to which Steep Slope

Standards shall not apply, such timber harvesting and other silvicultural activities shall be conducted only in conformance with a Forest Management Plan that meets the requirements of the Facilities Standards Manual, includes best management practices, and is approved by the County. All timber harvesting shall also meet the notification requirements of Section 10.1-1181.2.H of the Code of Virginia. Within very steep or moderately steep slope areas, only those roads shown on the approved Forest Management Plan shall be constructed or used for timber harvesting and other silvicultural activities. Timber harvesting or other silvicultural activities not conducted in accordance with such approved Forest Management Plan, to include the construction or use of roads not shown on the approved Forest Management Plan, or timber harvesting that has not met the notification requirements of Section 10.1-1181.2.H of the Code of Virginia, shall not be considered a lawful agricultural operation and shall not be exempt from Steep Slope Standards.

(C) **Establishment of Steep Slope Areas.**

(1) **Identification of Steep Slope Areas.** Naturally occurring steep slope areas are classified into one of the following two categories:

(a) **Very Steep Slope Areas.** This category of steep slope areas includes land areas with naturally occurring slopes greater than 25%.

(b) **Moderately Steep Slope Areas.** This category of steep slope areas includes only land areas with naturally occurring slopes from 15% to 25%.

(2) **Minimum Size of Steep Slope Area.**

(a) For Non-Suburban Zoning Districts under Article 2, and Planned Development-Countryside Village (PD-CV) and the Planned Development Rural Village (PD-RV) Zoning Districts under Article 4, of this Ordinance, steep slope standards shall not apply to contiguous steep slope areas that are less than 5,000 square feet in land area, or less than 15 feet in width. Where the entire

contiguous steep slope area is equal to or greater than 5,000 square feet in land area, but the total very steep slope area is less than 5,000 square feet in land area, the entire contiguous steep slope area shall be subject to the development standards for moderately steep slope areas provided in Section 5-1508(F).

- (b) For Suburban Zoning Districts under Article 3, and Planned Zoning Districts and Route 28 Corridor Zoning Districts under Article 4, of this Ordinance, excluding the PD-CV and the PD-RV Zoning Districts, steep slope standards shall not apply to contiguous steep slope areas that are less than 10,000 square feet in land area, or less than 15 feet in width. Where the entire contiguous steep slope area is equal to or greater than 10,000 square feet in land area, but the total very steep slope area is less than 10,000 square feet in land area, the entire contiguous steep slope area shall be subject to the development standards for moderately steep slope areas provided in Section 5-1508(F).
- (c) For purposes of calculating the total land area of contiguous steep slopes in subsections (a) and (b) above, the entire contiguous steep slope area shall be included, regardless of the number of individual lots or different land ownerships involved.

(D) **Uses and Activities.**

(1) **Very Steep Slope Areas.**

- (a) **Applicability.** This Section 5-1508(D)(1) applies to lands within very steep slope areas, as defined in Section 5-1508(C)(1)(a) above.
- (b) **General Prohibition on Land Disturbance.** Land disturbing activities, including but not limited to clearing, excavation, grading, construction, reconstruction, and investigative land disturbing activities such as test wells, are prohibited on any very steep slope area, except as allowed under Section 5-1508(D)(1)(c) and (d) below.
- (c) **Permitted Uses and Activities.** The following uses are permitted on very steep slope areas, subject to the applicable development standards in Section 5-1508(E) below:

- (i) Passive recreation uses, including trails for non-motorized use only.
  - (ii) Open space, and other conservation uses.
  - (iii) Limited land-disturbing activity not to exceed 5,000 square feet in the aggregate on any property for the sole purpose of surveying and land investigation including the minimum land disturbance necessary for those studies required by the Facility Standards Manual. Heavy equipment may be used only when no other less-invasive method is feasible to conduct or undertake such limited land-disturbing activity.
  - (iv) Roads, driveways, minor utilities, water lines serving an individual water supply system, or septic lines serving an individual sewage disposal system in accordance with the Facilities Standards Manual and the development standards in Section 5-1508 (E)(5).
  - (v) Public water utility drinking water supply reservoirs, including, without limitation, reclaimed quarries.
  - (vi) Sanitary Sewer lines, pursuant to Section 5-1508(E)(8) below.
  - (vii) Water lines pursuant to Section 5-1508(E)(8) below.
- (d) **Special Exception Uses and Activities.** The following uses, when listed in the underlying zoning district, and overlay zoning district if applicable, may be permitted within very steep slope areas by the Board of Supervisors by Special Exception approval, and, if approved, may be subject to certain conditions, pursuant to the provisions of Section 6-1300. All uses shall be subject to Section 5-1508(D)(1)(e) and the development standards of Section 5-1508(E).
- (i) Rural Recreation Establishment, Outdoor, provided the use is dependent on very steep slope areas (the use uniquely requires a site located within a steep slope area and is not compatible with a site that lacks very steep slope areas).

- (ii) Recreation Establishment, Outdoor, provided the use is dependent on Very Steep Slope Areas (the use uniquely requires a site located within a steep slope area and is not compatible with a site that lacks very steep slope areas).
  - (iii) Community, neighborhood, or regional park, active recreational uses, provided the use is dependent on very steep slope areas (the use uniquely requires a site located within a steep slope area and is not compatible with a site that lacks very steep slope areas).
  - (iv) Agricultural Structures when no other alternatives are feasible or available.
  - (v) Expansion of Commercial Uses and Structures existing as of June 16, 1993, when no other alternatives are feasible or available.
  - (vi) Within Suburban Zoning Districts under Article 3, and Planned Zoning Districts and Route 28 Corridor Zoning Districts under Article 4, of this Ordinance, excluding the PD-CV and the PD-RV Zoning Districts, land disturbance less than 5,000 square feet within very steep slope areas when associated with a Permitted, or an approved Minor Special Exception or Special Exception, use in the underlying zoning district, and overlay zoning district if applicable.
- e. **Standards For A Special Exception.** In considering applications for a Special Exception, in addition to the issues for consideration under Section 6-1309, the Board of Supervisors shall make findings that all of the following required standards have been met:
- i. The proposed use shall not increase the danger to life and property due to increased destabilization of steep slope areas.
  - ii. The proposed use and/or structure shall be located and designed to limit its susceptibility to slippage or slope failure, and alternative locations that would not be subject to slippage or slope failure shall not be available.
  - iii. Land disturbance within very steep slope areas shall be limited to the minimum necessary to

locate the proposed use, and any disturbed areas that are not covered by paving, stone, or other solid materials shall be revegetated.

- iv. Clearing of vegetation within very steep slope areas shall be limited to the minimum necessary to locate the proposed use.
- v. Land disturbance within very steep slope areas with slopes greater than 50% shall not be permitted for any structure.
- vi. Land disturbance within very steep slope areas with slopes greater than 50% shall not be permitted unless the use, exclusive of any structure, is dependent on such very steep slope area (the use uniquely requires a site within an area of very steep slopes greater than 50%).

(2) **Moderately Steep Slope Areas.**

- (a) **Applicability.** This Section 5-1508(D)(2) applies to lands within moderately steep slope areas, as defined in Section 5-1508(C), above.
- (b) **Permitted Uses and Activities.** All Permitted uses listed in the underlying zoning district, and overlay district if applicable, subject to the review procedures and standards in this Ordinance.
- (c) **Special Exception Uses on Moderately Steep Slope Areas.** All Minor Special Exception and Special Exception uses listed in the underlying zoning district, and overlay district if applicable, may be permitted within moderately steep slope areas by the Board of Supervisors by Special Exception approval, and if approved, may be subject to certain conditions, pursuant to the provisions of Section 6-1300.

- (E) **Development Standards - Very Steep Slope Areas.** Development and uses on very steep slope areas shall be planned to minimize disturbance to soil geology, hydrology, and environmental features. At a minimum, except for the development of roads shown on the Countywide Transportation Plan and public water utility drinking water supply reservoirs, including, without limitation, reclaimed quarries, all land development applications and land disturbing activities on any parcel of land which includes within its boundaries very steep slope areas shall comply with the Facilities Standards Manual and the following standards:

- (1) **Locational Clearance.** The applicant shall obtain a locational clearance from the Department of Building and Development. The applicant shall submit a map, plan, or plat showing the location and extent of the very steep slope areas within the area to be disturbed, as well as the location and extent of land disturbing activities and mitigation measures including the proposed building sites, paved areas, drainfields, well locations, and other uses.
- (2) **Grading Permit.** If very steep slope areas are proposed to be disturbed, a grading permit shall be required for all land disturbing activity in accordance with Chapter 1220 of the Codified Ordinances, notwithstanding the exceptions listed in the definition of “land disturbing activity” in Chapter 1220 of the Codified Ordinances.
- (3) **Geotechnical Study.** All grading and land disturbing activities on very steep slope areas shall be addressed in a geotechnical study prepared in accordance with the Facilities Standards Manual.
- (4) **Grading for Accessory Building Pads Prohibited.** Separate building pads for accessory buildings and structures other than private garages, such as tennis courts, swimming pools, outbuildings, and similar facilities, shall be prohibited on very steep slope areas.
- (5) **Roads, Driveways, Minor Utility, Water Lines Serving an Individual Water Supply System or Septic Lines Serving an Individual Sewage Disposal System.**
  - (a) All roads and driveways shall follow natural contour lines to the maximum extent feasible.
  - (b) No roads, driveways, minor utilities, water lines serving an individual water supply system or septic lines serving an individual sewage disposal system shall disturb very steep slope areas with slopes greater than 50%.
  - (c) Roads shall not disturb very steep slope areas with slopes greater than 25% to 50%, unless no other alternative exists to access a legal lot of record approved prior to June 16, 1993.
  - (d) Where directional drilling can be utilized to install minor utilities, water lines serving an individual water supply system or septic lines serving an individual sewage disposal system across very steep slope areas and the drilling start and end locations do not result in

disturbance to very steep slope areas, the crossing of very steep slope areas by means of directional drilling shall be permitted and the development standards of Section 5-1508(F) shall not apply.

- (e) Driveways, minor utilities, water lines serving an individual water supply system or septic lines serving an individual sewage disposal system shall not disturb very steep slope areas with slopes greater than 25% to 50%. However, a short run of no more than 200 feet or 10% of the entire length of the driveway, minor utility, water line and/or septic line, whichever is greater shall be allowed to disturb very steep slope areas with slopes greater than 25% to 50%, based on a geotechnical study or findings from a geotechnical professional that:
  - (i) Such driveway, minor utility, water lines and/or septic lines will not have significant adverse visual, environmental or safety impacts, or appropriate engineering or other measures will be taken by the developer to substantially mitigate any such adverse impact; and
  - (ii) No alternative location for such access, minor utility, water line and/or septic line is feasible or available.
- (f) Shared driveways shall be required to the maximum extent feasible where their use will minimize or eliminate land disturbance. Shared driveways shall be subject to a common access easement.
- (g) The grade of private roads and driveways shall comply with the Facilities Standards Manual.
- (h) Storm drainage and culvert design shall comply with the Facilities Standards Manual.
- (6) **Revegetation Required.** Any very steep slope areas that are disturbed in excess of the limits of disturbance approved for a permitted use shall be revegetated.
- (7) **Stormwater Best Management Practices.** The applicant shall incorporate stormwater management best management practices and erosion and sediment control practices in accordance with Chapter 1096 of the Codified Ordinances, Chapter 1220 of the Codified Ordinances, and the Facilities Standards Manual, and such practices shall be approved by the

Department of Building and Development prior to approval of a zoning permit.

**(8) Sanitary Sewer and Water Line Standards.**

- (a) No sanitary sewer and/or water lines shall disturb very steep slope areas with slopes greater than 50%.
- (b) Water lines shall be located within or directly adjacent to the right-of-way of existing or approved roads. The development standards of this Section shall not apply to such water lines.
- (c) Where directional drilling can be utilized to install sanitary sewer and/or water lines across very steep slope areas and the drilling start and end locations do not result in disturbance to very steep slope areas, the crossing of very steep slope areas by means of directional drilling shall be permitted and the development standards in this section shall not apply.
- (d) Land disturbing activities in very steep slope areas with slopes greater than 25% to 50% shall be avoided to the maximum extent feasible when determining the alignment of gravity sanitary sewer and/or water lines.
- (e) For the purpose of these development standards, the very steep slope areas designated on the County base planimetric and topographic maps may be used.
- (f) Sanitary sewer and/or water lines shall not cross more than 200 feet of any one contiguous very steep slope area. This maximum distance may be increased by the Zoning Administrator, up to an additional 300 feet, provided that the longer crossing distance is found to reduce or have minimal impacts to other environmentally sensitive areas (streams, wetlands, riparian buffers, etc.), as demonstrated by applicable information and/or reports/studies requested by the Zoning Administrator, including, but not limited to: 1) geotechnical study, 2) geophysical study, 3) preliminary soils review, 4) U.S. Army Corps of Engineers approved wetland delineation, 5) tree cover inventory, 6) Phase 1 archeological study, and 7) rare, threatened, and endangered species survey. If the proposed crossing exceeds 200 feet and the Zoning Administrator finds that the crossing does not minimize impacts to other environmentally sensitive areas or the proposed

crossing exceeds a total of 500 feet, the approval of a Minor Special Exception application shall be required in accordance with Section 6-1300 of this Ordinance.

- (g) If blasting is required for any portion of the sanitary sewer and/or water line installation, a blasting plan that describes measures that will be utilized to minimize impacts on environmentally sensitive areas must be provided as part of the grading plan.
- (h) Sanitary sewer and/or water lines shall be aligned in a manner that minimizes disturbance to very steep slope areas with existing tree cover. In situations where sanitary sewer lines result in the clearing of vegetative cover other than open grassland/pastureland, stabilization plans for temporary construction easements shall include reforestation and tree protection in accordance with the Facility Standards Manual. Such reforestation and tree protection shall be reviewed and approved by the County Urban Forester.
- (i) Where very steep slope areas cannot be avoided, construction methods that minimize easement widths and limits of disturbance shall be employed to the maximum extent feasible.
- (j) Prior to approval of grading plans, the public entity responsible for the maintenance and operation of the proposed sanitary sewer and/or water line shall certify that the grading plan minimizes impacts to very steep slope areas and shows practical limits of construction.
- (k) To minimize erosion and sediment control failure associated with sliding debris and the operation of machinery within a confined area, two rows of super silt fence shall be installed as a perimeter control on the downslope side of the disturbed area. The inside row may be installed without filter fabric. The minimum spacing between the rows shall be 2-3 feet to allow for maintenance.
- (l) At a minimum, stabilization of disturbed areas shall consist of Treatment 1 as described in Standard and Specification 3.36 (Soil Stabilization Blankets & Matting) in the Virginia Erosion and Sediment Control Handbook. In problem areas, as determined by the County, Treatment 2 can be required.

- (F) **Development Standards - Moderately Steep Slopes.** All land development applications and land disturbing activities on any parcel of land which includes within its boundaries moderately steep slope areas shall comply with the Facilities Standards Manual and the following standards:
- (1) **Locational Clearance.** The applicant shall obtain a locational clearance from the Department of Building and Development. The applicant shall submit a map, plan, or plat showing the location and extent of moderately steep slope areas within the area to be disturbed, as well as the location and extent of land disturbing activities and mitigation measures including the proposed building sites, paved areas, drainfields, well locations, and other uses.
  - (2) **Grading Permit.** If moderately steep slope areas are proposed to be disturbed, a grading permit shall be required for all land disturbing activity in accordance with Chapter 1220 of the Codified Ordinances, notwithstanding the exceptions listed in the definition of “land disturbing activity” in Chapter 1220 of the Codified Ordinances.
  - (3) The applicant shall incorporate stormwater management best management practices and erosion and sediment control practices in accordance with Chapter 1096 of the Codified Ordinances, Chapter 1220 of the Codified Ordinances, and the Facilities Standards Manual into the permit application, and such practices shall be approved by the Department of Building and Development prior to the approval of a zoning permit.
- (G) **Modification of Development Standards** – The modification of the development standards of Sections 5-1508(E) and (F) may be permitted by the Board of Supervisors by Special Exception approval, and, if approved, may be subject to certain conditions, pursuant to the provisions of Section 6-1300. The application for such modification shall include materials demonstrating how the modification will be used in the design of the project. In considering an application for such modification, the Board of Supervisors shall make findings that all of the following required standards have been met:
- (1) The modification shall achieve an innovative design, improve upon the existing regulations, or otherwise exceed the public purpose of the existing regulation.
  - (2) The modification shall not be for the primary purpose of achieving the maximum density on a site.

- (3) The modification shall not increase the danger to life and property due to increased slope destabilization.
- (4) The proposed use and/or structure associated with the modification request shall be located and designed to limit its susceptibility to slippage or slope failure, and alternative locations that would not be subject to slippage or slope failure shall not be available.
- (5) Land disturbance shall be limited to the minimum necessary to locate the proposed use and/or structure, and any disturbed areas that are not covered by paving, stone, or other solid materials shall be revegetated.
- (6) Clearing of vegetation within very steep slope areas shall be limited to the minimum necessary to locate the use.
- (7) Land disturbance within very steep slope areas with slopes greater than 50% shall not be permitted for any structure.
- (8) Land disturbance within very steep slope areas with slopes greater than 50% shall not be permitted unless the use, exclusive of any structure, is dependent on such very steep slope area (the use uniquely requires a site within an area of very steep slopes greater than 50%).
- (9) The proposed use and/or associated land disturbing activities associated with the modification request shall be setback at least one hundred (100) horizontal feet from either side of any ridgeline, unless the area within such setback is the location on the property with the least adverse impact to steep slope areas and the MDOD - Mountainside Development Overlay District.
- (10) The proposed use and/or associated land disturbing activities associated with the modification request shall be setback at least one hundred (100) horizontal feet from the first emergence of any perennial spring.

## **5-1509**

### **Administration of Performance Standards.**

- (A) **Zoning Permit Procedure.** Before the Zoning Administrator issues a zoning permit, the applicant shall furnish sufficient information to enable the Zoning Administrator to ensure that all performance standards and site development standards set forth in this ordinance can and will be complied with. The Zoning Administrator, in order to determine whether or not the applicant will meet such standards, may require the applicant to submit the following information:

- (1) A plot plan signed by the applicant and drawn to scale showing the location of all existing and proposed structures, drives, parking lots, waste disposal areas, bulk storage areas, streets, streams, or other significant features on or within two hundred (200) feet of the proposed site, not including public right-of-ways or easements.
  - (2) A description of the activity to be conducted regarding waste products, external effects or other conditions which are regulated herein; provided however, that the applicant shall not be required to reveal any trade secrets or sufficient detail with regard to a process which would cause any secret process or manufacturing procedure for a closely guarded proprietary compound or product to become public knowledge and be available to competitors.
  - (3) The type and location of abatement devices to control, or recording instruments to measure, conformance with required standards, not including devices and instruments which are inherent in the manufacturing process.
  - (4) Such other data and certification as may reasonably be required, in addition to the informational requirements of Section 6-1000, by the Zoning Administrator to reach a determination.
- (B) All information and evidence submitted in applications to indicate conformity to performance standards shall constitute a certification and an agreement on the part of the applicant that the proposed use can and will conform to such standards at all times.

## **5-1510**

### **Enforcement of Performance Standards.**

- (A) **Intent Concerning Determinations Involved in Administration and Enforcement of Performance Standards.** Determinations necessary for administration and enforcement of performance standards set forth in this article range from those which can be made by a reasonable person using normal senses and without the need for any equipment to those requiring great technical competence and complex equipment for precise measurement. It is the intent of this ordinance that:
- (1) Where determinations can be made by the Zoning Administrator or other County employee using equipment normally available to the County or obtainable without extraordinary expense, such determinations shall be so made before notice of violation is issued.
  - (2) Where technical complexity or extraordinary expense makes it unreasonable for the County to maintain the personnel or

equipment necessary for making difficult or unusual determinations, procedures shall be available for protecting individuals from arbitrary and capricious administration and enforcement of performance standard regulations and for protecting the general public from unnecessary costs for administration and enforcement.

- (B) **Simple Determinations.** If the Zoning Administrator finds that determinations of the nature indicated in Section 5-1510(A)(1) are adequate to demonstrate violations of performance standards in particular cases and if such violations exist, he shall take, or cause to be taken, such lawful action as is appropriate to cause correction of such violations. Failure to obey lawful orders concerning correction of such violations shall be punishable as provided generally for violations herein and in other laws or regulations affecting the case.
- (C) **Complex Determinations.** If the Zoning Administrator finds that determinations of the nature indicated in Section 5-1510(A)(2) are required to make precise measurements regarding potential violations of performance standards set forth herein and, if in his considered judgment, he believes there is violation of such performance standards, the following procedures shall be followed:
  - (1) **Notice and Answer.** The Zoning Administrator shall give notice by registered mail or other means insuring a signed receipt for such notice to the person or persons responsible for the alleged violation. The notice shall describe the particulars of the alleged violation and the reasons why the Zoning Administrator believes there is a violation and shall require an answer or correction of the alleged violation to the satisfaction of the Zoning Administrator within a time limit set by him, but not to exceed 60 days. The notice shall state, and it is hereby declared, that failure to reply or to correct the alleged violation to the satisfaction of the Zoning Administrator within the time limit set constitutes cause for the Zoning Administrator to proceed with enforcement, as provided in Section 6-500. The notice shall further state that, upon request of those to whom it is directed, technical determinations, as described in this ordinance, will be made and that if violations, as alleged, are found, costs of such determinations shall be charged against those responsible for the violation, in addition to such other penalties as may be appropriate. However, if it is determined that no violation exists, the cost of the determination will be paid by the County.
  - (2) **Correction of Violation.** If there is no reply within the time limit set, but the alleged violation is corrected to the satisfaction of the Zoning Administrator, he shall note "violation corrected"

on his copy of the notice, shall retain it among his official records and shall send a copy to the alleged violator, in addition to taking such other action as may be warranted.

- (3) **Action--Continuation of Violation.** If there is no reply within the time set (thus establishing admission of violation, as provided in Section 5-1510(C)(1)) and the alleged violation is not corrected to the satisfaction of the Zoning Administrator within the time limit set, he shall proceed to take, or cause to be taken, such action as is warranted by continuation of a violation after notice to cease.
- (4) **Time Extension.** If a reply is received within the time limit set indicating that the alleged violation will be corrected to the satisfaction of the Zoning Administrator but requesting additional time, the Zoning Administrator may grant an extension if he deems it warranted in the circumstances of the case and if the extension will not, in his opinion, cause imminent peril to life, health, or property. If the extension is not granted, the Zoning Administrator shall proceed to bring legal action, as provided in Section 6-500 of this Ordinance.
- (5) **Costs of Determinations--Responsibility.** If a reply is received within the time limit set requesting technical determination, as provided in this Ordinance, and if the alleged violations continue, the Zoning Administrator may call in properly qualified experts to make the determinations. If expert findings indicate violation of the performance standards, the costs of the determinations shall be assessed against the properties or persons responsible for the violation, in addition to such other penalties as may be appropriate under the terms of Section 6-500. If no violation is found, the costs of the determinations shall be paid by the County without assessment against the properties or persons involved.

**6-207**

**Records.** The BZA shall keep written records and minutes of all its proceedings, showing evidence presented, findings of fact by the BZA, and the vote of each member upon each question, or if absent or failing to vote, such fact.   - (C)      The BZA shall not be required to return the original papers acted upon by it but it shall be sufficient to return certified or sworn copies thereof or of such portions thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified.
  - (D)      If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a commissioner to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which a determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

- (E) Costs shall not be allowed against the BZA, unless it shall appear to the court that the BZA acted in bad faith or with malice in making the decision appealed from. In the event the decision of the BZA is affirmed and the court finds that the appeal was frivolous, the court may order the person or persons who requested the issuance of the writ of certiorari to pay the costs incurred in making a return of the record pursuant to the Writ of Certiorari.

## **Section 6-300**

### **Historic District Review Committee.**

- (2) The applicant's written responses to referral reports shall be completed in accord with the schedules in 6-1204(C), Table 1. Failure on the part of the applicant to respond within the timeframe specified in Table 1, Review Schedule, shall result in the suspension of the running of all time deadlines for any action on such application until the date of receipt of the applicant's response to all of the issues identified in the referral reports or the applicant's request to proceed to public hearing without further response.
- (3) Should the applicant's response to issues in the referral reports result in any additional application(s) (for example, a new special exception or modification), a materially revised traffic statement or an increase in the ultimate proposed build out of land uses, the

application shall be sent to agencies for review in accordance with the provisions of Sections 6-1204(A) through (C).

- (D) **Public Hearing Scheduled.** Upon receipt of the applicant's final response to all of the issues identified in the referral report(s), or the applicant's request to proceed to public hearing, the Director of Planning and Zoning shall proceed to prepare the report as specified in Section 6-1204(F), and shall schedule the application for a duly noticed public hearing with the Planning Commission.
- (E) **Required Action By Other Board.** In the event this Ordinance requires that an application not be granted until acted upon by some

government board or agency other than the Planning Commission or Board of Supervisors, then the Director of Planning and Zoning shall forward the application for amendment to such board or agency for appropriate action prior to the notification to an applicant that an application is ready to be presented to the Board of Supervisors or Planning Commission. - (F) **Report and Notice to Applicant.** The Director of Planning and Zoning shall compile the referral reports and applicant responses and any other necessary information, prepare a written staff report with proposed findings and a recommendation, and notify the applicant that the report is complete and the application is ready to be presented to the Board of Supervisors or Planning Commission, as appropriate, for hearing.

If such information or proposed change is determined to be substantial, the application will be considered to be an amended application and the applicant will be deemed by the submission of such additional information or proposed change to have requested and consented to an extension of the decision deadline required by law. If the application is determined to be an amended application, then within five (5) business days following such determination, the Director of Planning and Zoning will send a written notice to the applicant that the additional information or proposed changes will result in an automatic extension of the application decision deadline prescribed by law and such notice shall specify the date of such decision deadline. The applicant will then have five (5) business days to provide the Director with a written request to withdraw the additional information or proposed changes which necessitated the extension. If the applicant chooses to withdraw the additional information or proposed change, then the application will proceed based on its original timeline.

(B) **Changes to application After Public Hearing.** Any unsolicited, new information submitted by the applicant after the Planning Commission has completed its review or after the Board of Supervisors public hearing shall be subject to the provision of Section 6-1205(A) above. In addition, the Board may refer an application back to the Planning Commission and direct that such unsolicited information or any other previously un-submitted information be reviewed by the Commission. Any unsolicited information submitted by the applicant after the Planning Commission review is complete or after the Board of Supervisors public hearing shall result in a fifteen (15) calendar day automatic extension of the application decision deadline, unless such extension is reduced by the Director of Planning and Zoning.

**6-1206      Withdrawal of Application.** An application may be withdrawn upon written request by the applicant any time prior to the beginning of the Board of Supervisors public hearing on the application; provided, that if the request for withdrawal is made after such deadline, such withdrawal shall be permitted only with the consent of the Board of Supervisors. No new application concerning any or all of the same property which is substantially the same as the one withdrawn shall be filed within twelve (12) months of the date of withdrawal, unless the Board of Supervisors specifies at the time it consents to withdrawal that said time limitation shall not apply.

**6-1207      Limitation on Application After Denial.** After the official denial of an application, no new application concerning any or all of the same property, which is substantially the same as the one denied shall be filed within twelve (12) months of the date of denial.

**6-1208      Conditional Zoning.** As part of an amendment to the zoning map by legislative action, the County may adopt reasonable conditions governing the use of such property, as provided by the Virginia Code Section 15.2-2303, when proffered by the landowner in conformance with Section 6-1209, such conditions being in addition to, or modification of, the regulations provided for a particular zoning district by this Ordinance. However, for applications for rezoning or amendment to a zoning map subject to the provisions of Virginia Code Section 15.2-2303.4, the County shall accept only such reasonable conditions as are defined by and in accordance with Virginia Code Section 15.2-2297 that may not be deemed unreasonable as defined in Section 15.2-2303.4.

**6-1209      Proffered Conditions.** Proffered conditions in accordance with Section 6-1208 may include written statements, development plans, profiles, elevations, or other demonstrative materials and shall be subject to the procedures set out in, or established by resolution pursuant to Section 6-1203 and the following:

(A) **Contents and Timing of Proffers.** Proffered conditions shall be signed by all persons having an ownership interest in the property and

shall be notarized and submitted to the Director of Planning and Zoning prior to a public hearing before the Board of Supervisors. The Board of Supervisors may also accept amended proffers after the public hearing has begun if the amended proffers impose a more restrictive standard and do not materially affect the overall proposal. Proffered conditions shall contain a statement that the owners voluntarily enter into the conditions contained therein.

- (B) **Filing and Notice Of Accepted Proffers.** If the amendment to the Zoning Map is adopted subject to proffered conditions, then the property in question shall be appropriately annotated on the Zoning Map and the proffers shall be placed in the Zoning Administrator's official proffer file.
- (C) **Proffers Govern Development.** Proffered conditions shall become a part of the zoning regulations applicable to the property unless subsequently changed by an amendment to the Zoning Map, which amendment is not part of a comprehensive implementation of a new or substantially revised zoning ordinance, and such conditions shall be in addition to the specific regulations set forth in this Ordinance for the zoning district in question.
- (D) **Substantial Conformance Required.** Upon approval of a rezoning with proffers, any site plan, subdivision plat, development plan or other application for development thereafter submitted shall be in substantial conformance with all proffered conditions. No development shall be approved by any County official in the absence of said substantial conformance.
- (E) **Substantial Conformance Defined.** For the purpose of this Section, substantial conformance shall be determined by the Zoning Administrator and shall mean that conformance which leaves a reasonable margin for adjustment due to final design or engineering data but conforms with the general nature of the development, the specific uses, and the general layout depicted by the plans, profiles, elevations, and other demonstrative materials proffered by the applicant.
- (F) **Enforcement of Proffers.** The Zoning Administrator shall be vested with all necessary authority on behalf of the Board of Supervisors to administer and enforce proffered conditions. Such authority shall include the ability to order, in writing, the remedy of any noncompliance with a proffered condition and the ability to bring legal action to ensure compliance including injunction, abatement, or other appropriate action or proceedings, as provided for in Section 6-500 of this Ordinance. Any person, group, company, or organization aggrieved by an interpretation of the Zoning Administrator may appeal

such interpretation in accordance with Section 6-1209(I) of this Ordinance.

- (G) **Guarantee for Construction of Improvements.** A guarantee, satisfactory to the Board, may be required by the Zoning Administrator in an amount sufficient for and conditioned upon the construction, installation, provision or performance of any public improvements, site improvements, facilities or obligations required by the proffered conditions. This guarantee may be reduced or released by the Board or agent thereof, upon satisfactory evidence that the construction, installation, provision or performance of such improvements, facilities or obligations has been completed in whole or in part. Said guarantee shall be required prior to the approval of the applicable site plan or subdivision.
- (H) **No Permits Shall Be Approved Not In Compliance With Proffers.** Failure to meet or comply with any proffered conditions shall be sufficient cause to deny the approval of any site plan or subdivision, grading permits, zoning permits, building permits, or certificates of occupancy as may be determined appropriate by the Zoning Administrator. In addition to the other penalties appropriate for violations of this Ordinance, failure to meet or comply with any proffered condition shall be sufficient cause to deny the issuance of any development approvals or permits relating to the land area which was the subject of the conditional zoning. To this end, each application for a development approval or permit shall include an affidavit by the applicant that all applicable proffers have been or will be complied with as agreed upon at the time of rezoning. The burden shall be on the applicant to verify that proposed development complies with any and all proffered conditions.
- (I) **Appeal of Proffer Decision.** Any person aggrieved by a decision of the Zoning Administrator regarding any proffered condition may appeal such decision to the Board of Supervisors. Such appeal shall be filed within thirty (30) calendar days from the date of the decision appealed by filing a notice of appeal with the Zoning Administrator. Such notice shall be a written statement specifying the grounds on which aggrieved and the basis for the appeal and shall include the materials specified in Section 6-1209(J). Upon receipt of the appeal notice, the Board of Supervisors shall take such testimony as it deems appropriate and shall render its decision within ninety (90) calendar days after receipt of the appeal notice and following a public hearing. The Board of Supervisors may reverse or affirm wholly or partly or may modify the decision of the Zoning Administrator.
- (J) **Proffer Appeal Submission Materials.** Any appeal presented in accordance with the provisions of Section 6-1209(I) of this Ordinance

shall include the following materials within the thirty (30) calendar day filing time frame. The ninety (90) day timeline set forth in Section 6-1209(I) above shall not commence until all of the following are received by the Zoning Administrator and the Chairman of the Board of Supervisors:

  - (a) A copy of the decision or proffer determination which is the subject of the appeal.
  - (b) The date upon which the decision or determination being appealed was made.
  - (c) The grounds for the appeal.
  - (d) Specification as to how the appellant is an aggrieved person (for example, owner of property affected by the determination or adjacent owner affected by the determination, etc).
  - (e) Any additional supportive data such as plats, plans, drawings, charts or other related material desired to be included in the record.
- (2) An application fee in the amount set forth by resolution of the Board of Supervisors.

**(K) Proffer Amendment.**

- (1) Once accepted and incorporated into an approved amendment to the zoning map, there shall be no amendment or variation of any such proffered conditions, except as permitted under Section 6-1216(A), until after public hearings in accordance with the same process and procedures that applied to the review and approval of the original amendments to the zoning map. However, the Director of Planning and Zoning may modify the applicable schedule for agency comments (referrals) based on the complexity, scope or nature of the requested proffer amendment.
- (2) Notwithstanding subsection (K)(1), above, when an amendment to such proffered conditions is requested, the Board of Supervisors may waive the requirements for public hearing before the Planning Commission and Board provided that the requested amendment to the proffered conditions does not

affect conditions of use or density. In such cases, upon granting such waiver request, the requested amendment shall be referred to the Planning Commission for review. Staff and Planning Commission recommendations shall be provided to the Board of Supervisors within such period of time as specified by the Board of Supervisors at the time it grants the waiver. In granting the waiver, the Board shall require that written notice of such application be provided in the manner and to the persons as set forth in Virginia Code Sections 15.2-2204 and 15.2-2302 and Section 6-600 of this Ordinance; may establish a schedule for staff and Planning Commission review; and may approve a reduced fee reflecting the modified schedule.

**6-1210 Report by Planning Commission.**

- (B) **Planning Commission Recommendation.** The Planning Commission need not confine its recommendation to the proposed amendment as set forth in the application. If the proposed amendment consists of a change in the text of this ordinance, it may recommend a revision to the proposal. If the proposed amendment consists of a change in zoning district boundaries, it may reduce or enlarge the extent of land that it recommends be rezoned; or it may recommend that the land be rezoned to a different zoning district classification than that requested if, in either case, the Commission is of the opinion that such revision is in accordance with sound zoning practice and the adopted Comprehensive Plan, and is in furtherance of the purposes of this ordinance. Before recommending a larger extent of land or a rezoning to a more intensive classification than was set forth in the application, the Commission shall hold an additional duly noticed public hearing on the matter.
- (C) **Planning Commission Report.** In recommending the adoption of any proposed amendment to this Ordinance, the Planning Commission may state its reason for such recommendation, describing any changes in conditions, if any, that it believes make the proposed amendment advisable and specifically setting forth the manner in which, in its opinion, the proposed amendment would be in harmony with the adopted comprehensive plan and would be in furtherance of the purpose of this Ordinance.

(D) **Text Amendments.** If the request is for an amendment of the text of this Ordinance, the Planning Commission shall consider the following matters:

- (1) Whether the proposed text amendment is consistent with the Comprehensive Plan.
- (2) Whether the proposed text amendment is consistent with the intent and purpose of this Ordinance.

(E) **Zoning Map Amendments.** If the application is for a reclassification of property to a different zoning district classification on the Zoning Map, the applicant shall address all the following in its statement of justification or plat unless not applicable and the Planning Commission shall give reasonable consideration to the following matters:

- (1) Appropriateness of the proposed uses based on the Comprehensive Plan, trends in growth and development, the current and future requirements of the community as to land for various purposes as determined by population and economic studies and other studies and the encouragement of the most appropriate use of land throughout the locality.
- (2) The existing character and use of the subject property and suitability for various uses, compatibility with uses permitted and existing on other property in the immediate vicinity, and conservation of land values.
- (3) Adequacy of sewer and water, transportation, and other infrastructure to serve the uses that would be permitted on the property if it were reclassified to a different zoning district.
- (4) The requirements for airports, housing, schools, parks, playgrounds, recreational areas and other public services.
- (5) Potential impacts on the environment or natural features including but not limited to wildlife habitat, wetlands, vegetation, water quality (including groundwater), topographic features, air quality, scenic, archaeological, and historic features, and agricultural and forestal lands.
  - (a) For applications for rezoning or amendment to a zoning map subject to the provisions of Virginia Code Section 15.2-2303.4, any proposed on-site mitigation of those potential impacts.
  - (b) For applications for rezoning or amendment to a zoning map not subject to the provisions of Virginia Code

Section 15.2-2303.4, any proposed mitigation of those potential impacts.

(6) The protection of life and property from impounding structure failures.

(F) **Planning Commission Deadline.** Failure of the Planning Commission to report to the Board within one hundred (100) calendar days after the first meeting of the Commission following the date the proposed amendment has been referred to the Commission or such shorter period as the Board may direct shall be deemed a recommendation of approval by the Commission.

**6-1211 Hearing Before Board of Supervisors.** Except as provided in 6-1209(K), the Board of Supervisors shall hold a duly noticed public hearing regarding an application for a zoning amendment as soon as practicable following the Planning Commission's report of its recommendations.

**6-1212 Action by Board of Supervisors.** The Board of Supervisors need not confine its action to the proposed amendment as set forth in the application. If the proposed amendment consists of a change in the text of this ordinance, it may act on a revision to the application. If the proposed amendment consists of a change in zoning district boundaries, it may reduce or enlarge the extent of land that it rezones or it may rezone the land to a different zoning district classification than that requested if, in either case, it is of the opinion that such revision is in accordance with sound zoning practice and the adopted Comprehensive Plan and is in furtherance of the purposes of this Ordinance. Before rezoning a larger extent of land or rezoning the land to a more intensive use classification than was set forth in the public notice, the Board shall hold a further duly noticed public hearing on the matter.

**6-1213 Evidentiary Matters Before Board of Supervisors.** All information, testimony or other evidence presented by an applicant for zoning amendment shall be presented to the Planning Commission in conjunction with its review and hearing on the application. If the Board of Supervisors determines that an applicant is presenting evidence, including without limitation written statements, development plans, profiles, exhibits, studies, elevations, or other demonstrative materials, which is substantially or materially different from that presented to the Commission, the Board may refer the application back to the Commission for such additional consideration and action as the Board may deem appropriate.

**6-1214 Concept Development Plan.** An application for a zoning amendment shall include a Concept Development Plan and such additional information as the applicant may deem necessary to provide a detailed understanding of the proposed development. The Concept Development Plan shall be sufficiently detailed to be evaluated with respect to the criteria of 6-1210.

**6-1215**

**Contents of a Concept Development Plan.** The approved Concept Development Plan shall contain the following information, which shall apply to the project as a whole and to land bays within the project:

## **Section 6-1300**

### **Special Exception.**

- 6-1301 Purpose.** The special exception procedure is designed to provide the Board of Supervisors with an opportunity for discretionary review of requests to establish or construct uses or structures which have the potential for a deleterious impact upon the health, safety, and welfare of the public; and, in the event such uses or structures are approved, the authority to impose conditions that are designed to avoid, minimize or mitigate potentially adverse effects upon the community or other properties in the vicinity of the proposed use or structure. Any special exception or minor special exception approval granted by the Board of Supervisors shall be implemented in strict accordance with the conditions of approval of the special exception.
- 6-1302 Authorized Special Exception Uses.** Only those special exceptions or minor special exceptions that are expressly authorized as such in a particular zoning district, or elsewhere in this Ordinance may be approved. Further, no existing use shall hereafter be changed to another use that is designated as a special exception use in such district, and no approved special exception use shall be enlarged or expanded unless approval of a new special exception has been granted by the Board of Supervisors.
- 6-1303 Authorized Temporary Special Events.** An applicant for a special exception use or minor special exception use may include in the application a request for authorization of temporary special events that the applicant expects to regularly occur during the life of the special exception use. The applicant shall be specific about the expected types of special events, the expected number of events per calendar year, the expected duration of such special events, and the expected number of attendees per event. In addition, the applicant shall include all pertinent information necessary to show compliance with the standards and criteria set forth in Section 5-500(C) (Temporary Special Events) of this Ordinance. Review of the requested temporary special events shall occur concurrently with the review of the special exception or minor special exception use according to the procedures set forth in this Section 6-1300. All requested temporary special events that are submitted as part of a special exception or minor special exception use application shall be reviewed for compliance with the standards and criteria set forth in both this Section 6-1300 and Section 5-500(C). Temporary special events approved as part of a special exception use or minor special exception application are exempt from the procedural requirements for a temporary zoning permit stated in Section 5-500(C), but shall be subject to all other applicable standards in Section 5-500(C) including without limitation the minimum standards and criteria in Section 5-500(C)(6), limits on the duration of special events, and the maximum number of special events allowed in one calendar year.
- 6-1304 Review of Application.** The Board of Supervisors may permit a special exception or minor special exception as part of a zoning map amendment or by special exception procedures at any time after a zoning map amendment.

An application for a special exception shall be filed; contain such material as may be required; and be processed pursuant to the following:

- (A) **Pre-Application Conference.** Prior to filing an application, an applicant shall meet with the Director of Planning and discuss the applicant's intentions with regard to a given application and questions regarding the procedures or substantive requirements of this Ordinance. The Director of Planning may waive the pre-application conference requirement in cases where the Director finds that such waiver is not anticipated to affect the submission or review of the proposed application.
- (B) **Request to Waive Pre-Application Conference.** A request for a pre-application conference, or to waive the pre-application conference, shall be made in writing to the Director of Planning and shall be accompanied by a sketch map(s) of the site illustrating the location of proposed uses, a description of the proposed project or use, and a list of the issues to be discussed at the conference, or justification for the waiver. No matters discussed at said meeting shall be binding on either the applicant or the County. The Director of Planning shall respond to each written request for a pre-application conference or to waive the pre-application conference within five (5) business days.
- (C) **Acceptance of Complete Application (Checklist Review).** Only a complete application shall be accepted for review. A complete application is one which the Director of Planning has determined includes all minimum submission materials, studies and documents as may be established pursuant to Section 6-403 except that an application may be deemed complete if it contains documentation from the Director of Planning that a waiver of the submittal requirements has been granted with respect to any required item that has not been submitted. The County shall maintain a current log of all pending applications.
- (D) **Notice to Applicant.** Within fifteen (15) calendar days of receipt of an application for a minor special exception or special exception, the Director of Planning shall complete checklist review and either:
  - (1) Accept the application if it is complete and send notice to the applicant of acceptance; or,
  - (2) Notify the applicant that the application is incomplete or deficient, and send notice to the applicant and owner specifying the submission materials, studies or documents required in order for the application to be complete. The applicant may resubmit the same application, which shall include all documents with deficiencies corrected, in which event the

application will be reviewed in the same schedule as the original submittal.

- (3) If neither a notice of acceptance nor rejection is sent within fifteen (15) calendar days of submittal, the application shall be deemed accepted for the purposes of beginning the time limits of this Ordinance.

#### **6-1305 Staff Review of Application.**

- (A) **Referral.** Upon acceptance of the application for special exception or minor special exception, the Director of Planning shall forward a copy of the application to any town, any county, or any state agencies whose comments are necessary or desirable for full and appropriate review of the merits of the application.
- (B) **Referral Responsibilities.** Each county reviewing agency shall prepare and each town or state agency shall be asked to prepare a referral report which sets out in writing its comments and recommendations regarding the application and forward such referral report to the Director of Planning.
- (C) **Report to the Applicant.**
  - (1) Referral reports received by the Director of Planning shall be forwarded to the applicant
  - (2) If new information is received as part of the applicant's response to the initial referral reports, a second round of referrals may be requested by the Director of Planning from the reviewing agencies based on the applicant's response to the first referral reports. The referrals shall be forwarded to the Director of Planning.
  - (3) The running of the decision deadline time period for the application will be suspended from the date of transmittal of the second referral reports until the date of receipt by the Director of Planning of the applicant's response to all of the issues identified in the second referral reports or a written request from the applicant to proceed to public hearing without further response.
- (D) **Applicant Response and Subsequent Review.** The applicant shall respond in writing to all of the issues identified in the referral reports.
- (E) **Review Schedule.** The staff reviews outlined in Sections 6-1305(A) through (D) shall be completed in accord with the schedules in Table

- (F) **Applicant Response.** Upon receipt of the applicant's response to all of the issues identified in the second referral reports, the Director of Planning shall proceed to prepare the report as specified in Section 6-1305(H), and shall schedule the application for a duly noticed public hearing with the Planning Commission or Board of Supervisors, whichever is appropriate.
- (G) **Required Action by Other Board.** In the event this Ordinance requires that an application not be approved until acted upon by some government board or agency other than the Planning Commission or Board of Supervisors, then the Director of Planning shall forward the application to such board or agency for appropriate action prior to the notification to an applicant that an application is ready to be presented to the Board of Supervisors or Planning Commission.
- (H) **Staff Report and Notice to Applicant.** The Director of Planning shall compile the referrals and any other necessary information, prepare a written staff report with proposed findings and a recommendation, and notify the applicant that the report is complete and the application is ready to be presented to the Board of Supervisors or Planning Commission, as appropriate, for hearing.

**6-1306      Withdrawal of Application.** An application may be withdrawn upon written request by the applicant at any time prior to the beginning of the Board of Supervisors public hearing on the application provided that if the request for withdrawal is made after such deadline, such withdrawal shall be only with the consent of the Board of Supervisors. No new application, concerning any or all of the same property, which is substantially the same as the one withdrawn shall be filed within twelve (12) months of the date of withdrawal, unless the Board of Supervisors specifies at the time it consents to withdrawal that said time limitation shall not apply.

**6-1307      Limitation on Application After Denial.** After the official denial of an application, no new application concerning any or all of the same property, which is substantially the same as the one denied, shall be filed within twelve (12) months of the date of denial.

**6-1308      Hearings.** Applications for minor special exception or special exception shall be reviewed, considered, and approved, approved with conditions, or disapproved following public hearing as follows:

(A) **Minor Special Exception.** A duly noticed public hearing on an application for a minor special exception shall be held by the Board of Supervisors and a decision made by it within ninety (90) calendar days of the date on which the application was accepted. The County will use its best efforts to achieve an expedited review and decision time of less than (90) days for minor special exception applications, provided the applicant adheres to the minimum time frames described in this Section 6-1300.

(B) **Special Exception.**

- (1) The Planning Commission shall hold a duly noticed public hearing regarding an application for special exception and thereafter report its recommendation to the Board of Supervisors.
- (2) The Board of Supervisors shall hold a duly noticed public hearing regarding an application for a special exception as soon as practicable following the Planning Commission public hearing and not later than one hundred and twenty (120) calendar days of the date on which the application was accepted.

**6-1309**

**Issues for Consideration.** In considering a minor special exception or special exception application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification and plat unless not applicable, in addition to any other standards imposed by this Ordinance:

- (1) Whether the proposed minor special exception or special exception is consistent with the Comprehensive Plan.
- (2) Whether the level and impact of any noise, light, glare, odor or other emissions generated by the proposed use will negatively impact surrounding uses.
- (3) Whether the proposed use is compatible with other existing or proposed uses in the neighborhood, and on adjacent parcels.
- (4) Whether the proposed special exception or minor special exception adequately protects and mitigates impacts on the environmental or natural features including, but not limited to, wildlife habitat, vegetation, wetlands, water quality including groundwater), air quality, topographic, scenic, archaeological or historic features, and agricultural and forestal lands.

- (5) Whether the proposed special exception at the specified location will contribute to or promote the welfare or convenience of the public.
- (6) Whether the proposed special exception can be served adequately by public utilities and services, roads, pedestrian connections and other transportation services and, in rural areas, by adequate on-site utilities.

**6-1310 Conditions and Restrictions.** In approving a special exception or minor special exception, including any requested temporary special events, the Board of Supervisors may impose such conditions, safeguards and restrictions upon the premises benefited by the special exception or minor special exception as may be necessary to avoid, minimize or mitigate any potentially adverse or injurious effect of such special exception or minor special exception upon other property in the neighborhood, to address the issues for consideration listed in 6-1309, and to carry out the general purpose and intent of this Ordinance. Conditions and restrictions may include, but are not limited to, those related to fencing, planting or other landscaping, additional setbacks from property lines, location and arrangement of lighting, setting of reasonable time limitations, size, height and location of signs, and other reasonable requirements deemed necessary to safeguard the interest of the general public. The Board may require a guarantee or bond to ensure that conditions imposed will be complied with. All conditions of approval shall be set out in the documentation approving the special exception or minor special exception permit.

**6-1311 Effect of Approval of a Special Exception or Minor Special Exception.** The approval of a special exception or minor special exception shall not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure, but shall merely authorize the preparation, filing and processing of applications for any permits or approvals which may be required by the codes and ordinances of the County, including, but not limited to, a zoning permit, building permit, certificate of occupancy, and site plan and/or subdivision approval. Temporary special events approved as part of a special exception or minor special exception application are exempt from the requirements for a temporary use permit stated in Section 5-500(C).

**6-1312 Period of Validity.**

- (A) **Period of Validity.** Unless a longer period of validity is specifically approved as a part of such application, no special exception or minor special exception permit shall be valid for a period longer than five (5) years from the date on which the special exception was granted, unless within such five (5) year period: (1) a building permit is obtained and the erection or alteration of a structure is started and diligently pursued,

and (2) an occupancy permit is obtained and a use commenced. Such period of validity may be extended for good cause shown, provided that an application for such extension is submitted to the Board of Supervisors a minimum of thirty (30) calendar days before the expiration date. The special exception or minor special exception approval shall remain valid while such extension is being processed. Notice or hearing may but shall not be required for such Board action. Failure to request the extension in a timely manner shall cause the special exception or minor special exception to expire, without notice, on the expiration date. After expiration, the applicant may submit the application for the same special exception or minor special exception use as had been previously approved provided that such subsequent application shall comply with and be subject to the current application submittal requirements for a special exception or minor special exception, as applicable.

- (B) **Request For Extension of Period of Validity.** As a condition of approval, a special exception or minor special exception permit may be granted for a specific period of time less than five (5) years with expiration of the approval to occur at the termination of said period. In such case, an extension may be granted prior to expiration by the Board of Supervisors provided that an application for such extension is submitted to the Board of Supervisors a minimum of thirty (30) calendar days before the expiration date. Notice or hearing may but shall not be required for such Board action. The special exception or minor special exception approval shall remain valid while such extension is being processed. Failure to request the extension in a timely manner shall cause the special exception or minor special exception to expire, without notice, on the expiration date. After expiration, the applicant may submit the application for the same special exception or minor special exception use as had been previously approved provided that such subsequent application shall comply with and be subject to the current application submittal requirements for a special exception or minor special exception, as applicable.
- (C) **Compliance With All Conditions Required.** If upon considering such request for extension, it is determined that the use is not in compliance with all conditions and restrictions previously imposed by the Board of Supervisors, the request for an extension made pursuant to (A) or (B), above, shall be denied or the remedy of any violation shall be required within a specified time. If the request for extension is denied or the Zoning Administrator determines that the applicant has failed to correct the noncompliance within the time frame specified by the Board of Supervisors, the special exception or minor special exception shall expire and the approval of a new special exception or minor special exception, as applicable shall be required prior to any

subsequent reinstatement of the use. If it is determined that the use is no longer allowed as a special exception use in the zoning district in which located, the request shall be denied and the special exception or minor special exception shall expire.

**6-1313**

**Status of Special Exception Uses.** Once a special exception or minor special exception has been approved, any application for approval of a site plan, subdivision plat, building permit, or occupancy permit thereafter submitted for the development or use of the property in accordance with the special exception or minor special exception shall be in substantial conformance with the approved special exception or minor special exception, and no development or use shall be approved by any County official in the absence of such conformance. Once established, the use, including any approved temporary special events, shall be conducted in substantial conformance with any conditions or restrictions imposed by the Board and all other requirements of this Ordinance.

- (A) **New Special Exception Required.** Except as provided in Section 6-1314, no use shall be enlarged, expanded, increased in intensity or relocated and no condition of the special exception or minor special exception shall be modified unless an application is made and approved for a new special exception or minor special exception.
- (B) **Accessibility Improvements.** Notwithstanding the above, any modification to an approved and currently valid special exception or minor special exception necessary to provide an accessibility improvement, as required by the Americans with Disabilities Act or the Commonwealth of Virginia, shall be permitted and shall not require a new special exception or minor special exception provided that the Zoning Administrator finds the proposed modification is necessary to comply with said Act.

**6-1314**

**Modifications to Approved Special Exceptions.**

- (A) **Minor Modifications.** The Zoning Administrator may permit minor modifications to an approved special exception or minor special exception when it is determined by the Zoning Administrator that such minor modifications are reasonably necessary to address issues related to topography, drainage, underground utilities, structural safety, final engineering, vehicular circulation, or requirements of government agencies. Such modifications may also permit:
  - (1) The addition of accessory buildings clearly subordinate to the approved special exception or minor special exception use(s);
  - (2) Realignment of principal buildings and parking areas within an approved building envelope; or

- (3) Minor additions to principal buildings and corresponding additions to parking areas; provided that the cumulative total of all building additions shall not exceed five (5) percent of the existing gross floor area of the approved special exception or minor special exception use(s); and shall not exceed the maximum permitted FAR for the zoning district.

(B) **Notice Requirements.** Any request for a minor modification to an approved special exception or minor special exception other than pursuant to Section 6-1313(B) shall require that written notice:

- (1) Be sent to the last known address of the owners (as shown in the Loudoun County real estate assessment records), of all property abutting and across the street from the site, or portion thereof, which is the subject of the request. If the subject property is included within an incorporated owners' association, then such notice shall also be sent to such owners' association (at the address on file with the State Corporation Commission.) Such notice shall be delivered by hand or sent by certified mail;
- (2) Such notice shall include the letter of request with all attachments as submitted to the Zoning Administrator, a statement that the request has been submitted, and whom to call at the County for additional information; and
- (3) Prior to approval, of such minor modification an affidavit that the required notice as set forth in this subsection has been sent shall be filed with the Zoning Administrator.

**Section 6-1400            Cluster Developments in Suburban Residential Districts.**

**6-1401            Authority.** Where cluster development is listed as a permitted use in zoning districts, the approval for a cluster development proposal is pursuant to the provisions of this Section.

**6-1402            Purpose.** The purpose of cluster development is to promote flexibility of subdivision layout and design, with attendant cost savings and open space preservation.

**6-1403            Cluster Development Limitations.**

- (A) Cluster approval may be applied only to residential uses.
- (B) No deviation from the overall allowed density or height specified in the applicable zoning district is permitted.
- (C) Cluster developments shall consist of at least ten (10) dwelling units except that cluster developments that are found by the Planning Commission to be an extension of an existing or approved cluster development may contain fewer dwelling units.
- (D) Cluster developments shall not be permitted in the R-16, or R-24 Districts.
- (E) Only those modifications and variations of yard, lot size, lot width and lot coverage requirements will be permitted as are shown on the preliminary subdivision and record plat.
- (F) All dwellings and other habitable buildings shall be served with public sewer and water facilities.

**6-1404            Cluster Open Space Requirements.**

- (A) In each district in which cluster development is allowed, the lot requirements may be reduced to the extent provided in the applicable district. All land not included within lots or required for public or private streets shall be maintained as common open space.
- (B) Common open space shall generally be designed to constitute a contiguous and cohesive unit of land which may be used for active or passive recreation by residents and shall be reasonably accessible to all permitted uses and all residential units within the development.
- (C) All common open space shall be permanently reserved, managed, and maintained as open space by a means acceptable to the Board of Supervisors.

- (1) Open space or common areas within cluster residential developments may be offered for dedication to the public at the time of application. The Board of Supervisors or other appropriate public body acceptable to the Board of Supervisors may accept such dedication upon a finding that the size, location, type of development or cost of development or maintenance of such open space or common area or the availability of public open space would make public use desirable or necessary.
  - (2) Common open space not dedicated to public use shall be protected by legal arrangements satisfactory to the Board of Supervisors sufficient to assure its maintenance and preservation for its intended purpose. Covenants or other legal arrangements shall specify ownership of the common open space; method of maintenance, responsibility for maintenance, taxes and insurance, compulsory membership and compulsory assessment provisions, guarantees that any association formed to own and maintain cluster open space will not be dissolved without the consent of the Board of Supervisors, and any other specifications deemed necessary by the Board of Supervisors.
- (D) No land considered to be major floodplain shall be considered in calculating the amount of common open space provided in a cluster.

**6-1405**

**Considerations of Review.** In reviewing an application for cluster development, consideration shall be given to the following goals:

- (A) That individual lots, buildings, streets, and parking areas are designed and situated to maximize open space minimize alteration of natural site features, and reduce the construction of roads and other impervious surfaces.
- (B) That cluster open space shall include and retain, to the extent feasible, natural features located on the tract such as, stream beds, significant stands of trees, and individual trees of a significant size.
- (C) That cluster open space intended for a recreation or public use is accessible to pedestrians.
- (D) The relationship of the cluster and cluster open space to surrounding properties.

## **Section 6-1500**

### **Rezoning to Planned Development (PD) Districts.**

- 6-1501**      **Authority.** By ordinance duly enacted by the Board of Supervisors, the rezoning of land to Planned Development districts may be approved subject to the procedures and considerations in this Section for approval of a Concept Development Plan as they may supplement those of Section 6-1200.
- 6-1502**      **Purpose.** The provisions of this Section establish special procedures for approving Concept Development Plans for planned development districts. The procedures herein established are in recognition of the fact that traditional density, bulk, spacing and use regulations, which may be useful in protecting the character of substantially developed areas, may impose inappropriate and unduly rigid restrictions upon the development of parcels or areas which lend themselves to a unified, planned approach. A Planned Development should be designed to ensure that the following general goals will be achieved.
- (A)      The proposed development shall be of such design that it will promote achievement of the stated purposes of the Comprehensive Plan and is consistent with the Plan as well as other adopted plans and policies of the County.
  - (B)      The development will efficiently use available land and will protect and preserve, to the extent possible, natural features of the land such as trees, streams and topographic features.
  - (C)      The development will be located in an area in which transportation, police and fire protection, schools and other public facilities and public utilities, including water and sewerage, are or will be available and adequate for the uses proposed. The applicant may, where appropriate, make provision for such facilities or utilities which are not presently available.
- 6-1503**      **Application.** An application for rezoning to a planned development district shall be filed, contain such information, and be processed pursuant to the provisions of Section 6-1200 of this Ordinance, as that Section may be supplemented by this one.
- 6-1504**      **Optional Joint Approvals.** At the applicant's option, an application for site plan and/or preliminary subdivision plat approval may be submitted in conjunction with an application for a rezoning to a Planned Development district. In such case, the applications shall be reviewed together pursuant to their respective standards, the time limits for rezoning shall apply to the joint application, and no approval of a site plan or preliminary subdivision plat shall be effective unless and until the application for rezoning to planned development has been approved by the Board of Supervisors. The application for site plan and/or subdivision approval may be for the entire planned

development site or for a phase thereof which is consistent with the phasing plan ultimately adopted by the Board.

**6-1505**

## **Division E: Procedures Before Board of Zoning Appeals**

### **Section 6-1600**

#### **Variances.**

- 6-1601**      **Jurisdiction and Authority.** Upon application, the Board of Zoning Appeals (BZA) shall exercise the jurisdiction and authority to grant a variance from the literal terms of this Ordinance in accordance with the procedures, standards, and limitations contained in this Section. This authorization shall not be construed to grant the BZA the power to rezone property.
- 6-1602**      **Authorized Variances.** Variances, defined as reasonable deviations from the regulations and restrictions contained in this Ordinance, may be granted by the Board of Zoning Appeals only in the following instances and in no others:
- (A)      A variance from those provisions regulating the size or area of a lot or parcel of land.
  - (B)      A variance from those provisions regulating the size, area, bulk, setback, open space, yards, or location of a building or structure.
- 6-1603**      **Unauthorized Variance.** The BZA shall not be empowered to grant a variance from any of the provisions of this Ordinance relating to the use or density of land, buildings or structures. Nor shall the BZA grant a variance for any use or activity within the FOD - Floodplain Overlay District (Major Floodplain) if any increase in the base flood elevation, as such term is defined in Section 4-1503, would result.
- 6-1604**      **Application for Variance.** Any person owning property, or having a possessory or contract interest in property and the consent of the owner, may file an application for variance in regard to such property with the Zoning Administrator for one or more of the variances authorized above. The application shall contain the following information and such additional information as the Board of Zoning Appeals may, by rule, require or as may be required by Section 6-403:
- (A)      The particular provisions or requirements of this Ordinance which prevent the proposed construction on, or use of, the property.
  - (B)      The existing zoning of the property, including any previously approved modifications, conditions, or proffers.
  - (C)      The special conditions, circumstances or characteristics of the land, building or structure that prevent the use of the land in compliance with the requirements of this Ordinance.
  - (D)      The particular hardship which would result if the specified provisions or requirements of this Ordinance were to be applied to the subject property.

- (E) The extent to which it would be necessary to vary the requirements of this Ordinance in order to permit the proposed construction on, or use of, the property.
- (F) An explanation of how the requested variance conforms to each of the applicable standards set out in Section 6-1607.
- (G) A plat of the property that has been prepared by a licensed, certified land surveyor, or other licensed professional operating within the scope of his or her license. For properties containing one acre or more, the applicant may petition the Zoning Administrator to request that this requirement be reduced to a survey of the portion of the property for which the variance is sought.

#### **6-1605**

**Decision on Variance Application.** Upon receipt of a complete application for a variance, the Zoning Administrator shall notify the BZA which shall, within ninety (90) days, hold a duly noticed public hearing thereon. Such public hearing shall be advertised in the manner provided by Section 15.2-2204 of the Code of Virginia, and in addition, the property shall be posted in conformity with Section 6-601(B). The BZA shall, after such hearing, either approve, deny or approve with conditions the application for a variance. Its decision shall be supported by findings of fact and conclusions with respect to the standards of Section 6-1607. No such variance shall be granted by the BZA unless it makes all of the following required findings:

- (A) The strict application of this Ordinance would produce undue hardship to the property owner.
- (B) Such hardship is not shared generally by other properties in the same zoning district and the same vicinity.
- (C) Such variance is not contrary to the public interest nor to the intended spirit and purpose of this Ordinance.
- (D) The granting of such variance will not be substantial detriment to adjacent property nor change the character of the zoning district in which the property is located.
- (E) Such variance would result in substantial justice being done.
- (F) The condition or situation of the property which gives rise to the need for such variance is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to this Ordinance.

#### **6-1606**

**Planning Commission Recommendation.** The Zoning Administrator may transmit a copy of the application to the Planning Commission which may send a recommendation to the BZA or appear as a party at the hearing.

- 6-1607 Standards for Variances.** The Board of Zoning Appeals shall base its required findings upon the particular evidence presented to it in each specific case where the property owner can show that:
- (A) The strict application of the terms of this Ordinance would effectively prohibit or unreasonably restrict the utilization of the property because of:
    - (1) The exceptional narrowness, shallowness, size, or shape of the property at the time of the effective date of this Ordinance, or
    - (2) The exceptional topographic conditions or other extraordinary situations or condition of the property, or
    - (3) The condition, situation, or development of property immediately adjacent thereto;
  - (B) The granting of such variance will alleviate a clearly demonstrable hardship approaching confiscation, as distinguished from a special privilege or convenience sought by the applicant.
  - (C) The property was acquired in good faith.
  - (D) Satisfactory evidence exists to support all of the required findings of Section 6-1605.
- 6-1608 Burden of Applicant.** The applicant for a variance shall bear the burden of producing evidence to support the required findings of Section 6-1605 and to establish that the requested variance satisfies the Standards for a Variance of Section 6-1607.
- 6-1609 Conditions and Restrictions.** The BZA may impose such conditions and restrictions upon the location, character and other features of the proposed structure or use as it may deem necessary in the public interest and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with. Failure to comply with any such conditions and restrictions shall constitute a violation of this Ordinance.
- 6-1610 Withdrawal of Application.** A variance may be withdrawn by the applicant at any time prior to the deadline for cancellation of the newspaper advertisement for the public hearing on the application. After said deadline, an application may be withdrawn only with the permission of the BZA.
- 6-1611 Re-Application.** If a variance is denied by the BZA on the merits, no application requesting the same relief with respect to all or part of the same property shall be considered by the BZA within twelve (12) months after the date of such denial.
- 6-1612 Special Exceptions for Errors in Building Location.** As provided in Section 6-206(D) of this Ordinance, the BZA may hear and approve special exceptions for errors in building location, to include encroachments into minimum yard

requirements, setbacks and other requirements herein regulating building location, in the case of any building existing or partially constructed which does not comply with such requirements applicable at the time such building was erected.

- (A) The special exception may be approved if the BZA finds that:
  - (1) The noncompliance was done in good faith, or through no fault of the property owner, or was the result of an error in location of the building subsequent to the issuance of a building permit, if such was required; and
  - (2) Such reduction will not impair the purpose and intent of this Ordinance; and
  - (3) It will not be detrimental to the use and enjoyment of the other property in the immediate vicinity; and
  - (4) It will not create an unsafe condition with respect to both other property and public streets, and
  - (5) To force compliance with the minimum yard requirements would cause unreasonable hardship upon the owner, and
  - (6) The reduction will not result in an increase in density or floor area ratio from that permitted by the applicable zoning district regulations.
- (B) In approving such a reduction under the provision of this Section, the BZA shall allow only a reduction necessary to provide reasonable relief and, as deemed advisable, may prescribe such conditions, to include landscaping and screening measures to assure compliance with the intent of this Ordinance.
- (C) Upon the approval of a reduction for a particular building in accordance with the provisions of this Section, the same shall be deemed to be a lawful building.
- (D) The BZA shall have no power to waive or modify the standards necessary for approval as specified in this Section.

**6-1613 Special Exceptions for Errors in Very Steep Slope Areas.** As provided in Section 6-206(H) of this Ordinance, the BZA may hear and approve special exceptions for Errors in structure location within Very Steep Slope Areas, when such error is an encroachment that does not exceed 2,000 square feet of land-disturbing activity within the Very Steep Slope Area, as defined in Section 5-1508(C)(1)(a), and is associated with a structure or use listed in Section 5-101(A) that is attached to a principal residential structure, and no portion of the principal structure is located within the Very Steep Slope Area.

- (A) The special exception may be approved if the BZA finds that:
- (1) Activities associated with the removal of the attached building, structure, or use would result in a net negative environmental impact, as demonstrated by applicable information and/or reports/studies requested by the Zoning Administrator, such as, but not limited to: 1) geotechnical study, 2) geophysical study, 3) preliminary soils review, 4) site plan, 5) grading plan, 6) structural analysis, 7) U.S. Army Corps of Engineers approved wetland delineation, 8) tree cover inventory, 9) Phase 1 archeological study, 10) rare, threatened, and endangered species survey, and 11) mitigation plan; and
  - (2) The noncompliance was done in good faith, or through no fault of the property owner, or was the result of a good faith error in location subsequent to the issuance of a building permit, if such was required; and
  - (3) The noncomplying structure was constructed in a manner that will protect life and property from hazards due to slope, unstable and erodible soils, earth movement, and other geologic and hydrologic hazards; and
  - (4) The noncomplying structure was constructed in a manner that does not increase the potential for increased erosion, sedimentation, and surface runoff, and the resulting adverse impacts on water quality; and
  - (5) The noncomplying structure was constructed in a manner that preserves the visual quality of steep slope areas; and
  - (6) The noncomplying structure will not be detrimental to the use and enjoyment of other property in the immediate vicinity.
- (B) In approving such encroachment under the provision of this Section, the BZA may prescribe conditions to assure compliance with the intent of this Ordinance, such as, but not limited to: 1) reforestation, 2) stabilization treatment, 3) landscaping and screening measures, and 4) water quality measures.
- (C) Upon the approval of a special exception pursuant to this section for a particular structure or use attached to a principal residential structure in accordance with the provisions of this Section, the same shall be deemed to be lawful.
- (D) The BZA shall have no power to waive or modify the standards necessary for approval as specified in this Section.

## Section 6-1700

### Appeals.

- 6-1701 Appeals from Administrative Ruling.** The Board of Zoning Appeals is authorized to hear appeals from any order, requirement, decision or determination made by the Zoning Administrator in the administration or enforcement of this Ordinance. In this capacity the Board exercises appellate jurisdiction as a quasi-judicial body, and its task is to determine what the Ordinance means and how the Ordinance applies to a particular fact situation.
- 6-1702 When Appeals May Be Taken.** Appeals to the BZA may be taken by any person aggrieved or by any officer, department, board or agency of the County affected by any decision of the Zoning Administrator or from any order, requirement, decision or determination made by any other administrative officer in the administration or enforcement of this Ordinance. Appeals shall be taken within thirty (30) days after the decision has been rendered, with the exception that appeals shall be taken within ten (10) days after the issuance of a Notice of Violation for any violation of this Ordinance classified as a short term, recurring zoning violation. Appeals shall be taken by filing with the Zoning Administrator from whom the appeal is taken and with the chairman of the BZA a notice of appeal specifying the grounds of the appeal, to include the materials set forth in Section 6-1707 below. The Zoning Administrator shall forthwith forward to the chairman of the BZA all the papers constituting the record upon which the action appealed from was taken.
- 6-1703 When Appeals to Stay Proceedings.** A notice of appeal properly filed as herein provided shall stay all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the BZA that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed except by a restraining order which may be granted by the BZA or by a proper court order on notice to the Zoning Administrator and for good cause shown.
- 6-1704 Decisions on Appeal.** Within ninety (90) days after the notice of appeal has been filed, the BZA shall hold a public hearing, give public notice thereof required by Section 15.2-2204 of the Code of Virginia as well as due notice to the parties in interest, decide the appeal, and file with the Zoning Administrator its findings of fact and conclusions with respect to the appeal. The Zoning Administrator shall serve a copy of the decision on the appellant and upon each other person who was a party of record at the hearing. In exercising its powers, the BZA may reverse or affirm, wholly or partly, or may modify the decision appealed from. The concurring vote of a majority of BZA members shall be necessary to reverse a decision.
- 6-1705 Withdrawal of Application.** An appeal may be withdrawn by the appellant at any time prior to the deadline for cancellation of the newspaper advertisement for the public hearing on the application. After said deadline, an appeal may be withdrawn only with the permission of the BZA.

**6-1706**      **Proceedings to Prevent Construction of a Building.** Where a building permit has been issued and the construction of the building for which such permit was issued is subsequently sought to be prevented, restrained, corrected or abated as a violation of the zoning ordinance, by suit filed within fifteen days after the start of construction by a person who had no actual notice of the issuance of the permit, the court may hear and determine the issues raised in the litigation even though no appeal was taken from the decision of the Zoning Administrator to the Board of Zoning Appeals.

**6-1707**      **Submission of Appeal.** Any appeal submitted in accordance with the provisions of Section 6-1702 of this Ordinance must include the following materials within the thirty (30) day filing time frame before the appeal is considered to be filed. The ninety (90) day timeline set forth in Section 6-1704 above shall not commence until all of the following are received by the Zoning Administrator and the Chairman of the Board of Zoning Appeals:

- (A) Two copies of a completed application form signed by the appellant or appellant's representative, accompanied by the following information:
  - (1) A copy of the order, requirement, decision, determination or notice of violation which is the subject of the appeal.
  - (2) The date upon which the decision being appealed was made.
  - (3) The grounds for the appeal.
  - (4) Specification as to how the appellant is an aggrieved person (for example, owner of property affected by the determination or adjacent owner affected by the determination, etc).
  - (5) Any additional supportive data such as plats, plans, drawings, charts or other related material desired to be included in the record.
- (B) An application fee in the amount set forth by resolution of the Board of Supervisors.

- (D) No reapplication for essentially the same purpose shall be reviewed by the HDRC within one (1) year of denial of any applications hereunder except in cases where the application has been brought into compliance with the Historic District Guidelines pursuant to the recommendations set forth by the HDRC in an earlier denial of said application.

**6-1904 Criteria for Certificate of Appropriateness.** The HDRC shall base its decision to approve or deny a CAPP on whether the proposals therein are architecturally compatible with the other buildings, structures, sites, or landmark located within the subject Historic District. In applying such standard, the HDRC shall not consider interior arrangement, but shall consider factors to include, without limitation, the following:

- (A) Exterior architectural features, including all signs.
- (B) General design, scale, and arrangement.
- (C) Texture and material.
- (D) The relationship of (A), (B), and (C), above, to other structures and features of the subject Historic District.
- (E) The purposes for which the subject Historic District was created.
- (F) The relationship of the size, design, and siting of any erected, reconstructed, altered, moved, or restored structure to the landscape of the subject Historic District.

- (G) The extent to which the denial of the Certificate of Appropriateness would constitute a deprivation to the owner of a reasonable use of his property.
- (H) The extent to which the proposal adheres to the Historic District Guidelines for the subject Historic District

## **6-1905**

### **Required Maintenance and Demolition by Neglect.**

- (A) The owner or the person in charge of any building or structure located within a Historic District shall:

  - (2) Prevent any deterioration to such building or structure that may result in a loss of its structural integrity, cause any unsafe or hazardous condition, or produce a detrimental effect upon the character of the Historic District or the life and character of the building or structure, such deterioration to include, without limitation, the following:
    - (a) Deterioration of any exterior appurtenance or architectural feature.
    - (b) Deterioration of exterior walls or other structural supports.

    - (g) Poorly maintained landscaping or plant overgrowth, to include, without limitation, dead overhanging trees or limbs, or roots, or invasive tendrilled climbing vines, causing, or which may cause, damage or deterioration.
- (B) The owner or the person in charge of any fence, wall, or sign within a HR District shall maintain such fence, wall, or sign in good condition, and reasonably protected against decay and deterioration.
- (C) The County may institute appropriate procedures for the acquisition of any building or structure which remains in a substantially deteriorated or

deteriorating condition following notice to the owner thereof that he is in violation of Section 6-1905(A) of this Ordinance.

**6-1906**

**Right to Raze or Demolish.**

(A) **Conditions and Procedures.** The owner of any historic landmark, building, or structure located within a Historic District shall, as a matter of right, be entitled to raze or demolish such historic landmark, building, or structure provided that:

- (1) The owner has submitted an application for a CAPP to raze or demolish such historic landmark, building, or structure;
- (2) The owner has, for a period of time set forth in the time schedule hereinafter contained and at a price reasonably related to its fair market value, made a bona fide offer to sell such historic landmark, building, or structure and the land pertaining thereto to any person, firm, corporation, government, or agency thereof, or political subdivision or agency thereof, which gives reasonable assurance that it will preserve and restore the historic landmark, building, or structure and the land pertaining thereto.
- (3) No bona fide contract, binding upon all parties thereto, shall have been executed for the sale of any such historic landmark, building, or structure, and the land pertaining thereto, prior to the expiration of the applicable time period as set forth in the time schedule below. Any appeal which may be taken to the Court, in accordance with Section 6-1909 of this Zoning Ordinance shall not affect the right of the owner to make a bona fide offer to sell. No offers to sell shall be made more than one year after a final decision by the HDRC, but thereafter the owner may renew their request to the HDRC to approve the razing or demolition of the historic landmark, building, or structure. The time schedule for offers to sell shall be as follows:

<b>Offering Price</b>	<b>To Sell Period</b>
Less than \$25,000	3 months
\$25,000 or more but less than \$40,000	4 months
\$40,000 or more but less than \$55,000	5 months
\$55,000 or more but less than \$75,000	6 months
\$75,000 or more but less than \$90,000	7 months
\$90,000 or more	12 months

(B) **Bona Fide Offer to Sell; Procedures for Filing Notice of Offer and Questioning Price.** Before making a bona fide offer to sell as provided for in this Section, an owner shall first file a notice with the Zoning Administrator, or the Zoning Administrator's designee. The notice shall identify the property, state the offering price, the date the offer of sale is

to begin and name and address of the listing real estate agent, if any. The notice shall provide reasonable assurances that the historic landmark, building, or structure shall be preserved. No time period set forth in the time schedule contained in this Section shall begin to run until said notice has been filed. Within five days of receipt of a notice, copies of the notice shall be delivered to the HDRC.

- (C) **Question as to Price.** The fact that a historic landmark, building, or structure has been offered for sale at a price reasonably related to its fair market value may be questioned, provided there is filed with the HDRC on or before 15 days after the offer of sale has begun, a petition in writing signed by at least five persons owning real estate in the vicinity of property offered for sale. Alternatively the HDRC may question said price on its own motion. Upon receipt of such petition, or upon its own motion, the HDRC shall, at the expense of the County, appoint three disinterested real estate appraisers, familiar with property values in Loudoun County, who shall forthwith make an appraisal of the historic landmark, building, or structure in question and file a written report with the HDRC stating whether or not the offer to sell the historic landmark, building, or structure is at a price reasonably related to its fair market value. The concurring opinion of any two of the three appraisers shall be final and binding. In the event the opinion is to the effect that the offer to sell the historic landmark, building, or structure is at a price reasonably related to its fair market value, the owner may continue to offer the property for sale pursuant to this Section. In the event the opinion is to the effect that the offer to sell the historic landmark, building, or structure is not at a price reasonably related to its fair market value, the date of the offer to sell first established pursuant to this Section shall be void and the owner, if he wishes to take advantage of the right provided in said Section, must re-file the notice provided for above.

Notwithstanding an adverse opinion by the appraisers if an owner has entered into a binding bona fide contract as provided in this Section 6-1906 prior to the date the appraisers have filed their report with the HDRC, the price shall be deemed reasonably related to the fair market value.

## 6-1907

### Hazardous Conditions

- (A) **Landmarks, Buildings, or Structures.** Nothing in this section shall prevent the razing or demolition of any historic landmark, building, or structure within a Historic District which is in such an unsafe condition that it would endanger life or property as determined, in writing verifying the conditions necessitating such action, by the Building Official, in accordance with Chapter 1410 of the Codified Ordinances of Loudoun County, as amended.
- (B) **Walls, Fences, and Signs.** Walls, fences, and signs within a Historic District may be razed or demolished without approval by the HDRC, if it is in such unsafe condition that it would endanger life or property as

determined by the Zoning Administrator, or the Zoning Administrator's designee.

**6-1908      Enforcement.** In addition to the remedies provided in Section 6-500 et seq. of the Zoning Ordinance, the Zoning Administrator, or the Zoning Administrator's designee, shall have the authority to order that work be stopped, and that all CAPPs, CAPAs, or other permits for the work being performed on a building or structure located within a Historic District be revoked, or if no CAPP, CAPA, or other permit has been approved, to require the approval of the necessary CAPP or CAPA prior to the continuation of work on said building or structure.

**6-1909      Appeals.**

**(A)      Appeal from Zoning Administrator to HDRC.**

- (1) In lieu of any appeal pursuant to Section 6-1700 et seq., any person aggrieved by any decision of the Zoning Administrator, or the Zoning Administrator's designee, in the administration or enforcement of Section 6-1900 et seq., may appeal such decision to the HDRC. Appeals shall be taken within thirty (30) days from the date of the decision by filing with the Zoning Administrator, or the Zoning Administrator's designee, a notice of appeal specifying the grounds of the appeal, submitted in accordance with Section 6-1707 of the Zoning Ordinance. The Zoning Administrator, or the Zoning Administrator's designee, shall forthwith forward to the chairman of the HDRC all materials constituting the record upon which the decision appealed was taken.
- (2) In considering an appeal of a decision of the Zoning Administrator, or the Zoning Administrator's designee, the HDRC shall review the decision as if the decision had come before it in the first instance. In an appeal, the HDRC may consider any information or opinions relevant to the application, including, without limitation, those provided by the Zoning Administrator, or the Zoning Administrator's designee.

**(B)      Appeals from HDRC to Board of Supervisors.**

- (1) Appeals to the Board of Supervisors may be taken by any person aggrieved by any final decision of the HDRC in the administration or enforcement of Section 6-1900 et seq. Appeals shall be taken within thirty (30) days from the date of the decision by filing with the Zoning Administrator, or the Zoning Administrator's designee, a notice of appeal specifying the grounds of the appeal, in accordance with Section 6-1707 of the Zoning Ordinance. The Zoning Administrator, or the Zoning Administrator's designee, shall forthwith forward to the Clerk of the Board of Supervisors all the materials constituting the record upon which the action appealed from was taken.

- (2) A notice of appeal properly filed as herein provided shall stay the final decision of the HDRC; provided, however, that the appellant shall be prohibited from taking any action for which approval is sought pending the outcome of the appeal to the Board of Supervisors.
- (3) Within ninety (90) days after the notice of appeal has been filed, the Board of Supervisors shall hold a public hearing, give public notice thereof as required by Section 15.2-2204 of the Code of Virginia, as amended, as well as due notice to the parties in interest. In exercising its powers, the Board of Supervisors shall give due consideration to the decision of the HDRC and Sections 6-1800 et seq. and 6-1900 et seq. of the Zoning Ordinance, and may reverse or affirm, wholly or partly, or may modify the decision appealed from. The Zoning Administrator, or the Zoning Administrator's designee, shall provide a copy of the decision to the appellant and upon each other person who was a party of record at the hearing.

#### **6-1910**

**Appeals from Board of Supervisors to Circuit Court.** Any person aggrieved by any final decision of the Board of Supervisors made pursuant to Section 6-1909(B) of the Zoning Ordinance, may appeal to the Circuit Court for the County of Loudoun, in accordance with Section 15.2-2306 of the Code of Virginia of 1950, as amended. The filing of a petition of appeal with the Circuit Court shall stay the decision of the Board pending the outcome of the appeal to the Court, except that the filing of such petition shall not stay the decision of the Board if such decision denies the right to raze or demolish a historic landmark, building, or structure.

**Section 6-2000**

**RESERVED**

**ARTICLE 7**  
**ADMINISTRATION AND REGULATION OF AFFORDABLE DWELLING UNIT**  
**DEVELOPMENTS**

**Section 7-100      Affordable Dwelling Unit Developments.**

**7-101      Purpose.** The Affordable Dwelling Unit Program is established to assist in the provision of housing to persons of moderate income by (a) promoting the development of a full range of housing choices, and (b) requiring the construction and continued existence of dwelling units which are affordable for purchase by households whose income is greater than thirty percent (30%) and less than seventy percent (70%) and affordable for rental by households whose income is greater than thirty percent (30%) and less than fifty percent (50%) of the median income for the Washington Primary Metropolitan Statistical Area (PMSA). All affordable dwelling units shall comply with the following provisions and the urban residential district regulations for Affordable Dwelling Unit Developments contained in Sections 7-200 through 7-1100 of this Ordinance and Chapter 1450 of the Loudoun County Codified Ordinance.

**7-102      Applicability.**

- (A)    The requirements of the Affordable Dwelling Unit Program shall apply to any site, or portion thereof, at one location which is (a) served by public water and sewer, and (b) the subject of an application for rezoning, special exception, site plan or preliminary subdivision which yields, as submitted by the applicant, twenty-four (24) or more dwelling units at an equivalent density greater than one unit per forty thousand (40,000) square feet.
- (1)    For the purposes of this Ordinance, "site or portion thereof, at one location" shall include all adjacent undeveloped land of the property owner and/or applicant, under common ownership and/or control of the owner and/or applicant, including, but not limited to, land owned and/or controlled by separate partnerships, land trusts, or corporations in which the owner and/or applicant (to include members of the owner's and/or applicant's immediate family) is an owner of one (1) percent or more of the stock, and other such forms of business entities. Adjacent parcels of undeveloped land owned by separate members of the same family shall be exempt from the provisions of this section when such separate ownership has existed for a period of no less than five (5) years.
- (2)    Immediate family members shall include the owner's and/or applicant's spouse, children, parents and siblings.
- (3)    In instances where a lending institution, such as pension fund, bank, savings and loan, insurance company or similar entity has acquired, or acquires, an equity interest solely by virtue of its agreement to provide financing, such equity interest shall not

constitute ownership and shall not be considered in making determinations of applicability. However, the acquisition of a fee interest by such lending institution due to foreclosure or project participation shall be considered as ownership in making determinations of applicability.

- (B) Any request for a Concept Development Plan (CDP) Amendment involving the rezoning of land within a mixed use planned development district, or zoning amendment which requires a rezoning plat, that results in an increase in the total number of residential units shall be subject to this Ordinance. However, application of the provisions of this Article shall be limited to the increase in the total number of residential units, provided that the overall density of the project results in twenty-four (24) or more units at a density of greater than one (1) unit per acre.
- (C) An owner and/or applicant shall not be exempt from the requirements of this Ordinance by submitting phased applications for rezoning, special exception, site plan or preliminary subdivision for less than twenty-four (24) dwelling units at any one time. An owner and/or applicant may submit an application for rezoning, special exception, or preliminary subdivision for less than twenty-four (24) units if the applicant agrees, in writing, that the next application or submission for the subject site, or portion thereof, shall meet the requirements of this Ordinance when the total number of dwelling units in the subject development has reached twenty-four (24) units or more. This statement shall be included on the approved concept development plan, rezoning plat, special exception, site plan, or preliminary subdivision plat. Such statement shall be recorded among the Loudoun County land records and shall be indexed in the names of all owners of the site, or portion thereof, as such terms are defined above.
- (D) **Exemptions.** The requirements of this Article shall not apply to the following:
  - (1) Any multistory structure of which a minimum of four (4) stories are composed entirely of multi-family dwellings and/or facilities (excluding parking) restricted for the exclusive use and enjoyment of the residents of such multi-family dwellings, and an elevator(s) that serves two or more dwelling units in the structure.
  - (2) Special exception, site plan or preliminary subdivision applications filed in accordance with an approved Rezoning which has proffered the provision of affordable dwelling units or other contributions toward the provision of affordable dwelling units prior to the effective date of this Ordinance.
  - (3) Proffer amendment, concept development plan amendment, preliminary subdivision amendment, site plan amendment and special exception amendment applications filed after the effective

date of this Ordinance which deal exclusively with issues of building relocation, site access, stormwater drainage, or other engineering or public facility issues, or the preservation of historic structures, wetlands, child care facilities, or changes in the size of units, a reduction in the number of units, or which request the addition of a non-residential special exception use.

- (4) Properties subject to proffers accepted by the Board of Supervisors, pursuant to Section 15.2-2303 of the Code of Virginia, prior to June 16, 1993.
  - (5) Any request for a Concept Development Plan (CDP) Amendment or zoning amendment which involves the rezoning of land within a mixed use planned development district in order to redistribute existing units to the newly zoned property within the same development, but which does not result in an increase in the total number of residential units.
  - (6) Any request for a rezoning plat amendment or zoning amendment which involves the rezoning of land within a non-planned development district in order to redistribute existing units to the newly zoned property within the same development, but which does not result in an increase in the total number of residential units.
  - (7) Land zoned R-1, CR-1, TR-1, and JLMA-1.
- (E) At the applicant's discretion, the provisions of this Article and individual district regulations for affordable dwelling unit developments may be applied to developments which are exempt from these provisions, as stated in Section 7-102(D). In the event that an applicant proposes to provide affordable dwelling units in a development which is otherwise exempt, the County shall waive any application fee associated with a Concept Development Plan Amendment proposing to change the Concept Development Plan only in order to provide affordable dwelling units. County review of such applications shall not exceed 180 days.
- (F) An applicant may provide affordable housing units in lieu of the affordable dwelling units required by this Ordinance in accordance with Section 7-109.

## **7-103**

### **Affordable Dwelling Unit Density Adjustments.**

#### **(A) Single Family Detached and Single Family Attached Units.**

- (1) For active rezoning applications that have not yet complied with Section 6-1204(D)(1) of this Ordinance as of December 16, 2003, and for rezoning, special exception, site plan and preliminary subdivision applications officially accepted after December 16,

2003 which request approval of single family detached dwelling units or single family attached dwelling units, the proposed density shall reflect an increase of twenty percent (20%), including the required number of affordable dwelling units, unless such figure is modified pursuant to the provisions of Section 7-108 or the applicant provides cash in lieu of providing the single family detached dwelling units pursuant to Section 7-108(B)(3). In the event such increase exceeds the upper density limit set forth in the Comprehensive Plan, then the upper density limit set forth in the Comprehensive Plan applicable to the subject property shall be increased up to twenty percent (20%) for the purposes of calculating the potential density which may be approved by the Board of Supervisors.

- (2) In the event that a twenty percent (20%) density increase is approved pursuant to Section 7-103(A)(1) above, not less than twelve and one half percent (12.5%) of the total number of dwelling units approved for the subject development shall be affordable dwelling units, for which the rental and/or sales price will be controlled pursuant to this Article.

**(B) Multi-Family Units.**

- (1) For rezoning, special exception, site plan and preliminary subdivision applications officially accepted after June 16, 1993, which request approval of non-elevator, multi-family dwelling unit structures, the proposed density shall reflect an increase of ten percent (10%), including the required number of affordable units, unless such figure is modified pursuant to the provisions of Section 7-108. In the event such increase exceeds the upper density limit set forth in the Comprehensive Plan, then the upper density limit set forth in the Comprehensive Plan applicable to the subject property shall be increased up to ten percent (10%) for the purposes of calculating the potential density which may be approved by the Board of Supervisors.
- (2) In the event that a ten percent (10%) density increase is approved pursuant to Section 7-103(B)(1) above, not less than six and one-quarter percent (6.25%) of the total number of dwelling units approved for the subject development shall be affordable dwelling units, for which the rental and/or sales price will be controlled pursuant to this Article.
- (3) An applicant may, at his discretion, request approval from the Board of Supervisors, or its designee, of a twenty percent (20%) increase in the density on a subject parcel, provided that at least twelve and one half percent (12.5%) of the total number of units

approved are affordable dwelling units, for which the rental and/or sales price is controlled pursuant to the provisions of this Article.

- (C) In the case where affordable dwelling units are provided pursuant to Section 7-102(E) above, the affordable dwelling unit to density increase ratio required by Sections 7-103(A) and (B) shall not apply. The density of a development subject to voluntary provision of affordable dwelling units which is otherwise exempt, may be increased between ten percent (10%) to twenty percent (20%). Of any units approved pursuant to such a density increase, not less than a percentage equal to the density increase percentage shall be affordable dwelling units, for which the rental and/or sales price shall be controlled pursuant to this Article.

#### **7-104 Designation of Affordable Units on Plats.**

- (A) Approved site plans and/or record subdivision plats shall identify the specific number of units and/or percentage of units for rent which are to be regulated as affordable units pursuant to this Article.
  - (1) All plans or plats for developments containing affordable dwelling units shall identify specific units which are for sale or the percentage of units for rent under the affordable guidelines in this Article.
  - (2) All site plans for developments containing affordable dwelling rental units shall include information concerning the number of each type of unit, by bedroom count, which shall be maintained as affordable.
- (B) Specifications regarding dwelling dimensions and the number of bedrooms in all affordable units shall meet the requirements established by the Affordable Dwelling Unit Advisory Board pursuant to the Codified Ordinance. In general, dwelling dimensions and the number of bedrooms in an affordable multi-family unit shall be comparable to equivalent market rate units on the subject parcel.
- (C) Affordable dwelling units shall be of a building type and of an architectural style compatible with residential units permitted within the zoning district in which they are located and interspersed among market rate units in the proposed development.

**7-105 Review of site or subdivision plans within 90 days.** The County shall process final site plans, preliminary subdivisions or record subdivision plats proposing the development or construction of affordable dwelling units within ninety (90) days from the receipt thereof, provided that such plans and plats substantially comply with all ordinance requirements when submitted. The calculation of the review period shall include only that time the plans or plats are under County review and shall not include such time as may be required for revisions or modifications in order to comply with ordinance requirements.

**7-106**      **Timing of Construction/Availability of Affordable Dwelling Units.** In a development which contains single family detached, single family attached, or multi-family lots or units, occupancy permits for no more than fifty percent (50%) of the market rate dwelling units shall be issued prior to the issuance of occupancy permits for fifty percent (50%) of the affordable dwelling units. Occupancy permits for no more than seventy-five percent (75%) of the market rate dwelling units shall be issued until occupancy permits have been issued for seventy-five percent (75%) of the affordable dwelling units for the development. Occupancy permits for no more than ninety percent (90%) of the market rate dwelling units shall be issued until occupancy permits have been issued for one hundred percent (100%) of the affordable dwelling units for the development. The following information shall be submitted with each occupancy permit application for a market rate dwelling unit within the development; the total number of dwelling units, market rate dwelling units, and affordable dwelling units proposed for the development; the number of occupancy permits issued for market rate dwelling units within the development; the number of occupancy permits issued for affordable dwelling units within the development; and the lot number or unit number of each affordable dwelling unit for which an occupancy permit has been issued.

**7-107**      **Administration and Regulation.** The administration and regulation, establishment of unit prices, price controls, eligibility requirements, and the structure and operation of the Affordable Dwelling Unit Advisory Board are governed by the Codified Ordinance of Loudoun County.

**7-108**      **Modifications.**

- (A)      Modifications to the requirements of Sections 7-103 and 7-106 of the Affordable Dwelling Unit Program shall be allowed concurrently with applications for a rezoning, special exception, site plan or preliminary subdivision, upon a finding by the Board of Supervisors, upon recommendation of the Planning Commission, that the proposed alternative will achieve the objective of providing a broad range of housing opportunities throughout Loudoun County.
- (B)      In the event that a modification to Section 7-103 is requested:
  - (1)      The ratio of affordable units proposed to the total density increase approved shall be no less than 12.5:20% for single family detached and single family attached developments, and 6.25:10% for multi-family unit developments; and
  - (2)      The total affordable units proposed shall be no less than five percent (5%) of the total number of residential units within the project.
  - (3)      Notwithstanding paragraphs (1) and (2) above, any request for rezoning, special exception, or preliminary subdivision (by right)

which contain only single family detached dwelling units, a modification may be requested to provide cash in lieu of the dwelling units. Such cash must be paid prior to the first zoning permit. In the event that an applicant requests a modification to make such cash payment, the following criteria shall apply:

- (a) The amount of the cash payment shall be in accordance with Section 7-108(G).
  - (b) The decision to pay cash in lieu of providing the units has to be made at the time of approval of rezoning, special exception or preliminary subdivision (by right), as applicable.
- (C) In reviewing a request for modification to Section 7-103, consideration shall be given to the following:
  - (1) Public facilities and services already developed for the overall development capacity to accommodate the maximum density increase permitted for provision of affordable dwelling units.
  - (2) Existing unique, or unusual site constraints including, but not limited to, potential adverse impacts on environmental resources and features on the subject parcel and adjacent parcels, and difficult soil conditions.
  - (3) Unusual costs associated with development of the subject property.
  - (4) Overriding public needs, health issues, public safety issues, or public welfare issues which are better served by not providing the maximum number of affordable units otherwise required.
  - (5) In the case of a request for a Concept Development Plan Amendment, consideration shall also be given to whether the amendment would result in a reduction in the previously approved rezoning's impact on public facilities and whether the existing proffer commitments for the previously approved rezoning exceed current adopted capital facility guidelines established in the County's comprehensive plan.
- (D) In reviewing a request for modification to Section 7-106, consideration shall be given to the following:
  - (1) The modified timing of construction and availability of affordable dwelling units compared to market rate dwelling units.

- (2) Existing unique, or unusual site constraints, including but not limited to the availability of utilities or infrastructure that require a modified development schedule.
  - (3) Unusual costs associated with development of the subject property due to the development schedule required by Section 7-106.
- (E) In conjunction with Section 7-108(B) above requesting such modifications, the Board of Supervisors may permit an applicant to request a modification to this ordinance so as to allow them to provide any combination of affordable dwelling units, land or contributions to Loudoun County equivalent to providing the required number of affordable dwelling units.
- (F) Requests for modifications to the requirements of the Affordable Dwelling Unit Program, as applied to a given development, shall be submitted in conjunction with the application for rezoning, concept development plan amendment, proffer amendment, special exception, site plan, or preliminary subdivision, as applicable. For a request to modify Section 7-103 the applicant shall provide a justification that addresses Section 7-108(C). For a request to modify Section 7-106 the applicant shall provide a justification that addresses Section 7-108(D). The Affordable Dwelling Unit Advisory Board shall review requests for modifications and make its recommendation within sixty (60) days of receipt of a complete application.
- (G) Cash provided in lieu of single family detached dwelling units pursuant to Section 7-108(E) and 7-103(A) shall be a per unit cash contribution of one hundred percent (100%) of the construction cost of a prototypical single family detached affordable dwelling unit. The construction cost of a prototypical single family detached affordable dwelling unit shall be the “vertical cost” of an affordable dwelling unit as established on a semiannual basis by the Affordable Dwelling Unit Advisory Board. The minimum number of bedrooms of the prototypical single family detached affordable dwelling unit used to determine the cash contribution shall be equal to the number of bedrooms provided within the predominant market rate single family detached dwelling unit in the development as determined by the Zoning Administrator.
- (H) All cash provided in lieu of single family detached dwelling units or the value of land contributions made pursuant to Sections 7-103(A) and 7-108(E) shall be calculated in terms of current dollars, adjusted by the CPI, at the time the actual contribution is officially transferred to the County, and paid prior to the issuance of the first zoning permit unless another time is approved by the Board of Supervisors at the time the modification is approved. Funds collected shall be placed in the Loudoun County Housing Trust Fund.

- (I) The time limits set forth in Section 15.2-2259 and 15.2-2260 of the Virginia Code shall be suspended during the pendency of an application filed pursuant to Section 7-108.

## **7-109**

- (B) A development which provides a fewer number of affordable housing units than the number of affordable dwelling units required under Section 7-103(A) and (B) above shall provide the additional number of affordable dwelling units necessary to make up the shortage.
- (C) The rents and sales prices for affordable housing units provided shall be in accordance with the rules and regulations governing such programs and these units shall be marketed in accordance with such rules and regulations.
- (D) The following requirements shall apply to any development that provides affordable housing units pursuant to this Section:
  - (1) Approved site plans and/or record subdivision plats shall identify the specific number and location of buildings which are to contain affordable housing units and include a tabulation that demonstrates that the number of affordable housing units and affordable dwelling units provided satisfies the number of affordable dwelling units required by Section 7-103(A) and (B) above.
  - (2) In a development which contains single family detached, single family attached, or multi-family lots or units, occupancy permits for no more than fifty percent (50%) of the market rate dwelling units shall be issued prior to the issuance of occupancy permits for fifty percent (50%) of the affordable housing units. Occupancy permits for no more than seventy-five percent (75%) of the market rate dwelling units shall be issued until occupancy permits have been issued for seventy-five percent (75%) of the affordable housing units for the development. Occupancy permits for no more than ninety percent (90%) of the market rate dwelling units shall be issued until occupancy permits have been issued for one hundred percent (100%) of the affordable housing units for the development. The following information shall be submitted with each occupancy permit application for a market rate dwelling unit within the development; the total number of dwelling units, market rate dwelling units, and affordable housing units proposed for the development; the number of occupancy permits issued for market
